The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Deduplicated by year,retains test during the year period. *Data for Q1 2016 are through January 8th, 2016.

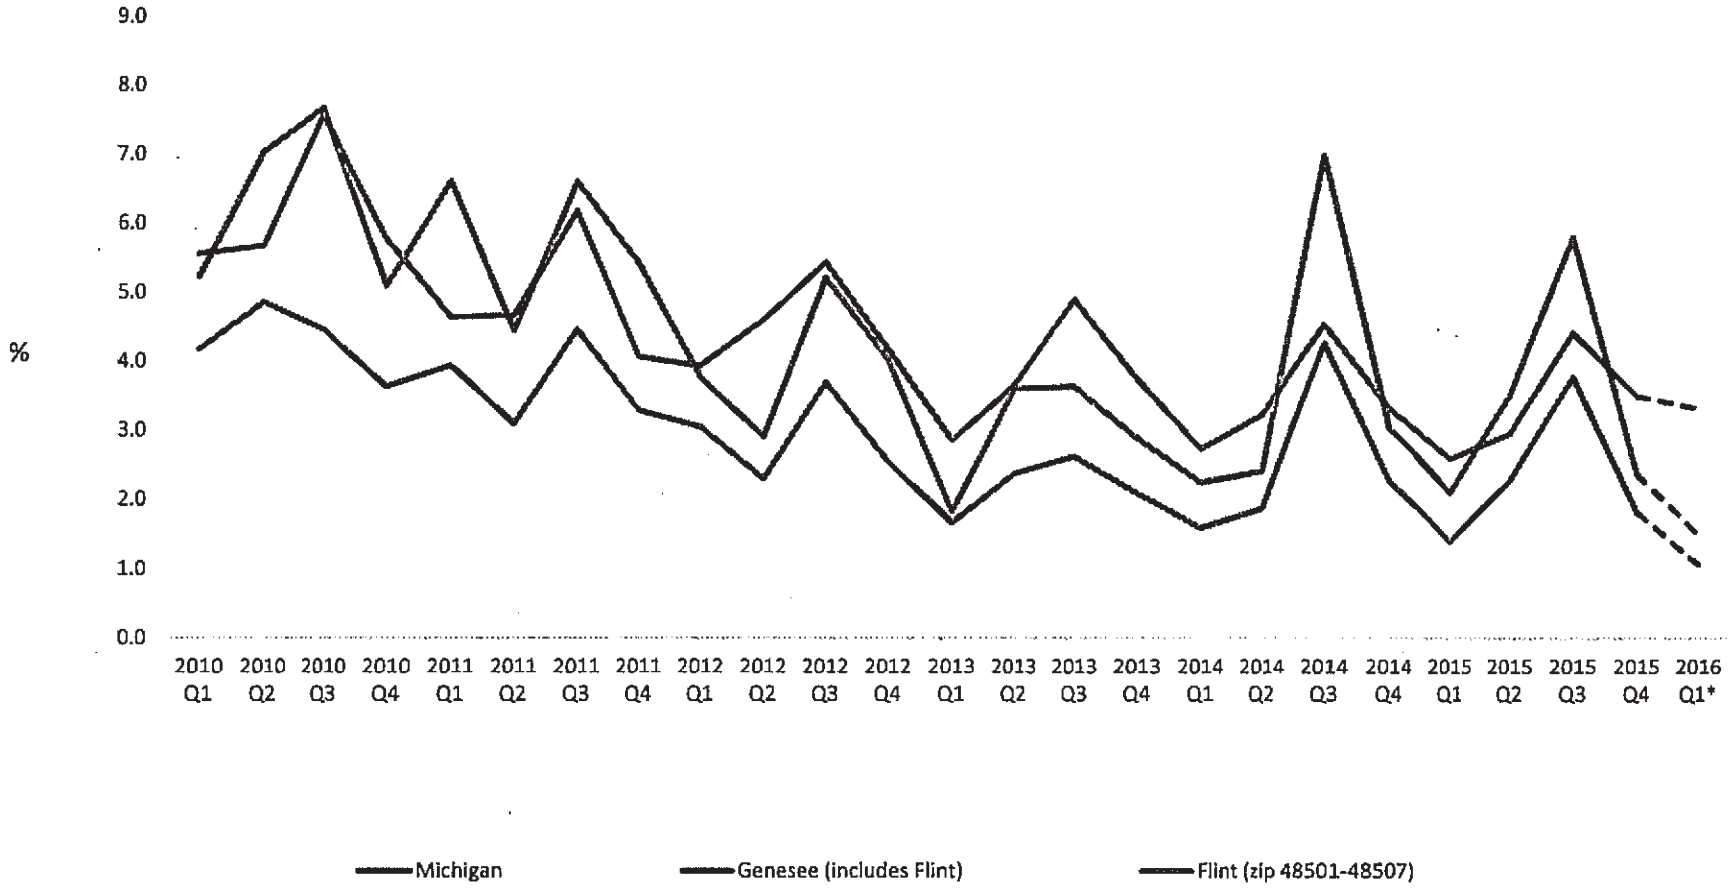
Michigan Department of Health and Human Services (MDHHS) Blood Lead Level Test Results for Flint Zip Codes 48501-48507, Genesee County, and the State of Michigan Summary as of January 22, 2016

Executive Summary

This report is generated by MDHHS to track Blood Lead Level test results in Flint, Michigan.

- Counts on this report include both capillary and venous blood tests.
- People who have had multiple tests are counted only once per year. People counted in 2015 who were tested again after 1/1/2016 are counted in both years.
- Between 10/1/2015 and 1/22/2016, an additional 3,351 people were tested in Flint.
- Continued testing efforts by Genesee County Health Department, MDHHS and local medical personnel have identified 45 children with blood lead levels greater than or equal to 5 mcg/dl (micrograms lead per deciliter of blood) since 10/1/2015.
- Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, MDHHS recognizes that the full community of Flint must be the focus of the public health response.
- 2.5 percent of Flint children younger than 6 years old tested between 10/1/2015 and 1/22/2016, had blood lead levels greater than or equal to 5 mcg/dl.
- After refining our methods to identify age, some people are now counted in a different age group than on previous reports. The total counts for each year have not changed.

Incidence of elevated blood lead ≥ 5 mcg/dl among children < 6 years of age by quarter, Michigan, 2010- 2016



* Data for Quarter 4 of 2015 and Quarter 1 of 2016 are incomplete and subject to change.

State Agency Costs - Actual and Estimated
City of Flint Water Contamination/Shortage Emergency
as of January 26, 2016

Estimated Staffing Costs:			
Actual EMHSD Overtime PPE 1/16/16 (incl. benefits)	$	110,042	
Estimated EMHSD Overtime - week of 1/22/16	$	55,000	
Meals	$	18,500	
Lodging (MSP Staff)	$	15,500	
State Agency Staff Lodging	$	6,500	
DHHS Toxicologist	$	10,104	
DHHS Epidemiologist	$	20,611	
DHHS Health Educator	$	4,481	
ETC Training Services Group (Note 1 below)	$	275,000	
Genesee County Health Department (Note 2 below)	$	141,664	
DTMB Staff Overtime - non-drivers	$	516	
DTMB Drivers Overtime/Benefits (Mail & Delivery)	$	19,958	
DTMB Truck Usage	$	4,800	
National Guard lodging (4 nights)	$	44,200	
National Guard Meal per-diem (est.)	$	36,828	
National Guard - 279 boots on ground - 5 days	$	465,000	
			$ 1,228,703
Procured Items:			
Faucet Filters	$	3,064,650	
Replacement Cartridges	$	4,844,012	
Pitchers and Filters	$	460,934	
Bottled Water	$	375,762	
Water Testing Kits	$	79,961	
Warehouse staff supplies	$	167	
DTMB Printing Charges	$	35,084	
iPads, cases and stylis	$	78,876	
Volunteer Credentialing Badges	$	1,281	
DTMB Truck Fuel	$	1,500	
500 Rain Ponchos	$	895	
Wireless Printer and Router for FEMA	$	894	
765 Handwarmers	$	1,000	
TV for JIC	$	747	
Power Strips	$	62	
13 rolls of shrink wrap & 10 box cutters	$	305	
Reflective Vests (volunteers)	$	2,400	
2 iPhones with cases and chargers	$	122	
Water Filters-Walmart Foundation to reimburse purchase	$	17,920	
			$ 8,966,572
Rental Items:			
Republic Services - Dumpster Rental at warehouse (DTMB)	$	600	
Survey Monkey (DTMB)	$	26	
Arwood Waste - Rental fee (DTMB)	$	255	
Est. Warehouse Rent (1st month)	$	45,000	
U-Haul Rentals - 3 trucks	$	351	
DTMB Vehicle Usage	$	2,835	
Armed security guard with vehicle overnight at Clio Road warehouse 1/17	$	9,308	
Additional security guard rover	$	254	
Additional guard at Flint State Office Building 1/13 25.38 per day	$	1,256	
5 - 15 foot trucks 1/17 - 1/25/16 $.79 per mile+$32 per day per truck	$	1,440	
Additional Guards January 22 - February 12	$	6,472	
			$ 67,797
			$ 10,263,072

NOTES:

1) Environmental blood lead investigators to conduct home investigations and testing to determine sources of lead exposure and to develop a plan to reduce/mitigate lead exposure.

2) Nurse Case Management of children who have elevated blood levels.

Does not include MDOC costs to date. (Overtime and equipment usage)

Flint Water Advisory Task Force

Gov. Rick Snyder created the Flint Water Advisory Task Force to review action regarding water use and testing in Flint and to offer recommendations for future guidelines to protect the health and safety of all state residents. The independent advisory task force is assigned with creating an unbiased report focusing on steps taken in the past and recommendations that could improve practices to ensure all residents have access to safe, clean water.

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines, negatively affecting the health of children.
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency." As of Dec. 8, 2015, this type of emergency is still in effect.
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- On Oct. 21, 2015, Gov. Rick Snyder announced the creation of an independent advisory task force charged with reviewing actions regarding water use and testing in Flint and offer recommendations for future guidelines to protect the health and safety of all state residents.
- Other Michigan water-related issues:
    - Gov. Rick Snyder declared a "state of emergency" on April 17, 2014, for Marquette County due to the damage caused by the bitterly cold temperatures and deep frost levels. On May 7, the emergency declaration was amended by the MSP to include Charlevoix, Cheboygan, Chippewa, Delta, Emmet, Gogebic, Luce and Mackinac counties. To date, the state of Michigan has provided more than $7.6 million in assistance to communities through the Michigan Strategic Fund and $1.8 million through the Disaster and Emergency Contingency Fund.
    - On Aug. 2, 2014, the city of Toledo issued a water ban due to high levels of microcystin found in water samples. In Monroe County, the water ban affected more than 30,000 residents in the city of Lunda Pier and Bedford, LaSalle and Erie Townships.
    - In February and March 2015, extremely cold temperatures froze water service lines at homes in Muskegon Heights. Some were without water until temperatures warmed in the spring. Although potable water was available, some individuals resorted to thawing outside snow for drinking water.

Recommendations

The Emergency Management Performance Grant (EMPG) program provides grant funding to assist state and local government in obtaining resources for emergency management activities, including strengthening a state or community's emergency management program.

The water problem and the health issue in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by state and local official to ensure citizens have safe and clean water at their homes, including obtaining water from a reputable source and providing filters to remove the lead.

To date, federal, state and local government and many nonprofit organization have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, all stakeholders are working together to bring Flint back to a state of normalcy with a timely recovery.

The city of Flint is not unique to this type of problem. All across Michigan, infrastructure is aging and many communities have older water mains and service lines. Within the last two years, the state of Michigan has encountered several emergency cases where citizens were unable to count on drinking water in their homes, creating widespread health and safety issues.

To help better problem-solve this emerging emergency situation, as well as craft an after action report from the city of Flint's water crisis, Gov. Rick Snyder has appointed the Flint Water Task Force.

Using the Flint case as an example, this task force will assist with recommendations for response and recovery plans in the event of a water emergency or disaster, strengthening the state of Michigan's emergency management capabilities, including recommending:

- Additions to include state and local emergency plans for a water-related health emergencies and disasters.
- Forming a whole community approach to water-related emergencies and disasters, including emergency management, health and nonprofit agencies, and businesses.
- Required training for water-related emergencies and disasters.
- Exercises that engage the whole community during a water-related emergency or disaster.

As a part of that effort, the task force will have a Public Information Officer (PIO) position. This position will be funded by EMPG dollars and assigned the following responsibilities:

- Development and coordinating of overall strategic messaging
- Serve as media contact
- Assist in the writing and distribution of documents such as reports and press releases
- Attend meetings, conferences and interviews
- Coordinate media information distribution
- Media Training as needed
- Editorial Board meeting coordination
- Assist with Community Forums
- Develop and maintain media contact information
- Press conference preparation and implementation

Analysis of Proposed Flint Communications Project under Federal Preparedness Grants

The Proposed Flint Communications Project does not meet eligibility requirements under the Homeland Security Grant Program.

In order to qualify for funding under the Emergency Management Performance Grant (EMPG), this project requires submittal of a request to the Federal Emergency Management Agency (FEMA) for an amendment to the current Scope of Work. The Fiscal Year (FY) 2015 EMGP Notice of Funding Opportunity Announcement and 2 CFR 200.308 require that only activities and projects included in the FY 2015 EMPG program Work Plan previously submitted and approved by FEMA may be funded without prior written consent. This project is outside the scope of the original Work Plan; activities and projects unrelated to the completion and implementation of the EMPG Program are not allowable.

To be eligible under the EMPG, activities must support the mission and intent of the grant program. The EMPG is designed to provide Federal funds to states to assist state, local, territorial, and tribal governments in preparing for all-hazards, as authorized by Section 662 of the *Post Katrina Emergency Management Reform Act* (6 U.S.C. § 762) and the *Robert T. Stafford Disaster Relief and Emergency Assistance Act* (42 U.S.C. §§ 5121 et seq.) EMPG funds may be used for all-hazards emergency operations, staffing, and other day-to-day activities in support of emergency management. To be eligible, this project must be able to establish a direct link to emergency management activities for the 25 percent of the position that would be EMPG funded. Our preliminary assessment leads us to question whether this project aligns with the mission of the EMPG. Specific correlations to emergency management-related activities such as emergency preparedness, planning, training, or designing and conducting exercises must be established.

Given our uncertainty with respect to the use of EMPG funds, we recommend submittal of the proposed project with additional clarifying detail which establishes an emergency management link to FEMA for 1) determination of eligibility under the EMPG and 2) modification of the FY 2015 EMPG Program Work Plan.

EXECUTIVE ORDER
No. 2016 – xxx

CREATION OF
FLINT WATER INTERAGENCY COORDINATING COMMITTEE

MICHIGAN DEPARTMENT OF STATE POLICE

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that he considers necessary for efficient administration; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint switched its water source to the Flint River

WHEREAS, the County of Genesee and the City of Flint have taken actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and

WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Department of State Police will facilitate the collaboration and communication

between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following sixteen members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Two additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor;
- Three subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water to the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related

management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes and the rules and procedures of the Civil Service Commission and the Department of Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this _____ day of January, in the year of our Lord, Two Thousand Sixteen

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

DRAFT

Executive Order No. 2016-0_
Activation of the National Guard to Assist in Responding to the Emergency Relating to the City of Flint's Water System

Whereas, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

Whereas, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

Whereas, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

Whereas, by Executive Proclamation 2016-01 the Governor declared a State of Emergency in the City of Flint and Genesee County resulting from the City of Flint changing its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

Whereas, this resulted in increased lead levels in the water distributed through Flint's water system; and

Whereas, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

Whereas, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water ~~by providing filters and/or bottled water to as~~

~~many citizens of Flint as possible,~~ to limit any potential exposure to lead in the City's water system;

Whereas, other priorities include: 1) directly informing as many Flint citizens as possible that filters, bottled water, information on lead, water testing ~~kist~~kits, and other resources are available; and 2) directly providing ~~water testing kits~~resources to Flint residents and following up with those residents to ensure that the water supply for as many residents as possible are tested. These tasks require that personnel go door-to-door in large areas of the City;

Whereas, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

Whereas, by Executive Proclamation 2016-01, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize resources at their avail, to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan.

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 *et seq,* and the Emergency Management Act, 1976 PA 390, MCL 30.401 *et seq*, do hereby:

1. Direct the Adjutant General of the Michigan National Guard to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National

Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

This Executive Order is effective upon filing.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. *Plan Components*
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. *Responsible:* SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit
Type I	500 HH	1 – 26' - 24' Box	1	10-20	1+	1+	- -	1-2	500
Type II	400 HH	1 - 20' 18' Box	1	8-16	1+	1+		1-2	400

REGIONAL WEATHER & IMPACTS

Frigid temperatures, winter weather spread across the country

(WTHR)

Chicago, IL: El Nino may have slowed the start of winter, but this week it is in full-force from the Midwest through the East Coast. Snow, ice and extreme cold have arrived for many, and on the way for many more. Plows struggled to keep the pace as snow and ice turned the morning drive into a demolition derby in Syracuse, New York, with more than three dozen accidents. It was a tough go in New England as well. Near white-out conditions led to accidents and some anxious moments behind the wheel in Connecticut. "It makes it dangerous, the roads slippery, just a hot mess, you're eyes get all watery," said Eryn Ifill of New Haven. Even walking was tough in places like Chicago, where sub-zero temperatures forced commuters to bundle up. Forecasters say conditions will get even worse by the end of the week.

Weather conditions were perfect for a deadly pileup

(MLive)

Hartford, MI: A deadly pileup occurred Sunday afternoon, January 17, 2016. The weather conditions were perfect for creating dangerous driving conditions. Lake effect snow was widespread in the western half of Lower Michigan Sunday, January 17, 2016. The drivers in the pileup area on I-94 around Hartford likely encountered rapidly deteriorating weather conditions. In fact, traffic coming from the west probably hadn't encountered much snow at all as they drove around the south end of Lake Michigan. As they drove into the stretch from St. Joseph, MI to Kalamazoo, MI, they started driving into lake effect snow bands. At some point in that stretch, possibly near the pileup at Hartford, the lake effect snow rapidly became heavy. Look at the high resolution satellite. It shows only scattered clouds at the south end of Lake Michigan. Just northeast, in Michigan, you can see the brighter, bumpier heavy lake effect bands. At the time of the crash there were spurts of moderate to heavy snow in that area, along with west winds gusting to 23 mph. Combine these two weather conditions with the nature of the snow, powdery and dry, and you have perfect conditions for whiteouts, or brief whiteouts created by vehicles. The west wind was a dangerous wind. This wind didn't produce lake effect in Indiana, like a northwest wind would. If drivers had encountered lake effect in northern Indiana, they likely would have been slowed down as they hit the dangerous stretch of I-94 in Van Buren County. Sunday's crashes occurred about 50 miles west of the site of a 193-car pileup in eastern Kalamazoo County during a winter storm Jan. 9, 2015. This stretch of I-94 has also been found to be the most dangerous stretch of I-94 in Michigan.

Additional Reporting: *Pileup shuts down part of I-75*

Snow, subzero wind chills continue to hit Muskegon; advisory remains

(MLive)

Muskegon, MI: The combination of lake-effect snow and subzero wind-chill temperatures is making for another blustery day in the Muskegon area. The area remains under a winter weather advisory through 7 a.m. Tuesday and a hazardous weather outlook featuring slippery road conditions and reduced visibility. Based on information from the National Weather Service, about 7 inches of snowfall has been recorded since Saturday morning. For the month of January, that increases the Muskegon County snowfall total to nearly 28 inches, well above the normal total for January on this date of 16.2 inches. Nearly 30 inches fell in Muskegon County by this date in January 2015. Lake-effect snow showers are expected to create hazardous travel conditions for much of West Michigan for the rest of the day and tonight, according to the National Weather Service. An additional 2 to 5 inches of snow is in the forecast for today and

Tuesday morning. For today and tonight, wind-chill values are expected to range from zero to 10-below. According to the weather advisory, snowflakes will continue to be relatively small, making blowing and drifting snow possible with 25 mph wind gusts.

Forecast: Wind chill advisory expires, moderately warmer weather on the way
(Chicago Tribune)
Chicago, IL: A wind chill advisory expired at noon Monday following dangerously cold weather in the Chicago area and northwest Indiana, but a break is coming. National Weather Service meterologist David Beachler said moderately warmer weather is on the way. "Tuesday, temperatures will be in the high teens and in the mid- to upper 20s on Wednesday," Beachler said. There is also the possibility of a dusting to an inch of snow Wednesday morning. The National Weather Service issued a wind chill advisory for Chicago stating that 20- to 25-below-zero wind chills were expected from 9 p.m. Sunday to noon Monday. Some suburbs near the city were expecting 30-below-zero wind chills. The coldest conditions were expected around daybreak Monday. Officials warn that exposing unprotected skin to those types of wind chills can cause frostbite in as little as 30 minutes.

The temperature has crawled above zero degrees at Minneapolis-St
(Associated Press)
Minneapolis, MN: The temperature has crawled above zero degrees at Minneapolis-St. Paul International Airport. The National Weather Service says the airport hit the zero mark around 2 p.m. on Monday, ending around 46 consecutive hours of subzero temperatures since 4 p.m. Saturday. It was still 1 above at 4 p.m. But the wind chills remain bitterly cold with minus-17 at the airport and in the teens below across much of Minnesota. Subzero wind chills are expected to linger into the night. Some schools that weren't closed for Martin Luther King Day canceled or delayed the start of classes because of the bitter cold. Forecasters expect temperatures to return to the 20s on Wednesday and say they could hit 30 on Saturday.

LAW ENFORCEMENT & CYBERSECURITY

Super Bowl Security: Federal Officials Mull Whether Attack on Fiber Optic Systems Connected to 'Plot' Against Super Bowl
(NBC News)
National: As Super Bowl 50 approaches, government security officials are examining whether recent attacks on fiber optic systems in California could be connected to a "more complex plot" against the game. A series of unsolved incidents -- in which fiber optic cables in the Bay Area were deliberately severed -- is one of several risks detailed in an internal memo shared by the FBI and U.S. Department of Homeland Security intelligence analysts in the lead-up to Super Bowl 50 on Feb. 7. The memo, obtained by the News4 I-Team, says "the FBI and DHS have no information to indicate any specific, credible threats to or associated with Super Bowl 50 or related events." But it also details the attacks against the fiber optic systems, the threat of drones against the game and potential game-day attacks in crowded spaces just outside Levi's Stadium in Santa Clara, the host site of Super Bowl 50. The memo acknowledges lone wolf attackers "are of particular concern" to the game due to their ability to remain undetected before attacking. The severed fiber optic cables "raise] the concern individuals may be using these incidents to test and prod network durability in conjunction with a more complex plot," the memo said. Separate FBI records reviewed by the I-Team show at least 10 fiber optics cables were deliberately severed between July 2014 and June 2015, and Michele Ernst, a spokeswoman for the FBI's San Francisco field office, said there have been 15 attacks against fiber optic lines in the region since 2014. Most of the incidents occurred in San Jose, Fremont and Walnut Creek, California. Though San Jose is within five miles of Levi's Stadium, the other incidents occurred more than 20 to 40 miles away. A U.S. Department of Homeland Security spokesman characterized the memo and its findings as an "assessment" of threats and risk. He would not comment on the specific implications of the fiber optic attacks. However, homeland security analysts caution against overreacting to such assessments.

PUIBLIC HEALTH & SAFETY

Frigid air slows efforts to euthanize turkeys in Indiana
(Associated Press)
Indianapolis, IN: Frigid temperatures are hampering efforts to euthanize turkeys at several southwestern Indiana farms where a strain of bird flu was found last week, freezing the hoses used to spread a foam that suffocates the affected flocks, a spokesman for a state agency said today. The H7N8 virus was discovered on 10 turkey farms in Dubois County, which is Indiana's top poultry-producing county, last week. Temperatures that dipped into the teens and single digits over the weekend stymied efforts to fill the affected poultry barns with the foam to a level just above the turkeys' heads to suffocate them, said Denise Derrer of the Indiana State Board of Animal Health. "The water's been freezing up. It's slowing things down, but we're doing the best we can," she said. Derrer said state workers, staff from the U.S. Department of Agriculture and others have been using carbon dioxide gas instead of the foam. Other turkeys are being killed manually with a device that delivers a fatal head injury, but that method is slow and inefficient, she said. As of today, nearly 120,000 turkeys had been killed on four of the farms, while efforts to euthanize about 121,000 turkeys continued on six other farms. The H7N8 strain is different than the H5N2 virus that led to the deaths of 48 million birds last summer, mostly in the upper Midwest. The first farm where H7N8 was found had a highly contagious form of the virus, Derrer said, but tests by USDA staff have shown eight of the other nine turkey farms have a "low pathogenic" form, meaning the birds are more likely to get sick but not die. The results also suggest that the outbreaks were caught earlier in the disease cycle before the virus had a chance to mutate and become more virulent. Test results on viral samples taken from the ninth farm are still pending. All of the affected farms were within six miles of the first one; officials are still monitoring other farms and backyard flocks within that distance, Derrer said.

EMERGENCY MANAGEMENT

Effort to collect bottled water for Flint gets help from Detroit businesses
(MLive)
Flint, MI: Schools and religious groups in Metro Detroit have been collecting bottled water for shipment to Flint residents, who are facing a crisis of contaminated tap water, and a pair of influential figures joined the effort on Martin Luther King Day. Wayne County Register of Deeds Bernard Youngblood on Monday announced a call a collection drive at his office. "Over 80,000 people visit the registers office each year, and over of 500 individuals on peak days," Youngblood said. "If each person would bring in one bottle of water, collectively that adds up to a significant help." And by Monday afternoon, he got a call from Maria Gatzaros owner of Detroit-area restaurants Fishbones and the London Chop House, offering broader reach for the collection effort. Youngblood said bottled water donations will be accepted at Fishbones locations in Southfield, St. Clair Shores and in Detroit's Greektown. Another company owned by Gatzaros, LED lighting manufacturer America's Green Line, will be transporting the donated water to Flint, Youngblood said.

National Guard boosts presence in Flint to aid water crisis
(Associated Press)
Flint, MI: The National Guard is boosting its presence in Flint as part of an effort to assist in dealing with the city's drinking water crisis. The state says about 70 guard members will be stationed today in Flint, more than double the earlier number in place. Officials say teams visited nearly 5,000 Flint homes Sunday, providing free bottled water, filters, replacement cartridges and water testing kits. To improve water testing, the state says residents may drop off samples using official kits at five sites. The water became contaminated after Flint switched from the Detroit water system to the Flint River as a cost-cutting move. The corrosive water lacked adequate treatment and caused lead to leach from old pipes. On Saturday, President Obama signed an emergency declaration.

State Responds To Avian Flu In Dubois County
(WBIW)
Dubois Co, IN: United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS) has confirmed the pathogenicity of eight of the nine H7N8 avian influenza detections announced on January 16. Eight flocks have been confirmed as low pathogenic avian influenza, with additional testing ongoing for the ninth. There were no new positive tests overnight, but aggressive testing continues inside the 10-km control area. In the last 24 hours, commercial farms have yielded an additional 100 negative tests for avian influenza. State and federal teams have visited 503 residences in the control area to identify any small flocks for testing. Tests are pending on 17 small flocks. Confirmed cases of Avian Flu have been found in Dubois County. State, local and federal agencies are working together on containment and depopulation operations. An estimated 119,500 birds have been humanely euthanized on four premises, with another six premises containing approximately 121,400 birds currently underway. The control area is primarily in Dubois County, and has expanded to include parts of Crawford, Daviess, Martin and Orange counties. All infected sites are in Dubois County. A Unified Incident Command Post (UCP) has been established in Jasper, Indiana. The post is staffed by a state Incident Management Team, along with federal and local partners. State Agencies supporting activities in the UCP: The State Board of Animal Health, Indiana State Department of Agriculture, Indiana Department of Homeland Security, Indiana Department of Natural Resources, Indiana State Department of Health, Indiana Department of Environmental Management, Indiana Department of Correction, Indiana State Police and mental health services teams from the Family and Social Services Administration. The United States Department of Agriculture has approximately 50 representatives, along with private contractors, in Dubois County assisting with state and local efforts. A National Incident Management Team will be arriving in Indiana this weekend to help coordinate efforts.

U.S. deploys newly minted bird flu plan to protect humans, poultry
(Reuters)
Chicago, IL: U.S. farm and health officials are racing to assess the threat that a type of bird flu never before seen in the country poses to humans and poultry, employing emergency plans drawn up in the wake of a devastating outbreak in birds last year. The federal government sprang into action on Friday after confirmation overnight that the virus had hit an Indiana turkey farm, alerting other states to the danger and putting workers who might have been exposed to the virus under surveillance. Last year's outbreak led to the deaths of more than 48 million chickens and turkeys, either killed by the virus or culled to contain it. Even if the response is fast, the government's ability to contain the disease is far from certain. Officials have never dealt with this strain before, and wild birds are thought to spread the disease to farms through feces dropped from the air, making infections difficult to prevent. U.S. officials have taken to heart lessons from last year's outbreak, when USDA workers could not always kill infected flocks fast enough to contain the virus. Workers are now trying to cull sick flocks within 24 hours of diagnoses, following a goal the agency set in the autumn. Most turkeys at the infected farm were killed within a day, but it was 29 hours before all were dead, said Denise Derrer, spokeswoman for the Indiana State Board of Animal Health. No human infections associated with the new strain have ever been reported, according to the USDA.

OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600

Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Priority Distribution Areas

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

REGIONAL WEATHER & IMPACTS

Minnesotans are getting a dose of old-fashioned cold weather

(Associated Press)

Minneapolis, MN: Minnesotans are getting a dose of old-fashioned cold weather. Thanks to El Nino, the winter was off to a relatively mild start. But the National Weather Service says Minnesota is in for dangerously frigid weather this weekend. Statewide, wind chills will drop to 35 to 45 degrees below zero Saturday night. Highs Saturday were in the single digits above zero in southern Minnesota and ranged from zero to 10 below in the north. A huge blob of arctic cold is crossing the Northern Plains and the Great Lakes as it moves eastward. The cold weather is not expected to lift until Tuesday night. But much milder weather is expected later in the week.

Saturday night, Sunday to see frigid temps

(Journal Sentinel)

Milwaukee, WI: Bitter cold, the coldest so far this winter, will power its way across southern Wisconsin, combining with a brisk winds to produce dangerous wind chills, the National Weather Service warned Saturday. Lows Saturday night will dip below the zero mark, with highs Sunday struggling and failing in some parts of inland southern Wisconsin to make it into the single digits. The record low maximum temperature for Madison — minus-2 degrees set in 1870 — could be broken, the weather service said. Frigid temperatures along with westerly winds will produce wind chills of 20 to 25 below zero late Saturday and Sunday, and 25 to 30 below Sunday night and early Monday.

Light snow Sunday, dangerously cold Monday

(WTHR)

Indianapolis, IN: Temperatures have been holding near steady today, in the low 30s. A few flurries are still possible Saturday evening. Temperatures will start to fall quickly Saturday night as Arctic air starts to spill into Central Indiana. Temperatures will fall into the mid- to upper teens by Sunday morning. An Arctic front will arrive on Sunday morning, bringing a few scattered snow showers. Snow will start in northwest Indiana around 5am. As the front slides, snow chances will move from northwest to southeast. A few tenths of an inch of snow is possible by late afternoon. Temperatures will fall throughout the day, eventually falling into the low teens by late afternoon. The skies will clear out Sunday night, and an even stronger blast of cold air will arrive. It will be breezy too. The air temperature will fall to near zero with wind chill values running 10 to 20 below zero. Temperatures only rebound to 10 above Monday afternoon. Monday and Tuesday will bring dry and bitter cold conditions. There is a chance of accumulating snow on Wednesday. Temperatures moderate to near normal by the end of the week.

Wind Chill Advisory to go into Effect Sunday, Temperatures Below Zero

(NBC Chicago)

Chicago, IL: Cold air is coming and dangerous wind chills are in the forecast, with a Wind Chill Advisory in effect for Winnebago, Boone, McHenry, Lake, Ogle, Lee, DeKalb, and Kane counties beginning at midnight Saturday night until 11 a.m. Sunday morning, according to the National Weather Service. Temperatures area-wide will drop to single digits by 8 p.m. Saturday, likely hitting 6 degrees at O'Hare and 9 degrees at Midway, with the coldest areas in the western and northern suburbs (4 degrees throughout DuPage and 0 degrees in Rockford). Overnight hours will see even more of a chill, with temperatures area wide below zero by 7 a.m. Sunday (-9 degrees at O'Hare and -6 at Midway, -12 in

DuPage and -16 in Rockford). Slight flurries are possible as well. Sunday brings partly cloudy skies and a breeze, but highs will remain in the single digits and wind chill values below zero. Sunday evening is expected to bring the coldest air yet,with temperatures reaching -2 degrees, but with wind chill, the air could feel like it's 25 degrees below zero on Martin Luther King, Jr. Day. The NWS warns that temperatures this cold can cause frostbite in as little as 30 minutes, and if you must go outdoors, take proper precautions, wearing layers as well as a hat and gloves.

Part of Michigan will again be buried under a foot of snow
(MLive)
Michigan: Another long duration lake effect snow event is going to bury parts of Michigan. Over the next 48 hours, quite a large chunk of Michigan snow belts will have over a foot of snow. This lake effect situation looks very similar to last Monday, Tuesday and Wednesday. Lake effect snow will be increasing in areal coverage Sunday. The snow will also become heavier through the day Sunday. Then the lake effect will be like the energizer bunny. It will just keep going and going. The lake effect snow may not taper off until during the day Tuesday. The map above shows the combined snow forecast from the National Weather Service offices in Michigan. The map shows expected snow through Monday night. Three large areas of foot plus snows should occur in our state. The Keweenaw Peninsula and far western U.P. will be one area hit with 12 or more inches of snow. Also the northern half of the eastern U.P. should get at least a foot of new snow. The red shaded area east of Marquette looks to have 18 to 24 inches of snow. Another large area of 12 inch or more of snow will likely fall in northwest Lower Michigan. The Traverse City area, Kalkaska, Mancelona, Gaylord, Charlevoix and Petoskey will have areas that get a foot of snow by Monday night. Not everywhere in the snow belts will get over a foot of snow, but most areas will get at least 8 inches of new snow. The snow is all lake effect. Without extremely strong winds, the snow amounts will taper off rapidly outside the snow belts.

PUBLIC HEALTH & SAFETY

9 more Indiana turkey farms infected with bird flu
(WTHR)
Huntingburg, IN: Birds from nine more commercial turkey farms in Indiana have tested positive for bird flu. The nine are located near a farm that authorities previously announced had been infected. The Indiana State Board of Animal Health says testing is underway to determine the strain of the highly-contagious virus. Authorities confirmed Friday that a commercial flock in Dubois County Indiana was infected with the H7N8 strain, which is different than the H5N2 virus that led to the deaths of about 48 million turkeys and chickens last summer. Denise Derrer, spokeswoman for the Indiana board, said officials are still trying to determine how many birds are affected on the nine farms covered by the announcement Saturday. All 60,000 turkeys on the first farm have been euthanized.

Additional Reporting: Bird Flu Forces Indiana Farm to Euthanize 60,000 Turkeys

EMERGENCY MANAGEMENT

Obama signs emergency order over Flint water
(WTHR)
Detroit, MI: President Barack Obama signed an emergency declaration Saturday that clears the way for federal aid for Flint, Michigan, which is undergoing a drinking water crisis. The White House also said the Federal Emergency Management Agency will coordinate all disaster relief efforts to "alleviate the hardship and suffering" on residents. FEMA has been authorized to provide water, filters, cartridges and other items for 90 days. Flint can get up to $5 million in direct funding, though the state must match 25 percent and more money can come through an act of Congress. Republican Gov. Rick Snyder requested

emergency and disaster declarations late Thursday, saying needs "far exceed the state's capability," and added that emergency measures could cost $41 million. Snyder said Saturday that Obama denied the disaster declaration request based on the legal requirement that such relief is intended for natural events, fires, floods or explosions. Despite the legal limitation, the governor is considering an appeal to exhaust "every opportunity to provide resources" for residents, Snyder spokesman Dave Murray said. The tap water in Flint, population 99,000, became contaminated after the city switched from the Detroit water system to the Flint River while a pipeline to Lake Huron is under construction. The corrosive water lacked adequate treatment and caused lead to leach from old pipes in homes and schools. Flint returned to the Detroit system in October after elevated lead levels were discovered in children, and could tap into the new pipeline by summer. But officials remain concerned that old pipes could continue to leach lead, to which exposure can cause behavior problems and learning disabilities in children as well as kidney ailments in adults. The National Guard has been distributing free water, filters and other supplies, and FEMA workers already were providing logistical and technical support.

National Guard to double numbers at water resource sites in Flint
(MLive)
Flint, MI: The National Guard is doubling its efforts on the ground in Flint at five water resource sites around the city to distribute water, filters and other items to residents. Army National Guard Major General Gregory Vadnais said during a press briefing Saturday, Jan. 16 at Flint Fire Station No. 5 on Western Avenue the boots on the ground would double to 70 soldiers. Residents move in and out of the fire station during the afternoon, picking up bottles and cans of water from the fire station. "We will be here as long as the city of Flint needs us," said Vadnais, later noting he expected a long-term operation and rotating soldiers in the city. National Guard members were activated earlier this week to help at the resource sites that opened following a state of emergency declaration Jan. 5 by Gov. Rick Snyder. President Barack Obama sign an emergency declaration Jan. 16 that opens the door for federal aid and assistance to come into the Flint area.

Red Cross, State Expanding Response Teams In Flint
(WSYM)
Flint, MI: As flint's water crisis grows the American Red Cross is expanding its effort to make sure families have access to clean water. Starting Saturday, 20 more response teams will be going door-to-door, giving families water testing kits, filters with replacements, and bottled water. The volunteer teams will include nearly 250 state employees and their families, who will be working in the city through Monday. Since Tuesday Resource Teams have helped more than 7,500 homes in Flint. The state has supplied almost 20,000 cases of water in the city and says it has more than double that amount still available. Water resource centers are set up at fire stations across the city and are staying open for any residents who are running low on supplies. The Governor has declared a state disaster and is hoping to get federal aid. He says it will cost "tens of millions of dollars" to provide safe drinking water, as well as filters and testing kits.

Public Health Advisory for People Using the Flint City Water Supply with the Flint River as the Source

Lead is a powerful neurotoxin, which means exposure to lead can damage the brain. It can also injure other soft tissues and organs; interfere with the formation of blood, and exposure to enough lead can be fatal. Both children and adults are vulnerable to leads health effects.

Common Health Effects on Children:

- Brain damage resulting in IQ loss, learning disabilities, hyperactivity, inability to concentrate, and/or behavior problems
- Stunted growth
- Hearing problems

Common Health Effects on Adults:

- Hypertension
- Anemia
- Reduced sperm count
- Increased risk of miscarriages

Young children are most vulnerable to leads effects because prior to age six, their brain and central nervous system are still forming and easily susceptible to damage. For an adult to suffer significant health effects, exposure to lead would have to be sustained and more intense. Most adults who are affected by lead have been exposed in an occupational setting, such as working as a house painter or in a battery recycling plant.

Pregnant women are at special risk because the lead they absorb crosses the placenta and enters the fetus.

It's important to remember that there is no known safe level of lead in a human body. Experts now use a reference level of 5 micrograms per deciliter to identify children with blood lead levels that are much higher than most children's levels. This new level is based on the U.S. population of children ages 1-5 years who are in the highest 2.5% of children when tested for lead in their blood.

Lead in water can contribute to a child's blood lead level. The Michigan Department of Environmental Quality, which regulates municipal water supplies, has assured us that the water leaving the Flint Water Plant meets all Federal and state requirements. The City of Flint has a documented problem with lead in its drinking water due to service and household lines that may contain lead or lead solder which can leach lead because of the corrosivity of the water since changing to the Flint River as the source supply. Generally, those who are most vulnerable to leads health effects from exposure to unfiltered tap water are the very youngest children. For this reason, if you are not sure about the lead content in your tap water, it's best to either use a filter that has been found to be effective for reducing or eliminating lead, or to use bottled water instead. Water filters should be National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53. If these options are not available to you, then it's best to let the water run for at least five minutes before using it for either drinking or cooking purposes. Always use cold water instead of hot water for drinking and cooking.

It's best to avoid using tap water for mixing infant formula unless you can assure your water is lead free.

Other Exposure:

When leaded gasoline was in widespread use in this country, the lead came out the tail pipe and was deposited in yards near the roads. That lead may still be in those yards. In addition, lead paint continues to be a major source of childhood lead poisoning and can be found in homes built before 1978 when lead paint was banned in the U.S. and may be a hazard inside and outside the home especially where paint is worn or flaking.

There are many other potential sources of lead exposure, including:

- "Home remedies" and cosmetics imported from other countries
- Tamarind or chili-based candies from Mexico
- Stained glass windows
- Fishing sinkers
- Firing ranges
- Old, deteriorated mini-blinds
- Bean pots and painted ceramics
- Crystal decanters
- Lead crystal glassware

Since no safe level has been identified it is in everyone's interest to reduce exposure to lead as much as possible. Recommendations on ways to reduce lead exposure can be found on the Genesee County Health Department website www.gchd.us and Center for Disease Control and Prevention website.

Recent data provided by Hurley Hospital researchers has indicated that a significant increase in blood lead levels has occurred in children since the switch to Flint River water. The county Health Officer has requested that the Michigan Department of Health and Human Services (MDHHS) provide to the County specific data to support its claim that state data is more comprehensive and does not show a significant increase. To date, the MDHHS has failed to confirm the geographic area included in their findings. We want to assure the state data is specific to the boundaries of the City of Flint, and not Flint addresses which would include addresses in areas outside of the City of Flint. These areas, such as Flint Township, that obtain their water from the Detroit Water Authority and would, therefore, not be representative of Flint River water as the water source. The County is prepared to take further action if the State fails to provide the requested data by September 30, 2015. Further action could include a request for outside independent evaluation of the data and to declare a Public Health Emergency in Flint.

Captain Chris A. Kelenske, Deputy State Director of Emergency Management and Homeland Security, Michigan State Police

Capt. Chris Kelenske serves as commander of the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) and has held this position since February 2013. As commander, he serves as the Deputy State Director of Emergency Management and Homeland Security, responsible for the statewide management and administration of emergency management and homeland security programs, as well as the supervision of the division's employees.

Captain Kelenske began his career with the MSP in 1995 as a member of the 111th Trooper Recruit School. He has served in various positions at the Training Division, Lansing and State Capitol posts, rising through the ranks to become assistant commander of the Homeland Security/Infrastructure Analysis and Response Section in MSP/EMHSD and commander of the Field Support and Aviation Section in the Special Operations Division. He also coordinated response efforts as a part of the MSP's Secure Cities Partnership, which focuses on providing enhanced law enforcement services in the cities of Detroit, Flint, Pontiac, and Saginaw.

Captain Kelenske chairs the Michigan Homeland Security Advisory Council, the Homeland Security Preparedness Committee, and the Michigan Citizen-Community Emergency Response Coordinating Council.

Subject: RE: Genesee Declaration

The MI CIMS Local Agency End User Manual references uploading "emergency declarations." Jaclyn Barcroft noted this has never previously occurred. We could revise the manual and add a bullet for MI CIMS training on declarations under PA 390, but we then eliminate uploading of federal and health declarations. We are probably the only party to have reviewed this and understand the true status of the document. As this has never come up in the past, my vote is to leave it as is.

Subject: Genesee County Board of Commissioners Declaration
Attachments: public health emergency declaration 10-1-15.pdf

The following is provided as requested...

At 4:04 PM, Genesee County Emergency Management created the following incident in MI-CIMS:

> *Genesee County Health Department has Declared a Public Health Emergency for persons on the Flint City Water System due to a recent report of increased lead levels in children within the City of Flint.*
> ****Jenifier Boyer - County of Genesee MGT EM Coordinator - jboyer@co.genesee.mi.us at 16:01:21 on 10/1/2015****

The document associated with this incident (attached) references a "Public Health Emergency Declaration" issued by the Genesee County Board of Commissioners. I spoke with Dr. Jackie Scott of MDHHS, who informed me that there is no such term under public health code. Similarly, this term does not exist under PA 390, where the correct term would be a "Local State of Emergency," which would be issued by the Chair of the Genesee County Board of Commissioners. The attachment states the "County is issuing an "Emergency Advisory" recommending people not drink water coming from the city of Flint using the Flint River as the water source..." It would appear the board is simply issuing a statement not tied to any type of formal emergency declaration.

EMHSD has not received the standard form associated with a Local State of Emergency declaration and the county EOC is not activated. I will pass along key developments as they occur. Please let me know if anything further is needed at this time.

Public Health Emergency Declaration for People Using the Flint City Water Supply with the Flint River as the Source

The County is issuing an Emergency Advisory recommending that people not drink the water coming from the City of Flint using the Flint River as the water source unless:

It has been tested to assure it does not contain elevated levels of lead.

It is being filtered through a National Sanitation Foundation (NSF) approved filter certified to remove lead that meets ANSI standard 53.

Findings reported in the Detroit Free Press September 30, 2015 indicate that Governor Snyder has publically acknowledged that Flint's water supply "appears" to have problems. Snyder has conceded that "it appears that (water) lead levels could be higher or have increased," and that there are "probably things that weren't fully understood when the switch was made." This is in direct contrast to previous reports from the State that downplayed the severity of the situation and conflicted with local data released by researchers at Hurley Medical Center.

Young children are most vulnerable to leads effects, because prior to age six, their brain and central nervous system are still forming and easily susceptible to damage. For an adult to suffer significant health effects, exposure to lead would have to be sustained and more intense. Most adults who are affected by lead have been exposed in an occupational setting, such as working as a house painter or in a battery recycling plant.

Pregnant women are at special risk because the lead they absorb crosses the placenta and enters the fetus.

It's important to remember that there is no known safe level of lead in a human body, Experts now use a reference level of 5 micrograms per deciliter to identify children with blood lead levels that are much higher than most children's levels. This new level is based on the U.S. population of children ages 1-5 years who are in the highest 2.5% of children when tested for lead in their blood.

Lead in water can contribute to a child's blood lead level. The Michigan Department of Environmental Quality, who regulates municipal water supplies, has assured us that the water leaving the Flint Water Plant meets all Federal and State requirements. The City of Flint has a documented problem with lead in its drinking water due to service and household lines that may contain lead or lead solder which can leach lead because of the corrosivity of the water since changing to the Flint River as the source supply. Generally, those who are most vulnerable

to leads health effects from exposure to unfiltered tap water are the very youngest children. For this reason, if you are not sure about the lead content in your tap water, it's best to either use a filter that has been found to be effective for reducing or eliminating lead, or to use bottled water instead. Water filters should be National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53. If these options are not available to you, then it's best to let the water run for at least five minutes before using it for either drinking or cooking purposes. Always use cold water instead of hot water for drinking and cooking.

It's especially important to avoid using untested or unfiltered tap water for mixing infant formula unless you can assure your water is lead free.

When leaded gasoline was in widespread use in this country, the lead came out the tail pipe and was deposited in yards near the roads. That lead may still be in those yards. In addition, lead paint continues to be a major source of childhood lead poisoning and can be found in homes built before 1978 when lead paint was banned in the U.S. and may be a hazard inside and outside the home especially where paint is worn or flaking.

There are many other potential sources of lead exposure, including:

- "Home remedies" and cosmetics imported from other countries
- Tamarind or chili-based candies from Mexico
- Stained glass windows
- Fishing sinkers
- Firing ranges
- Old, deteriorated mini-blinds
- Bean pots and painted ceramics
- Crystal decanters
- Lead crystal glassware

Since no safe level has been identified it is in everyone's interest to reduce exposure to lead as much as possible. Recommendations on ways to reduce lead exposure can be found on the Genesee County Health Department website www.gchd.us and Center for Disease Control and Prevention website: http://www.cdc.gov/nceh/lead/tips.htm .

Recent data provided by Hurley researchers has indicated a significant increase in blood lead levels in children after the switch to Flint River water. The County Health Officer has requested that MDHHS provide specific data to support their claim that state data is more comprehensive and does not show a significant increase. To date the state has failed to provide the requested data by the September 30, 2015 deadline in our previous request to the state.

Garza, Oralya (MSP)

From: Katarsky, Anthony (MSP)
Sent: Monday, October 05, 2015 2:45 PM
To: Kelenske, Chris (MSP)
Subject: Stafford Act Disaster Definition

To access funding, the President would need to declare a Major Disaster. The Stafford Act defines "Major disaster" as "any natural catastrophe (including any hurricane, tornado, storm, high water, wind driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this Act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby."

In this case, there is no triggering "catastrophe," so my conclusion is there is no way FEMA would recommend this to the President. This would likely mean replacement of nearly every major public water system in the US...not likely to occur.

FYI – Matt Schnepp independently came up with the same answer.

Subject: Jen Boyer Concern

Jen Boyer has expressed a concern
That demand for lead tests in Flint be prioritized so that schools and churches go to the head of the line to avoid waiting weeks and are paying huge amounts of money for bottled water in the interim.

I have no issue with passing this on to MDEQ and MDHHS, but that should be the extent of our engagement. This is a highly sensitive issue where we need to tread lightly.

Importance: High

Hello, I received the below information from EM Boyer ref a press conference held today. Please let me know if you have any questions. Thx, BJ

Subject: State Press Conference RE: Flint Water

From the press conference that ended moments ago, I made note of the following information:

State Agency agrees with the Hurley Study.
Over the 18 month period, lead in blood levels has increased 18% since switching to the Flint River as a water source.
There is a focus on the following zipcodes that are considered high risk; 48503 and 48504.
Data was also looked at for the rest of the City of Flint (outside the above zip codes) and there has been no change in blood levels.

The State has $1 mil to purchase filters to distribute to residents.
The State is working with local companies to stock filters so that residents can obtain them (I heard rumor of a voucher system yesterday).

The State clarified that the water from the City does not contain lead, it is the old distribution system that is adding the lead to the water.

There will be filters distributed tomorrow at 10 a.m. at UM-Flint Recreation Center.

<u>Switching to Detroit Water</u>
Is still an option, however given that it is the old pipes in the distribution system, the end result will most likely be the same according the Director of MDEQ. There are multiple variables at play within the water system.
Approx. cost of $1.5-2.0 mil monthly, City cannot afford that.

There is a rule regarding testing of water.

In Dec 2014 testing was done to check levels of lead in homes across the city. Those tests came back fine.
In June 2015 testing was done again as it must be done 6 months later. The 2nd test came back positive for lead.

Lead paint in homes is the #1 cause of lead poisoning.

Numbers
Zip codes 48503 and 48504 were reporting 2.7x before switch, 3.2 after switch
The rest of Flint reports 2.0x

Since no safe level has been identified it is in everyone's interest to reduce exposure to lead as much as possible. Recommendations on ways to reduce lead exposure can be found on the Genesee County Health Department website www.gchd.us and Center for Disease Control and Prevention website.

Recent data provided by Hurley Hospital researchers has indicated that a significant increase in blood lead levels has occurred in children since the switch to Flint River water. The county Health Officer has requested that the Michigan Department of Health and Human Services (MDHHS) provide to the County specific data to support its claim that state data is more comprehensive and does not show a significant increase. To date, the MDHHS has failed to confirm the geographic area included in their findings. We want to assure the state data is specific to the boundaries of the City of Flint, and not Flint addresses which would include addresses in areas outside of the City of Flint. These areas, such as Flint Township, that obtain their water from the Detroit Water Authority and would, therefore, not be representative of Flint River water as the water source. The County is prepared to take further action if the State fails to provide the requested data by September 30, 2015. Further action could include a request for outside independent evaluation of the data and to declare a Public Health Emergency in Flint.

Subject: Declaration Ramifications

My thoughts follow...

Governor can declare at any time for any reason

a. From PA 390... "Emergency" means any occasion or instance in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property and the public health and safety, or to lessen or avert the threat of a catastrophe in any part of the state.

What is gained

b. Command and control for 28 days
c. Ability to apply Section 19 funding
d. Ability to apply Section 18 funding

Issues

e. There is no local declaration; there is request for state assistance.
    i. Local resources have been sufficient to address the situation.
    ii. When was the last time the state overstepped to declare?
f. The state will formally own the event. The state could be framed as having finally owned up to how this thing was caused. The triggering event was caused by the state; that is why the state is now declaring.
g. Sets a precedent for issuing a declaration for an infrastructure maintenance event. What if lead is found in Detroit or Highland Park? ..and Benton Harbor? ...and... This action opens the door to any other jurisdiction with water quality issues.
h. State financial support has already been provided outside of PA 390, so timing is questionable.
i. Section 18 use could drain the Disaster Contingency Fund.
j. SEOC activation will cripple EMHSD operations at a particularly difficult time with SEOC and Division moves looming.

Please let me know if you would like to discuss.

Jen Boyer, Genessee County EM, just tendered her resignation letter to the Sheriff. Her last day is Dec 15. The Sheriff did not approve her talking to the Mayor. He advised her the Mayor could call him direct. With the Sheriff's lack of knowledge and experience in Emergency Management, it may be wise for us to meet with the Mayor to educate her on the emergency management act and process.

The below is a meeting to discuss the declaration process set up by the Genesee Sheriff's Department. Lt. Roach was invited. I still think with all the issues and Jen Boyer leaving that we get with the Mayor to discuss. Please let me know if you want Lt. Roach to attend (I recommend she does for face time and to ensure no wrong information is provided).

STATE OF WEST VIRGINIA
OFFICE OF THE GOVERNOR
1900 KANAWHA BOULEVARD, EAST
CHARLESTON, WV 25305
(304) 558-2000

EARL RAY TOMBLIN
GOVERNOR

March 21, 2014

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C. 20472

Through: Ms. MaryAnn Tierney
Regional Administrator
FEMA Region III
One Independence Mall, Sixth Floor
615 Chestnut Street
Philadelphia, PA, 19106-0444

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), and implemented by 44 CFR § 206.36, please accept this letter as a formal request that you declare a major disaster for the State of West Virginia as a result of a severe water outage due to contamination from a chemical spill beginning January 9, 2014 and ending January 20, 2014.

The flooding of the chemical Crude MCHM into the water supply of 300,000 customers was unprecedented, and received national and international attention. The threats to health and safety were immediate, and the impact of the spill has been continuous. Several hundred people reported being affected by the water and at least 20 were hospitalized for observation. This event caused damage of sufficient severity to warrant major disaster assistance to supplement the efforts and resources of our state.

On January 9, 2014, I declared a State of Emergency in areas of Boone, Cabell, Clay, Jackson, Kanawha, Lincoln, Logan, Putnam and Roane Counties. After initial reports of the spill into the Elk River, state agencies with statutory authority responded to locate and contain the spill. As it became clear that the water supply for approximately one-sixth of the state's population could

not be consumed, I recognized that supplemental federal assistance would be necessary to meet the immediate needs of those affected by these limitations. You also recognized the significance of this event when you granted my request for an emergency declaration for West Virginia.

In the days and weeks immediately following the event, our response was a true partnership. At my request, FEMA supplied water and food that was distributed and delivered to citizens in need by state and local agencies, as well as volunteers. The whole community, especially the Voluntary Organizations Active in Disaster (VOAD), responded admirably with donations of water, food, other resources, and time. It is reported that the member agencies of VOAD donated over $689,000.00 worth of items including water, food, hand sanitizer, and paper products to assist those in need. Food was also prepared and delivered to groups who could not prepare food due to the lack of potable water.

State and local agencies coordinated with FEMA personnel to distribute the water and food brought into the state to locations where individuals could use it. In addition, these agencies made certain that those with special needs were identified and their needs met. While these typical disaster response activities were being conducted, a key initial effort was the partnership of private, state and federal officials determining an acceptable threshold level of Crude MCHM that must be achieved before the water was deemed acceptable for potable use. As noted above voluntary agencies responded in admirable fashion to the identified needs.

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimates regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to the economy of the affected counties are estimated at $61,000,000. The total economic impact will likely be greater.

- The sectors of the economy primarily affected included restaurant and hotel businesses that were forced to close until alternate sources of potable water could be provided. Many employees of these businesses earn low wages, and, in the case of restaurant servers, depend on tips to make a living wage. In an effort to support those who lost income due to this event, the United Way collected and distributed over $112,000 in assistance to more than 600 families to help them pay utility bills they could not otherwise pay.

- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible, and incurred additional costs in order to meet the standards set by health officials to reopen using alternate sources of water. To this day many businesses, especially those serving food, are incurring additional costs to provide assurance to their customers that no tap water is being used in the food preparation or cleansing of the silverware, plates or glasses. The losses were severe enough to warrant a Small Business Administration Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total business losses in a disaster.

- Hospitals and medical facilities had to cancel elective and non-emergency services. Nursing homes and other long-term care facilities had to develop alternatives to caring for their patients, and local health departments were faced with a considerable increase in responsibilities and workload.

- The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event has caused schools in the affected areas to close for no less than a week, and in some cases, longer. Kanawha County and Putnam County estimate they have lost over $5,500,000 in instructional time because of the water outage.

As the urgency of the situation eased, it became clear that certain ongoing aspects of the emergency would continue to demand public assistance. The Centers for Disease Control (CDC) issued statements regarding safe levels of the chemicals involved in the spill, and tests were necessary to ensure that the water was meeting those standards. Even after flushing procedures were implemented, there were surges of chemical presence in various areas, requiring more testing. Because of the strong odor of the chemicals, the water was objectionable long after the spill was contained. Accordingly, testing continued at significant expense to the state and local agencies. This testing was necessary to lessen the immediate threats to public health and safety posed by the mass exposure to a relatively unknown chemical. Additionally, I approved the engagement of independent environmental consultants to confirm the health screening standards of the chemicals, and to develop a home testing protocol that will account for adverse variables in homes that could increase harmful effects of the chemicals. The CDC provided useful guidance on the safe levels of these chemicals, and the public required assurance that these levels are being met. Thorough information about the consequences of the spill in home water systems is essential to coping with this threat. Finally, I ordered the demolition of the facility that stored the chemicals involved in the spill, which is necessary to lessen the possibility for the leaked chemical to wash into the river. This a precise process in light of the environmental concerns associated with hazardous sites, and it has the potential to be another significant expense to the state.

The expenses incurred by state and local agencies after federal assistance ended were necessary and responsible. Since the attack of September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion. Our ongoing response to the spill, continuous studies, and test results will serve as future guidance not only for exposure to the specific chemicals involved in the spill, but for any water system contamination. The work

we are funding will fill a void in the scientific and public health knowledge base with much-needed information. West Virginia and its subdivisions lack the resources to cover 100% of the costs expended to eliminate the threats to public safety caused by the chemical spill. The possibility of collecting costs from the company responsible for the spill is unlikely, considering the company's bankruptcy posture.

The last major disaster in West Virginia prior to this event occurred last summer. It was a flooding event that was designated FEMA-4132-DR, and included Roane and Mason Counties. In addition to Public Assistance and Hazard Mitigation, the United States Small Business Administration declared Roane County eligible for Disaster Loan assistance. To date, over $4,440,000 in Project Worksheets have been written. The state will pay the non-federal share for itself and the other eligible applicants. This will be approximately $1,100,000.

The attached "EM-3366 – Category B Assessment – as of 3/7/14" was developed with the assistance of experienced FEMA Public Assistance staff who scrutinized the data provided by state and local agencies to determine costs eligible for Stafford Act Public Assistance. Their conclusions are based on much more careful analysis of the provided information than is normally done during the Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of over $1,500,000 in probable eligible traditional Public Assistance costs plus the $1,325,503.90 in non-federal share for the Direct Federal Assistance exceeds our Public Assistance impact indicator for a Major Disaster Declaration of $2,575,661.66 by nearly $250,000. I firmly believe it is reasonable in light of the extraordinary character of this event to combine these figures so that the maximum assistance can be provided not only to the citizens but to the agencies who aided those citizens. Historically, actual Project Worksheets have significantly exceeded Preliminary Damage Assessment estimates.

The initial response to the flood of contaminants into the Elk River was a community effort aided greatly by public assistance. I am committed to continuing to alleviate the results of this disaster through the expenditure of recourses as described herein. A declaration of a major disaster and associated further assistance will lessen our significant financial burden, and will enable us to continue to respond to each new aspect of this event as it arises.

Thank you for your consideration. Any questions regarding this appeal or requests for additional documentation should be directed to Mr. James J. Gianato whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Sincerely,

Earl Ray Tomblin

FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2015

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date March 20, 2014

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
West Virginia	1,852,994

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Earl Ray Tomblin	Jimmy J. Gianato

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Jimmy J. Gianato (304) 558-5380

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Jan 9, 2014 End Date Jan 20, 2014 or ☐ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lighting) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ *Tidal Wave* ☐ *Tornado* ☐ Tropical Depression ☐ *Tropical Storm* ☐ *Tsunami* ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Water outage due to contamination from a chemical spill

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

Beginning on January 9, 2014, a spill of Crude MCHM forced the West Virginia American Water Company to issue an order to approximately 100,000 customers in a nine (9) county area to not use tap water for drinking, food preparation, bathing or cleaning. The only authorized uses were for sanitary flushing and fire fighting. This affected approximately 300,000 residents in addition to hospitals, extended care facilities, schools and businesses. The order was gradually lifted in stages as testing indicated the level of Crude MCHM in the lines was within acceptable limits. This process was initially completed approximately one week after the event began. However, concerns about the presence of Crude MCHM continue until this day, and have had a negative impact on the residents and businesses in the affected area.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include *additional details in enclosed Governor's or Tribal Chief Executive's cover letter.*

From the first reports of a chemical spill into the Elk River the appropriate state agencies responded in accordance with their statutory authorities. As the impact on the water supply became known I directed the execution of the state emergency plan and declared a State of Emergency existed in the nine (9) affected counties. The State Emergency Operations Center was activated, and I requested an Emergency Declaration from the President which was granted on January 10, 2014. State and local agencies as well as members of the Voluntary Organizations Active in Disaster worked with FEMA to distribute water and food to the affected citizens, and we worked with private and federal agencies to determine acceptable limits of Crude MCHM in tap water and test that water to determine when it would be possible to lift the "do not use" order. Businesses worked with local health departments to develop acceptable alternative water sources so they could reopen as soon as possible. In response to my request, the United States Small Business Administration made an Economic Injury Disaster Loan Program declaration on January 29, 2014.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested Jan 16, 2014 Start Jan 17, 2014 End Mar 7, 2014

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)

☒ Public Assistance Dates Performed Requested Jan 16, 2014 Start Jan 17, 2014 End Mar 7, 2014

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☐ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

For States, identify Federally-recognized Tribes in the requested counties (if applicable).

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Boone County, Cabell County, Clay County, Jackson County, Kanawha County, Lincoln County, Logan County, Putnam County and Roane County

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Water and food.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
The immediate needs of the citizens could best be met using available stocks of water and food. This prevented unnecessary suffering on the part of the effected population while contracts could be let and supplies of the needed commodities could be transported into the affected area.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☐ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date October 17, 2016 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 9, 2014 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☒ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Earl Ray Tomblin

Subject: EMPG Flint Water Project
Attachments: Flint Water Advisory Task Force.docx

We have developed a $25,000 EMPG project amendment related to the Flint water situation tied to an existing public information project assigned to Ron Leix. We believe this project will qualify, but do not know how well it aligns with consulting work being considered. In any case, we will need to formally submit a proposal (draft attached) to FEMA Region V for approval. This work would be funded under the 2015 EMPG, which ends September 30, 2016. All work must be completed by this date. If approved by FEMA, quarterly progress reports on the project must be submitted.

Please let me know if anything further is needed.

Flint Water Advisory Task Force

Gov. Rick Snyder created the Flint Water Advisory Task Force to review action regarding water use and testing in Flint and to offer recommendations for future guidelines to protect the health and safety of all state residents. The independent advisory task force is assigned with creating an unbiased report focusing on steps taken in the past and recommendations that could improve practices to ensure all residents have access to safe, clean water.

Background

- In April 2014, the city of Flint moved from purchasing water from the Detroit Water and Sewer Department and began processing Flint River water. Several local and state issues surfaced and about the quality of the processed river water, including high lead levels caused by the water's corrosiveness. This caused state and local officials to go back to purchasing water from the Detroit Water and Sewer Department.
    - Water and health experts have found that the high lead levels were caused by corrosive water leaching lead particles from older water services lines, negatively affecting the health of children.
- On Oct. 1, 2015, the Genesee County declared a "Public Health Emergency." As of Dec. 8, 2015, this type of emergency is still in effect.
- On Oct. 15, 2015, Gov. Rick Snyder signed a bill (Public Act 143 of 2015) to direct funding to the city of Flint's emergency water services to reconnect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipeline is completed.
- On Oct. 21, 2015, Gov. Rick Snyder announced the creation of an independent advisory task force charged with reviewing actions regarding water use and testing in Flint and offer recommendations for future guidelines to protect the health and safety of all state residents.
- Other Michigan water-related issues:
    - Gov. Rick Snyder declared a "state of emergency" on April 17, 2014, for Marquette County due to the damage caused by the bitterly cold temperatures and deep frost levels. On May 7, the emergency declaration was amended by the MSP to include Charlevoix, Cheboygan, Chippewa, Delta, Emmet, Gogebic, Luce and Mackinac counties. To date, the state of Michigan has provided more than $7.6 million in assistance to communities through the Michigan Strategic Fund and $1.8 million through the Disaster and Emergency Contingency Fund.
    - On Aug. 2, 2014, the city of Toledo issued a water ban due to high levels of microcystin found in water samples. In Monroe County, the water ban affected more than 30,000 residents in the city of Lunda Pier and Bedford, LaSalle and Erie Townships.
    - In February and March 2015, extremely cold temperatures froze water service lines at homes in Muskegon Heights. Some were without water until temperatures warmed in the spring. Although potable water was available, some individuals resorted to thawing outside snow for drinking water.

Recommendations

The Emergency Management Performance Grant (EMPG) program provides grant funding to assist state and local government in obtaining resources for emergency management activities, including strengthening a state or community's emergency management program.

The water problem and the health issue in the city of Flint is a terrible situation for everyone involved. Every day, we expect clean and safe water to come from our taps. Steps have been taken by state and local official to ensure citizens have safe and clean water at their homes, including obtaining water from a reputable source and providing filters to remove the lead.

To date, federal, state and local government and many nonprofit organization have provided money, filters or staff expertise to ensure Flint residents have clean and drinkable water. Through a whole community approach, all stakeholders are working together to bring Flint back to a state of normalcy with a timely recovery.

The city of Flint is not unique to this type of problem. All across Michigan, infrastructure is aging and many communities have older water mains and service lines. Within the last two years, the state of Michigan has encountered several emergency cases where citizens were unable to count on drinking water in their homes, creating widespread health and safety issues.

To help better problem-solve this emerging emergency situation, as well as craft an after action report from the city of Flint's water crisis, Gov. Rick Snyder has appointed the Flint Water Task Force.

Using the Flint case as an example, this task force will assist with recommendations for response and recovery plans in the event of a water emergency or disaster, strengthening the state of Michigan's emergency management capabilities, including recommending:

- Additions to include state and local emergency plans for a water-related health emergencies and disasters.
- Forming a whole community approach to water-related emergencies and disasters, including emergency management, health and nonprofit agencies, and businesses.
- Required training for water-related emergencies and disasters.
- Exercises that engage the whole community during a water-related emergency or disaster.

As a part of that effort, the task force will have a Public Information Officer (PIO) position. This position will be funded by EMPG dollars and assigned the following responsibilities:

- Development and coordinating of overall strategic messaging
- Serve as media contact
- Assist in the writing and distribution of documents such as reports and press releases
- Attend meetings, conferences and interviews
- Coordinate media information distribution
- Media Training as needed
- Editorial Board meeting coordination
- Assist with Community Forums
- Develop and maintain media contact information
- Press conference preparation and implementation

Subject: EMHSD Update

Chris

In preparation for my one on one meeting with the Director on Friday, a couple of EMHSD items I would like to discuss with her.

- Flint Water issue – Status of request to utilize $25K EMPG
- CVE – Anything new for Statewide Strategy ?
- Terrorist Attack / Table Top Exercise – For MSP Command. When can we plan on conducting this exercise? I would like to pin down a date very soon for all of us to participate in. I know this is tied to the Force Protection Plan too.
- Status of Haz Mat Training Manager 14 – Where are we headed with this?

If you can get some basic information back to Lori by noon tomorrow that would be great. She will be gone in the afternoon and all day Friday.

Thank you

Subject: Summary of Discussions on Flint Local Emergency Declaration

I met with Jackie, Matt, Joel, Tom, and Penny to discuss the City of Flint declaration. Following are key points of our discussion.

- December 14, 2015 - City of Flint declared a State of Emergency citing Public Act 390
- December 15, 2015 – Declaration located on Dave Bondy Blog
- The declaration
    - Cites a "manmade disaster" by caused by switching to the use of Flint River; requests:
    - Requests the Genesee County Board of Commissioners take action
- PA390 requires that Genesee County exhaust resources and declare a Local State of Emergency to request state resources
    - No incident period identified
    - No requests for resources
    - No indication of disaster expenses
- The following concerns were identified
    - FEMA will not consider this as a valid disaster under the Stafford Act.
    - The city must demonstrate "extraordinary financial burden:"
        - Over a consecutive 5-day disaster period
        - Submit accounting of "public" expenses/damages
        - Expend $30,000 OR
        - 1% of affected agencies' general operational budget (whichever is less)
    - Given the circumstances, it is unlikely the current situation will result in any funding under PA 390.
    - If Section 19 funding were awarded, it would provide a maximum of $100,000, which provides minimal relief from current circumstances.
    - The city of Flint would be far better served pursuing funding from HUD/CDBG, the CDC, EPA, or legislative action.

Regional Weather and Impacts

Warm Chicago-Area Temperatures Coming From El Nino: Meteorologists
(NBC Chicago)

Chicago, Illinois: The National Weather Service said in a statement on Monday that 50 degree days have been unusually common this December. In fact, there have been nine days with highs of 50 or more this December in both Chicago and Rockford. It is likely that the high on Wednesday Dec. 23rd will also exceed 50 degrees, the NWS said. If the temperature stays warm enough through 12 a.m. on Dec. 24th, another 50 degree day will be added. So what is causing the warm temps? Experts are quick to dismiss global warming. "If this record breaking December warmth was 100% the result of global warming we all would be in big trouble," NBC News meteorologist Bill Karins said via email. "Thankfully these abnormally warm temperatures are nearly all the result of our strong El Niño." Weather Channel Digital Meteorologist Linda Lam echoed Karins, explaining that El Niño plays a role in the atmospheric pattern. "In this case, the jet stream is being pushed north over eastern Canada and there is an area of high pressure in the western Atlantic," Lam said via email. "The combination of the two is allowing southerly surface winds to draw warm air northward.

Environmental/Chemical/HAZMAT Sector

New Study Links Tainted Water, High Lead Levels in Kids in Flint, Mich.
(CBS News)

Michigan: A new study provides the strongest evidence yet of a link between elevated blood-lead levels in children living in Flint, Michigan, and the struggling city's water system, a pediatrician who first raised alarms about the matter said Monday. The study also confirmed her earlier assessment that the percentage of children with abnormally high blood-lead levels had at least doubled after the city stopped tapping Detroit's water system to save money in 2014, and began using water from the nearby Flint River. The findings "strongly implicate the water source change as the probable cause for the dramatic increase," according to the report published in the American Journal of Public Health. Flint and Genesee County have declared public health emergencies amid public outrage over the tainted water. Lead is a powerful toxin that can damage human nervous systems and is particularly harmful for young children, causing lower intelligence, developmental delays and behavior problems. The city of about 99,000 residents started using the Flint River as an interim water source until it could hook up to a new system drawing water from Lake Huron that is scheduled for completion next year. The cost-cutting move was made while the city was under state emergency financial management.

Transportation Sector

Marsh Group Rejects DOT Transportation Study
(LaCrosseTribune.com)

Wisconsin: A local group dedicated to preserving the La Crosse River marsh has condemned the state's suggestion to build a road through the wetlands. The Department of Transportation is winding down a year-long planning process designed to offer potential solutions to a decades-old problem for a region with limited roads and real estate. But five of the six strategies in the final recommendations involve some variation of a new road through the marsh, which La Crosse voters rejected in 1998. In a letter sent Monday, the Friends of the La Crosse River Marsh board of directors calls each of the remaining strategies outlined through a year-long planning process "unacceptable" and calls on the department to drop them from consideration. The letter cites the marsh's value as a wildlife habitat, outdoor environmental classroom and cherished recreation area as reasons it should be preserved. The group notes that development has eaten up about half of the marsh acres that existed prior to World War II. The department is still accepting public comments and will add the Friends' views to the record, Adams added. But project manager Andy Winga has previously said modeling shows that

strategy alone would not take enough vehicles off the roads. Level of service is a federal transportation standard for measuring congestion. Level A represents free-flowing traffic; at level F vehicles typically must wait through more than one traffic signal cycle.

Agriculture and Food Sector

Chipotle Drops 5% As Second E. Coli Outbreak Eyed

(USA Today)

National: The Centers for Disease Control said Monday that it was looking into an outbreak of a different DNA fingerprint of Shiga toxin-producing E. coli that had sickened five people in North Dakota, Kansas and Oklahoma between Nov. 18 and Nov. 26th. In each case, the person had eaten at a Chipotle in the week before they got ill. The restaurant chain's reputation had already suffered in recent weeks after 46 of 53 people sickened during an earlier E. Coli outbreak reported to have eaten at a Chipotle restaurant in the days before. Earlier this month the company was also rocked when at least 120 Boston College students and others got sick after eating at Chipotle though those incidents were likely connected to norovirus and not E. coli, according to the company. In a statement, Chipotle spokesman Chris Arnold said "We have indicated before that we expected that we may see additional cases stemming from this, and CDC is now reporting some additional cases. Since this issue began, we have completed a comprehensive reassessment of our food safety programs with an eye to finding best practices for each of the ingredients we use. We are now in the process of implementing those programs, including high resolution testing of ingredients, end of shelf-life testing of ingredients, continuous improvement in the supply system based on testing data, and enhanced food safety training for all of our restaurant teams. With all of these programs in place, we are confident that we can achieve a level of food safety risk that is near zero."

Law Enforcement and Intelligence

Minnesota Man Who Wanted To Join ISIS Once Worked As Baggage Handler at Airport

(Fox News)

Minnesota: A Minnesota man who faces terrorism-related charges once boasted that he was capable of building rockets that could threaten planes landing at Minneapolis-St. Paul International Airport, and also once worked at the airport as a baggage handler, an FBI agent testified Tuesday. FBI Special Agent Daniel Higgins spoke at a hearing for Abdirizak Mohamed Warsame, 20, of Eagan. Warsame was the 10th young man from Minnesota's Somali community to be charged since April with terrorism-related counts accusing them of plotting to travel to Syria to join the Islamic State group. He was arrested and charged Dec. 9 with one count of conspiracy to provide material support to a foreign terrorist organization and one count of providing such support. U.S. Magistrate Judge Becky Thorson ruled there was probable cause to support the charges, and that Warsame should not be released because he's a flight risk and danger to the community. The case now goes to a grand jury where prosecutors will seek an indictment so they can proceed to trial. Three of the other defendants have pleaded guilty, while five are scheduled to go on trial in May. The FBI says one is in Syria. About a dozen Minnesota residents have traveled to Syria to join jihadist groups since late 2013. In addition, more than 22 young men from Minnesota's Somali community have left the state since 2007 to join the Islamic extremist group al-Shabab in Somalia. Higgins' testified that investigators determined that Warsame planned to travel to with his family to Somalia, then either break free of them and travel from there to Syria, or to wait in Somalia for a time when he believed al-Shabab would join forces with the Islamic State group.

Suspect in 'Explosive Materials' Investigation Booked Into Jail

(WAVE 3 News)

Indiana: A retired doctor is in jail after investigators say they found compounds inside his condo at the Oak Meadow Country Club that, when mixed together, could be used to make explosives. According to the Vanderburgh County Sheriff's Office, they received a tip around 6 p.m. Monday that 66-year-old Dr. Joseph Lee Rayburn was seen carrying several suspicious items into his condo in the 1100 block of Village Lane. Authorities got a search warrant early Tuesday morning. The ATF, FBI, Indiana State Police, Evansville Police Department, and Vanderburgh County Sheriff's Office responded to the scene. As a safety precaution, authorities evacuated several condos in the immediate area. According to Sheriff Dave Wedding, sulfuric acid, magnesium nitrate, titanium powder, and fuses were found inside the condo. Various powders and substances were reportedly found in unmarked containers in the kitchen area, so experts from the Crane Naval Depot were called to the scene to help identify the chemicals.

Public Health and Healthcare Sector

New Strain Of Norovirus Hits Minnesota
(KARE 11 NBC)
St. Paul, Minnesota: State Health Officials are warning Minnesotans about a new strain of norovirus that is sickening residents across Minnesota. The new strain, called GII.17 Kawasaki, caused many outbreaks in Asia during 2014 before making its way to the U.S. Investigators for the Minnesota Department of Health (MDH) have investigated more than 20 outbreaks caused by norovirus since the beginning of September. The new strain first showed up in sporadic cases in the state earlier this year, with the first significant outbreak caused by the new strain being reported the week of December 14. Reports of norovirus-like illnesses in the community have also increased in the past week. MDH did not identify specific outbreaks in their news release. The department did say norovirus is often mistakenly called "stomach flu," which is a confusing term because norovirus is not related to influenza. Influenza is a respiratory illness, with symptoms that include high fever, chills, body aches, sneezing, runny nose, sore throat, and/or coughing. Norovirus is not a respiratory illness, and is not spread through breathing or coughing. Norovirus is the most common cause of food-related illness in Minnesota. In a recent outbreak example, employees who had been sick with diarrhea prepared food items that were eaten by restaurant patrons and at least 25 patrons became ill from norovirus.

Monroe County To Establish Needle Exchange Program
(RTV Channel 6)
Monroe County, Indiana: In an effort to combat hepatitis C caused by drug use, Monroe County is establishing its own needle exchange program, State Health Commissioner Jerome Adams announced Tuesday. Adams declared a public health emergency for the county, allowing for the exchange program to begin. "Monroe County is experiencing an epidemic of hepatitis C tied to intravenous drug use," Adams said. "The syringe exchange is part of a comprehensive approach that will connect residents with treatment, healthcare and other services critical to improving their health and halting the spread of disease." Set forth by Indiana law, all aspects of implementation and design are up to the local officials. No state or federal money is appropriated for the exchange program. Monroe County is the fourth Indiana County to be declared a public health emergency. The others are Fayette, Madison and Scott counties.

Emergency Management/Preparedness Sector
Mississinewa Lake Still Waiting For Disaster Relief Funding
(Kokomo Tribune)
Indiana: Officials at Mississinewa Lake say they are still waiting to find out if FEMA will provide disaster-relief assistance for the record flooding in August that caused an estimated $900,000 in damages around the reservoir. Larry Brown, property manager at the reservoir, said in August he estimated it would cost around $600,000 to rehabilitate the 3,600-square-foot beach house and camp store, and another $120,000 to repair restrooms near the boat ramp at Miami State Recreation Area. It would cost another $20,000 to replant around 40 acres of property where standing water killed the grass, he said. Lake officials filed for disaster-relief assistance from FEMA in August after completing a damage assessment of the area, and expected it would take around a month before officials knew if they would receive any federal aid. Alec Snelson, assistant property manager of the lake, said Tuesday FEMA still has not indicated whether the reservoir will get any funding. Water levels at the lake peaked at more than 40 feet above normal on July 21, which put the reservoir less than 2 feet away from the dam's emergency spillway.

Indiana Gov. Mike Pence to visit Elkhart Tuesday
(WNDU.com)
Elkhart, Indiana: Indiana Governor Mike Pence will be in Michiana Tuesday as he celebrates the recent 'Regional Cities' grant announcements. The Indiana Regional Cities Strategic Review Committee approved grant funding for three regional development plans, including two in northern Indiana. Each of the three regions is getting $42 million in state matching funds. The north central region is comprised of St. Joseph, Elkhart, and Marshall Counties. The northeast region includes Kosciusko, LaGrange and Noble counties and is centered on the Fort Wayne area. The grants are intended to pay for infrastructure or amenities that could help attract businesses and people. Governor Pence will hold a news conference at the Lerner Theater in Elkhart Tuesday morning to discuss the "Innovate Indiana" plan. Then he will head to the Faith Mission of Elkhart to volunteer. Afterward he will travel to Fort Wayne.

Administration Gets $750M to Attack Root Causes Of Flow Of Unaccompanied Children Across The Border
(Washington Post)
National: As unaccompanied minors have again crossed the southwest border in growing numbers in recent months, experts have agreed that the root causes of the surge lie in Central American violence and poverty that is driving people

north. The year-end spending bill that passed Congress on Friday contains $750 million to help El Salvador, Guatemala and Honduras fight poverty and gang violence, improve security and reform their governments, far more than the Senate and especially the House had initially allocated. Though the administration had asked for $1 billion, senior officials hailed the money they did get as a big win, saying it will aid their efforts to keep children from those countries at home. In October and November, more than 10,500 children crossed the U.S.-Mexico border by themselves, the vast majority from El Salvador, Guatemala and Honduras, according to Department of Homeland Security data analyzed by the Migration Policy Institute, a nonpartisan think tank. The surge, a 106 percent increase over the same period last year, has sparked concerns that the new influx of children could eventually approach the levels that last year prompted the Obama administration to declare a humanitarian crisis. The $750 million will be distributed by the State Department and the U.S. Agency for International Development, with some going directly to the three governments and other funds to organizations such as the Inter-American Development Bank that will help implement the administration's strategy in the three countries. The final legislative language contains restrictions: some of the funds will only be obligated, for example, after the Secretary of State certifies that the three nations are taking steps to improve border security and to inform their citizens of the dangers of journeying to the United States.

Communications/Information Technology Sector

Drone Operators Have Flown Too Close to Dozens of Police, Firefighting Aircraft, Records Show
(News4 I Team)

National: Drone operators have flown too close to dozens of police and firefighting aircraft since 2014, forcing emergency detours or delays in responding to fires in some cases, a review of federal safety records found. The incidents are raising alarm among federal agencies who must prepare for a rapid surge in drone sales nationwide. An estimated 700,000 drones will be sold in 2015, more than half of them during the holiday season, according to the Consumer Technology Association. Drones are dangerous when they encroach on aircraft, which is particularly possible on takeoff and landing. Even a small drone can damage a propeller or an engine, if it is sucked in. Forest service workers have faced about 30 close calls since early 2014, according to records obtained from the U.S. Department of Agriculture under the Freedom of Information Act. In September, at least two firefighting helicopters were ordered to hold positions away from the Sundance wildfire in California because a pilot spotted a drone making several trips over the flames, the records show. And the FAA launched a drone registration program this week, requiring drone operators to file official paperwork to fly their aircraft.

Very Respectfully,

Cornelius C. Miller

Situation

- MDEQ and MDHHS are under duress for actions and inaction with respect to the situation.
- The mayor has brought national media attention to the situation.
- $9.35 million in state funding has been provided to address the situation.
- $6 million has been provided by local and private organizations.
- During a meeting with the mayor, the city administrator, the city and county emergency management coordinators, the county board chair, the EMHSD captain and EMHSD staff, it became clearly apparent that the city and county have not properly engaged to address the problems that the community faces. Regular communication and coordination has not occurred, overall situational awareness is unavailable, and little managerial oversight of the issues and actions has been provided.

Major Challenges

- There is a fundamental lack of trust between major players.
- To effect a positive outcome, trust must be reestablished.
- Given the circumstances, there may be no way to reestablish a full level of trust.

Key Points

- Expectations need to be managed.
    - FEMA has informally conveyed that this situation will not result in a Presidential disaster declaration. Pursuing this course of action will not lead to the desired results.
    - A Presidential emergency declaration does not align with the current situation.
    - Issuing a Governor's declaration at this time would run contrary to EMHSD guidance for recommending a declaration.
        - Under Section 19, only $100K could be awarded to the city.
        - Under Section 18, state agencies could respond, but what they would potentially do is unknown.
    - Under the circumstances, the best outcomes may include:
        - Health consequences to impacted members of the public cannot be eliminated.
        - Public health consequences may be minimized from this point forward.
        - An upgrade to the water distribution system to bring it on par with comparably aged water systems in the US.
- Before anything can be accomplished, coordination between all parties must be established. We must establish a routine information process between all parties.
- Other avenues of funding must be pursued including federal grants and legislative appropriations.

Action Plan

- If a request for a Governor's declaration is received from the county, evaluate the request and provide a recommendation whether to issue a declaration.
- Establish an interagency workgroup comprised minimally of DHHS, MDEQ, and MSP. Consideration should be given to including Civil Rights.
- Establish routine communications protocols at the operational, executive, and legislative levels as determined appropriate.
- Establish interagency workgroup objectives using the following as a starting point.
    - Determine and convey acceptable standards for potable water.

        - Identify needed remediation.
        - Convey the remediation plan objectives to interested parties.
        - Implement the plan.
    - Determine health impacts for the impacted population.
        - Identify treatment methods.
        - Convey the treatment plan objectives to interested parties.
        - Implement the plan.
    - Establish a public information protocol to effectively inform the community of the situation and actions taken.
        - Identify existing Public Information outlets within the city, county, and state.
        - Determine official information flow and approval of information.
        - Convey to interested parties.
    - Assess the status of the infrastructure and determine feasible actions to upgrade the water system.
        - Determine current state of the infrastructure.
        - Develop priorities, costs, and potential funding sources for infrastructure upgrades as part of a long term recovery plan.
        - Implement the plan.

Subject: Changes in Administration

Team,

As you are aware, we have been working closely with the independent task force that has been reviewing state, local and federal actions regarding the serious health issues related to water in Flint.

Although the task force's final report is not yet complete, members have made the Governor aware of some interim findings, and there are interim steps the Governor has decided to take immediately in order to restore trust in how we in state government keep residents safe and informed.

As part of this process, Dan Wyant, director of the Department of Environmental Quality, has offered his resignation, and Governor has reluctantly decided to accept it. There are likely to be other personnel changes in MDEQ as well.

I want to thank Dan for his service. He has been the DEQ director since the start of the administration, and previously headed the Agriculture Department under both Gov. Engler and Gov. Granholm. He is passionate about public service and protecting our state's environment.

The situation in Flint is serious and challenging. We will continue to work closely with the task force and city leaders as we move forward, committed to protecting the health of people living in Flint and around our state.

Sincerely,

Jarrod Agen

Subject: Recommendation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. EMHSD staff has reviewed the situation and conclude that a recommendation for declaration of a State of Emergency is warranted based on the following factors:

- The situation is sufficiently widespread and severe.
- The situation adversely impacts public health, safety and welfare. The presence of lead in drinking water has been documented. The full extent and required remediation remain unknown.
- The potential fiscal impact to the city of Flint is severe. The current situation poses an extraordinary financial burden.
- The city and county do not possess the technical expertise to fully identify impacts and remediation.

EMHSD also recommends activation of the SEOC, initiated with

- Attendance by all state agencies and
- Technical briefings by MDEQ and MDHHS on the situation.

Following initial SEOC briefings, state agencies must determine if they need to play a role in ongoing SEOC operations to contribute to addressing the problem. At minimum, the following agencies should maintain a presence in the SEOC: MDEQ, MDHHS, Education, DTED, and MDARD.

The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

Finally, EMHSD staff recommends:

- Activation of a Joint Information Center located in Flint.
- Inclusion of Genesee County, the city of Flint, and other appropriate local agencies to participate.

Please let me know if anything further is needed.

Subject: URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration. EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

To: Kelenske, Chris (MSP)
Subject: some thoughts

Re potential Rachel Maddow-ish type questions. Feel free to tear this apart if you want. My skin is thick. I'll obviously also run all this by the JIC, but wanted to give you a heads up. - Meegan

We've worked closely with the city of Flint to make sure that Water Resource Sites have been set up in places most effective to citizens, and we'll set up more if we need to. These places will have water today and will be open seven days a week???, from when to when???XXX.

Why did it take so long?

We're day 5 into this emergency, and it takes time to set up an effective network that will be able to function for the duration of this emergency declaration and beyond, if needed. Sherriff Pickell, who's in charge of the emergency management operation in Genesee County, has been doing a great job of going door to door in the short term but we all realize that's a quick fix.

But the Sheriff has been critical of the state's operations.

He's part of our emergency operations response, and we've been in communication daily. He's never expressed that sentiment that I've heard. But that's OK – I understand the frustration. We all want to wave a magic wand and make solutions happen overnight. But something as complex as this doesn't work that way. But we're day 5 into the emergency and today we have a great network to get resources to Flint residents. We also are constantly working to improve our website to disseminate information through Michigan.gov/flintwater.

Why did centers run out of water?

I'm not sure why some centers were out of water, because water could have been transported there. The centers need to work through their county emergency operations manager so when they get low on water, that need can be met.

We have people telling us that 211 is not working.

We heard the same thing yesterday and we're working with the United Way, which runs that system, to get it fixed as fast as possible. 211 is such a well-known helpline that we want to maintain that as the call number. Meanwhile, people can ////WHAT???

Why did it take so long to set up sites?

The city needs to make those decisions, as they should. We shouldn't be swooping in and telling the city where to distribute water – the city knows best what the most effective locations are for the community. So we've done that; water will start going out today and we have lots of corporations who are ready to truck water in now that we places to store and distribute.

What you find with emergencies like this is that not everything goes smoothly at first. But what I can tell you is that there are scores ///army??? of people working on this. They have been through the Enbridge oil spill, Duck Lake Fire, the floods in SE Michigan, the wind storm last summer in Leelanau County, and many more disasters. They know the tried and true methods that work for the duration.

Subject: Re: Information Request

My reference info, which gets a bit technical....see section 1.4 at this link, http://www.atsdr.cdc.gov/PHS/PHS.asp?id=92&tid=22 and also attached. also, I like the way IDPH (Illinois) states it: at http://www.idph.state.il.us/about/epi/getpbout.htm:

"Once it enters the body, lead is stored in three places: the blood, body organs and bones. Lead stays in the blood about a month and in soft tissues for several months, it can remain in the bones for decades, a potent poison, it affects the brain and nervous system, reproductive capabilities, the kidneys, the digestive system, and the ability to make blood."

Hope this helps.

Get the Lead Out - Illinois Department of Public Health

We do not need a detailed explanation. I am looking for layman's terms of how long it takes to get lead out of an exposed individual's body. What I had heard from Dr. Wells' briefing was that in about a month lead is eliminated from the body. I like this a rule of thumb. Is this essentially correct?

Dr. Scott and Kathy,

Tony Katarsky and Kay Fritz have both asked whether or not we have a contact at **CDC who is an expert on lead and nutrition** that could be available to folks in the SEOC if there are questions. Anyone come to mind? If I can get a list of questions, should those all go to Eden?

We have the information from the CDC website that lists a 1-800 number for their Agency for Toxic Substances and Disease Registry. Is that the right place to send people if they want to talk to someone at CDC?

Thanks,
Jen

Wendy - I have attached 2 additional print file options. Just in case the last file I sent does not work for their printer.

I will have the Spanish version to you in the morning.

Thanks
Tori

FEMA Region V Morning Brief
DATE: 01/11/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Red
  - **Collateral IMAT:** Alpha
- **LNO:** Cornelius Miller
  - *Two (2) LNOs are deployed to the Michigan SEOC*

REGION V SEOC STATUS:
- **Illinois:** Partial Activation *(Flooding)*
- **Indiana:** Normal Operations
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): No active alerts.
- *Bulletin (12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC): *Cold temperatures in the single digits and snow showers will continue for the* northern portion of Region V. In Minnesota and Wisconsin, Wind Chill Advisories are in effect from midnight CST to 1200 CST on Tuesday. Wind chills are expected to be 25-34 below zero. Lake effect snow will continue across western lower and upper Michigan. There is a Winter Weather Advisory in effect across western and upper Michigan from 1800 CST this evening to 1800 CST on Tuesday. Accumulations of 4-6 inches are expected tonight and an additional 2-4 inches on Tuesday. In northern Indiana and northwest Lower Michigan, a Winter Storm Watch is in effect beginning this evening through Tuesday evening. Accumulations of 4-9 inches are expected from tonight to Tuesday evening.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings remain in effect along many rivers in Illinois and Indiana. Currently, two (2) river gauges are at Major Flood Stage along the Illinois River (Havana and Meredosia). All river gauges are receding with no additional flooding expected at this time.

FIRE CONDITIONS (SPC): Nothing to report.

REGION V DISASTER SUMMARY:
- **PDA Requests:** None
- **Declaration Requests:** None
- **Disaster Declarations:** None

TRAINING EVENTS:
- **Jan 21:** Reconstitution Planning Workshop; Chicago, IL
- **Feb 9:** CPR, AED, First Aid, Bloodborne Pathogens; Chicago, IL

- **Feb 9-11**: L212 Hazard Mitigation Application Development; Chicago, IL
- **Feb 16-17**: REP Core Concepts Course (RCCC); Chicago, IL
- **Feb 17-18**: L-213 Application Review, Indianapolis, IN
- **Feb 17-19**: REP Plan Review Course (RPPR); Chicago, IL
- **Feb 29-Mar 1**: REP Core Concepts Course (RCCC); Manitowoc, WI
- **Mar 1-2**: L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4**: REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4**: L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24**: REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25**: REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7**: L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, Minnesota.
- **Apr 18-21**: REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22**: REP Exercise Controller Course (RECC); Springfield, IL

EXERCISE EVENTS:

- **Jan 11-15:** FT McCoy FSE; WI
- **Jan 27:** FEMA Region V/Region II SL Devolution TTX; Chicago, IL
- **Apr 6:** Braidwood REP Ex; IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP Ex; IL
- **Apr 29:** America's Preparathon

Respectfully,

William M. Pillai

Child Care Centers, Flint Address – 61
Family Child Care Homes, Flint Address – 23
Group Child Care Homes, Flint Address – 28

Child Care Centers, Genesee County (Not Including Those with Flint Address) – 121
Family Child Care Homes, Genesee County (Not Including Those with Flint Address) – 55
Group Child Care Homes, Genesee County (Not Including Those with Flint Address) – 45

Child Care Centers are classroom-based programs that provide care and education for children including child care, prekindergartens, preschools, nursery schools, before and after programs, and Head Start programs.

Family child care homes provide care and education for up to six children in the registrant's home.

Group child care homes provide care and education for 7 to 12 children in the licensee's home.

Sent: Monday, January 11, 2016 12:10 PM
To: Kelenske, Chris (MSP); Agen, Jarrod (GOV)
Subject: Call from Sheriff Pickell

The Sheriff called me when I was on the 10 a.m. call so I dropped off the call. He reiterated that he was upset that the MSP was going to hand out water. I said it was DHHS volunteers handing out the water because they can answer questions on nutrition, health impacts and more and they would be accompanied by an MSP trooper.

He complained that no one reached out to him to ask where they've already been so efforts aren't duplicated. I said our plans are all available through the EOC system. He said the least the DHHS or MSP could do is call and ask him where the Sheriff's Dept. has already been. I asked about their documentation of addresses where they've been – he said they've documented. I asked if they were entered into the system. He said that his understanding is that it's up to the Genesee County Health Dept. and some guy possibly named Valicek refused to do it.

I got the sense that he doesn't really know how to deal with the EOC system (but perhaps someone on his staff does??)

His quote:

"I'm the Sheriff and this is my city and I'm not stopping."

He's been very nice to me and is using me as a conduit. Let me know if you want me to do any outreach in the future to the Sheriff.

As of January 25, 2016

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/26/2016	Date To: 02/02/2016
2015-10-01 City of Flint-Water Contamination/Shortage		Time From: 08:00:00	Time To: 20:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the Local EOC at the Genesee County Administration Building for delivery operations.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Forecast Update for Flint, MI - Updated 1800 hrs. January 25

No significant weather / cold temperatures with highs in the upper 30's an lows in the mid 20's are expected. Intermittent showers or snow thru the week.

7-Day Forecast - Flint, MI : http://forecast.weather.gov/MapClick.php?lat=43.0125&lon=-83.6875#.VqaZ7k2FNkc

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Reduce travel speeds as appropriate and be aware that stopping and turning on snow and ice covered roads will not be as responsive as on dry roads. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

4. Site Safety Plan Required? Yes ☐ No ☒

Position	Name	Phone	Date/Time	Comment	Details
SEOC OPS Recovery Branch Director	Stacy Theis	517-336-2694	01/25/2016 13:17:36	Coordinating with water response teams to follow up with houses. Demobilizing resources as the number of teams have reduced. Act upon any new requests for resources.	Update
SEOC OPS Recovery Branch Director	Brianna Briggs	517-230-2949	01/12/2016 10:57:24	Hours of operation for the teams has been established and will remain 8:30 a.m. to 5 p.m. Local GIS has provided iPads and software for tracking distribution in the field. A tracking sheet has been developed and printed for use in the field if software issues occur. Training was developed and conducted for the teams currently scheduled to be in the field Tuesday through Friday. MSP is currently developing a strategy for canvassing of the entire affected area. Teams were deployed into the field as of 1000 Tuesday, Jan 15. Weather conditions and media avail at GCCARD prevented start time at 0830. MSP continues to monitor any safety and security concerns for the teams. EMHSD staff delivered the four vehicles being used for canvassing to the GCCARD facility on Monday, Jan 11. All related requests are currently being worked on and monitored by Recovery Branch staff. Additional requests are being considered in order to expand operations of the teams in the field. Training was conducted for the current teams. Daily deployment briefings will be conducted. The first briefing occurred Tuesday, Jan 12.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:

Position	Name	Phone Number	Date/Time	Comment	Details
JIC PIO Leader	Ron Leix		01/12/2016 12:56:29	Tasks accomplished included: • Issued 10 news releases about topics including: American Red Cross' Volunteer Reception Center (VRC), daily water response team numbers, no identification required at water resource sites, and where to make donations. • Coordinated with Governor's Communications Office on a news release about major disaster declaration appeal. • Held media availabilities about topics including: VRC, water response operations, and National Guard member operations. • Drafted and issued social media posts about daily water response team operations and maps. • Coordinated with Comcast to have filter installation video placed on-demand. • Worked with FEMA external affairs to schedule Legislative and Congressional calls. Talking points were provided prior to each call. • Answered media inquiries concerning resources for immigrants and populations less proficient in English. • Answered JIC hotline inquiries about topics ranging from contractors offering services to citizens offering donations. • Created twice-daily media monitoring reports and looked for misinformation. Corrected misinformation as needed. • Continued updating and redesigning the Flint water website. • Continued to provide information to 2-1-1 about Flint water emergency, including the Lead in Water fact sheet.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Health and Environment Branch (Obj. 4)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 4: Develop a long term public health and human services plan.	Date From: 01/26/2016 Time From:08:00:00	Date To: 02/02/2016 Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	F/Lt Gabe Covey	
Branch Director:	Jennifer Lixey-Terril	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
CHECC Duty Officer				
Nutrition Plan Lead	Gloria Zunker			
Behavioral Health Planning Lead	Jody Lewis			

6. Work Assignments:

Tactics:
1. MDHHS - Coordinate through the Community Health Emergency Coordination Center (CHECC) to identify priorities for long term public health planning and tactics.(Ongoing)
2. MDHHS/CHECC - Coordinate with local health department to support as needed. (Ongoing)
3. MDHHS/CHECC - Will communicate with the healthcare providers regarding blood testing. (Ongoing as needed)
4. MDHHS/CHECC - Continue to support local health with case management, as requested. (Ongoing)
5. MDHHS/CHECC - Coordinate with MDARD, LARA, TED, MSP, and MDE on nutrition planning and communications to develop a long term strategy to provide assistance.
6. MDHHS - Facilitate the provision of educational materials for Nutrition Support as requested (Ongoing).
7. MDHHS/CHECC - Facilitate SAMHSA technical assistance for a community needs disaster behavioral health assessment and resource support collaboration with Genesee County Health Department, and Genesee CMH. (SAMHSA to be on-scene at the CHECC 1/25/16)
8. MDHHS/CHECC - Coordinate the procurement of blood lead testing kits for the Genesee County Health Department.
9. MDHHS/CHECC - Staff CHECC hotline to field questions transferred from 2-1-1 as requested by the GCHD. (Ongoing daily 0800-1700)
10. MDHHS/CHECC - Provide daily report of the following data for the Governor's Report: 1.Number of people tested for elevated blood levels (children, adults, total); 2. Number of people with elevated blood levels (children, adults, total)
11.MDARD - Coordinate water sampling and water assessments for food establishments in the affected area. (Ongoing)
12. MDARD - Participate and help coordinate long term nutrition by assisting in access to the food supply systems.
13. MDARD - Development of additional guidance related to pets and other animals. (Ongoing)

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function	Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Logistics Section (Obj.5)-City of Flint-Water Contamination/Shortage Objective: 5. Ensure adequate staffing to support operational requirements.	Date From: 01/26/2016 Time From:08:00:00	Date To: 02/02/2016 Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Logistics Section Chief:	Wendy Galbreath	
Branch Director:	Tonya Nobach	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Logistics Section Chief	Wendy Galbreath	1		Logistics Chief rotates, may not always be Wendy
Logistics Section Chief (FEMA)	Kendal Session	1		

6. Work Assignments:

Tactic(s):
1. Maintain staffing plan for operational period.
2. Maintain a SEOC staffing spreadsheet indicated required positions.
3. Poll Section Chiefs for personnel available to work.
4. Notify selected staff of their assignments.
5. Send staffing spreadsheet to assigned personnel.
6. Create daily sign-in sheet for SEOC sign-in.
7. Maintain regular communication with local EOC to assess staffing needs.
6. Deploy state staff to local EOC, if needed.
8. Ensure all assigned staff check in and are tracked via MI CIMS.
9. Identify additional personnel and vehicles for future distribution efforts.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

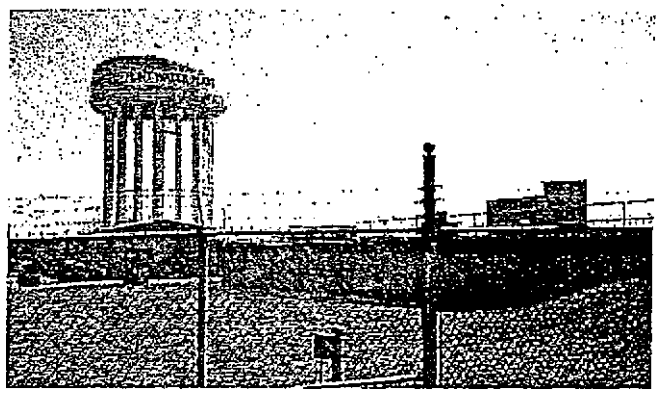
3. Approved by:

FOSC:	David Samaniego
SOSC:	Lt. Ken High
RPIC:	
State SEOC Deputy Director	Capt. Chris Kelenske

Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 02/08/2016 15:02:26

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 02/09/2016 08:00:00to: 02/16/2016 08:00:00

3. Objective(s)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings.
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.

Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

Approved Site Safety Plan(s) Located at:

Comments [Add Comment]

Position	Name	Public	Date/Time	Comment	Details
SEOC OPS Health and Env MDEQ	John Meka		02/08/2016 09:30:08	• Continued work on closing communication and administrative gaps. • Produced tracking sheet for the request by U.S. Congressional Committee of Energy and Commerce. • Reviewed upcoming deadlines from EPA Order tracking spreadsheet. • Organization Chart was updated. • Updated incident objectives to reflect activities for the upcoming week.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		02/06/2016 13:54:46	• Sentinel Sampling Sites list and maps were completed and delivered. • Continue to establish and clarify protocol for sampling teams and developed mobile data collection software application ("Collector"). • Ensured that EPA deadlines from EPA Order Tracking spreadsheet (item 61) was completed. • Updated resource tracking (aka glide path) to include ECC and DNR personnel working on the incident. • Organization Chart was updated. • Sampling teams were established and support resources were ordered.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		2/06/2016 12:54:41	4. DEQ Staff has been provided rights to upload data to website. VPN were also provided. 5. Bryce Feighner, DEQ has been assigned to and is participating in the UCG to coordinate with Federal Entities.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		02/01/2016 12:03:21	1. As of COB 1/31 the warehouse has inventoried 23795 2. The ECC has brought in additional IMT staff to assist with scheduling needs 3. Sample data results are being provided to the State Director in the following format: Drinking water (9/3/15 to 1/31/16) 5020 out of 5356 (94%) at or below 15ppb (336 tests above) <5ppb: 4413 (82%) 5-15ppb: 607 (11%) >15ppb: 336 (6%) 4. A request to DEQ has been submitted to identify who they would like to have rights to upload DEQ documents to the Flint Water website. This will be coordinated with Trevor Hawks. 5. DEQ is participating in a 3p meeting 2/1/16 in Flint with EPA to discuss sampling plans. DEQ will ensure staff is available to participate on sampling teams.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		01/25/2016 11:16:58	1. As of COB 1/24 there are 7988 test kits at the warehouse. Additional supplies are on order and will be delivered throughout the week. 2. Samples are being turned in by residents to the collection sites on a regular basis and delivered to the laboratory daily. At this time there is not a need for additional messaging. 3. The laboratory has employed four additional staff from MDARD and MDLARA to assist with sample analysis. The MDEQ is also establishing a temporary position in the laboratory specifically for this work. The laboratory is operating 7 days a week to process samples. 4. At this time with the current orders coming in additional orders will not be placed today. Burn rates will be monitored and additional orders will be made as needed. The SEOC DEQ Rep is able to contact DEQ procurement directly for ordering, eliminating the need to stress the laboratory staff with bottle orders. 5. EMHSD Technical Unit Staff has provided access to DNR GIS staff to assist with mapping, etc. Requests have been made for DEQ Director, DEQ EMC and SEOC DEQ Reps to view data in ARC GIS. 6. The DEQ ECC will be activated today pending staff assignments. DNR GIS will provide support to the ECC staff as well.	Update
SEOC OPS Health and Env MDEQ	Jen Wolf		01/14/2016 12:09:26	18,751 bottles have been delivered, and turned into Test Kits. An additional 7200 bottles were shipped on 14 January with confirmed delivery of 19 January. 7200 bottles are shipping on 19 January, and we are seeking permission to pay additional charge to facilitate overnight delivery for arrival on 20 January, not yet confirmed. Also working on overnight delivery request for 14,400 bottles to be shipped on 21 January. Based on potential surge, we will order 10,080 bottles (140 cases) ARC volunteers are being utilized to assemble kits. Additional resources are being requested through ARC as needed. a preliminary plan to have Flint Water Filtration plant pick up samples from the PODs daily at~ 1500 hours is being refined at the local level. We'll then refine the plan to provide transport to the DEQ lab We provided MSP with sample results for over 700 samples on 15 January for populating a GIS layer to show sample locations and results. DEQ continues to be engaged with the Logistics Team and developing plans for tracking of samples being returned by citizens.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Human Services Division: Group: Staging Area:
Human Services Branch (Obj.1)-2015-10-01-City of Flint - Water Contamination/Shortage Objective: 1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.	Date From: 02/09/2016 Time From:08:00:00	Date To: 02/16/2016 Time To: 08:00:00

Water POD #4 (Station #6)	Shirmer, David, SGT	6 per shift		716 W. Pierson Rd, Flint, 48507 Sun - Sat 0900 - 1600
Water POD #5 (Station #8)	Rhoades, Daniel, SGT	3 per shift		202 E. Atherton Rd, Flint, 48502 Sun - Sat 0900 - 1600
Local EOC Logistics	Roland, John, 1LT	1	[redacted]	Genesse County EOC, Flint, 48502 Sun - Sat 0900 - 1600
Resource Unit Lead	Benke, Zach, 2LT	1		

6. Work Assignments:

Critical Task: Disburse water resources to the impacted community through points of distribution. Hours of operation: 0900-2100.

Tactics:
1. Identify and report resource shortfalls and limitations.
2. Coordinate redistribution of supplies per Logistic Support Plan.
3. Report hourly inventory numbers to SEOC Resource Unit Leader, per Logistic Support Plan.
4. Ensure water resources are appropriately tagged to prevent resale or return.

7. Special Instructions:

12 individuals per POD to support operations. Additional LT and SGT will be rotating between stations with Admin and support personnel.

Contact numbers for each POD listed above is a government phone and will be staying at each POD even though teams will switch.

LNO will be on site at the local EOC daily. MING will be in the SEOC daily available at 517-333-4633 or at the JOC 517-481-8031.

8. Communications (radio and/or phone contact numbers needed for this assignment):

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Recovery Division: Group: Staging Area:
Recovery Branch (Obj. 1)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.	Date From: 02/09/2016 Time From:08:00:00	Date To: 02/16/2016 Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Rotating Daily	
Branch Director:	Brianna Briggs	
Division/Group Supervisor	Carly Georgopoulos	

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
ARC POC	Diane Fodness	1		

6. Work Assignments:

Critical Task: Support ongoing distribution efforts.

Tactics:
1. Verify with Logistics that there are enough supplies to support the PODS and Water Response Teams.
2. Coordinate with GIS on development of target area maps.
3. Update Water Response Team Plan daily for distribution to key personnel.
4. Compile daily the distribution numbers from Water Response Teams and provide to Operations Chief and Planning Chief.
5. Recovery Unit will deliver nightly reports on team accomplishments to Planning Section by 6 pm.
6. Demobilize resources as Water Resource Team sizes reduce.

7. Special Instructions:

Any safety information, report in requirements, information to share/not to share, etc.

A Flint Water Response Team consists of personnel, transportation, mobile device, identified team leader with contact information, resource package (from warehouse).

All volunteers will be coordinated by the American Red Cross through the Volunteer Reception Center (VRC). Local MSP contact will coordinate with the VRC to fulfill missions.

The number of teams will vary from day to day for deployment during this operations period.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function	Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

Kristy Gallagher	/Red Cross / / /

Position	Name	Phone	Date/Time	Comment	Details
SEOC OPS Recovery Branch Director	Renee Tober		02/08/2016 10:26:16	A recommendation was provided by email to SEOC/PSC to evaluate the need for the *canvassing teams. If we continue canvassing efforts, Recovery Unit staff recommends* possibly assisting with 211 calls and servicing the access and functional needs population. Recovery staff is working to compile a full list of these. It may be possible to reduce the number of ARC teams to five (or fewer).	Update
SEOC OPS Recovery Branch Director	Renee Tober		02/01/2016 12:39:10	Staff continues to compile daily distribution numbers from Water Response Teams and provide updates to Operations Chief and Planning Chief. Recovery Unit continues to deliver nightly bullet reports on team accomplishments to Planning Section by 6 pm	Update
SEOC OPS Recovery Branch Director	Renee Tober		02/01/2016 11:32:55	Coordinating with water response teams to follow up with houses, Franchise Customers and Apartment Complexes. Demobilizing resources as the number of teams have reduced. Act upon any new requests for resources.	Update
SEOC OPS Recovery Branch Director	Renee Tober		2/01/2016 11:30:54	Staff continues to coordinate with the GIS Unit on development of target area maps such as Franchise customers, and Team Assignment Areas.	Update
SEOC OPS Recovery Branch Director	Renee Tober		02/01/2016 11:25:35	Recovery staff has been attending daily Distribution Process Meetings to continue coordination and verification of supplies needed to support the PODs and the Water Response Teams.	Update
SEOC OPS Recovery Branch Director	Stacy Theis		01/25/2016 13:17:36	Coordinating with water response teams to follow up with houses. Demobilizing resources as the number of teams have reduced. Act upon any new requests for resources.	Update
SEOC OPS Recovery Branch Director	Brianna Briggs		1/12/2016 10:57:24	Hours of operation for the teams has been established and will remain 8:30 a.m. to 5 p.m. Local GIS has provided iPads and software for tracking distribution in the field. A tracking sheet has been developed and printed for use in the field if software issues occur. Training was developed and conducted for the teams currently scheduled to be in the field Tuesday through Friday. MSP is currently developing a strategy for canvassing of the entire affected area. Teams were deployed into the field as of 1000 Tuesday, Jan 15. Weather conditions and media avail at GCCARD prevented start time at 0830. MSP continues to monitor any safety and security concerns for the teams. EMHSD staff delivered the four vehicles being used for canvassing to the GCCARD facility on Monday, Jan 11. All related requests are currently being worked on and monitored by Recovery Branch staff. Additional requests are being considered in order to expand operations of the teams in the field. Training was conducted for the current teams. Daily deployment briefings will be conducted. The first briefing occurred Tuesday, Jan 12.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Logistics Section (Obj. 2)-2015-10-01-City of Flint-Water Contamination/Shortage Objective: 2: Ensure accurate tracking and accounting of all commodities.	Date From: 02/09/2016	Date To: 02/16/2016	
	Time From:08:00:00	Time To: 08:00:00

Position	Name	Event	Date/Time	Comment	Details
SEOC OPS Public Works and Engineering LARA	Karen Towne		02/08/2016 14:25:33	LARA Bureau of Community and Health Serviceshave contacted all licensed facilities to determine potential needs and actions facilities are taking. We have successfully reached out to every facility. LARA will continue to monitor and assess all needs and actions.	Update
SEOC OPS Health and Env MDARD	April Hunt		02/08/2016 10:06:55	MDARD's objectives remain the same. Follow-up in use water sampling at food establishments identified where: 1) lead was detected from initial results and 2) at re-assessments of previously non-compliant firms. Informational documents regarding pets and exposure in development for the public and veterinarians.	Update
SEOC OPS Public Works and Engineering LARA	Sean Haskin		02/01/2016 12:25:36	LARA will continue to monitor and assess all needs and actions of licensed facilities.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill		02/01/2016 11:45:14	MDHHS procured blood lead testing kits for GCHD, as requested. MDHHS will be completing the draft nutritional plan for review. MDHHS will be participating in the second Community Resilience Group meeting with SAMHSA and Genesee Health System to work on disaster behavioral health planning and technical assistance. MDHHS will be crafting messaging for outreach to pregnant women. Able to provide the number of test performed for elevated blood lead levels daily, but can only provide the results of tests weekly due to database de-duplication time requirements.	Update
SEOC OPS Health and Env MDARD	Deb Merrill		02/01/2016 11:27:32	MDARDs three objectives remain the same.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill		01/25/2016 10:58:49	13,000 EPA nutritional pamphlets were delivered to the Genesee Count Health Department to include 10,000 in English and 3,000 in Spanish. MDHHS is working to procure 100 Blood Lead Level testing kits and ancillary supplies to support local operations. MDHHS CHECC is collaborating with various federal partners from DHHS, CDC-NCEH, CDC-ATSDR, and SAMHSA for technical assistance.	Update
SEOC OPS Health and Env MDCH	Kathy Wahl		01/18/2016 09:27:51	Request has been sent to logistics to order the 10,000 EPA pamphlets for the GCHD.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill		01/16/2016 11:55:13	Maintaining communications and regular briefings with the CHECC leadership to determine priorities, provide updates, and discuss daily activities. Nutrition planning lead has gathered information and begun developing a nutrition plan and communication strategy. CHECC has maintained regular communications with the local health department. Conference call was held with SAMHSA to discuss the application process for disaster behavioral health, and new resources were provided to the CHECC SME to continue gathering that information.	Update
SEOC OPS Health and Env MDARD	Brad Deacon		01/16/2016 11:25:04	MDARD updated water use requirements for food establishments (processing, retail / convenience stores, and food service/restaurants; document with cover letter was sent to all licensed facilities via US Mail on Thursday including how to request MDARD staff to collect water samples. Internal training for phone staff to handle and assign these requests occurred Friday and training for field staff on how to conduct tests will occur 1/20.	Update
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill		01/14/2016 11:16:52	Maintaining communications and regular briefings with the CHECC leadership staff and section chiefs prior to each morning SEOC brief and after the 4pm SEOC briefing, to ensure coordination of health activities. Nutrition planning lead has been assigned to the Flint Nutrition Plan project. Key contacts from other State agencies have been identified and contacted to support the lead on this project. Regular communications continue with the local health department. Medscape/WebMD communication was provided to increase communication distribution of JIC approved messages to the healthcare community. Disaster behavioral health subject matter expert is now working out of the CHECC to begin gathering information for disaster behavioral health planning.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:

				status of these facilities for display in the SEOC. • Coordinated with Flint City GIS to gather total counts for buildings and units per parcel. Still not delivered, but meeting late in the day confirmed the data is available. • Built a data entry tool and deployed to the documentation unit for paper forms from field teams. No issues to report on this tool. • Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners. Additionally, he will attend morning GIS huddle to deconflict tasks and identify priorities for the day. • Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability. Intended release is 1/21/2016. • Received tasker for updating app for Phase II of team deployments. However, no form fields have been provided and need to meet to structure out the app as this will be a major overhaul requiring a new release of the system. • Provided map of preliminary Water Testing Results to CPT Kelenske for planning purposes and SA. • Nikkia Anderson returned to the office and has been reintegrated into the schedule. • HSIP Gold received today. Will work to incorporate into viewers of the following days. This opens up a wider array of data sources for mapping. • Fixed accounts for IPADS that were failing in the field and brought them back online. • Coordination continued with U of M Flint. Plan on passing data tomorrow to assist in synchronizing efforts.	
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/18/2016 19:41:08	• Continued producing maps of lead service lines (40% complete with primary effected area) • Developed a map of comparative activity for the JIC from pre-response to post-response (established a recurring task to update this map) • Established metrics to measure percent completion of resource distribution. The following two are from today: o Active Water Subscribers confirmed as Having a Filter: 13164 of 29994 total subscribers (44% coverage) o Total parcels confirmed as having a filter: 15364. Total parcels needing to be targeted is unknown as field teams are noting that the Flint parcel layer is not accurate for vacant homes. Need to work with assessor's office to update. Planned to be researched and established tomorrow. o Multi-tenant home status: Cannot be completed right now as we need to work with Flint's assessor's office to identify tenancy counts. Planned to be researched and established tomorrow. • Fixed data from apps and paper copies of field team reports and PODS. There remains a significant amount of unpolled data due to issues with teams using paper forms.	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/17/2016 17:14:26	The major effort for the day was determining metrics for success regarding filter distributions. A method has been developed to tie back resource distributions to active water customers. As a result of this effort it was determined that of the 29,994 active water subscribers on the Flint Water System, 12,002 have been confirmed as having received filters (4623 of which were a result of SEOC driven operations that we began tracking on the 13th of January). There are a significant number of paper copies of records and database entries that need to be cleaned that are not included in the above. Additionally, there are a significant number of persons who do not show in the records as having been a water subscriber that received a filter. We are actively working to synch up all of these datasets to get a more accurate picture of who does and does not have filters. Another major focus was determining what map should be provided through the JIC to the media to update the public on the status of response efforts. It was determined that the point data from the dashboard is ideal to show progress. This has been established as a recurring task and the map will be produced daily by 1700. Maps produced today: • Flint Water Response Teams Planning Maps • Team Activities Map for JIC • City of Flint Infrastructure Map for FEMA Additionally, provided tabular data from Flint Water Response Team Activities for the Recovery Unit. No progress was made on the mapping of lead water service lines in the City of Flint.	Update
SEOC LOG Resource Support Facilities Unit GIS	Walter Chomentowski		01/16/2016 12:01:07	Tactic A: Updated vulnerable elderly population locations database. Made wall map for showing water filter distributions by the county and Flint Water Response Teams. Fulfilled MDARD request for address location of livestock farms using water supplied by the City of Flint. Additionally, work continued mapping lead service line locations. At this point we are 35% complete with the city (northern third). A service line data set from the City of Flint was geocoded to assist with lead service line location automation. Tactic B: Provide daily filter updates to ArcGIS Online Collector App to field teams and tracked resources and site visits and deployed 30 additional tablets for field teams today. 25 of the pads are operational with ArcGIS Online Collector App.We preped the pads at the SEOC and sent them to the local EOC where SEOC GIS will train field staff. Updating EOC dashboards to track metrics and track team locations and a POD distributions. Tactic C: Complete. Tactic D: Current focus is to provide maps of field team progress and tables of POD metrics daily to staff for planning purposes. Matt McCormick was in Flint today to train field teams. We will initiate contact with DEQ to begin defining the flow of data from DEQ testing labs to map water test results Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		/14/2016 15:49:09	*Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local* presidential declaration document. Updated water services map to include customers outside of the Flint City boundary. Additionally, work continued mapping lead service line locations. At this point we are 30% complete with the city (NW Corner). *Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site* visits and deployed 30 additional tablets for field teams today. We will be formatting them at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real time. Tactic C: Complete.	Update

				Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The *first phase is pushing out an app to POD staff controlling distributions to track their output in* real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data. James Tchorzynski was in Flint for half of the day *observing* POD distribution flows which will inform how POD inventory control and tracking will be implemented. We will initiate contact with DEQ to begin defining the flow of data from DEQ testing labs to map water test results Tactic E: No Update	
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/13/2016 *15:04:56*	Tactic A: Updated PODS and Elderly locations in ArcGIS Online. Made large wall map for Local *EOC of PODS. Also made a franchise water customer map for MDHS.* Additionally, work continued mapping lead service line locations. At this point we are 20% complete with the city (NW Corner). Tactic B: Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams. We will be formatting them *at the SEOC and sending them to the local EOC where Flint GIS will conduct training with field* staff. Also, updating EOC dashboards to track more detailed metrics and track team locations. Also, implementing a POD tracker for tomorrow that can be used to monitor distributions in real *time.* Tactic C: Complete. Tactic D: Current focus is optimizing the dashboards to include triggers that notify staff when inventory limits are exceeded to better manage the ordering process for new supplies. The *first phase is pushing out an app to POD staff controlling distributions to track their output in* real time. The second phase is implementing an inventory management tool that can be compared against the POD distribution data. Tactic E: No Update	Update
SEOC LOG Resource Support Facilities Unit GIS	James Tchorzynski		01/12/2016 *15:50:01*	Tactic A: Today we began migrating content to ArcGIS Online to streamline resource *management operations.* This includes a layer for water customers, updated filter locations, and PODS. Additionally, work continued mapping lead service line locations. At this point we are 10% complete with the city (NW Corner). Tactic B: Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Plan to incorporate water customers into the tool to better plan distribution routes. *Created and implemented an operational dashboard to monitor distributions real-time from* within the SEOC. Providing hourly updates until the operations dashboard can be better refined to show details of what is being distributed. Building a similar tracker for PODS to track status of distributions from fixed sites. Currently, we are facing issues with having enough government mobile devices for field staff. May need to do install for field teams to ensure their devices work properly if they are not preformatted by GIS staff. Tactic C: Complete. ArcGIS online is the centralized resource. Coordination to continue, but recommend removing as a report item. Tactic D: Updated aging data, distro sites, and filters data sets. Additionally, building operational dashboards to track resource distributions in real time. Lead analysis is ongoing and is at 10% of the city. Tactic E: Coordination has been made. We will build a rough dataset by the close of the week. Currently, U of M Flint projects the final formal document will be ready by mid-February.	Update

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Operations Section (Obj. 8)- 2015-10-01-City of Flint-Water Contamination/Shortage Objective: 8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and Department of Health and Human Services Unified Coordination Group.	Date From: 02/09/2016 Time From:08:00:00	Date To: 02/16/2016 Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Rotating Daily	
Branch Director:		
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Local EOC operations section chief	Jay Eickholt	1		1101 Beach St. Flint
Local EOC Logisitcs section chief	Shasta Heintzelman	1		1101 Beach St. Flint
District Coordinator	Lt. BJ Roach	1		1101 Beach St. Flint
District Coordinator	Lt. Mark Russo	1		11001 Beach St. Flint
District Coordinator	Lt. Mike de Castro	1		1101 Beach St. Flint
FEMA Ops Chief	Jason Gamble	1		7150 Harris Dr Dimondale, MI

6. Work Assignments:

Tactic(s):
1. Hold daily conference calls with the local EOC staff and key staff in the SEOC.
2. Hold daily conference calls with the state agencies as well as an EMHSD representatives from the local EOC.
3. Participate in the 10:30 am and 6:30 pm Distribution Process Meeting.
4. Maintain constant communication with all partners via email/phone/MICIMS.
5. Maintain staff in the local EOC. (Operations Section Chief, Planning Section Chief and Logistics Section Chief)
6. Update tactics during IAP development days.
7. Support the tactics of the approved Logistics Support Plan.
8. Coordinate with FEMA IMAT and other federal resources.
9. Develop a unified communications structure between SEOC and all partner agencies.
10. Provide support to State Agency activities to ensure accomplishment of assigned objectives.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)
Jason Gamble (OSC) FEMA	/FEMA/OSC

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Planning Section (Obj. 9)- 2015-10-01-City of Flint- Water Contamination/Shortage Objective: 9: Enhance situational awareness and common operating picture of all activities.	Date From: 02/09/2016	Date To: 02/16/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Planning Section Chief:	Rotating Daily	
Branch Director:		
Division/Group Supervisor	Tom Weber	

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
GIS Unit	Jim Tchorzynski	3		ArcGIS
Resource Unit	Sam Jonker-Burke	1		
Documentation Unit	Zach Baker	1		

6. Work Assignments:

Tactics:
1.Conduct daily briefings with state agency emergency managers. (PSC)
2. Monitor MICIMS to maintain situational awareness and develop reports. (All)
3. Produce and maintain daily maps to include data on lead lines, FWRT data, and state agency requests. Support field operations with Arc GIS live mapping tool. (GIS)
4. Work with the state agencies and sections chiefs to obtain information for State Director and Governor's daily summary reports to include information on water and blood testing. (All)
5. Complete and produce daily situation reports. (PSC)
6. Provide copies of reports to State Director and FEMA for situational awareness. (PSC/Situation Unit)
7. Develop a common operating picture to provide situational awareness with all agencies and partners.
8. Cross communicate with FEMA Planning Section.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)
Amanda Bresler	/Planning Section Chief

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Volunteer Agency Liasion Division: Group: Staging Area:
Human Services Branch (Obj 10)- 2015-10-01 City of Flint-Water Contamination/Shortage Objective: 10: Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.	Date From: 02/09/2016	Date To: 02/16/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Rotating daily	
Branch Director:	Tom Weber	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
State VAL	Tom Weber	1		

6. Work Assignments:

Tactics:
1. Identify local agency and volunteer/faith based organizations to serve as liaisons during the development of the Flint Water Operations Plan.
2. Develop a transition plan for community distribution in coordination with state led task force.
3. Identify short term and long term metrics to be integrated into the plan.
4. Approve the Flint Water Operations plan at the local, community agencies, and state level.
5. Begin transition and soft openings of community based water resource distribution hubs.

Meetings:
2/2/16 0930-Flint Water Operations Plan Task Force Meeting

7. Special Instructions:

2/8/16 Afternoon brief:

HE Branch:

MDARD: where a list of food establishment in flint – on the website. 300,000 in funding is provided from somewhere.

LARA: submitting doc that have been translated. Facilities and testing results at the facilities.

DEQ: 246 water samples to DEQ lab and 15 samples from MDARD.

HS branch

DHS: Donation management training in MICIMS. Revieweds boards in MICIMS.

ED: mi school for def regular meeting tomorrow for parents. Flint water emergency funds. 300,000 for Education.

ARC: 10 teams today. VRC open till 1700.

State VAL: meet with FEMA for long term strategy of distribution.

PS Branch:

DOC: maintained ops at warehouse 1 with no issues and warehousre 2 is up and running.

SEOC FIN: identified organizations that have received monitory donations. 3 have been identified. United way, community foundation of flint and the salvation army.

PIO: Coordinationg a congressional call for tomorrow. Press release for ARC volunteers. Reviewieng poster for pets.

CAPT:

UCG: working on standard operating procedure to have requests standardized for information going to the UCG. Following up with US Postmaster.

State Agency Briefing

February 8, 2016

- Welcome and Opening (Zach Baker)
- Battle Rhythm (Matt Schnepp)
- Operations
    - New Objectives
    - Concern of high levels of copper showing up in some household samples
    - Companion service animals – right messaging
- National Weather Service – Good day today, up to one inch overnight, possible 3 tomorrow – temps dropping all week – on Saturday wind chill advisories may be out
- Key Agencies
    - Health and Environmental Branch
        i. DHHS-CH
        ii. MDARD – Service Animal update out today
        iii. DEQ
        iv. LARA
    - Human Services Branch
        i. DHHS-HS – Working on donations management – creating a list of what is needed
        ii. ARC – 10 teams out today, yesterday 115 volunteers processed
        iii. MDCR
        iv. MDOE
        v. MOSA
        vi. State VAL – Appeal for emergency declaration
    - Public Safety Branch
        i. MSP
        ii. National Guard
        iii. Corrections – Looking to stand up warehouse #2 this afternoon
    - DTMB – Working on supply needs of the new warehouse
    - GIS – Improving mapping of the city with photos taken by MSP helicopter
        i.
    - MDO
- UCG

    Other Agencies

    -
- Logistics/Planning/Finance/Recovery
    - Logistics

i.

ii.

- Planning
    i. FEMA
- Finance – Financial reports are due by close of business on Wednseday
- Recovery
    i.
    ii.

- PIO - Press release on volunteers and translated materials
    i. .
- JIC
    i.
    ii.

- State Director – Not sure new warehouse should be a pick up site – too much truck traffic, may not be safe to have residential traffic mixed in
- Want numbers on homes contacted today with high copper levels
- Where is donation money going? Who is tracking, how is it being spent?
- **Federal Coordinating Officer**

Next briefing at 9:30a tomorrow morning.

Subject: RE: Station #5 1400-1500 19FEB2016 Inventory

Good afternoon Station 5

Please confirm that there was a math error during the first hour of the day (0900-1000). The starting Amount ON-HAND was 1,808 for cases of water, then 51 were Handed Out, but the Total ON-HAND amount for the end of the hour stayed at 1,808. Please confirm that the amount should have been 1,757, which would then make the Total ON-HAND amount for the 1400-1500 hour 1,708.

Thanks
Sam

Subject: Purchased water

Hi all

The number of water purchased will be a reduced number for the report today. There was an error in the amount of purchased water reported to us for February 16, 2016. The water was reported as 169,563.00, however it should have been 0. This correction has been shown in today's data.

Please let me know if you have any questions.

Thanks
Sam

Hello Station 1,

You reported 148 cases of water going out between 1300-1400? Your email was sent at 1302. Please confirm if this should have been reported for 1200-1300 instead of 1300-1400.

Can this please be displayed on the TVs. It should be on a continuous 10 second loop until you hit "esc".

Thanks
Sam

Hello Station 6

Please confirm the end of day Total On-Hand for Lead Testing Kits and PUR Filters are correct. Based on the math during the day for Amount Handed Out; lead testing kits would be -2 and PUR filters would be 201.

Thanks
Sam

Hello Station 3

Can someone please clarify the 1 Pitcher (8 cup) that was handed out during the 1900-2000 hour and the Total On-Hand inventory of 158. This appears to be an error, since there was 0 on hand and 0 was delivered.

Thanks
Sam

Good morning

The amount of PUR filters "Amount Handed OUT" changed during the day for amounts that were previously reported for an earlier hour. Example: 1000-1100 was 3. Sometime during the day it was changed to 7.

Can someone confirm that the final report submitted for the 2000-2100 has accurate information for the entire day.

Thanks
Sam

2/19/16 afternoon brief:

DEQ: sentinel teams and revisite teams this weekend. Just getting sentinel tests in.

ARC: 5 teams today. VRC open till 1700 – processed 100 new volunteers. Placed 129 on projects. 65 boxes (6500) kits.

MSP: Monitoring social media with the protests.

UCG: congression deligation to attend a POD is no longer going to be at a fire station pod. Shower filters messaging.

PIO: Plan event with MSU student athleats postponed. Remind to change the filters when it is needed.

LOCAL EOC: pushing the shower head issues after the WMBA player showed up with shower heads. Mile march with Jessie Jackson – peachful. Sheriff put out an interview with MILIVE – regarding the jail and lead pipes.

Recovery: FYI...reached out to the city of burton to clarify GIS data – opened a can of worms because they did not receive assistance from Flint.

COVEY: FOIA – set up computer to FOIA people.

2/17/16 Afternoon brief: Carol Wolfenger

Coordinate the printing of FOIA materials with Command so printer doesn't get jammed up.

HE Branch: MDARD: Kathy Wald – Shower filters??

DEQ working on App for high lead level survey

LARA:

HS branch

DHS: CDC Visiting homes of children with high lead levels. Transportation being offered to anyone needing rides to Doctor office, etc. due to water related issues

ED:

ARC: Had 5 water response teams out today.

State VAL :

PS Branch: Bogus creds – EPA getting additional info – not sure it occurred.

DOC: Red cross assembling recycling bags

SEOC FIN:

PIO

CAPT:

UCG:

JIC:

DTMB _ Bringing in a new printed to the SEOC

Note from Capt. – Be sure to mute your phone if having side conversations during the conference call.

Issues with off site MSP personnel getting their FOIA emails printed

Local EOC transitioning to more local staffing

Recovery – Working with Red cross to ensure that all residents of trailer parks have been visited.

Samuel Jonker-Burke
Resource Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

2/19/16 afternoon brief:

DEQ: sentinel teams and revisite teams this weekend. Just getting sentinel tests in.

ARC: 5 teams today. VRC open till 1700 – processed 100 new volunteers. Placed 129 on projects. 65 boxes (6500) kits.

MSP: Monitoring social media with the protests.

UCG: congression deligation to attend a POD is no longer going to be at a fire station pod. Shower filters messaging.

PIO: Plan event with MSU student athleats postponed. Remind to change the filters when it is needed.

LOCAL EOC: pushing the shower head issues after the WMBA player showed up with shower heads. Mile march with Jessie Jackson – peachful. Sheriff put out an interview with MILIVE – regarding the jail and lead pipes.

Recovery: FYI...reached out to the city of burton to clarify GIS data – opened a can of worms because they did not receive assistance from Flint.

COVEY: FOIA – set up computer to FOIA people.

Plans Team,

Tomorrow, in the event the NG SEOC LNO is unavailable to receive the data from the PODS, they (the PODS) are on Channel G9 - Event 9 is primary for the overall response Channel. G10 - Event 10 is alternate for the overall response. We will work to get computers with Mifi devices to each POD to allow hourly reporting of the previously submitted spreadsheet. I am tracking this data is the long pole in the tent right now.

Tom,

Please see the attached, the form needs to be completed daily and sent back to MSP-seocda2, and cc MSP-EOC-MDSP. You may have to bring in another person under your command to do some of the paperwork. A scribe would be a good idea for you so everything going on is tracked.

Thanks, Mike

Hi Tom

Attached is a spreadsheet that will assist us with being able to keep track of the resources that the team have. It would be extremely beneficial to have the provided every morning.

Please let me know if you have any questions.

Thanks
Sam

Yeah, the MCSC is working locally on 1317122 & 7722824 collectively with 1-4 staff in the field.
The 4480545 was the Red Cross volunteers for the PODs. They are being scaled back with the transition to DMVA.

Tracking Number	Mission Name
SEOC - 1317122	Activate donations Management Team
SEOC - 4480545	Secure volunteers for extended hours at FD sites

All,

For your awareness, I attached the last count from the Fire Station PODs from 01/14/2016.
I marked low supplies that have been identified as critical (water, testkits, faucet filters) in red to indicate what should be stocked as early as possible in the morning.

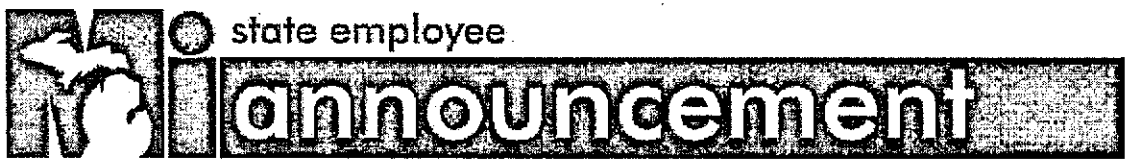
From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: MSP-seocda2
Subject: Volunteer Opportunity in Flint



The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Situation update

For your sitrep, here an exclusive sneak peak of what will be released later in our Sit Rep #3:

Incident Command:

- Command Emphasis: Continue to develop and maintain an effective SEOC/EOC/IMT interface.
- Evaluation of need to engage further public health/medical professionals.
- Continuing to identify appropriate agencies that need to be represented in EOC, and discuss strategies to engage them.
- Addressed lack of distribution of supplies to undocumented populations.
- Coordination of financial control and educating county finance staff.

Operations Section:

- Coordinate with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes, regarding potential home delivery of supplies to homebound residents, and to use transit center as POD.
- Coordinating and preparing review of draft volunteer and donations management plans.
- Meeting with EOC, SEOC and American Red Cross logistics staff.

Logistics Section:

- Securing adequate warehouse space for incoming supplies.

Tom,

I don't know what your asset tracking is like, we are looking to make sure that you are tracking when assets (vehicles, mobile devices, etc.) leave with teams and that they return at the end of the day.

Would you like a spreadsheet to assist with this, or are you all set?

Matt

Henrik,

Please start using this Google Doc to track the resources at the PODs and Warehouses. We're working on a more robust plan using ArcGIS but don't worry about that for now. We'll be looking forward to your inventory reports! If something doesn't make sense, call me.

Negative on the MDHHS. They only have 10,000 square feet available at this time. Jeanette has contacted a private owner of a 100,000 square foot warehouse that has staff and equipment that Lt. Russo is going to look at today. If acceptable, we could begin using it on Wednesday, January 13th.

Will confirm once Lt. Russo has toured the building.

FYI to Planning and Ops since I won't be here tomorrow:

Just assigned a task to DHHS (Jennifer Lixey) for the use of their 100,000 square foot space called "Diplomat", which should not be publicized. This space will be used to send all of our shipments to and we will pull from this space to restock the GCCard. So GCCard essentially becomes the staging area and Diplomat is our warehouse.

2 Additional volunteers were requested from ARC to assist with fire station distribution.

The mix and match of colors is fine. We are really in need of the Brita Filter replacements asap. I have also been instructed that if we can't get at least 1500 by tomorrow that we may have to purchase them from another vendor.

Tomorrow starts the major distribution by State employees.

Subject: FW: Filtration Inventory

Good afternoon,

Below are the inventories with the retails of the products available. In addition to the Brita faucet mount (714338) there are 5,000 available which are in transit from another location to the manufacturer. We are not sure of the transit time as of yet on those. All of the products below are certified by the NSF to meet our 53 standards and remove the lead to the acceptable levels. If you will notice, we have given all options which include units in white color as well as chrome. This does not have any effect on the capability of the product, just only is a color change.

Please let me know if you would like to select which you want, or if you would like me to just acquire as much as possible.

Thank you,

Updated with **retails**

PUR

Inventory	THD SKU	Description	Retail

Guys,
Here is the latest list of all available inv. Make sure the state is aware residents may have to mix and match white with chrome. (white system/chrome cartridge or chrome system/white cartridge).

Waiting on retails. Let me know what they want and I'll get the trucks rolling.

Here are the number of filters at each station currently. There are ZERO at GCCard.

Per Michelle:

Waiting on 1 o'clock numbers. 12 numbers were
1- 225
3- 136
5-408
6 - 128
8 - 43

We will move filters from 5 to 8

FYSA

- New distribution estimate for water being provided in AOR by community partners. This is an rough estimate, since many of the partners count their inventory in various ways (trailers, pallets, cases, gallons)
- Critical planning factor: community partners distributing probably more water a day than SSA's <222,742 liters per day vs 149,127 liters a day>
- This water is being distributed through PODs not serviced by the SSA's
- Majority of water coming into through SSA have been through donations for approximately the last week.
- The viability of this donation supply line is almost impossible to predict; making it challenging for the state in cooperation with FEMA to design a failsafe distribution strategy.
- A positive sign is that replacement cartridges demand is running ahead of faucet filter demand / public messaging that the filters work seems to be having the desired affect / public seem to be using filters
- If you look at total bottle water usage the rate is still high. Using a population of 100,000 residents and daily bottle water distribution of approximately 317,000 – means an average of 3+ liters of bottle water per resident is being distributed. These are very rough and general estimates just to provide a frame work for critical thinking.

I want to thank every for their assistance and the extraordinary mission support effort; have a great week-end.

AS OF **February 18, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38730** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38447 (99.3%)** of the parcels have been engaged as part of response efforts
- **30078 (77.7%)** of the parcels have been confirmed have some form of filter
- **12401 (32.0%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27168** residential parcels that have the ability to use the Flint Water System. Of these

- **27088 (99.7%)** of the parcels have been engaged as part of response efforts
- **24113 (88.8%)** of the parcels have been confirmed have some form of filter
- **11019 (40.6%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Can someone else (over the weekend) put together bullets and send them to planning? I don't think it necessarily needs to be in MICIMS. Due to the importance of this event, I think someone needs to send a summary each day from the local EOC and I have to believe that they can have someone put that together (other than you).

Let me know.

Gabe

> The EOC will be open over the weekend. According to the schedule that was sent out last week, I am not assigned for the weekend. With Jay being demobilized and Lt. Roach working remotely, this would mean that there is no EMHSD staff is assigned to Flint over the weekend. That raises the question if without EMHSD staff here, the Planning Section at the SEOC would still need to receive bullet points and a daily SitRep at the end of the day?
>
> It is my understanding that during most emergencies, local EOCs do not provide that kind of information to the SEOC on a daily basis. If it is necessary to provide the information, I would need to report to the EOC for at least some time in the afternoon.
>
> The local EMC is trying to get MICIMS access through Mark DuCharme (who is a MICIMS trainer) for the new Logistics staff here on Friday, 02/19/2016. If local staff gets access to MICIMS, he would not have the need for me to staff here - as weekends are a lot less busy than weekdays.
>
> Please let me know if you need me at the County EOC on Saturday and Sunday. If so, I would probably report here for 4-5 hours each afternoon.

MSP-seocda2

From: Hollaender, Henrik (MSP)
Sent: Friday, February 19, 2016 10:09 AM
To: MSP-seocda2
Subject: RE: Station 8 Hourly Report

Sorry, Overlooked the emails below. Will try to get the final report for yesterday.

From: MSP-seocda2
Sent: Friday, February 19, 2016 9:34 AM
To: Hollaender, Henrik (MSP)
Subject: FW: Station 8 Hourly Report

Henrik,

Do you know if there is a copy of the station 8 report at the local EOC?

Amanda

Subject: Re: Station 8 Hourly Report

Good morning,
Our computer went down last night so we were unable to submit the final few hourly reports. The hard copy was turned in to Sgt. Baldwin at the end of the day.

Thank you,
TSG Taylor

Subject: Daily Summary

Capt. Kelenske,

Below is a summary of events for today. Peter Manning has reviewed the Sit Rep. The Operations Section Chief (F/Lt Covey) reviewed and approved also.

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), five ARC teams.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Target Water Response Team operations to provide filters to homes where data shows filters have not been provided and visit mobile home parks.
- Continue to work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Requested water and supply distribution. Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
- DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Good morning. I just received the following fact point from NL as she was headed to/boarding the plane. She asked that we verify the numbers:

"88 percent of people in flint have had filters installed (by the state police who are in charge of installation) and that 99 percent of flint residents have been offered filters".

Also, there is a perception that people don't trust the filters and thus are continuing to rely on bottled water. What is your take on that?

Thanks, Don

All,

This information needs to completed as soon as possible, the secretary needs the information by 7:15 tomorrow.

--Name and title of the lead person at the distribution site. We're looking to identify a point person to explain the distribution operation to the Secretary and answer any questions she has.

--How many National Guard troops are working at water distribution sites across town.

--Number of water distribution sites

--Why fire stations are the preferred distribution site

--Data, including the number of palates of water (or water bottles) available at that site for distribution, number of filters available for distribution

--Any limitation on distribution? We're aware of the 1 case of water/person/day rule, but want to know of any others

Kate and Earl,
Thanks for your help on this. I talked with the Secretary's staff and we're looking to confirm this visit from 11:35 - 12:10pm. Its totally ok if it takes less time. Along with the address, we're looking to get the following answered today, by **4:30pm** at the latest please:

--Name and title of the lead person at the distribution site. We're looking to identify a point person to explain the distribution operation to the Secretary and answer any questions she has.
--How many National Guard troops are working at water distribution sites across town.
--Number of water distribution sites
--Why fire stations are the preferred distribution site
--Data, including the number of palates of water (or water bottles) available at that site for distribution, number of filters available for distribution
--Any limitation on distribution? We're aware of the 1 case of water/person/day rule, but want to know of any others

The lead person should also be able to answer questions about resident feedback and reactions to the water distribution program.

Thanks,
Lauren Underwood

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

Subject: Field Team Statistics for February 15, 2016

AS OF **February 15, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38762** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38392 99.0%** of the parcels have been engaged as part of response efforts
- **30012 77.4%** of the parcels have been confirmed have some form of filter
- **12281 31.7%** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27170** residential parcels that have the ability to use the Flint Water System. Of these

- **27055 99.6%** of of the parcels have been engaged as part of response efforts
- **24060 88.5%** of the parcels have been confirmed have some form of filter
- **10909 40.1%** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Sent: Monday, February 15, 2016 5:05 PM
To: Hollaender, Henrik (MSP)
Subject: RE: Station 6

FYI...the estimate used for a pallet is 65 cases per FEMA pallets. The 72 cases per pallet is not used anymore.

Thanks for the info. I agree that the NG on site would have the best SA, so if they are comfortable, then I am good. I just know that when my spreadsheet turns yellow, then I want the local EOC to be aware.

-----Original Message-----
From: Hollaender, Henrik (MSP)
Sent: Monday, February 15, 2016 4:59 PM
To: MSP-seocda2
Subject: RE: Station 6

I'll address the amount of cases in the hourly report with the NG Liaison here. They are saying they have 14 pallets of water currently, which would be more than 50% of capacity (14p*72c= approximately 1000 cases, 1800c/72c= maximum capacity of approximately 25 pallets).

If they have mostly 40 packs of water, which will have a lot less than 72 cases on a pallet, I can see them being below 50% of capacity for cases, but over 50% of pallets at the same time.
Also, the NG Liaison here advised that 1800 cases/25 pallets might be what the station could theoretically hold, but that they never really filled it up to the max so far.

NG on site is stating that they are in no danger of running out, so we'll just bring it up on the 1830 logistics call to make sure that warehouse sends out enough to fill up in the morning.

From: MSP-seocda2
Sent: Monday, February 15, 2016 4:39 PM
To: Hollaender, Henrik (MSP)
Subject: RE: Station 6

Yes that is based on the hourly reports. Station 6 told us that they have a capacity of 1,800 cases of water. Based on the hourly updates they only have 676 cases, which is well below 50%.

I was off the day that I asked someone to check the capacity of the POD, so I assumed that you were included in the response.

Here are the POD capacities for cases of water:
Station 1: 1,584 (792; 50%)
Station 3: 2,088 (1,044; 50%)
Station 5: 2,160 (1,900; 50%)
Station 6: 1,800 (900; 50%)
Station 8: 2,520 (1,260; 50%)

Hopefully this helps.

Thanks
Sam

To: MSP-seocda2
Subject: RE: Station 6

Is that based on the hourly report from that station?
Per National Guard at the station over the phone, they were at 100% earlier today, and are now well above 50% capacity with 14 pallets. Don't know what their maximum is, but they should not be in danger of running out anyway.

From: Hollaender, Henrik (MSP)
Sent: Monday, February 15, 2016 4:18 PM
To: MSP-seocda2
Subject: Re: Station 6

I'm on the call right now, but I'll let NG know so they can arrange for delivery. They had a couple of shipments today at PODs that had to go back (loose water and other issues), so that might be a reason why they are down.

Hi Henrik

I would call but we are doing the briefing. Just an FYI...Station 6 is below 50% of their inventory capacity for water. Although they have not been handing out a lot of water today, I did not know if they should get a water delivery to bring them back up to a high water inventory level.

Thanks
Sam

Subject: RE: Station 6

I'll address the amount of cases in the hourly report with the NG Liaison here. They are saying they have 14 pallets of water currently, which would be more than 50% of capacity (14p*72c= approximately 1000 cases, 1800c/72c= maximum capacity of approximately 25 pallets).

If they have mostly 40 packs of water, which will have a lot less than 72 cases on a pallet, I can see them being below 50% of capacity for cases, but over 50% of pallets at the same time.
Also, the NG Liaison here advised that 1800 cases/25 pallets might be what the station could theoretically hold, but that they never really filled it up to the max so far.

NG on site is stating that they are in no danger of running out, so we'll just bring it up on the 1830 logistics call to make sure that warehouse sends out enough to fill up in the morning.

Subject: RE: Station 6

Yes that is based on the hourly reports. Station 6 told us that they have a capacity of 1,800 cases of water. Based on the hourly updates they only have 676 cases, which is well below 50%.

I was off the day that I asked someone to check the capacity of the POD, so I assumed that you were included in the response.

Here are the POD capacities for cases of water:
Station 1: 1,584 (792; 50%)
Station 3: 2,088 (1,044; 50%)
Station 5: 2,160 (1,900; 50%)
Station 6: 1,800 (900; 50%)
Station 8: 2,520 (1,260; 50%)

Hopefully this helps.

Thanks
Sam

Is that based on the hourly report from that station?
Per National Guard at the station over the phone, they were at 100% earlier today, and are now well above 50% capacity with 14 pallets. Don't know what their maximum is, but they should not be in danger of running out anyway.

Yes we have about 30 done. A lot of people had already received one.
We have the paperwork for those given out.

The truck never came. If the truck pallet jack has rubber wheels we can unload it to the transfer center really quick. If it doesn't the steel wheels will destroy the flooring at the transfer center. If you can find that out we will know whether we need volunteers to unload it.

Thanks

Ed

Ed,

I have verified that all the supplies you need are set aside at GCCARD for you.

Can you please let me know when you plan on picking that up? It would be great if we could pick up the tracking sheets afterwards. We are compiling one large database of all the filters that have been delivered.

Hi Ed,

I do have a stock set aside at the 2727 Lippincott Blvd. GCCARD location.

It is available for pick up whenever you are ready to begin home deliveries. The contact at the facility is Shawn Scott-Fitzgerald with the American Red Cross/1-563-663-2672. We also have tracking sheets that need to track which homes have been visited and returned to the local EOC somehow so they can get entered into the overall database.

Please let me know that you've received this email.

Subject: RE: Genesee County EOC

Hi Michelle,

Thanks for the info. Judy informed me that you called regarding the Your Ride clients that still need filter. We'll be glad to do the initial delivery and then hold off as requested.

For the 2-1-1, we'll get the passengers to the distribution centers located along the designated fixed routes. The passengers just need to let the driver know that is their intention and we will not collect the fares and will just log the count of passengers riding for the water supplies.
MTA added the 5 requested Water distribution sites as stops along the following fixed routes: Fenton, ML King, Franklin, Dupont and South Saginaw.

We are ready and willing to help - please don't hesitate to ask for assistance as needed.

Thanks again,

Edward G Burger

To: Edward Burger
Subject: Genesee County EOC

Hi Ed,

I am just following up our earlier call. I have let our Joint Information Center know that the MTA has included the 5 fire stations in the bus routes. This information will be provided to 211.

I have also let Jay Eickholt know that I'll be the main point of contact for MTA.

I am following up on the supplies, we will get a stock set aside and then I can coordinate pick up with you. We are receiving a lot of supplies today.

I am also going to speak with the sheriff's department about the calls received regarding home deliveries.

Please contact me at 517.897.6009 if you need anything.

Thank you so much for your support,

Ma'am,

We have received a FOIA request for "the name of the company and testing results for the testing done in Flint by an outside company (according to Governor Snyder an outside agency was used)." Can you please tell me if you or any other Department member have responsive documents? I will need a response by 2/12/16.

Thanks,

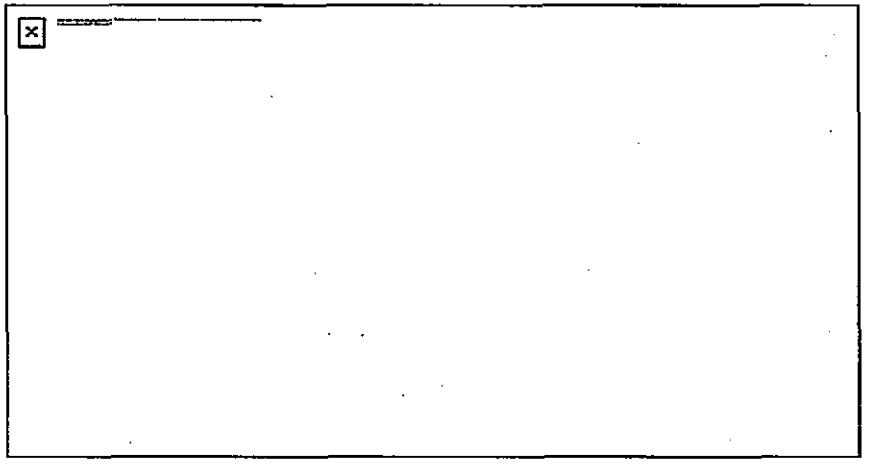
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. **Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.**

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families – > www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Full List of Residential Results for February 10, 2016

As requested, attached please find the daily test results spreadsheets and below please find a breakdown of the Residential Sample Results for February 10, 2016 to be included in the Governor's report.

Please note the spreadsheets will be updated on the Flint Water website tomorrow morning.

Should you have any questions or need anything further, please feel free to contact me.

Thank you, Nicole

This note is for Wednesday, February 10,

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used.

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   Asset # 513922 – February 10 2016 Test Results Flint.xlsx
   Asset# 513925 – February 10 2016 Test Results Flint_Sorted By Address.pdf

Asset# 513930 – February 10 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   Asset# 513955 - February 10 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. Calculations as requested:

LEAD

Data Summary for *February 10 2016*	Number	Percent		
Total number of samples:	8749			
At or below 15 ppb:	8158	93%	Above 15 ppb:	591
<5 ppb:	7156	82%		
5-15 ppb:	1,002	11%		
>15-30 ppb:	264	3.0%		
>30-100 ppb:	218	2.5%		
>100-150 ppb:	31	0.4%		
>150 ppb:	78	0.9%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Subject: Inventory received counts

Good afternoon, All,

In reviewing the nightly inventory received counts, it appeared that our bills of lading and actual received inventory did not equal.
In talking with Mike Fiscus, the mismatch of numbers is in the receiving of gallon jugs and five gallon containers. The jugs or five gallon containers are not added into the nightly received inventory count, because they are not to be used at the PODS for distribution nor included for the burn rates.

Starting tonight, in the SSA Inventory report, there will be two line items added-one for the gallon jugs received and one for the five gallon containers received. It will also have a beginning inventory amount of how much currently there is of each at the Clio warehouse. The new line items amounts will not have a burn rate, because they are not going to be sent out to the PODS for distribution.

These two additional line items will also be used at Warehouse 2 to help track the donations, which we will most likely receive more random sizes with the spontaneous offers.

Once there is a clear amount of how much of the gallon jugs and five gallon containers are in stock, a plan will be developed to utilize these resources.

Also, I will ensure my team has full understanding in the difference of the received inventory counts.

Please let me know if you have any questions.

Thank you very much for your time and effort,
Pam

Cc: MSP-SEOCGIS; MSP-SEOCGIS2
Subject: Updated Residential Parcel Statistics

AS OF **2/9/2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,322 (98.6%)** of the parcels have been engaged as part of response efforts
- **29,813 (76.7%)** of the parcels have been confirmed have some form of filter
- **12,112 (31.2%)** of the parcels have volunteered for water testing
- **965 (2.5%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27,180** residential parcels that have the ability to use the Flint Water System. Of these

- **26,985 (99.3%)** of of the parcels have been engaged as part of response efforts
- **23,897 (87.9%)** of the parcels have been confirmed have some form of filter
- **10,758 (39.6%)** of the parcels have volunteered for water testing
- **657 (2.4%)** of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

Subject: RE: Full List of Residential Results for February 9, 2016

Hi Nicole

Can you please double check the calculations in the "Data Summary for Current Date" table or spreadsheet.

We noticed yesterday and today that the numbers don't add up. Below is what we got for the data through 2/9, and through 2/8, respectively when we did it manually form the spreadsheets:

Date Start		
Date End	2/9/2016	
Numbers of Tests	8562	
	Number	Percent
< 5ppb	7004	0.81803317
5-15 ppb	989	0.115510395
>15 ppb	7993	
>15-30 ppb	261	0.030483532
>30-100 ppb	206	0.024059799
>100-150 ppb	29	0.003387059
> 150ppb	73	0.008526045
	100.00%	

Date Start		
Date End	2/8/2016	
Numbers of Tests	8317	
< 5ppb 6812	0.819045329	
5-15 ppb	959	0.115306
>15 ppb	7771	
>15-30 ppb	253	0.030419622
>30-100 ppb	198	0.023806661
>100-150 ppb	27	0.003246363
> 150ppb	68	0.008176025
	100.00%	

The numbers in this note are what we provided to the Governor. Thanks!

Mitch

Subject: FW: Full List of Residential Results for February 9, 2016
Importance: High

As requested, attached please find the daily test results spreadsheets and below please find a breakdown of the Residential Sample Results for February 9, 2016 to be included in the Governor's report.

Please note the spreadsheets will be updated on the Flint Water website tomorrow morning.

Should you have any questions or need anything further, please feel free to contact me.

Thank you, Nicole

Nicole M. Colberg, MPA
Michigan Department of Natural Resources
Legislative and Legal Affairs Office

colbergn@michigan.gov

This note is for Monday, February 9, 2016

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used.

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   Asset # 512083 – February 9 2016 Test Results Flint.xlsx
   Asset# 512511 – February 9 2016 Test Results Flint_Sorted By Address.pdf
   Asset# 512510 – February 9 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   Asset# 512820 - February 9 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 9 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

Data Summary for *Current Date*	Number	Percent		
Total number of samples:	8562			
At or below 15 ppb:	7993	93%	Above 15 ppb:	569
<5 ppb:	7004	82%		
5-15 ppb:	989	12%		
>15-30 ppb:	261	3.0%		
>30-100 ppb:	206	2.4%		
>100-150 ppb:	29	0.3%		
>150 ppb:	73	0.9%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Ma'am,

We have received a FOIA request for "the name of the company and testing results for the testing done in Flint by an outside company (according to Governor Snyder an outside agency was used)." Can you please tell me if you or any other Department member have responsive documents? I will need a response by 2/12/16.

Thanks,

Subject: Water meter numbers

Hi all

I am not sure who would have this, so I am asking the group. We are trying to understand the decline in water cases being distributed, which can have many reasons, so that we can forecast the future need of bottle water. One of the questions is whether people are using the city water more. Is there a contact person with the water department or are there new meter readings to see if there is an increase in the citizens using the city water now that there are faucet filters being distributed throughout the city?

Thanks
Sam

Subject: RE: Data needed

Zach,
As discussed earlier, please note that these numbers are not perfect.

Can you please pull these numbers for the below inquires for the Governor's office by 6pm today?

- *Total residences in Flint (including apartment units)*
  There are 38,876 parcels we have classified as "occupied"
  We have some apartment data, not complete. The list only says how many units each complex have, and that's only about half complete. This number of units so far is 2383.
  If you add these together, the final number is 40659.

- *Total occupied (including apartment units)*
  34,227 occupied.
- *How many occupied have filters*
  29,654
- *Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)*
  1024
- *Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)*
  558

AS OF **February 7, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38318 98.6%** of the parcels have been engaged as part of response efforts
- **29654 76.3%** of the parcels have been confirmed have some form of filter
- **11949 30.7%** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26812** residential parcels that have the ability to use the Flint Water System. Of these

- **26617 99.3%** of the parcels have been engaged as part of response efforts
- **23469 87.5%** of the parcels have been confirmed have some form of filter
- **10464 39.0%** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Thanks.
Nat

Total residences in Flint (including apartment units)
Total occupied (including apartment units)
How many occupied have filters
Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)
Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)

- Need to convert liters to cases (both directions--purchased and distributed should both be in liters and cases)
- Need burn rate of inventory and measurement of inventory sufficiency
- Weekly trend each Monday for houses visited and distribution--want to be able to compare week-to-week.

Subject: Daily Summary

Capt. Kelenske,

Below is the summary of today's events. The Sit Rep has been reviewed by Peter Manning.

<u>Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in Kroger for SBA office, additional information needed SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads give status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.

- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – ARC Teams will continue visiting the identified 1,800+ Access & Functional Needs addresses as a follow-up visit to determine the individual need for further visits. Each address will be provided 3-5 cases of water, depending on individual's request of need, and replacement cartridges, if needed.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs are using paper street sheets to track data, and data is being entered into ARC's website by ARC volunteers. Daily team numbers (homes visited and amount of supplies delivered) are to be reported to the SEOC Recovery Branch by 6 p.m. daily.

Recovery Branch – 2/22/16 as of 7:00 pm

Flint Water Response Team Plan
Sunday, 02.21.16

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Daniel Wirth		daniel.wirth@redcross.org

Plan

Agency	Team Types	Mission
ARC	5 Type V	600 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 5 (5 ERV + 5 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	5	5		2/21/16	8:00 am
ARC ERV	5	5		2/21/16	8:00 am
ARC ERV Driver	5	5		2/21/16	8:00 am
Team Member	12-24	12-24		2/21/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	5	5		2/21/16	8:00 am
Team Transport Vehicle Driver	5	5		2/21/16	8:00 am
iPads	5	5		2/21/16	8:00 am
Hand Warmers	50	50		2/21/16	8:00 am
Distribution Kit	500	500		2/21/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – ARC Teams will continue visiting the identified 1,300+ Access & Functional Needs addresses as a follow-up visit to determine the individual need for further visits. Each address will be provided 3-5 cases of water, depending on individual's request of need, and replacement cartridges if needed.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. If iPads are not being utilized or are not available for team use, Street Data Entry Sheets will be completed in the field and entered by ARC volunteers for data accountability.

Recovery Branch – 2/20/16 as of 1:00 pm

- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Completed copying of S:drive for FOIA project – flashdrive given to FOI Unit.
- Requested more detailed list of iPads available to Southern Baptists.
- **Team Priority Visited Today:** Continued visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges. Over 300 plus were visited today and the total is 1,000 or less as of 1900 hours today.
- **Team Priority Scheduled Tomorrow:** Continue visiting the 1,300+ Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- **5 American Red Cross Teams scheduled for Saturday, February 21, 2016.**

Subject: Field Team Statistics for February 17, 2016

AS OF **February 17, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38730** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38447 (99.3%)** of the parcels have been engaged as part of response efforts
- **30057 (77.6%)** of the parcels have been confirmed have some form of filter
- **12367 (31.9%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27168** residential parcels that have the ability to use the Flint Water System. Of these

- **27088 (99.7%)** of of the parcels have been engaged as part of response efforts
- **24095 (88.7%)** of the parcels have been confirmed have some form of filter
- **10986 (40.4%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Flint Water Response Team Plan
Friday, 02.19.16 FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Daniel Wirth		daniel.wirth@redcross.org

Plan

Agency	Team Types	Mission
ARC	5 Type V	500 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 5 (5 ERV + 5 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	5	5		2/19/16	8:00 pm
ARC ERV	5	5		2/19/16	8:00 pm
ARC ERV Driver	5	5		2/19/16	8:00 pm
Team Member	15-20	15-20		2/19/16	8:00 pm
Team Transport Vehicle for 2-4 Team Members	5	5		2/19/16	8:00 pm
Team Transport Vehicle Driver	5	5		2/19/16	8:00 pm
iPads	5	5		2/19/16	8:00 pm
Hand Warmers	50	50		2/19/16	8:00 pm
Distribution Kit	500	500		2/19/16	8:00 pm

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – ARC Teams will begin visiting the identified 1,300 (approximate number) Access & Functional Needs addresses as a follow-up visit to determine the individual need for further visits. Each address will be provided 3-5 cases of water, depending on individual's request of need, and replacement cartridges if needed.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. If iPads are not being utilized or are not available for team use, Street Data Entry Sheets will be completed in the field and entered by ARC volunteers for data accountability.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	43
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/17/2016 08:00:00
SEOC Hours of Operation End:	02/17/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 17, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Donation Management Meeting – still looking for donated warehouse
- Conference call with UPS – coordinating delivery of filters/cartridges to functional needs/vulnerable population.

JIC:
- The JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA. The JIC Manager agreed to convene a small group of community organization representatives to review www.michigan.gov/flintwater and obtain input on how to better communicate with Flint residents.
- The PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines.
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to inquiries about donating water.
- Created a media monitoring report and looked for misinformation; found none.
- Reviewed a news release about a recycling event on Saturday with MSU student-athletes.
- Continued routing public information materials for approval, including updated information on recycling, water testing, and child safety. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.
- Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis.
- Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today: 5 teams in the field – Mobile Home Parks, and Water Distribution.
- Team Priority Scheduled Tomorrow: Remaining Mobile Home Parks, 34 No Contacts List, water distribution, and supplies requested.
- 5 American Red Cross Teams scheduled for Thursday, February 18, 2016.

o Total homes visited:
❑ 25,870 (round 3 total)*
❑ 991 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
❑ 184,968 liters or 15,414 cases (round 3 total)*
❑ 6,852 liters or 571 cases (today).
o Faucet filters:
❑ 7,837 (round 3 total)*
❑ 45 (today).
o Replacement cartridges:
❑ 6,745 (round 3 total)*
❑ 414 (today).
o Water Test Kits:
❑ 2,901 (round 3 total)*
❑ 92 (today)
*Totals updated to reflect newest information.

Planning Section:

• Developed and approved Sit Rep #43.
• Updated burn rates and projection costs, per request
• Updated Flint Water Timeline.
• Inquired to Local EOC regarding recycling data.
• Participated in daily UCG, state agency, and distribution process meetings.
• Developed daily Governor's Report.

Operations Section:
• Participated in Unified Coordination Group briefing.
• Facilitated SEOC Agency briefings.
• Participated in Distribution Process meeting.
• Worked on situation report and press release review.
• Warehouse Numbers as of 1800:
❑ Water (liters):
• 826,374 liters or 69,031 cases.
❑ Filters (faucet):
• 47,132.
❑ Replacement cartridges:
• 402,638.
❑ Test Kits (prepped):
• 35,508.
• PODs (Number as of 1700 2/16):
❑ Water (cases):
• 60,696 liters or 5,058 cases.
❑ Filters (faucet):
• 126.
❑ Replacement Cartridges:
• 552.
❑ Test kits:
• 356.

Finance Section:
• Review state agency costs reports submitted for the weekly status update
• Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
• Review agenda and reporting template for SBO meeting at MSP HQ on Friday.

GIS Branch Updates:
• Worked on gathering information for the FOIA request
• Daily Parcel Pairing & JIC map
• Moved filter locations to parcels

DTMB:
• Continue to provide DTMB management SEOC updates.
• Received resource requests for supplies needed at Pierson Road warehouse (2nd warehouse).
• Received information on printing of all information related to the Flint Water Emergency for the
• DTMB SEOC computer and email.
• DEQ requested to have their DEQ SEOC mailbox size increased.
• FEMA provided safety recommendations for both warehouses. DTMB provided (2) Automated
• External Defibrillators and contacted landlords to address other items.
• SEOC requested a second printer to be used at the SEOC to assist in the printing for MSP's FOIA request.

DHHS-CH:
• CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
• A plan is in place for transportation, when needed, to a doctor's office offering free examinations regarding rashes. MTA will provide whatever is needed. Requests will be funneled through LEOC.
• Held a weekly DM meeting. Activity is slowing down some. Plan to focus on data entry. MCSC pretty much getting completely out of the volunteer coordination, focusing on DM.
• The community partner meeting is now called the Flint Michigan Water Crisis: Destination Recovery. They are composed of over 75 partners and are organized into six sub committees:
Recovery Resources, Education, Communication, Physical Health, Emotional & Behavioral Health, and Coordination.

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Secured vehicles and equipment for the Sentinel Sampling 2 crews.
• A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
• Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• Surgeon General visited and gave a briefing.
• There were rumors regarding fake credentials used in the field. This is being verified by EPA.

Local EOC:
• National Guard transitioning to new unit on 02/17 and 02/18/2016. New National Guard EOC Liaison on site.
• Transition to local staffing at Genesee County EOC ongoing:
• Sheriff's Office now staffing Logistics Section.
• IC and LOFR met with Region 3 IMT to further discuss their availability.
• Coordinated with MTA for transportation of affected populations with rashes to Dermatologist offering free exams.
• Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

- Coordinated for distribution of all 15 pallets of lose bottles from warehouse.
- Referring large numbers of vendors offering plumbing and other services to vendor link on helpforflint.com.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, contacting households with elevated water lead or copper levels.
- Southern Baptist Disaster Relief out in the field with 5 teams for delivery of supplies to affected populations.

Injuries:
- None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Joint Information Center / Public Information Officer

Flint Joint Information Center Daily Update

February 17, 2016

Situation Report
The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 17.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Economic Development Corporation and Departments of Environmental Quality, Health and Human Services and Natural Resources. The American Red Cross was also present.
Tasks accomplished:
• JIC Manager attended the Communications Subcommittee meeting with PIOs from FEMA, CDC and EPA. JIC Manager agreed to convene a small group of community organization representatives to review www.michigan.gov/flintwater to obtain input on how to better communicate with Flint residents.

• PIOs staffed a press conference with Governor Snyder where he announced a contract to begin replacing lead service lines.

• Media hotline staff answered fewer than 10 emails and phone calls that ranged from the legitimacy of fundraising efforts to inquiries
about donating water.

• Created a media monitoring report and looked for misinformation; found none.

• Reviewed a news release about a recycling event on Saturday with MSU student-athletes.

• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.

• Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.

• Issued tweets on @MichEMHS about Marc Edwards' statement about whole home water filters and an event for small businesses affected by the water crisis.

• Began printing emails from JICNews and JICManager email accounts for submitting to FOI staff.

• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.

Agriculture and Rural Development (MDARD)

As of 4:00 PM on 2-16-16,
• 6 water assessments were completed
• 6 IN-USE samples were collected.
• 3 sampling appointments have been scheduled.
• Also scheduled are 26 in use samples, 26 assessments.

Followed up on the Pb and companion animal issue, provided response to the request with AID support, request has been marked complete.

Worked with Communications and FDD to develop final response to 211 call regarding consumption of home canned produce using water from Flint water system, response from FDD will be forwarded to Communications and then will be sent through JIC by 2/18/16.

Provided information to MSP planning for the appeal regarding the number of facilities (615) FDD will assess and the number of assessments completed to date, which includes follow-up inspections, (298).

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Wednesday, 2/17/16.

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Informed senior leadership of current activities and concerns. Advised that ASL materials are posted to FlintWater site. Discussed engagement opportunities with SEOC_PIO and State VAL and will prepare an engagement proposal.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Continue to research shower filters.

MDHHS collaborated with MDEQ on questions to be included in the High Home Lead Level Team app.

Dr. McFadden will be providing a weekly report on the rash investigations.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow.MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

Effective today, MDOC will work with Red Cross to pick assembled recycling bags and deliver them to Warehouse 1. Warehouse 1 will inventory and distribute the bags to the PODS and Comcast Service Center. The task was completed in coordination with Henrik at the Local EOC.

A temporary replacement battery was delivered today for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

To address the following safety concerns at Warehouse 1;
-Security staff to restrict access (In process)
-Propane storage areas (Propane tanks were moved today)
-Exhaust fumes in warehouse (Safety briefings to all staff to advise today)
-Safety Vests (Vests were delivered today and used today)
-Floor tape designating machine and pedestrian areas (Ordered - DTMB will advise once delivery date is given)
-First Aid and AED (First Aid kits and AEDS will be delivered on Thursday, February 18, 2016)
-Dust Masks (N-95 Masks will be delivered on Thursday, February 18, 2016)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures. Sent to finance today for the last pay period.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

513 DEQ and 12 MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

1. MDE and MSD are working with LARA and landlord with uniqueness of lease agreement for MSD and plumbing fixture replacement.
2. MDE has shared with MSP Operations the number of nutritional schools/entities that are served within Flint water zip codes.
3. MDE has request from MEA (Michigan Education Association) about teacher training sessions. Working with DHHS on this request

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

- Secured vehicles and equipment for the Sentinel Sampling 2 crews.

- A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.

- Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.

- Began planning for next phase of testing and data collections.

Human Services (MDHS)

CDC going to begin visiting homes of families with children who have received high blood level test results to begin case management. Have requested additional members with knowledge of community and additional local resources. Have submitted resource request and may fill with recovery branch.

Plan in place for transportation, when needed, to a Dr. office offering free examinations regarding rashes. MTA will provide whatever's needed. Will funnel the requests through LEOC.

Held weekly DM meeting. Activity is slowing down some. Plan to focus on data entry. MCSC pretty much getting completely out of the volunteer coordination, focusing on DM.

Community partner meeting now called the Flint Michigan Water Crisis: Destination Recovery. They are comprised of 75+ partners and organized into six sub committees:

Recovery Resources

Education
Communication
Physical Health
Emotional & Behavioral Health
Coordination

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1712002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: Ssg Gazzeny, Darryl L. Email: armyinfantry31@yahoo.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN including additional mixed state units has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse.

b. Recycling trailers are being assessed by schupon on frequency of pickup.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes has been handed of per RIP/TOA
• OUT (last 24 hours)
Bottled water-5245 Water (Gallons)-25 Lead Testing Kits-134
Pitcher (23 cup)-0 Brita Faucet Filter-103 Brita Replacement Cartridge-158
Pur Filter-84 Pur Replacement Filter-262

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

Received resource requests for supplies needed at Pierson Road warehouse (2nd warehouse).
Received information on printing of all information related to the Flint Water Emergency for the DTMB SEOC computer and email.
DEQ requested to have their DEQ SEOC mailbox size increased.
FEMA provided safety recommendations for both warehouses. DTMB provided (2) Automated External Defibrillators and contacted landlords to address other items.
SEOC requested a second printer to be used at the SEOC to assist in the printing for MSP's FOIA request.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Captain,

Not sure who at the SEOC is the appropriate person to do this, but it would be helpful to have this data reported in the same manner that we are reporting the Active Water Customer data. This data is at the top of the G's list of things to add to the daily report, so I'd like to start reporting it by Monday.

Also, is someone looking into the issue that was raised on Friday about the possibility of unidentified franchise customers (customers on Flint water that are billed by another municipality)?

Flint Water Response Team Plan
Monday, 02.16.16 FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Christina Curtis		christina.curtis@redcross.org

Plan

Agency	Team Types	Mission
ARC	5 Type V	500 HH

Resource Status

ARC

Team Type & Quantity	Type: Type V Quantity: 5 (5 ERV + 5 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	5	5		2/15/16	8:00 pm
ARC ERV	5	5		2/15/16	8:00 pm
ARC ERV Driver	5	5		2/15/16	8:00 pm
Team Member	15-20	15-20		2/15/16	8:00 pm
Team Transport Vehicle for 2-4 Team Members	5	5		2/15/16	8:00 pm
Team Transport Vehicle Driver	5	5		2/15/16	8:00 pm
iPads	5	5		2/15/16	8:00 pm
Hand Warmers	50	50		2/15/16	8:00 pm
Distribution Kit	500	500		2/15/16	8:00 pm

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Water Distribution and other supplies as needed/requested.

Team Priority – Water Distribution – routes TBD by ARC.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC. It is possible the iPads will not be used due to cold temperatures.

Thanks! I didn't realize the additional notes were being produced today, Sam.
As it turns out, during the morning shift, I find that there is plenty of time for me to go around the SEOC and fill in gaps and verify information in my notes, including an email to UCG to check my notes on their items. The result is on the s drive.
It is during the afternoon shift that there is little time for filling in gaps and verifying info.

Thanks,

Tom,

I don't know what your asset tracking is like, we are looking to make sure that you are tracking when assets (vehicles, mobile devices, etc.) leave with teams and that they return at the end of the day.

Would you like a spreadsheet to assist with this, or are you all set?

Matt

Hey Insp.

You are on the phone, we can talk when you are done.

Do the teams have a number assigned to them, so I can track what equipment they have?

Thanks
Sam

Subject: RE: Resource tracking sheet

Hi Tom

I do not locate that this has been provided either yesterday morning or today. This information is necessary so that the SEOC can track the state resources that are in the field. I am making an assumption that the teams are stocked with the same equipment, so after the initial input, then it will just need to be updated the planned daily locations.

Thanks
Sam

Subject: Resource tracking sheet

Hi Tom

Attached is a spreadsheet that will assist us with being able to keep track of the resources that the team have. It would be extremely beneficial to have the provided every morning.

Please let me know if you have any questions.

Thanks
Sam

The red cross data needs to be entered into an online form. There is a spreadsheet that has been provided by Lauren. This can't be uploaded into the system. This means that either we put an EMHSD staff member into the EOC under Planning to be a data entry person or make the Red Cross do it.

Is the goal to know what amount of filter types are at each house, so that we can forecast how many replacement filter cartridges that will need to be replaced for the next year or so. If yes, then the red cross needs to make sure that this data is captured, if they use paper and not the iPad.

From here forward, the red cross should be entering this information into the online form and not into a spreadsheet that is forwarded to us.

Subject: RE: Station 8 Hourly Report

I am not trying to be rude, but I need correct information for the governor's office and the white house. Was a physical inventory done to confirm that Station 8 started with 1,880 case of water today? Yesterday's ending inventory should have been 1,526, but it was listed as 1,880.

From: Davonta Barnes [mailto:dbarnes@mcc.edu]
Sent: Saturday, February 06, 2016 11:38 AM
To: MSP-seocda2
Subject: Re: Station 8 Hourly Report

I'm not sure where the confusion is but our inventory at the moment is up to date.

On Sat, Feb 6, 2016 at 11:13 AM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Thank you for the report. There does not appear to be any formulas in the report and because of this the math appears to be wrong. The report shows 1,880 remaining in water cases at the end of the day however the math shows that there is 1,526 remaining. Please confirm what the correct ending inventory amount is.

Thanks

Sam

Here is a copy of the hourly report from last night.

On Sat, Feb 6, 2016 at 10:36 AM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Please provide the 2000-2100 hour report from last night. Based on the beginning balance for today there is some concern. Because there was not a 2000-2100 report provided last night it appears that there was a delivery of 334 cases of water, but there is generally never delivery's made that late.

Thanks

Sam

Subject: 14 FEB 2016 Daily POD report
Attachments: 14FEB2016consolidatedPODreport.xlsx

Attached is the Daily POD report for 14 Feb 2016. Be advised that I did not receive any numbers for the 2000 - 2100 time frame from stations 6 and 5, This is starting to become a daily occurrence. Station NCOIC's, make sure to CC yourself in every hourly report that you send out, that way if a copy of the report is not in your inbox, chances are nobody received that report.

Running totals are as follows

Water (case)	227,237
Water (gal)	13,318
Lead Test Kits	11,763
Brita (mount)	10,142
Brita (cartridge)	8,432
PUR (mount)	5,408
PUR (cartridge)	12,167

That is correct there seemed to have been an error I went back and fixed it and double checked all the counts for it and everything is fine now. Thank you for that catch.

On Fri, Feb 19, 2016 at 3:15 PM, MSP-seocda2 <MSP-seocda2@michigan.gov> wrote:

Good afternoon Station 5

Please confirm that there was a math error during the first hour of the day (0900-1000). The starting Amount ON-HAND was 1,808 for cases of water, then 51 were Handed Out, but the Total ON-HAND amount for the end of the hour stayed at 1,808. Please confirm that the amount should have been 1,757, which would then make the Total ON-HAND amount for the 1400-1500 hour 1,708.

Thanks

Sam

I will attempt again to send you the attachment again to see if it is resolved. This one should show the last two hours. I am not sure what happened when we saved the file but it appears this one should be good.

Sir,

Can we get an amended template? There is a cell locked that is actually needed for data entry (Return Lead Test Kit numbers).

V/R,

Capt Bechtel

Please forward this template to them, and to any other POD's that need it. It has the formulas blocked so they cannot be erased.

Thank You

Attached is the template that is being requested to be used because it has the formulas in it to help eliminate errors.

All I have available are our on hand numbers from end of day yesterday, We were not able to get a copy of the hand written form we submitted and All I have here are the end of day on hand numbers from
18 Feb. We are using a different computer and I don't have access to the tracker on the one that went down.
I have attached them to the 1000 report and forwarded it to the list of emails we were provided last night.

Good morning,
Our computer went down last night so we were unable to submit the final few hourly reports. The hard copy was turned in to Sgt. Baldwin at the end of the day.

Thank you,
TSG Taylor

local EOC is working on request.

On Thu, Feb 18, 2016 at 3:53 PM, National Guard <flintstation3@gmail.com> wrote:
the fire station has requested that we get two parking curb barriers. This is to prevent the MDOC from being able to back up into the fire house again and cause damage. the curbs would be placed as a tier stop point to prevent hitting building without causing any damage to truck and also work like a tier caulk block to prevent them from backing over top of it.

Subject: request of fire department for station 3

the fire station has requested that we get two parking curb barriers. This is to prevent the MDOC from being able to back up into the fire house again and cause damage. the curbs would be placed as a tier stop point to prevent hitting building without causing any damage to truck and also work like a tier caulk block to prevent them from backing over top of it.

Hello Station 3

Can someone please clarify the 1 Pitcher (8 cup) that was handed out during the 1900-2000 hour and the Total On-Hand inventory of 158. This appears to be an error, since there was 0 on hand and 0 was delivered.

Thanks
Sam

Hi Lt Col. Randall

As we discussed, the beginning inventory amounts changed after the 1300-1400 reports. Can you confirmed that the "in" and "out" numbers are correct after the 1300-1400 hour and there was just an error on the starting inventory amount?

Thanks
Sam

Sorry that it took an extra 5 minutes, just had an issue with unruly residents at Station 8.;)

Incident Command:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Discussed operations of a POD through Headstart Genesee County.
- Worked with United Way to troubleshoot and refine distribution of information via 211.
- Participated in initial recycling/trash management group meeting.
- Command emphasis:

Operations Section:

- Attended conference call with SEOC, ARC and Michigan Community Service commission to coordinate volunteer and donations management.
- Setting up meeting with Community Foundation of Flint to discuss public outreach and long-term strategy.
- Arranged volunteer assignment for Lt. Governor Calley on 01/20/2016.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.

Planning Section:

- Tracking supplies and distribution at PODs.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Developed SitRep #9.

Logistics Section:

- Coordinated and verified deliveries of supplies to apartment complexes.
- Starting to field requests for deliveries of replacement filters.
- Identifying locations for 5 to 9 potential recycling stations.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).
- Initiated data entry for deliveries to homebound residents on ipads.

Incident Command:

- Established objectives for the current operational period.
- Requested deployment of Reserve Deputies from Saginaw County Sheriff's Office to support field operations.
- Coordinating the use of PUR sampling teams with SEOC and City of Flint.
- Responded to offer of relieve from the Little River Band of Ottawa Indians. Sought guidance from SEOC.
- Standardized information collection systems (i.e., spreadsheets) for tracking of home deliveries of supplies to allow GIS mapping for emergency responders without access to GIS systems.
- Provide guidance to Fire Station PODs for distribution and collection of test kits/water sample.
- Addressing concerns that distributed water is tainted with lead (via reports through 211).

Operations Section:

- Clarifying volunteer operations, and working to improve communication between EOC/SEOC and Michigan Community Service Commission to develop a clear plan.
- Provided clarification of data entry on ipads to canvassing teams through Sheriff's Office.

Planning Section:

- Tracking supplies and distribution at PODs.
- Discussion with ARC, SEOC and EOC operations regarding digital submission of address sheets from ARC canvassing teams to SEOC for data entry.
- Preparing IAP process for current operational period.
- Identified operational functions at EOC to provide input for development of objectives for the operational period.
- Requested information from SEOC regarding amount of distributed bottles to date, and projected amounts for future distribution for trash management/recycling Plan meeting on 01/19/2016.

- Developed SitRep #8.

Logistics Section:

- Initiated and followed up on resource requests.
- Coordinated hotshot deliveries of supplies to faith-based organizations and special locations.
- Coordinated with Comcast to set up locations for distribution of filters.
- Identifying suitable space for incoming National Guard command staff.
- Assisted coordination of donated vehicles.

Hi Amanda

1. I talked with James T. regarding the attached spreadsheets provided by Lauren and the data needs to be entered into an online form. This can't be uploaded into the system. This means that either we put an EMHSD staff member into the EOC under Planning to be a data entry person or have the Red Cross do it.

   From here forward, the red cross should be entering this information into the online form and not into a spreadsheet that is forwarded to us.

2. Is the goal to know what amount of filter types are at each house, so that we can forecast how many replacement filter cartridges that will need to be replaced for the next year or so. If yes, then the red cross needs to make sure that this data is captured, if they use paper and not the iPad.

We can talk on this.

Thanks
Sam

Hi Amanda

The current plan is to have the National Guard provide the tracking sheet that they have developed. This will provide the resource unit and the local EOC with up to date inventory hourly.

This may take a day to implement.

Thanks
Sam

Henrik,

Please start using this Google Doc to track the resources at the PODs and Warehouses. We're working on a more robust plan using ArcGIS but don't worry about that for now. We'll be looking forward to your inventory reports! If something doesn't make sense, call me.

Dr. Wells, Mr. Krisztian,

Attached please find a draft for the Executive Summary to be included in the first Situation Report for this incident, which will be published on MI CIMS later today.
The Executive Summary is supposed to provide a brief overview of the incident to increase situational awareness of responding agencies.

If you can find time, please review the draft to see if any statements that relate to the area of expertise of your agencies are incorrect, or if you can recommend any additions.

Thank you for your help,

Henrik Hollaender

Subject: GIS Update

Today the following was accomplished by EMHSD GIS:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call in to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25th Water Monitoring Results (Partial, some data remains to be digitized)
    - Effected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to get data

During the next day GIS staff will

- Conduct the first synch call with GIS staff including identified specialists who prepared the predictive analysis layer
- Begin production of planning maps
- Update any out of date data
- Continue identifying partners supporting Flint Water GIS

Ms. Amanda Bresler | January 19, 2016

MI Cyber History

- **Michigan Cyber Initiative (2011 and 2015)**
  - Outlines the public/private partnership for cyber response in the State of Michigan.
- **Presidential Executive Order 13636 (February 2013)**
  - Goal is to strengthen the cybersecurity of critical infrastructure by increasing information sharing and by jointly developing and implementing a framework of cybersecurity practices with industry partners.
- **Michigan Cyber Response Strategy (September 2013)**
  - Introduced the Michigan Cyber Initiative was to encourage a statewide effort among public and private partners to defend Michigan's critical networks.
- **Michigan Cyber Disruption Response Plan (October 2015)**
  - Provides a guideline to partner organizations and strategies for information sharing, criminal investigation, cyber-attack response and recovery from a significant cyber-disruption.

OPS: 0830 meeting houseolds in the city of flint (LOG); badging in the field (LOG); protest in city hall (MSP); LT GOV may meet with 1 team. Sheriff does not have ability to secure warehouse at night, checking with MSP; churches to be restocked – 5???;

Weather: warmest of week 32; waremest for next 4-5 days. Tomorrow morning inn the 10's for sun, mon, and tue. Lows 0's. Winds 15-30 mph through Tuesday morning. Wind chill at 0 or >; frost bite short time. Snow showers, no significate amount.

OPS: pick up of testing kits questions. Fi

HEatlth and env br:

Health: checc open though weekend. Post self care in MICIMS. Disaster behavial health. Work with log to order pamflts.

LARA: currently have plumers on site replacing faucet. Should complete today and test tomorrow. Assisting DEQ with testing at a nother school

DEQ Manly and eagle nest school testing. Testing Fremont tomorrow. Layer request to GIS for additional layer. Work with LOG on test kit.

Human se br:

Human ser: monitoring shipment of filter; monitoring inventor of filters;

Educations: last night complete list of schools, enrolment, and staffing numbers. Not nescacrryl getting water from flint

ARC: staffed pods with DMVA and will continue today. Water rescourc teams. VRC through the weekend. Provdided coffed for jic eoc and field teams, today will include meals. Will be assembling water test kits.

AGING: no update

Civil right: no update

Public safet:

MSP: mike more scheduled protest at 1600. Lt has been provided info. Regarding shefiff no respurse for warehouse security; MSP does not have issue. Fire st 6 has issue with safety- flint city pd will address

DMVA: 3-4 soldiers at each pod; additional 34 tomorrow and full up to date on Monday. Concern that they will be getting low on watter with the increase in staff.

DOC: confirmed 21 veh 21 staff. Some on team and in warehouse

DTMB: support log with resources. 30 ipads with water resource teams. Ponchos 250 were delivered at 0915. EOCs ponchos are till on the truck. Credentialing badges sent

Local EOC: badgesgot there late and the teams do not have them. Will provide badges at lunch.

SEOC LOG: out of GCCARD today and into Clio. Question about multipack filiters. Test kit assembli to staty at ARC HQ. working on security.

Warehouse security: sheriff had people there. No lighting and hole in fence, still issue

Recovery: make sure that people are in place for the weekend. Looking into plan for when state staff is no longer there.

PIO: news release at 2200 with teams. How many resources with teams. Request numbers every day. Requesting by 1700 – this is not possible. Let JIC know when teams have badege. Media wants to go to clio warehouse – coordinate a media event. Vrc phone number for citizens if they want to assist. DMVA staging tomorrow and increasing numbers on Monday, pio from DMVA there. Water resource sites on why they cant get more water. DMVA had a pio at each pod. ARC is stamping some people hands if they attended a pod, not being done at all stations. DMVA & Sheriff pios at the jic, still no city pio.

211 is still number to call for volunteers. Is the address to the VRC available for people to show up.

Quantity to give out at the sites: family gets case of water or gallon per individual. POD 6 is providing issues of people taking multiple cases of water.

Message if we do are don't receive the declaration.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. *Local EOC Operations Section Chief/District Coordinator will approve* partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave. Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western Rd. Flint, MI	0900-2100
Water Resource Site Fire Station 6	716 West Pierson Rd, Flint, MI	0900-2100

	48505	
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	0900-2100

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
1. **Assembly area**
2. **Mission Ready Packets**

iii. Rapid Response Distributions
1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)

ii. Tasks
1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
2. SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
~~3.~~4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

iii. Warehouse System
1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI	Somehow mark this as the final warehouse were	John Foust

		everything will go???	
Court	3086 East Court Street		John Foust

iv. Volunteer Reception Center
   1. 1 location managed by American Red Cross
   2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, Mi 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
   2. ~~https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg_EjZRtNepg/edit?usp=sharing~~
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief, will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief, daily at 1800 and incorporated into the Pipeline report
   6. Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly ← Formatted

3. POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800. (This is a list of equipment that has been taken off the trucks and put in the PODs).
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
9.

State Agency

- ICS204 due 1430
- 1400 – tactics meeting
- 1600 – planning meeting
- 1800 – sitrep due

- LARA
  - Working to include home-based day-care centers in situational awareness and assessing their needs.
- DHHS – DCH
  - CHEC level 2
  - Processing warehouse request and setting up details
    - Need more info. Regarding large vs. small storage – what is long term and what is short-term at this time
    - When will shipments begin arriving at DHHS warehouse
    - Need to determine the role of the locals in supporting the warehouse
    - CHEC queried potential volunteers in the area
- DHHS – HS
  - All about filters/logistics/warehouse
  - Updated activity log about filters on-hand, delivery ETA is at 10am due to weather delays. Requested to know where the truck is, moving at 35mph
  - 700 23 cup pitchers being picked up – complete numbers in Activity Log
  - Dupont(?) - NO
- DHHS-Field Teams
  - Teams preparing for distro
  - Main focus procuring filters and assisting requests from teams
- Agency on Aging
  - Delivered 1400 addresses of seniors who receive aging services in-home
  - Working to get information in coordination with Valley Area on Aging
  - Asked policy colleagues to help secure home help and adult community placement services
  - Seniors are calling requesting water even though they have filters – distrust over filter working
    - JIC – may need to broaden messaging on filters and developing trust of the filter
    - Test kits may be used for filtered and unfiltered water, any water sample accepted by DEQ
  - Valley Area Agency on Aging can help facilitate distro of resources to clients

- State Ombudsman checked with local Ombudsman and local had surveyed nursing homes. They are using bottled water, may be using filters. Need to follow-up with status of assisted living facilities and ensure they have filters.

- DMVA
  - Continuing cost estimates for box trucks
  - Potential equipment issues at warehouse – pallet jacks, high/lows, etc.
- Recovery
  - Primarily covered already
  - Working MSP to ramp up teams- assessing capability
  - Training yesterday went well and mission was clear, filters first – then water
    - If concern expressed over filtered water, teams instructed to provide two test kits.
- Local EOC
  - Need RC at both warehouses, prefer to call the new warehouse something generic
  - Nothing else
- Concluded at 1020

Planning Meeting/SEOC Briefing

Meeting started at 1601

- Will review each objective and the state agency will review the tactics
- Objective 1: Ensure all households with...blah blah blah
    - Planning Section:
        - Identify and report resource shortfalls
        - Coord. distribution
        - Find POC
        - Report numbers to SEOC
        - Establish reporting times/procedure
    - Ops Section:
        - Establish teams
        - Identify warehouse
    - Logistics:
        - Locate facility for warehouse
        - Secure location, accessible, etc.
    - Health and Environment
        - Establish water testing
        - Identify need for contracts
        - Whole bunch of water samples, more to come
    - Human Services
        - Coordinate RC volunteers
        - Needs to be updated
- Objective 2: Monitor commodities
    - Logistics
        - Appoint warehouse manager
        - Safety plan
        - Appropriately certified
        - Tracking method
        - Coordinate with local/private partners
    - Planning
        - Develop current inventory
        - Identify commodity updates procedure
        - Daily staus report
    - PIO
        - Continue promotion of water resource sites via meidia, social media
        - Announce resource teams
        - Update news releases
        - Issue daily news release
        - Establish opt-in email with daily updates of response

        - Plan/conduct daily media availabilities
        - Air PSAs for water resources
        - Identify info to churches/fire distro points
        - Print 5000 door hangers for distro
        - Establish JIC in flint on Monday
        - Daily contact list
        - Develop and print bi-lingual handouts
        - Determine staffing needs
        - Identify embedded PIO with resource teams
        - Identify photographer
        - Secure location for Monday media availability
        - Contact Comcast, DISH, etc. for continual channel to filter changing process
- Objective 4
    - Health and Envir
        - Identify long-term priorities with local health care dpet
        - Blood testing
        - Case management
- Objective 5
    - Logistics
        - Develop staffing plan
        - Staffing spreadsheet
        - Poll section chiefs, identify staff
        - Create sign-in sheet
        - Assess local EOC staffing
- Objective 6
    - Recovery
        - Continue research of state agencies
        - Coord with federal liaison
- Objective 7
    - Planning
        - Identify needs for overlays
        - Potential resources for data collection
        - Clearinghouse
        - Spaicl analytics
- Objective 8
    - Ops
        - Daily calls
        - Constant comms.
        - Maintain local EOC staff
        - Long-term strategy for church distro
        - Legislative/congressional updates

- Objective 9
    - Planning
        - Daily briefings
        - Monitor MI CIMS
        - Produce maps
        - Daily sit rep
- Objective 10
    - Recovery
        - Identify SMEs to assist in development of plan
        - Work with state agencies to identify long-term impacts

State Agency Briefing

- Ops
    - JIC relocating
- DEQ
    - Nothing to report
- DCH
    - JIC/PIO messaging on 211 coordinated
    - CHEC activation to level 2 tomorrow anticipated
    - ECC more digital. Need to coordinate DCH and DHS CHEC services
- DHS
    - Filters, water, etc. inbound. ETA available tomorrow
    - DHHS offices open normal hours tomorrow
    - Training for Clio staff for field teams – 16 employees
- DOE
    - State BOE meeting Tuesday, 0930, Dr. Wells making presentation about Flint
- Civil Rights
- Red Cross
    - Provided volunteers at 14 PODs.
    - Arranged deliveries of water and filters this morning
    - Maintaining county and SEOC reps.
    - Instructions at station 6 were not included. Resolved by making copies and are being delivered to the stations.
    - Plan to provide coverage for next 7 days at FDs
    - 6 pallets of water inbound tomorrow
- LARA
    - Nothing
- DTMB
    - Provided contact info. of UM-Flint for media rooms

- Mail and Delivery on the roads delivering filters and water
- 4 cube trucks and drivers available starting Tuesday
- Purchasing filters on the area at the moment
- Will be ordering door hanger/flyer when available
- Need to confirm if we have enough filters, water, etc.
    - Michelle K. says they are out of replacement filters, by 5pm supplies should be ordered per Capt.
    - Station 8 has no water (dispensed over 4 pallets in one day) Concerns over controlling system abuse. Need to evaluate procedure of address cards. Must ensure sites are not out of supplies-public information issue. Having issues with Red Cross reporting supply numbers.

- MSP
    - Established 830-1700, Tuesday – Friday at this time, door-to-door operations. One trooper with each team
    - Be careful while traveling and be aware of frost-bite concerns.
- Recovery
    - Working with Lt. Johnson on resource teams.
    - Getting assistance tomorrow, Kristi Davis, focusing on filter availability
    - Training scheduled with DEQ trainer to teach about testing services, MSP for safety and security, DHHS will also have someone there.
- PIO
    - Media availability went very well...good coverage
    - Fire Chief mentioned that one person fell at water resource site. No injury but mentioned that they would sue if they were hurt.
    - Concerns over FD staffing to stay open until 9pm
    - Sherriff still operating strike teams
    - Another media availability tomorrow
    - Working with 211 providing daily information about POD changes
    - Established daily email service, opt-in
    - Getting flyer into bi-lingual
    - Google: requested exact contact with them
    - Requested PSA on radio. Script approved and working with MAB.
    - Requested that resource teams report how many resources are used and that information is provided to JIC
    - State PIO is being embedded with water resource team
- Logistics
    - Working on inventory assessment
    - Need instructions for water testing in pdf version
- Planning
    - Working on finalizing IAP and SitRep
    - Finish GIS strategy

- Work on process for inventory transferring to Resource Unit

- Local EOC
  - Continuing to distribute resources
  - Deploying additional DC, Russo, tomorrow
  - Need to set benchmark of resource minimums at PODs

2015-10-01-City of Flint-Water Contamination/Shortage

State Briefing – 01/10/2016

- Fire stations open 9am to 9pm
- Confirming we can keep churches through the week, 9 chur
- 2:30pm media briefing at FD
- New incident objectives will be worked through planning

State Agencies

- Operations – new OP starting at 0800, 10/11/2015.
- ICS 204s being tasked today. Today is a planning day
- Branch Directors being assigned:
    - Thelen – Overseeing Human Services
    - Jen Lixey – Health and Environment
- Security at front gate as it is broken

- LARA
    - No update.
    - 10,000 without power statewide, Cherry Land Electric COOP primarily. No impacts within Flint area at this time.
- DEQ
    - No update
- MDHHS - HS
    - Conversation with volunteer coord. this morning – need shifts for 4pm-9pm at FD
    - Donation Coord. Monitoring supplies – enough for next couple of days
    - Ordered 93 pallets of water from SC. Should be delivered within the week.
    - Some filters should be here Wednesday.
- MSP
    - Expanding hours for troopers going along with door to door to 6pm
    - Security at front door or Collins until 6pm
    - Weather update – remember to have kit in vehicle, hat, gloves, etc.
    - Will get updated safety plan
- DTMB
- ED
    - Assessing child nutrition programs and feeding within schools and child care centers
    - Cooking with bottled water
    - Identifying child care institutions and need for additional water and filters

- MDARD
- OSA
    - Working to find footprint of Flint Water Authority – GIS has layer with water mains available. Working on getting water flow dataset. Wants to cross check coverage area with facilities in the area.
- Treasury
- Local Liaison
    - Long-term storage logistics work, have a building, need equipment and staffing, Red Cross offered assistance and expertise
    - Inventory of FD and church water resources being coordinated
    - Holmes coordinated with Kuzera
- Other
- Logistics
    - Made several assignments – supplies, extra volunteers at churches and FDs
    - Penny researching flyer payment, Jeanette getting quotes
    - Getting more address cards
    - Researching warehouse manager duties – credentialing, inventory, etc.
    - Keep putting tasks and resources into MI CIMS
- Finance
    - Make sure to report costs
    - Arranged hotel for state staff in Flint area – Holiday Inn (get address)
    - Working for lunch for JIC and local EOC
- Recovery Branch
    - *Looking at expanding operations, covering safety concerns*
    - Working with local EOC where hot spots are that need assistance, reduce duplication of effort
- PIO
    - *Flyer for churches approved – going to Logistics (waiting for black and white version)*
    - Door hangers ready for teams tomorrow – may need to be picked up
    - Media availability at 2:30pm, Mr. Harvey Holland, Michigan Office of Urban and Metropolitan Initiatives Director, Spl/F/Lt. David Kaiser, Michigan State Police, Mayor Karen Weaver, City of Flint, Chief David Cox, City of Flint Fire Department, Capt. Casey Tafoya, Genesee County Sherriff's Office.
    - Good press on PODs
    - Working on signage for PODs
    - 211 advised about influx of calls – let JIC know if issues arise
    - Social media messaging continuing
    - Finalizing JOB Battle Rhythm
    - News release likely going out tomorrow regarding canvassing in neighborhoods
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media
    - Google PR offered any available assistance, mapping-warehousing-transportation

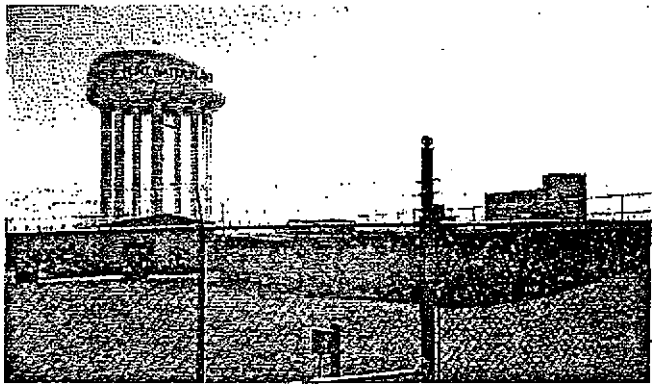
    - JIC moving tomorrow to Flint, likely need hotels, media room requirements to DTMB
    - Materials being transferred into bi-lingual (Spanish) using Civil Rights resources
- Planning
    - Meeting w/ tactics people
    - SitRep updates by 1430
- Capt.
    - Thank you everyone
    - Warehousing – first one short term fix, would like to utilize private sector resources who do this regularly
    - Need timeframe for warehouse – would prefer moving in supplies today, maybe this afternoon
    - Would like Spanish hanger ready for Tuesday canvassing

1. Incident Name: 2015-10-01 City of Flint-Water Contamination/Shortage	2. Operational Period to be covered by IAP (Date / Time): From: 01/11/2016 08:00:00 To: 01/13/2016 08:00:00	IAP Cover Sheet

3. Approved by:

FOSC:	
SOSC:	Jacqueline Akerspitton
RPIC:	
State SEOC Director	Capt. Chris Kelenske Chris A. Kelenske

Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 01/10/2016 12:32:16

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

Approved Site Safety Plan(s) Located at:

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/11/2016	Date To: 01/13/2016
City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC		Time From: 08:00:00	Time To: 08:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			

6. Work Assignments:

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: To coordinate resource gathering and volunteer/donations management process for the incident with the local POCs.

Tactics:
Procure water, filters, and cartridges per resource requests and deliver to staging location.(MDHHS)
Provide personnel support to boots on the ground effort. (MDHHS)
Ensure volunteers report to support the fire dept. distribution sites. (Red Cross)
Continue outreach to ALL school systems providing approved health information and that they have adequate water supplies. (MDE)
Maintain awareness of projects and material going out, ensuring we are caring for all including those who may have communication or logistic barriers.(MDCR & AAA)

7. Special Instructions:

Additional Contacts
Paul Spata, American Red Cross

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

Resource Identifier	Leader			
Water Test Sampling Kits	Kirby Shane	1	shanek@michigan.gov	Lab

6. Work Assignments:

Objective1: Ensure all households within impacted community have required resources.

Critical Task: Coordinate, conduct, and analyze water testing.

Task:
MDARD Pick up 500 water sampling test kits 1/11/16
Ship 1000 water sampling test kits to Flint 1/11/16, transported by DTMB transporting (pick up at 1200)
Order additional 3000 water sampling test kits and ship them directly to Flint 1/11/16
Identified potential contract issues.
Continue working with DTMB ensure contingencies are in place if needed.
2500 water samples taken and analyzed from schools so far.
750 water samples not from the schools, analyzed at lab to date.

7. Special Instructions:

Kirby Shane (DEQ) to contact test kit vendor tomorrow morning. Contract issues will be identified then.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Resource Identifier	Leader			
Warehouse #1	Michelle Kuzera	1		

6. Work Assignments:

Objectives 1: Ensure all households within impacted community have required resources.

Critical Task: Identify, staff, and maintain a local warehouse.

Task (ex.):
1. Locate facility large enough to hold a large amount of supplies to keep distribution sites stocked. 100,000 sq. ft. or more.
2. Location must be in the city of Flint and close in proximity to distribution sites.
3. Location must be secure.
4. Ensure accessibility to vehicles and pallets
5. Assess resource needs (fork lifts, pallet jacks, packing tape, scissors, etc.)

7. Special Instructions:

1. Ensure staff are properly trained and certified to operate equipment.
2. Create a Safety plan.
3. Site safety plan must be followed.
4. All injuries reported to Safety Officer
5. Create necessary forms for tracking items coming in and leaving the warehouse.
6. Create receipts for donated individuals.
7. Create daily inventory reports

MSP EMC	F/Lt. Mike Johnson	1		
Local EOC Safety Officer	Lt. Amy Dehner			
Water Resource Training Lead	DEQ/DHHS			

6. Work Assignments:

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: Assemble, coordinate, and monitor neighborhood canvassing teams.

Tactics:
1. Determine hours of operation for teams in coordination with MSP due to safety concerns.
2. Develop and refine tracking sheet for Water Resource Teams to use in the field.
3. Finalize the training agenda/content.
4. Develop a long term strategy to meet the needs of canvassing objective.
4. Work with the local EOC to determine areas of need and locations in the city to place the teams on Tuesday morning.
5. Deploy teams to pre-identified locations.
6. Determine the safety and security needs of the teams.
7. Ensure logistics are being arranged through the current resource requests to the local EOC.
8. Conduct training for water resource teams at 1pm on Monday January 11, 2016 at the local DHHS office (4809 Clio Rd Flint, MI) by DHHS and DEQ.
9. Pre-deployment briefing to include deployment locations and safety briefing at GCCARD.

7. Special Instructions:

Any safety information, report in requirements, information to share/not to share, etc.

A Water Resource Team consists of 2 volunteers (currently DHHS employees), 1 trooper, trooper vehicle, locally provided vehicle. The teams will have stock of water, filters/replacement cartridges/pitchers, water sampling kits, and door hangers.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Resource Identifier	Leader			
Warehouse #1	Michelle Kuzera	1		
Local EOC Donations Management	Ginna Holmes	1		

6. Work Assignments:

Objective 2: Ensure accurate tracking and accounting of all commodities.

Critical Task: Coordinate the ordering, tracking, delivery, and inventory of resources to warehouse operations.

Tactics:
Find and appoint a warehouse manager (and supporting staff, if necessary)
Develop inventory process.
Ensure staff are properly trained and certified to operate equipment.
Create a Safety plan.
Site safety plan must be followed.
All injuries reported to Safety Officer
Create necessary forms for tracking items coming in and leaving the warehouse.
Create receipts for donated individuals.
Assess training needs/requirements for heavy equipment operation.
Create daily inventory reports
Coordinate with public/private partners and local rep to maintain local donations management.

Documentation Unit	Zach Baker	1		

6. Work Assignments:

Objective 9: Enhance situational awareness and common operating picture of all activities.

Tactics:
A.Conduct daily briefings with state agency emergency managers. (PSC)
B. Monitor MICIMS to maintain situational awareness and develop reports. (All)
C. Produce maps to include bottled water, water filter, and pitcher, filter distribution, affected areas and infrastructure, and method of distribution. (GIS)
D. Complete and produce daily situation reports. (PSC)

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):
Name/Function — Primary Contact: Indicate cell, pager, or radio (frequency/system/channel)

9. Prepared by: Name: A.Bresler — Position/Title: PSC — Date/Time: 01/10/2016 10:43:52

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Planning Section (Obj. 2)-2015-10-01-City of Flint-Water Contamination/Shortage	Date From: 01/11/2016	Date To: 01/13/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Jackie Hampton	
Branch Director:	Tom Weber	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			

6. Work Assignments:

Objective 2: Ensure accurate tracking and accounting of all commodities.

Critical Task: Coordinate the tracking and inventory or resources on-scene and advise Logistics Section of needs.

Tactics:
1. Develop current situational awareness of inventory of on-scene resources.
2. Work with SEOC and local logistics to identify times for daily commodities updates to the resource unit lead.
3. Develop daily resource status report

7. Special Instructions:

Coordinate with Logistics

8. Communications (radio and/or phone contact numbers needed for this assignment):		
Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Division: Group: Staging Area:
Public Information (Obj.3)-2015-10-01-City of Flint-Water Contamination/Shortage	Date From: 01/11/2016	Date To: 01/13/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Jackie Hampton	
Branch Director:		
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			

6. Work Assignments:

Objective 3: Improve and maintain public information strategy.

Task(s):
-Continue promotion of water resource sites.
-Announce water resource teams beginning Tuesday, and ongoing efforts
-Issuing news release to reiterate information shared throughout operational period
-Established an opt-in email citizens can subscribe to receive for daily updates on the state's response. Opt-in added to the website and first email being sent today.
-Plan and conduct daily media avails to provide ongoing actions.
-Work with MAB to air radio Public Service Announcements with information on how to get water resources. MDHHS PIO taking the lead.
-Identify and distribute information to churches, distribution points: post to the website, hand out at media avails, and continue to share with stakeholders.
-Print 5,000 door hangers for water resource teams to distribute.
-Print additional door hangers to disseminate, as needed.
-Establish JIC in Flint. Hotels have been secured. Lunch will be provided.
-Develop contact list daily and provide to SEOC.
-Issue social media content across agency accounts to share new information.
-Develop and print bilingual handouts in Spanish
-Determine JIC staffing needs for this week.
-Arrange a PIO to be embedded with a media resource team beginning on Tuesday.
-Identify a photographer to take photos of resource teams in the field.
-Work to establish a contact with local television providers to push public information message.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment):

Name/Function		Primary Contact: indicate cell, pager, or radio (frequency/system/channel)
Nicole Lisabeth	/JIC PIO Lead	
Jane Yount	/SEOC JIC Liaison

Resource Identifier	Leader			
Logistics Section Chief	*Wendy Galbreath*			Logistics Chief rotates, may not always be Wendy

6. Work Assignments:

Objective 5. Ensure adequate staffing to support operational requirements.

Tactic(s):
Develop staffing plan for operational period.
Develop a staffing spreadsheet indicated required positions.
Poll Section Chief's for personnel available to work.
Notify selected staff of their assignments.
Send staffing spreadsheet to assigned personnel.
Create a sign-in sheet for SEOC sign-in.
Assess staffing needs in the local EOC.
Deploy state staff to local EOC, if needed.
Ensure all assigned staff check in and are tracked via MiCIMS.

7. Special Instructions:

Aging	Steve Betterly			

6. Work Assignments:

Objective 6: Identify Possible Assistance Programs

Tactic(s):

1. Continued research being performed by identified state agencies.
2. Assist with questions as needed.
3. Coordinate with Federal Liaison.
4. Compile data as received.

7. Special Instructions:

All programs have been given a deadline of Friday January 15, 2016.

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 01/11/2016 08:00:00to: 01/13/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

Approved Site Safety Plan(s) Located at:

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/11/2016	Date To: 01/13/2016
City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC		Time From: 08:00:00	Time To: 08:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

4. Site Safety Plan Required? Yes ☐ No ☑

Water Test Sampling Kits	Kirby Shane	1	shanek@michigan.gov	Lab

6. Work Assignments:

Objective1: Ensure all households within impacted community have required resources.

Critical Task: Coordinate, conduct, and analyze water testing.

Task:
MDARD Pick up 500 water sampling test kits 1/11/16
Ship 1000 water sampling test kits to Flint 1/11/16, transported by DTMB transporting (pick up at 1200)
Order additional 3000 water sampling test kits and ship them directly to Flint 1/11/16
Identified potential contract issues.
Continue working with DTMB ensure contingencies are in place if needed.
2500 water samples taken and analyzed from schools so far.
750 water samples not from the schools, analyzed at lab to date.

7. Special Instructions:

Kirby Shane (DEQ) to contact test kit vendor tomorrow morning. Contract issues will be identified then.

Water Resource Team 4	Tpr. TBD	3		GCCARD
MSP EMC	F/Lt. Mike Johnson	1		
Local EOC Safety Officer	*Lt. Amy Dehner*			
Water Resource Training Lead	DEQ/DHHS			

6. Work Assignments:

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: Assemble, coordinate, and monitor neighborhood canvassing teams.

Tactics:
1. Determine hours of operation for teams in coordination with MSP due to safety concerns.
2. Develop and refine tracking sheet for Water Resource Teams to use in the field.
3. Finalize the training agenda/content.
4. Develop a long term strategy to meet the needs of canvassing objective.
4. Work with the local EOC to determine areas of need and locations in the city to place the teams on Tuesday morning.
5. Deploy teams to pre-identified locations.
6. Determine the safety and security needs of the teams.
7. Ensure logistics are being arranged through the current resource requests to the local EOC.
8. Conduct training for water resource teams at 1pm on Monday January 11, 2016 at the local *DHHS* office (4809 Clio Rd Flint, MI) by DHHS and DEQ.
9. Pre-deployment briefing to include deployment locations and safety briefing at GCCARD.

7. Special Instructions:

Any safety information, report in requirements, information to share/not to share, etc.

A Water Resource Team consists of 2 volunteers (currently DHHS employees), 1 trooper, trooper vehicle, locally provided vehicle. The teams will have stock of water, filters/replacement cartridges/pitchers, water sampling kits, and door hangers.

8. Communications (radio and/or phone contact numbers needed for this assignment):

State Agency Briefing
1/9/2016 0930

- **Priorities:**
    1. JIC Messaging- press releases, community flyers, door hangers, and streamline the 211 process.
    2. Gathering and distribution of resources (filters, water, replacement cartridges) throughout Flint. Ensure coordination between Logistics Group Chief, resource unit and GIS to track resources locations and amounts.
    3. Identify church distribution sites and volunteers for Sunday.
    4. Assemble recovery teams to canvas and distribute resources in the community, starting Tuesday.
- **Operations:** Five fire departments will be established as site for distribution of water, filters, and cartridges, Red Cross is on site to assist, at least two volunteers per station.
    - 2000 kits are available for distribution at 10 local churches on Sunday. SEOC is currently working on logistics to identify church locations and Red Cross volunteers.
    - Working to identify safety officer from MSP.
    - Food Pantry not in a great location for citizens to get to.
- **OSA:** Nothing new
- **MDARD:** Working with health department for guidance on regulatory requirements.
    - New language (after JIC approval) will be going out to retail food establishments and restaurants with follow up inspections and sampling. Planning will continue on logistics for sampling.
    - Shelter Director Paul Wallace has obtained some documents to help ascertain what entities (that are not tracked via licensing and registration) that would be housing animals. Shelter Director is also pulling the possible animal holding/gathering facilities in reference to that listing which will provide the rest of the contacts. MDARD will be getting copies of all of these lists.
    - MDARD and DHHS provided information on nutrition for JIC message.
- **ARC:** Sent volunteers to support sheriff's distribution.
    - Will have at least two individuals today and tomorrow at each fire station.
    - Disaster Recovery Operation started yesterday. DRO number is 608-16.
    - Looking for additional volunteers based on the number of sites for tomorrow.
    - Will begin to work with local Red Cross at County EOC to coordinate volunteers.
- **MDEd:** High level national organizations have inquired on the current events,
    - Engaged national level organizations with the JIC.
    - Contacted each child nutrition program and provided information forwarding them to the website.
- **DEQ:** Has mobilized DEQ staff to assist in Incident Command at the EOC, as state resources
    - IAP established at local level through Monday.
    - Field employees are aware of current safety concerns.

- **LARA**: coordinating with DEQ on additional water testing at the schools, plan will be developed this morning.
- **DTMB**: Driver onsite in flint picked up water, filters, and cartridges to drop at the fire stations today. Will be available to deliver materials to churches tomorrow.
- **MSP**: En route to SEOC for safety officer.
- **DHHS (Human Services)**: Deployed community service commission for volunteer coordination and donations management.
    - Recruited staff for Door to door operations. Conference room confirmed and set up at Clio Rd office for training on Monday of the 40 volunteers.
    - Obtained 1000 filters for fire stations, 2000 churches, ordered another 5,000 filters to be delivered Wednesday. An additional 10,000 filters and 10,000 cartridges to be delivered in the near future.
    - Working to identify current funding levels.
- **DHHS (Community Health)** - CHEEC currently activated at level 1.
    - Developed health care provides list for the county.
    - Working to streamline the 211 process. Working on messaging to ensure that all questions from the citizen should be directed to 211 and local health care providers Sent information to JIC for finalizing door hanging.
    - Request has been sent to Linda Dykema, Division Director of Epidemiology, to have two individuals for ETC Lead Investigator working on the environmental investigations be housed at the Genesee County Health Department's Burton site, starting on Monday, January 11, 2016, until the lead investigations being conducted are complete. Resource request was submitted by Genesee County Health department to Genesee County EOC.
- **Logistics Section**: Working with Red Cross to recruit volunteers at churches.
    - Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
    - Make sure information is being entered into MI CIMS.
    - Logistics is working with DTMB to get the door-to-door flyers printed.
- **JIC**: Working on getting together door hanger, single page sheet similar to the website with additional information.
    - Setting up emails for internal JICmanager@michigan.gov and external JICnews@michigan.gob
- **Recovery Branch**: On the ground operations will begin Tuesday morning.
    - Working to develop a request for vehicles for to transport people and resources during the community distribution. Is researching the possibility of the vehicle requests being filled through the public/private partnerships-possibly with GM.
    - GIS provided a list of current locations that have received resources.
    - Staff is working to develop a process from for field team to report contact or distribution of resources during daily neighborhood canvas.

- **Planning Section**: SIT report from agencies and Section Chiefs by 3:30 for daily situation report.
- **NWS:**
    - Winter storm coming in to night, 1 pm webinar and call in. Overnight from up 40 to lower 20s, 3-5am snow starting in the Flint area. Snow will continue on and off all day, travel will be very hazardous. Monday-Thursday 15-20 will lows at 10, wind chill values below 0, additional snow Monday-Tuesday, will put a big damper on travel both days. Contact information for NWS is MI CIMS
- **State Director**: Make sure everyone is keeping healthy.
    - Weather message- Please make sure people going out are taking hazardous weather in to considerations
    - Information has to be logged into MI CIMS to help answer questions throughout the day.
    - JIC needs to be on the call daily to get more messaging out instead of the media telling the story.
    - If any agency has push back on staffing please make Capt aware, we need to keep moving forward.
    - State agency workers should not be driving state vehicles with DEQ and DHHS on the side in the county. If they are wearing a logo shirt they should take a jacket.
- ***Next call will be 0930 Sunday, January 10***

State Agency Briefing
1/9/2016 0930

- **Priorities:**
    1. JIC Messaging- press releases, community flyers, door hangers, and streamline of 211 process
    2. Gathering and distribution of resources (filters, water, cartridges) throughout Flint
    3. Identify church distribution sites and volunteers for tomorrow
    4. Assembling recovery teams to canvas and distribute resources in the community, starting Tuesday
- State agency workers should not be driving state vehicles with DEQ and DHHS on the side in the county. If they are wearing a logo shirt they should take a jacket.
- **Operations:** Five fire departments will be established as site for distribution of water, filters, and cartridges, Red Cross is on site to assist, at least two volunteers per station.
    - *2000 kits are available for distribution at 10 local churches on Sunday. SEOC is currently* working on logistics to identify church locations and Red Cross volunteers.
    - Working to identify safety officer from MSP.
    - Food Pantry not in a great location for citizens to get to.
- Services to Aging: Nothing new
- **MDARD:** Working with health department for guidance on regulatory requirements.
    - Submitted messaging information to the JIC.
    - Working to identify animals that are not tracked VIA LARA that would house animals. The shelter director also pulling animal holding facility list.
    - MDARD and DHHS provided information on nutrition for JIC message.
- ARC: Sent volunteers to support sheriff's distribution.
    - Will have at least two individuals today and tomorrow at each fire station.
    - Disaster Recovery Operation started yesterday. DRO number is 608-16.
    - Looking for additional volunteers based on the number of sites for tomorrow.
    - Will begin to work with local Red Cross at County EOC to coordinate volunteers.
- *Ed: High level national organizations have inquired on the current events,*
    - Engaged national level organizations with the JIC.
    - Contacted each child nutrition program and provided information forwarding them to the website.
- DEQ: Has mobilized DEQ staff to assist in Incident Command at the EOC, as state resources
    - IAP established at local level through Monday.
    - Field employees are aware of current safety concerns.
- LARA: coordinating with DEQ on additional water testing at the schools, plan will be developed this morning.
- DTMB: Driver onsite in flint picked up water, filters, and cartridges to drop at the fire stations today. Will be available to deliver materials to churches tomorrow.
- MSP: In route to SEOC for safety officer.

- DHHS: Deployed community service commission for volunteer coordination and donations management.
    - Recruited staff for Door to door operations. Conference room confirmed and set up at Clio Rd office for training on Monday of the 40 volunteers.
    - Obtained 1000 filters for fire stations, 2000 churches, ordered another 5,000 filters to be delivered Wednesday. An additional 10,000 filters and 10,000 cartridges to be delivered in the near future.
    - Working to identify current funding levels.
- DCH- CHEEC currently activated at level 1.
    - Developed health care provides list for the county.
    - Working to streamline the 211 process. Working on messaging to ensure that all questions from the citizen should be directed to 211 and local health care providers Sent information to JIC for finalizing door hanging.
    - Request has been sent to Linda Dykema, Division Director of Epidemiology, to have two individuals for ETC Lead Investigator working on the environmental investigations be housed at the Genesee County Health Department's Burton site, starting on Monday, January 11, 2016, until the lead investigations being conducted are complete. Resource request was submitted by Genesee County Health department to Genesee County EOC.
- Logistics: Working with Red Cross to recruit volunteers at churches.
    - Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. Updates will be sent to SEOC Human Services POC throughout the day.
    - Make sure information is being entered into MI CIMS.
    - Logistics is working with DTMB to get the door-to-door flyers printed.
- JIC: Working on getting together door hanger, single page sheet similar to the website with additional information.
    - Setting up emails for internal JICmanager@michigan.gov and external JICnews@michigan.gob
- Recovery: On the ground operations will begin Tuesday morning.
    - Working to develop a request for vehicles for to transport people and resources during the community distribution. Is researching the possibility of the vehicle requests being filled through the public/private partnerships-possibly with GM.
    - GIS provided a list of current locations that have received resources.
    - Staff is working to develop a process from for field team to report contact or distribution of resources during daily neighborhood canvas.
- PSC: SIT report from agencies and Section Chiefs by 3:30 for daily situation report.
- Winter storm coming in to night, 1 pm webinar and call in. Overnight from up 40 to lower 20s, 3-5am snow starting in the Flint area. Snow will continue on and off all day, travel will be very hazardous. Monday-Thursday 15-20 will lows at 10, wind chill values below 0, additional snow

Monday-Tuesday, will put a big damper on travel both days. Contact information for NWS is MI CIMS

- Capt: Make sure everyone is keeping healthy.
    - Weather message- Please make sure people going out are taking hazardous weather in to considerations
    - Information has to be logged into MI CIMS to help answer questions throughout the day.
    - JIC needs to be on the call daily to get more messaging out instead of the media telling the story.
    - If any agency has push back on staffing please make Capt aware, we need to keep moving forward.
- Next call will be 0930 Sunday, January 10

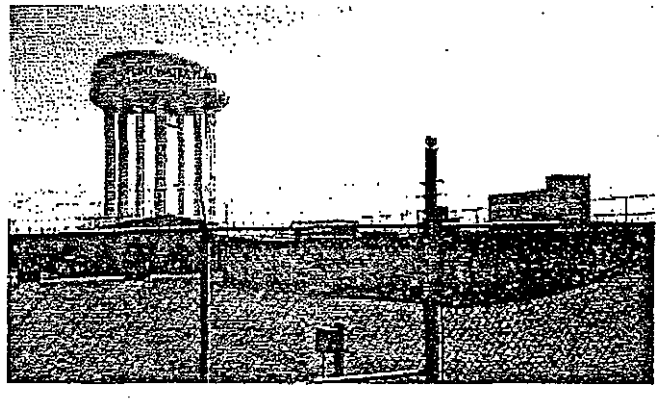
Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 01/10/2016 12:32:16

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 01/11/2016 08:00:00to: 01/13/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/11/2016	Date To: 01/13/2016
City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC		Time From: 08:00:00	Time To: 08:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

Water Test Sampling Kits	Kirby Shane	1	shanek@michigan.gov	Lab

6. Work Assignments:

Objective1: Ensure all households within impacted community have required resources.

Critical Task: Coordinate, conduct, and analyze water testing.

Task:
MDARD Pick up 500 water sampling test kits 1/11/16
Ship 1000 water sampling test kits to Flint 1/11/16, transported by DTMB transporting (pick up at 1200)
Order additional 3000 water sampling test kits and ship them directly to Flint 1/11/16
Identified potential contract issues.
Continue working with DTMB ensure contingencies are in place if needed.
2500 water samples taken and analyzed from schools so far.
750 water samples not from the schools, analyzed at lab to date.

7. Special Instructions:

Kirby Shane (DEQ) to contact test kit vendor tomorrow morning. Contract issues will be identified then.

	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Jackie Hampton	
Branch Director:	Wendy Galbreath	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Warehouse #1	Michelle Kuzera	1		

6. Work Assignments:

Objectives 1: Ensure all households within impacted community have required resources.

Critical Task: Identify, staff, and maintain a local warehouse.

Task (ex.):
1. Locate facility large enough to hold a large amount of supplies to keep distribution sites stocked. 100,000 sq. ft. or more.
2. Location must be in the city of Flint and close in proximity to distribution sites.
3. Location must be secure.
4. Ensure accessibility to vehicles and pallets
5. Assess resource needs (fork lifts, pallet jacks, packing tape, scissors, etc.)

7. Special Instructions:

1. Ensure staff are properly trained and certified to operate equipment.
2. Create a Safety plan.
3. Site safety plan must be followed.
4. All injuries reported to Safety Officer
5. Create necessary forms for tracking items coming in and leaving the warehouse.
6. Create receipts for donated individuals.
7. Create daily inventory reports

8. Communications (radio and/or phone contact numbers needed for this assignment):

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Recovery Division: Group: Staging Area:
Recovery Branch (Obj. 1)-2015-10-01-City of Flint-Water Contaimination/Shortage	Date From: 01/11/2016	Date To: 01/13/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	F/Lt. Gabe Covey	
Branch Director:	Brianna Briggs	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			
Water Resource Team 1	Tpr. Rick Jones	3		GCCARD
Water Resource Team 2	Tpr. TBD	3		GCCARD
Water Resource Team 3	Tpr. TBD	3		GCCARD
Water Resource Team 4	Tpr. TBD	3		GCCARD
MSP EMC	F/Lt. Mike Johnson	1		
Local EOC Safety Officer	Lt. Amy Dehner			
Water Resource Training Lead	DEQ/DHHS			

6. Work Assignments:

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: Assemble, coordinate, and monitor neighborhood canvassing teams.

Tactics:
1. Determine hours of operation for teams in coordination with MSP due to safety concerns.
2. Develop and refine tracking sheet for Water Resource Teams to use in the field.
3. Finalize the training agenda/content.
4. Develop a long term strategy to meet the needs of canvassing objective.
4. Work with the local EOC to determine areas of need and locations in the city to place the teams on Tuesday morning.
5. Deploy teams to pre-identified locations.
6. Determine the safety and security needs of the teams.
7. *Ensure logistics are being arranged through the current resource requests to the local EOC.*
8. Conduct training for water resource teams at 1pm on Monday January 11, 2016 at the local DHHS office (4809 Clio Rd Flint, MI) by DHHS and DEQ.
9. Pre-deployment briefing to include deployment locations and safety briefing at GCCARD.

7. Special Instructions:

Any safety information, report in requirements, information to share/not to share, etc.

A Water Resource Team consists of 2 volunteers (currently DHHS employees), 1 trooper, trooper vehicle, locally provided vehicle. The teams will have stock of water, filters/replacement cartridges/pitchers, water sampling kits, and door hangers.

8. Communications (radio and/or phone contact numbers needed for this assignment):

Resource Identifier	Leader			
Warehouse #1	Michelle Kuzera	1		
Local EOC Donations Management	Ginna Holmes	1		

6. Work Assignments:

Objective 2: Ensure accurate tracking and accounting of all commodities.

Critical Task: Coordinate the ordering, tracking, delivery, and inventory of resources to warehouse operations.

Tactics:
Find and appoint a warehouse manager (and supporting staff, if necessary)
Develop inventory process.
Ensure staff are properly trained and certified to operate equipment.
Create a Safety plan.
Site safety plan must be followed.
All injuries reported to Safety Officer
Create necessary forms for tracking items coming in and leaving the warehouse.
Create receipts for donated individuals.
Assess training needs/requirements for heavy equipment operation.
Create daily inventory reports
Coordinate with public/private partners and local rep to maintain local donations management.

Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			

6. Work Assignments:

Objective 3: Improve and maintain public information strategy.

Task(s):
-Continue promotion of water resource sites.
-Announce water resource teams beginning Tuesday, and ongoing efforts
-Issuing news release to reiterate information shared throughout operational period
-Established an opt-in email citizens can subscribe to receive for daily updates on the state's response. Opt-in added to the website and first email being sent today.
-Plan and conduct daily media avails to provide ongoing actions.
-Work with MAB to air radio Public Service Announcements with information on how to get water resources. MDHHS PIO taking the lead.
-Identify and distribute information to churches, distribution points: post to the website, hand out at media avails, and continue to share with stakeholders.
-Print 5,000 door hangers for water resource teams to distribute.
-Print additional door hangers to disseminate, as needed.
-Establish JIC in Flint. Hotels have been secured. Lunch will be provided.
-Develop contact list daily and provide to SEOC.
-Issue social media content across agency accounts to share new information.
-Develop and print bilingual handouts in Spanish
-Determine JIC staffing needs for this week.
-Arrange a PIO to be embedded with a media resource team beginning on Tuesday.
-Identify a photographer to take photos of resource teams in the field.
-Work to establish a contact with local television providers to push public information message.

7. Special Instructions:

6. Work Assignments:

Objective 6: Identify Possible Assistance Programs

Tactic(s):

1. Continued research being performed by identified state agencies.
2. Assist with questions as needed.
3. *Coordinate with Federal Liaison.*
4. Compile data as received.

7. Special Instructions:

All programs have been given a deadline of Friday January 15, 2016.

Incident

1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage
2. Operational Period from: 01/11/2016 08:00:00to: 01/13/2016 08:00:00

3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

5. Site Safety Plan Required?

Yes ☐ No ☑

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name:	2. Operational Period:	Date From: 01/11/2016	Date To: 01/13/2016
City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC		Time From: 08:00:00	Time To: 08:00:00

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

4. Site Safety Plan Required? Yes ☐ No ☑

ASSIGNMENT LIST (ICS 204)

1. Incident Name:	2. Operational Period:		3. Branch: Recovery Division: Group: Staging Area:
Recovery Branch (Obj 10)- 2015-10-01 City of Flint-Water Contamination/Shortage	Date From: 01/11/2016	Date To: 01/13/2016	
	Time From:08:00:00	Time To: 08:00:00	

4. Operations Personnel:	Name	Contact Number(s)
Operations Section Chief:	Jackie Hampton	
Branch Director:	Brianna Briggs	
Division/Group Supervisor		

5. Resources Assigned:		# of Persons	Contact (e.g., phone, pager, radio, frequency, etc.)	Reporting Location, Special Equipment and Supplies, Remarks, Notes, Information
Resource Identifier	Leader			

6. Work Assignments:

Objective 10: Develop a comprehensive Recovery Plan.

Tactics:
Identify additional subject matter experts to help develop comprehensive Recovery Plan.
Work with the state agencies to identify projected long term impacts.

7. Special Instructions:

8. Communications (radio and/or phone contact numbers needed for this assignment): Name/Function — Primary Contact: Indicate cell, pager, or radio (frequency/system/channel) / / / /
9. Prepared by: Name: Position/Title: Date/Time: 01/10/2016 11:13:27

Mike Sobocinski's notes from the SEOC briefing of January 6, 2015:

Capt. Kelenske: This activation is different from many. Overall goals will include assessing the situation, prioritizing actions, and coordinating between agencies, identifying life-safety issues. SEOC activation hours are currently 8a-5p Mon-Fri. MI CIMS event titled 2015-10-1-City of Flint water contamination/shortage. Maintain activity logs in MI CIMS. Battle order set up for today: IC objectives meeting 10am, assign work tasks 11am IC + general staff, 2pm planning meeting, IAP approved 3pm, Unified command initial meeting 4pm. Governor declared state of emergency. Presidential disaster declaration will not apply here, but an emergency is possible to supplement state efforts. Lead pipe replacement program to be checked into – perhaps by Jen [Boyer?] of MDEQ. GIS mapping to cover filter distribution, home locations, distribution/testing gaps, etc. Nutrition distribution program [correct title?]. More of a long-term recovery style of approach. Goal to restore trust in state government. JIC will be set up.

Dr. Wells (DHHS chief medical executive): Pb as neurotoxin, affecting every system in the body, lowering Fe and Ca. Especially problematic in developing children under age 6, esp if not getting enough Ca, Fe. Standards have become increasingly strict over time, with Pb levels formerly 10ug/dl to warrant action, then lowered to 5ug/dl, and today Pb is treated as having no safe exposure level.

[NOTE: she is referring to blood concentration levels of micrograms per deciliter, not to be confused with water concentrations referred to elsewhere in units of micrograms per liter: ug/l. I'm using u to represent the greek letter mu, symbol for the "micro" prefix]

Health problems from lead include gastric problems, ulcers, anemia, etc. including death. Cognitive & developmental delays, attention & behavioral disorders. Pb sources include gasoline and paint (until the 1970s), pipes (esp. pre-1978 home construction), ammunition and firearms, soils & industrial sites, air pollution (especially in summertime). CLPP "clip" Childhood Lead Prevention Program. Screenings at age 1, age 2. Those who test >5ug/dl (national standard) are evaluated for environmental exposures/causes. Critical action level 45ug/dl – immediate medical treatment, chelation treatment to remove Pb, and investigation of Pb sources in environment. Water concentration does vary seasonally, with temperature and Ph changes. Old cities are targeted areas for higher risk. Virginia Tech independent testing of water. [From her limited description, I was unclear in the end of the relationship between these results and other tests] Elevated Pb levels generally declining, including in Flint, until 3rd quarter of 2014 [fiscal quarter or calendar year???]. Hurley Medical Center deals with the high-risk area in Flint. American Journal of Public Health issue of 2 weeks ago had study published on this topic. Water is not the only source of Pb in the area. An increase was measured in 2 Flint zip codes [485]03 and [485]04 although it didn't reach statistical significance. Need to pin down high-risk areas – Pb levels can and do drop when environmental exposure is reduced. Testing since Oct. 1 [2015], to Dec. 18 [period for specific results; assuming testing still continues after Dec. 18]. Improper water filter use, or non-use (e.g. after Detroit water restored in Flint), has caused problems. Pb has half-life of less than 30 days. Department [hers or in the city of Flint?] surveillance results: 23 children under 6, 7 children age 6+, 13 adults who had blood levels above 5ug/dl. 12 elevated Pb blood level investigations; now including water testing, but Pb in dust, paint, and soil was also found. 1 hospitalized (level in the high

30s of ug/dl). HUD-funded program at the state level [name?] Coordination with Wayne State University and Flint campus of [she had said MSU, but it is likely that it is instead U-M Flint]. Misinformation exists re: questions like whether it's okay to shower or bathe in the water [she provided no answer for her own example – is it okay?]. Much local support exists. Info sent through schools with the children who attend them. SNAF, WIF [double check?] nutritional programs for young children. Would like to test as many young children (under 6) as possible in the city. See MI.gov or Flint Water for information about filters – Home Depot as a partner. MDEQ includes blood Pb level in their testing reports.

Question asked: Are there other substances of concern besides Pb in water? A: yes, bacteria, Cu (esp. for those with Wilson's disease), and "other chemicals." [MDEQ person later fills in a couple of these: total trihalomethanes TTHM and halo-acetic acids HAA5, which both fall under the category of disinfectant by-products DBPs]

George Christian [correct spelling?] of the MDEQ (Flint action plan coordinator): Flint had used the Flint River as a source before 1967, in 1967 switched to use of Detroit Water and Sewer Department DWSD for its water supply. Jan 2006 discussions began with Karegnondi Water Authority KWA. April 17, 2014 [event? Possibly the end of DWSD supply?]. May 2014 city began using Flint River water. Aug-Sept Boil water notices issued in part of the city of Flint, for E. coli and total coliform violations. [NOTE: spoke too quickly for me to accurately catch all of the dates/events he mentioned. People really should provide their info in writing rather than rely upon verbal briefs under distracting SEOC conditions!] Had the Flint River as a back-up supply all along, which is why the facility there was still maintained [paraphrase; didn't catch exact wording]. Late 2014-early 2015 DBPs: HAA5 and TTHM, with carbon as a treatment to remove these compounds. Sequence of tests: first at 6ppb 90th percentile level [he didn't explain this well at all, but normally this would mean that the 90th percentile value is at or above the bottom 90% but of all ranked values in a list]. 2nd round of tests: up to 11ppb, compared to EPA's action level of 15ppb. Corrosion control treatment [a means of reducing lead concentrations in the water]. There were also issues reported involving the color, odor, and taste of Flint water. Virginia Tech Pb testing Sept 5 [?], 2015, with Pb advisory issued by Flint. Fall 2015 schools testing and actions required. Some fixtures and fountains above 100ppb. 4 samples per sampling point, after different flush times, 10 consecutive 1liter samples, 200-300 samples total per facility [math not exact; must be estimates], Info placed into spreadsheets and reports. Oct. 15 Flint switched back to DWSD water. Dec. 9, 2015 supplemental phosphate [PO$_4$] addition began. Use of erosion controls do slow but do not stop the leaching process (of lead into the water). Any resident of Flint can obtain a bottle and take water samples in for testing; results posted online. Water filters are available for free. Overall slight downward Pb trend, but some values are well over 100ppb. One child care facility measured at 2500ppb. No historical test results there [in schools?] to compare with, but some historical data exists elsewhere to compare. [No mention of the comparisons themselves!] Not a problem only of Flint's, increasing recognition of problem more broadly. "Low-lead brass fixtures" could still have as much as 8% lead. [not sure whether he said this or Dr. Wells]

Dr. Wells: Excavation and manipulation of lead lines tends to exacerbate particulate levels.\

Capt. K: Everyone review the MEMP to look for relevant information. All info to go out through PIOs (except for internal coordination and calculations).

Richard [Thelen?] of DHHS: allocation to buy water and filters, 2 pick-up locations in Genesee – free filters [locations not specified, are they at DHHS offices?]. Water purchases from South Carolina.

Brad [Deacon?] of MDARD: Food services, processing, and restaurants are also of interest. Lead affects animals as it does humans, so companion animals may be affected.

??? of the Dept of Education? "DEA" or "DoA"? [people were not introduced properly!] said something about school meals.

ARC not yet involved at this point.

LARA helped DEQ with testing. Flint & Genesee oversee their won plumbing but lack inspectors – need assist from state (Capt: or through EMAC use)

Terrace Room to be used as initial JIC, with PIOs there.

Governor's Representative [name?]: pending lawsuit against governor, potential lawsuit under Safe Drinking Water Act. Everyone do your jobs, but take care, remembering litigation potential.

MDOT [Eileen Phifer?]: Many pipes are under roads and so coordination would be good; shared objectives probably exist w MDOT, EPA, etc.

Lt. BJ Roach, MSP: Genesee Co. Public Health Dept, GCARP [??] (public assistance forum) are involved: water distribution, filter distribution, education, Pb testing clinics (coordinated with DHHS), United Way, Flint Health Dept. Over 23K filters and replacement cartridges provided so far. County GIS getting under way – coord w MSP GIS?

Capt K: submit action items to Tom Weber for IAP. Everyone stay until noon and review MEMP, then to decide whether needed after lunch today.

Tony: Required agencies already known to be needed to stay: MDEQ, DHHS, Education, Talent & Economic Growth, MDTMB, MDARD.

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident management as described in the Genesee County Emergency Action Guidelines (September 2015)

MSP/EMHSD Publication 201a, Review Guide for Local Emergency Operations Plans and Emergency Action Guidelines, establishes 67 requirements for the development of Emergency Operations Plans by local emergency management programs in the State of Michigan. Pub 201a item #23 requires emergency management programs to establish a "method for coordination and control (e.g., Incident Command System (ICS)) of multijurisdictional emergency response organizations during an incident" in their plan.

The Genesee County Emergency Action Guidelines address this requirement on page 4 of the plan by stating that County EOC staff must be aware of ICS and NIMS. Also, page 43 of Appendix II to the plan describes a system of functional disciplines to provide a coordinated response and recovery system for the jurisdiction, using a "Functional structure to organize in accordance with the NIMS concepts."

In addition, Appendix I to the plan provides a brief overview of the ICS organization and concepts. Appendix II describes the NIMS, and ICS as a component of NIMS.

The functional annexes of the plan mirror the functional disciplines listed on page 43 in Appendix II. Each annex names a section holder and line of succession for the representation of the functional discipline at the EOC during emergency response. However, while the plan requires EOC staff to be familiar with ICS concepts (see above), the plan does not designate specific personnel to serve in Command and General Staff roles when ICS is used during incident response.

In summary:

1. Local emergency management programs are required to establish an incident management system (e.g., ICS) in their Emergency Operations Plan, per Pub 201a, item #23.
2. The Genesee County EAG does so by stating that EOC staff must be aware of ICS and NIMS principles, and that the functional disciplines represented in the EOC will organize in a functional structure "in accordance with NIMS concepts."
3. 11 functional annexes to the plan designate section holders that will represent their functional discipline in the EOC during incident response.
4. No specific personnel is designated in the plan to fill ICS Command and General Staff roles during incident response.

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

PROCLAMATION

DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the Great Seal of the State of Michigan this 5th day of January in the Year of Our Lord, Two Thousand and Sixteen.

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

FILED WITH SECRETARY OF STATE
ON 1/5/16 AT 4:00pm

Flint Water Emergency, SEOC Agency briefing, 06/01/2016

SEOC:
The State Emergency Operations Center will provide:

- Situational awareness
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures
- Provide resources
- Public Information Control

Agencies represented in the SEOC will need to:

- Determine what federal agencies are already involved.
- Establish the ICS Planning Cycle/"Planning P".
- Identify potential water supplies.
- Identify existing lead pipe replacement programs (DEQ).
- Determine where affected homes are located, filters were installed, areas that need filters, etc. *(EMHSD GIS)*
- Determine how filter distribution is handled, and if it can be handled more efficiently (EMHSD GIS).
- Determine which mechanisms are in place for nutrition supplementation.

MSP/EMHSD:

MSP/EMHSD will need to facilitate a streamlined communications process, coordinate recovery efforts and provide resources from the SEOC.

A Presidential Declaration of a disaster would only be applicable to natural events.
There is a small possibility of a Presidential Emergency Declaration. In that case, federal efforts would only supplement efforts of state and local officials.

Chief Medical Executive, Dr. Wells/MDHHS:
MDHHS describes this incident as an environmental event - lead is a neurotoxin.
Children are of particular concern, as lead exposure has negative effects on their developing brains, especially if the children are not well-nutrioned.
Short-term health effects of elevated blood lead levels include ulcers, comas, seizures, up to death.
Long-term effects on children include developmental delays, cognitive delays (lowering IQ curve), attention and behavioral disorders.
Action levels for blood lead levels in children have been lowered from 10mg/deciliter to 5mg/deciliter. However, it has to be noted that there are no safe blood levels, especially for children. If a child reaches the action level of 5mg/deciliter, MDHHS investigates their immediate environment to identify sources of lead exposure, and work to remove them. If an action level of 45mg/deciliter is reached, immediate medical attention is needed.

MDHHS coordination the CLIP Child Lead prevention program,
Children get screened at ages 1 and 2 for lead exposure, need at least one test before age of 6
For example, WIC clinics do testing – if elevated levels, child is followed up on – evaluate what is the exposure in their environment (older home, parent's occupation/hobbies, etc.)

Targeted cities in MI (urban areas, older homes), every child is screened
Late September: concern about water testing by VA Tech expert raised by MDHHS,
Started to look at blood levels through Medicaid/medicare clinic
Elevated blood lead levels in Flint detected (contrast to trend of declining levels), since 3rd quarter 2014
Concern – might be attributable to change of water source
MDHHS confirmed 18% increase in 2 Flint zip codes for children starting October 2014 (not statistically significant, but increase against prior trends)
Children in Flint – most likely not optimal access to nutrition and healthcare

MDHHS trying to identify down to household level where are dangerous areas
MDHHS can't confirm if due to water, but can state that it coincides with water timeline
MDHHS is doing advanced testing

If source of lead can be removed, blood level will be lowered
That means: even if Flint children now have lover levels, we don't know if they were exposed in the past

MDHHS treats everybody that used Flint Water as exposed population
Impacts are unknown, long-term issues possible

Since Oct. 1, one child hospitalized with level over 30
No deaths

12 elevated blood level investigations by MDHHS – going into homes, talking to parents – now includes testing of drinking water (never done before), 2 homes with lead detected in tab water

Genesee County case management: 181 attempted contacts of children with elevated lead levels, 109 were offered case management, started with 24 children 0-5, 2 6-17 years

MDHHS Water filter distribution:
Water filters and pitches have been distributed between 10/1/15 and 12/31/15,
1500 replacement cartridges distributed
Info on filter use on Michigan.gov/flintwater

Pop: ca. 100,000

Health communication:
Need information/outreach/education

SNAP/WIC education should be facilitated (nutrition)
Targeting homes with high water lead levels

There might still be people unaware of situation

Other contaminants a concern? According to MDHHS testing – currently not

Mitigation of long-term effects: how can we reduce long-term health effects – nutrition, less exposure going forward, maximizing social/educational/parental support

EPA has plans/programs on how to address infrastructure issues

MDEQ:
George Christian, Flint Action Plan Coordinator for DEQ

Until 1967 – Flint River primary water source, than went to Detroit water
Flint kept Flint River and treatment center as backup, quarterly operational testing (but water did not go into distribution system, so no indication of issues at tests)

April 17, 2014 termination date from Detroit water,
Flint wanted to use Flint river as water source and notified DEQ,
Started using in April 2014

Boiled water advisory issued by city in August/September 2014
Late 2014, disinfection byproducts detected – filtering needed (carbon)

DEQ ordered two six month testing for corrosion, (first 6 months: 6 parts per billion; second: 11 – EPA action level: 15)
90th percentile rankings, DEQ ordered city to implement corrosion control

After water switch, complaints over water quality.
Increase of blood lead levels found, researchers attributed to increase in water lead levels

Do not drink advisory from Genesee County Health advisory on Oct. 1

Oct. 16, Flint switched back to Detroit Water (plus phosphate addition)
Oct. 24, DEQ and Lara did plumbing evaluations at schools:
Primary sources faucets, fountainheads, etc.
Levels of over 100 parts per billion

Significant portion of fixtures will need to be replaced to get below EPA action level of 15

Primary sources:
Older fixtures, pipes in homes, lead service lines

Optimized corrosion control – sources can still leach into water, corrosion control slows, but does not stop leaching progress

Recommend that citizens continue to use filters

DEQ implemented resident lead testing program, get bottle + paperwork and can send in sample through city of flint to DEQ for analysis

Data shows slight downward trends in lead concentration, but:
Still areas of concern where levels go over 100 parts per billion (example - one childcare facility: 2500ppb!)

MDARD:
Food service, food processing
Restaurants can't use tab water
Guidance was published in October

Another concern: companion animals

MDofEducation:
Healthy, Hunger-free Kids act – potable water has to be served,
Currently, waiver
Drinking fountains not used, etc.

ARC:
Not currently involved, encouraged volunteers to make themselves availbale to other voads

LARA:
Helped with testing/DEQ,
Potential issue: Genesee/Flint oversee plumbing, do inspections for new piping, but have no plumbing inspectors

PIO:
Will strategize at Terrace Room, how to effectively message during incident

AG:
Pending lawsuit against governor, state employees, city officials
Potential lawsuit under safe drinking water act

DC/Lt. Roach:
Lead clinics – education and testing of children – have been provided
Water purchased
Over 24,000 filters and replacement cartridges distributed

Damage assessment process has started locally – identify lead lines (use assessor's info, etc.)

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A "public health emergency" was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels that exceeded past seasonal levels were observed in City of Flint children, and were subsequently confirmed by Michigan Department of Health and Human Services (MDHHS) epidemiologists.

To mitigate the effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the MDHHS in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, is addressing water issues in the environmental investigations facilitated to identify lead sources in the environment of affected children, and providing health education and information to residents, health care providers and daycare/educational institutions.. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Declarations:

Genesee County, Public Health Emergency, 10/01/2015

City of Flint, Declaration of State of Emergency, 12/15/2015

Genesee County, Declaration of State of Emergency, 01/04/2016

State Declarations

State of Michigan, Declaration of Emergency for parts of the City of Flint, within the County of Genesee, 01/05/2016

Weather conditions:

This Afternoon
Mostly sunny, with a high near 34. South southwest wind 6 to 8 mph.
Tonight
Mostly cloudy, with a low around 24. South wind 6 to 9 mph.
Thursday
Partly sunny, with a high near 36. South southeast wind around 6 mph.
Thursday Night
Mostly cloudy, with a low around 31. South southeast wind around 7 mph.
Friday
Showers likely, mainly after 1pm. Cloudy, with a high near 40. Southeast wind around 9 mph. Chance of precipitation is 60%. New precipitation amounts between a tenth and quarter of an inch possible.
Friday Night
Showers likely. Cloudy, with a low around 36. Chance of precipitation is 60%.

River warnings

Rivers in the affected area are below flood stage.

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels that exceeded past seasonal levels were observed in ~~a significant sampling of young children in~~ the City of Flint children, and these were subsequently confirmed by the ~~State Chief Medical Officer~~Michigan Department of Health and Human Services (MDHHS) epidemiologists.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the ~~Michigan Department of Health and Human Services~~MDHHS ~~(MDHHS)~~ in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, is addressinges water issues in the environmental investigations facilitated to identify lead sources in the environment of affected children, and providinge health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to the DWSD~~drops in lead levels have been observed since reconnecting to the DWSD system~~, water in the City of Flint is still not safe to drink, unless specifically filtered.

Flint Water Emergency, SEOC Agency briefing, 06/01/2016

SEOC:
The State Emergency Operations Center will provide:

- *Situational awareness*
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures
- Provide resources
- Public Information Control

Agencies represented in the SEOC will need to:

- Determine what federal agencies are already involved.
- Establish the ICS Planning Cycle/"Planning P".
- Identify potential water supplies.
- Identify existing lead pipe replacement programs (DEQ).
- Determine where affected homes are located, filters were installed, areas that need filters, etc. (EMHSD GIS)
- Determine how filter distribution is handled, and if it can be handled more efficiently (EMHSD GIS).
- Determine which mechanisms are in place for nutrition supplementation.

MSP/EMHSD:

MSP/EMHSD will need to facilitate a streamlined communications process, coordinate recovery efforts and provide resources from the SEOC.

A Presidential Declaration of a disaster would only be applicable to natural events.
There is a small possibility of a Presidential Emergency Declaration. In that case, federal efforts would only supplement efforts of state and local officials.

Chief Medical Executive, Dr. Wells/MDHHS:
MDHHS describes this incident as an environmental event - lead is a neurotoxin.
Children are of particular concern, as lead exposure has negative effects on their developing brains, especially if the children are not well-nutrioned.
Short-term health effects of elevated blood lead levels include ulcers, comas, seizures, up to death.
Long-term effects on children include developmental delays, cognitive delays (lowering IQ curve), attention and behavioral disorders.
Action levels for blood lead levels in children have been lowered from 10mg/deciliter to 5mg/deciliter. However, it has to be noted that there are no safe blood levels, especially for children. If a child reaches the action level of 5mg/deciliter, MDHHS investigates their immediate environment to identify sources of lead exposure, and work to remove them. If an action level of 45mg/deciliter is reached, immediate medical attention is needed.

MDHHS coordination the CLIP Child Lead prevention program,
Children get screened at ages 1 and 2 for lead exposure, need at least one test before age of 6
For example, WIC clinics do testing – if elevated levels, child is followed up on – evaluate what is the exposure in their environment (older home, parent's occupation/hobbies, etc.)

Targeted cities in MI (urban areas, older homes), every child is screened
Late September: concern about water testing by VA Tech expert raised by MDHHS,
Started to look at blood levels through Medicaid/medicare clinic
Elevated blood lead levels in Flint detected (contrast to trend of declining levels), since 3rd quarter 2014
Concern – might be attributable to change of water source
MDHHS confirmed 18% increase in 2 Flint zip codes for children starting October 2014 (not statistically significant, but increase against prior trends)
Children in Flint – most likely not optimal access to nutrition and healthcare

MDHHS trying to identify down to household level where are dangerous areas
MDHHS can't confirm if due to water, but can state that it coincides with water timeline
MDHHS is doing advanced testing

If source of lead can be removed, blood level will be lowered
That means: even if Flint children now have lover levels, we don't know if they were exposed in the past

MDHHS treats everybody that used Flint Water as exposed population
Impacts are unknown, long-term issues possible

Since Oct. 1, one child hospitalized with level over 30
No deaths

12 elevated blood level investigations by MDHHS – going into homes, talking to parents – now includes testing of drinking water (never done before), 2 homes with lead detected in tab water

Genesee County case management: 181 attempted contacts of children with elevated lead levels, 109 were offered case management, started with 24 children 0-5, 2 6-17 years

MDHHS Water filter distribution:
Water filters and pitches have been distributed between 10/1/15 and 12/31/15,
1500 replacement cartridges distributed
Info on filter use on Michigan.gov/flintwater

Pop: ca. 100,000

Health communication:
Need information/outreach/education

SNAP/WIC education should be facilitated (nutrition)
Targeting homes with high water lead levels

There might still be people unaware of situation

Other contaminants a concern? According to MDHHS testing – currently not

Mitigation of long-term effects: how can we reduce long-term health effects – nutrition, less exposure going forward, maximizing social/educational/parental support

EPA has plans/programs on how to address infrastructure issues

MDEQ:
George Christian, Flint Action Plan Coordinator for DEQ

Until 1967 – Flint River primary water source, than went to Detroit water
Flint kept Flint River and treatment center as backup, quarterly operational testing (but water did not go into distribution system, so no indication of issues at tests)

April 17, 2014 termination date from Detroit water,
Flint wanted to use Flint river as water source and notified DEQ,
Started using in April 2014

Boiled water advisory issued by city in August/September 2014
Late 2014, disinfection byproducts detected – filtering needed (carbon)

DEQ ordered two six month testing for corrosion, (first 6 months: 6 parts per billion; second: 11 – EPA action level: 15)
90th percentile rankings, DEQ ordered city to implement corrosion control

After water switch, complaints over water quality.
Increase of blood lead levels found, researchers attributed to increase in water lead levels

Do not drink advisory from Genesee County Health advisory on Oct. 1

Oct. 16, Flint switched back to Detroit Water (plus phosphate addition)
Oct. 24, DEQ and Lara did plumbing evaluations at schools:
Primary sources faucets, fountainheads, etc.
Levels of over 100 parts per billion

Significant portion of fixtures will need to be replaced to get below EPA action level of 15

Primary sources:
Older fixtures, pipes in homes, lead service lines

Optimized corrosion control – sources can still leach into water, corrosion control slows, but does not stop leaching progress

Recommend that citizens continue to use filters

DEQ implemented resident lead testing program, get bottle + paperwork and can send in sample through city of flint to DEQ for analysis

Data shows slight downward trends in lead concentration, but:
Still areas of concern where levels go over 100 parts per billion (example - one childcare facility: 2500ppb!)

MDARD:
Food service, food processing
Restaurants can't use tab water
Guidance was published in October

Another concern: companion animals

MDofEducation:
Healthy, Hunger-free Kids act – potable water has to be served,
Currently, waiver
Drinking fountains not used, etc.

ARC:
Not currently involved, encouraged volunteers to make themselves availbale to other voads

LARA:
Helped with testing/DEQ,
Potential issue: Genesee/Flint oversee plumbing, do inspections for new piping, but have no plumbing inspectors

PIO:
Will strategize at Terrace Room, how to effectively message during incident

AG:
Pending lawsuit against governor, state employees, city officials
Potential lawsuit under safe drinking water act

DC/Lt. Roach:
Lead clinics – education and testing of children – have been provided
Water purchased
Over 24,000 filters and replacement cartridges distributed

Damage assessment process has started locally – identify lead lines (use assessor's info, etc.)

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Mike Sobocinski's notes from the SEOC briefing of January 6, 2015:

Capt. Kelenske: This activation is different from many. Overall goals will include assessing the situation, prioritizing actions, and coordinating between agencies, identifying life-safety issues. SEOC activation hours are currently 8a-5p Mon-Fri. MI CIMS event titled 2015-10-1-City of Flint water contamination/shortage. Maintain activity logs in MI CIMS. Battle order set up for today: IC objectives meeting 10am, assign work tasks 11am IC + general staff, 2pm planning meeting, IAP approved 3pm, Unified command initial meeting 4pm. Governor declared state of emergency. Presidential disaster declaration will not apply here, but an emergency is possible to supplement state efforts. Lead pipe replacement program to be checked into – perhaps by Jen [Boyer?] of MDEQ. GIS mapping to cover filter distribution, home locations, distribution/testing gaps, etc. Nutrition distribution program [correct title?]. More of a long-term recovery style of approach. Goal to restore trust in state government. JIC will be set up.

Dr. Wells (DHHS chief medical executive): Pb as neurotoxin, affecting every system in the body, lowering Fe and Ca. Especially problematic in developing children under age 6, esp if not getting enough Ca, Fe. Standards have become increasingly strict over time, with Pb levels formerly 10ug/dl to warrant action, then lowered to 5ug/dl, and today Pb is treated as having no safe exposure level.

[NOTE: she is referring to blood concentration levels of micrograms per deciliter, not to be confused with water concentrations referred to elsewhere in units of micrograms per liter: ug/l. I'm using u to represent the greek letter mu, symbol for the "micro" prefix]

Health problems from lead include gastric problems, ulcers, anemia, etc. including death. Cognitive & developmental delays, attention & behavioral disorders. Pb sources include gasoline and paint (until the 1970s), pipes (esp. pre-1978 home construction), ammunition and firearms, soils & industrial sites, air pollution (especially in summertime). CLPP "clip" Childhood Lead Prevention Program. Screenings at age 1, age 2. Those who test >5ug/dl (national standard) are evaluated for environmental exposures/causes. Critical action level 45ug/dl – immediate medical treatment, chelation treatment to remove Pb, and investigation of Pb sources in environment. Water concentration does vary seasonally, with temperature and Ph changes. Old cities are targeted areas for higher risk. Virginia Tech independent testing of water. [From her limited description, I was unclear in the end of the relationship between these results and other tests.] Elevated Pb levels generally declining, including in Flint, until 3rd quarter of 2014 [fiscal quarter or calendar year???]. Hurley Medical Center deals with the high-risk area in Flint. American Journal of Public Health issue of 2 weeks ago had study published on this topic. Water is not the only source of Pb in the area. An increase was measured in 2 Flint zip codes [485]03 and [485]04 although it didn't reach statistical significance. Need to pin down high-risk areas – Pb levels can and do drop when environmental exposure is reduced. Testing since Oct. 1 [2015], to Dec. 18 [period for specific results, assuming testing still continues after Dec. 18?]. Improper water filter use, or non-use (e.g. after Detroit water restored in Flint), has caused problems. Pb has half-life of less than 30 days. Department [hers or in the city of Flint?] surveillance results: 23 children under 6, 7 children age 6+, 13 adults who had blood levels above 5ug/dl. 12 elevated Pb blood level investigations; now including water testing, but Pb in dust, paint, and soil was also found. 1 hospitalized (level in the high

30s of ug/dl). HUD-funded program at the state level [name?] Coordination with Wayne State University and Flint campus of [she had said MSU, but it is likely that it is instead U-M Flint]. Misinformation exists re: questions like whether it's okay to shower or bathe in the water [she provided no answer for her own example – is it okay?]. Much local support exists. Info sent through schools with the children who attend them. SNAF, WIF [double check?] nutritional programs for young children. Would like to test as many young children (under 6) as possible in the city. See MI.gov or Flint Water for information about filters – Home Depot as a partner. MDEQ includes blood Pb level in their testing reports.

Question asked: Are there other substances of concern besides Pb in water? A: yes, bacteria, Cu (esp. for those with Wilson's disease), and "other chemicals." [MDEQ person later fills in a couple of these: total trihalomethanes TTHM and halo-acetic acids HAA5, which both fall under the category of disinfectant by-products DBPs]

George Christian [correct spelling?] of the MDEQ (Flint action plan coordinator): Flint had used the Flint River as a source before 1967, in 1967 switched to use of Detroit Water and Sewer Department DWSD for its water supply. Jan 2006 discussions began with Karegnondi Water Authority KWA. April 17, 2014 [event? Possibly the end of DWSD supply?]. May 2014 city began using Flint River water. Aug-Sept Boil water notices issued in part of the city of Flint, for E. coli and total coliform violations. [NOTE: spoke too quickly for me to accurately catch all of the dates/events he mentioned. People really should provide their info in writing rather than rely upon verbal briefs under distracting SEOC conditions!] Had the Flint River as a back-up supply all along, which is why the facility there was still maintained [paraphrase; didn't catch exact wording]. Late 2014-early 2015 DBPs: HAA5 and TTHM, with carbon as a treatment to remove these compounds. Sequence of tests: first at 6ppb 90th percentile level [he didn't explain this well at all, but normally this would mean that the 90th percentile value is at or above the bottom 90% but of all ranked values in a list]. 2nd round of tests: up to 11ppb, compared to EPA's action level of 15ppb. Corrosion control treatment [a means of reducing lead concentrations in the water]. There were also issues reported involving the color, odor, and taste of Flint water. Virginia Tech Pb testing Sept 5 [?], 2015, with Pb advisory issued by Flint. Fall 2015 schools testing and actions required. Some fixtures and fountains above 100ppb. 4 samples per sampling point, after different flush times, 10 consecutive 1liter samples, 200-300 samples total per facility [math not exact; must be estimates], Info placed into spreadsheets and reports. Oct. 15 Flint switched back to DWSD water. Dec. 9, 2015 supplemental phosphate [PO_4] addition began. Use of erosion controls do slow but do not stop the leaching process (of lead into the water). Any resident of Flint can obtain a bottle and take water samples in for testing; results posted online. Water filters are available for free. Overall slight downward Pb trend, but some values are well over 100ppb. One child care facility measured at 2500ppb. No historical test results there [in schools?] to compare with, but some historical data exists elsewhere to compare. [No mention of the comparisons themselves!] Not a problem only of Flint's, increasing recognition of problem more broadly. "Low-lead brass fixtures" could still have as much as 8% lead. [not sure whether he said this or Dr. Wells]

Dr. Wells: Excavation and manipulation of lead lines tends to exacerbate particulate levels.\

Capt. K: Everyone review the MEMP to look for relevant information. All info to go out through PIOs (except for internal coordination and calculations).

Richard [Thelen?] of DHHS: allocation to buy water and filters, 2 pick-up locations in Genesee – free filters [locations not specified, are they at DHHS offices?]. Water purchases from South Carolina.

Brad [Deacon?] of MDARD: Food services, processing, and restaurants are also of interest. Lead affects animals as it does humans, so companion animals may be affected.

??? of the Dept of Education? "DEA" or "DoA"? [people were not introduced properly!] said something about school meals.

ARC not yet involved at this point.

LARA helped DEQ with testing. Flint & Genesee oversee their won plumbing but lack inspectors – need assist from state (Capt: or through EMAC use)

Terrace Room to be used as initial JIC, with PIOs there.

Governor's Representative [name?]: pending lawsuit against governor, potential lawsuit under Safe Drinking Water Act. Everyone do your jobs, but take care, remembering litigation potential.

MDOT [Eileen Phifer?]: Many pipes are under roads and so coordination would be good; shared objectives probably exist w MDOT, EPA, etc.

Lt. BJ Roach, MSP: Genesee Co. Public Health Dept, GCARP [??] (public assistance forum) are involved: water distribution, filter distribution, education, Pb testing clinics (coordinated with DHHS), United Way, Flint Health Dept. Over 23K filters and replacement cartridges provided so far. County GIS getting under way – coord w MSP GIS?

Capt K: submit action items to Tom Weber for IAP. Everyone stay until noon and review MEMP, then to decide whether needed after lunch today.

Tony: Required agencies already known to be needed to stay: MDEQ, DHHS, Education, Talent & Economic Growth, MDTMB, MDARD.

Sorry, I did not see this earlier. It looks like there was a 100 case math error during the 1000-1100 hour today. Based on the math it appears that the Total ON-HAND is 100 more than it should be.

Can you please confirm the correct Total ON-HAND amount.

Thanks
Sam

Subject: Brita info for FEMA

Hey Kim

This is still from the other day. FEMA is not looking for the instructions for installing the Brita Faucet Filter. I am not sure what else you have on the Brita question from FEMA, but there was a misunderstanding. FEMA is looking for the information of what parts per billion (ppb) lead the filters can remove.

The below are some links from mi.gov/flintwater.

- Free Filters are NSF International-Approved to Remove Lead

http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf

http://www.nsf.org/consumer-resources/what-is-nsf-certification/water-filters-treatment-certification/contaminant-reduction-claims-guide

It sounds like there is something more clear that is being looked for. The information does not clearly indicate the ppb lead removal. I do not know if Capt. or someone sent anything to OPS or not. Hopefully there is something that will clarify this request more.

Thanks
Sam

Thank you for the report. There does not appear to be any formulas in the report and because of this the math appears to be wrong. The report shows 1,880 remaining in water cases at the end of the day however the math shows that there is 1,526 remaining. Please confirm what the correct ending inventory amount is.

Thanks

Subject: Updated Residential Parcel Statistics

AS OF **February 7, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,876** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38,029 (97.8)** of the parcels have been engaged as part of response efforts
- **29,492 (75.8%)** of the parcels have been confirmed have some form of filter
- **11,883 (30.6%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26812** residential parcels that have the ability to use the Flint Water System. Of these:

- **26542 (99.0%)** of of the parcels have been engaged as part of response efforts
- **23387 (87.2%)** of the parcels have been confirmed have some form of filter
- **10448 (39.1)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Subject: RE: Flint Fire Station #1 Inventory Report / 1600 (with corrections for 1400)

They were delivered here, intended for the fire station. They had a request form with them from "Flint Water Response Team", for 5 cases of lead test kits. I am assuming that they are for distribution, by the fire station personnel. The lead test kits were transferred to Rico Phillips, the Quartermaster for Fire Station #1.

Hi Ben

Please find attached the spreadsheet named "National Guard Reporting FD PODs 2016-01-31_hard data". This is yesterday's sheet where the majority of the information is inputted into for the nightly reports. Also is attached a check sheet for where the other information is acquired. The remaining other data is provided by other state agencies or staff in the SEOC.

I am not sure if you are still in the SEOC or not, so that we can discuss if needed. Please let me know if you have any questions.

Thanks

Privileged Communication: Internal Pre-Decisional Analysis

Hi – would it be possible to get the updated objectives? This way we can update the FCO talking points.

Thank you. ☺

Deborah (Deb) Fulk

Can you please confirm the inventory numbers? It appears that there is not a formula that is being used in the Station 8 inventory tracking sheet. There appears to be a discrepancy in the total amount indicated on the sheet and the amount if it had calculated.

Thanks
Sam

Subject: RE: PODd count

Sir,

The PODs can hold the following amounts of pallets.

POD1: 22
POD3: 29
POD5: 30
POD6: 25
POD8: 35

Those are numbers of pallets they can hold. Just have to consider the fact that most PODs are operating with 5-10 of their pallets containing Filter/Cartridges/Test Kits.

Subject: PODd count

LT Roland,

Just a heads up, LT Benke is going to have the PODs determine what their maximum capacity of water is inside. The planners here can then determine when to have the warehouse ship water when that trigger inventory is reached.

Also, the planners wanted to know if the PODs were getting topped off at night; LT Benke affirmed, but it wasn't to max capacity.
Thanks,

Subject: Roughed forklifts

Hi Brent

FYI...I suggested these forklifts 2 weeks ago when I found out that we were going to get a warehouse with only one loading dock, since they can unload a semi without the need for a dock. I am assuming that there are other doors, since there were vehicles being stored inside, which could be used with these forklifts. The only concern would be that since the owner will only let his guys unload, there may not be enough staff. Maybe now that your team is running the warehouse, these can be a possibility.

Subject: Re: Sample Information from DEQ

Capt.,
Thanks for the report. I think the "432"samples ≤ 5ppb is a typo...see below:

"Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)"

Best,
Harvey

>
> Status on Governor's request letter to the President:
>
> * *Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.*
> * Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
>
> Key items for tomorrow to note are:
> · We will have National Guard/state/local agency, type 3 teams
> · We will have 40 ARC, type 5 teams (2-4 personnel).
>
> Items to Note
> · Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
> · Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
> · SEOC Logistics worked on future resource planning and a local business commodity supply plan.
> · Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
> · Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
> · *Information reported to the JIC:*

> * Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)
>
> Status on Governor's request letter to the President:
>
> * Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
> * Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
>
> Key items for tomorrow to note are:
> · National Guard/State/Local) type 3 teams
> · 40 ARC (2-4 folks) type 5 teams
> · Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
> · I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
> · Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
> · Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.
>
> Items to Note
> · Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
> · SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
> · SEOC Planning worked on the further development of long term strategy.
> · Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
> · SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
> · Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
> · Have received numerous inquiries from celebrities on how they can assist and donate.
> · We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
> o 26,673 water subscribers in Flint (not including franchise).
> § Water Subscribers with a Filter = 15,399 (57.7%)
> § Water Subscribers without a Filter = 11,274 (42.2%)
> · With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
> o 11,471 Non-Water Subscribers in Flint.
> § Non Water Subscribers with a Filter = 2,196 (19%)
> § Non Water Subscribers without a Filter = 9,275 (81%)
> o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
> · SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
> · Information reported to the JIC:

> Local EOC

> Operations:
> • Worked to identify all vulnerable populations to help streamline Hot Shot process.
> • Working on plan for church water distribution and POD locations.
> • Looking at possible alternative locations for PODs in difficult traffic areas.
> o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
> • Coordinated water donations and delivery areas.
> • Last minute large donations of water and volunteers expected during the weekend.
> • Working on finalizing a recycling plan for the incident.
> • The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
> • Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
> • Team Rubicon is coming tomorrow to assist with home deliveries.
> • Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · *Receive, store and increase quantities of supplies*
> · Increase efficiency of warehouse operations
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
> · Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
> · Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
> · Work with HHS personnel to ensure they have all items needed for operations
>
> Attached Documents:
>
> * SitRep 16
> * Draft Water Operations Plan for moving to next phases (Discussion document)
> * Resident Water Sample Results Map (Not for public distribution)
> * January 13-19 comparison map
>
> Status on Governor's request letter to the President
>
> * Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
> * Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
> o We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
>
> Items to Note
> · We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
> · The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
> · The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
> · We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
> · FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
> · Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · SEOC logistics worked to project future orders of water resources and commodities.
> · Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
> · DEQ test kits are only being provided to those who ask for them.
> · I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
> · MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
> · A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
> · MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
> · Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
> · Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
> · Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

>
> * Emergency declaration received.
>
> Key items for tomorrow to note are:
> · Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have . ; National Guard (MSP supported), type 3 teams), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
> · A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
> · DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.
>
> Items to Note
> · Deployed . state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
> · MSP and local Sheriff's Department continue to provide over watch for WRTs.
> · Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
> · *News release sent from Governor's office about the appeal to the President of the disaster declaration.*
> · SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>
> · SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
> · Meeting held with Dr. Luri from HHS.
> · Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
> · End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
> · Additional 5 person NG team for warehouse support approved.
> · Information reported to the JIC:
>
> o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

> Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs) and PODs
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
> · Complete appeal for Presidential Major Disaster Declaration denial.
>
> Attached Documents:
>
> * SitRep 13
> * Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.
>
> Status on Governor's request letter to the President:
>
> * Appeal in process.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have ! state/local agency, type 3 teams ! , with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o NG will be bringing in personnel to prep for surge.
>
> Items to Note
> · Beginning tomorrow the operational periods will be 7 days long.
> · The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
> · An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
> · Deployed . : state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · DTMB is working to secure space in Flint for FEMA staff.
> · Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
> · ARC news release concerning the Volunteer Reception Center (VRC) sent out today.

> · Media availability conducted today at 3pm at the VRC.
> · Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
> · Information reported to the JIC:
>
> o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)
>
>
> 1. 21,393 homes visited by the FWRTs to date.
>
> 2. Distributed:
> a. Number of cases of water 37,313
> b. Filters 53,713
> c. Filter cartridges 169,520
> d. Test kits 7,379
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 82,992 (additional 16,056 donated)
> b. Filters 115,700
> c. Filter cartridges 243,200
> d. Test kits 61,161
>
> 5. Teams going out tomorrow:
> a. State [illegible]) type 3 teams---Goal tomorrow 300 homes per team
> b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
>
> Local EOC
> Operations:
> • Continuing to work with faith based organization to distribute resources.
> • Working with colleges to obtain volunteers for canvassing.

>
> Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:

> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration
>
> Attached Documents:
>
> * SitRep 11
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
> * The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.
>
> Key items for tomorrow to note:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have state agency, type 3 teams , with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · I will be back on duty Sunday.
> · We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
> · A logistics briefing will be provided to see how many more teams we can put in the field.
>
> Items to Note
> · LT Gov visited the local EOC today; discussed local EOC operations.
> · Deployed state teams and 10 ARC Flint Water Response Teams to the field today.
> · DEQ sampling kits are now being received at the PODs.
> · DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
> · The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
> · NG will have a total of personnel in the PODs for distribution. Mission has not changed.
> o NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
> · Information reported to the JIC:
>
> o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).
>
> 2. Distributed:
> a. Number of cases of water 20,876
> b. Filters 47,935
> c. Filter cartridges 167,401

> d. Test kits 3,322
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)

> Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Pilot the logistics plan and adjust as needed
> · Continue with door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency
>
> Attached Documents:
>

> * SitRep 10
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
> * When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. *This has helped in the past.*
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have state agency, type 3 teams , with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
> · I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.
>
> Items to Note
> · LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
> · Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
> · Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
> · Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
>
> o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.
>
> 2. Distributed:
> a. Number of cases of water 18,576
> b. Filters 45,916
> c. Filter cartridges 165,382
> d. Test kits 3,217
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 44,688 (additional 12,884 donated)
> b. Filters 78,520
> c. Filter cartridges 163,081
> d. Test kits 18,761
>
> 5. Teams going out tomorrow:
> a. State (type 3 teams---Goal tomorrow 300 homes per team

> b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
>
> Local EOC
>
> Home Deliveries:
>
> * Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.
>
> Operations:
>
> * We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
> * Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
> * Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
> * Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

>
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
> · Continue with door to door teams and finalize planning for future team use
> · Submit request for a Presidential Declaration of a Major Disaster and Emergency
> · Continue to work on long term recovery items (DHHS, DEQ, MDARD)
>
> Attached Documents:
>
> * SitRep 9
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.
>

> Key items for tomorrow to note are:
> · The door to door teams will continue in the morning.
> · We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
> · ARC will increase the number of their Water Response Teams.
> · Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.
>
> Items to Note
> · DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
> · LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
> · Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
> · Email sent to state employees to request volunteers for weekend.
> · Media monitoring showed no incorrect information today.
> · Michigan Association of Broadcasters is sending PSA to radio stations.
> · Coordinating with Red Cross on volunteers for weekend.
> · Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
> · National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
> · Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
> · DHHS
> o The Community Health Emergency Coordination Center (CHECC) is working on the following:
> § A nutrition plan
> § Education materials, messaging, and working with local agencies
> § Developing a community assessment for disaster behavioral health services.
> · Lined up the delivery of filters to two large apartment complexes and a student housing complex.
> · We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
> · Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and close lease on warehouse space
> · Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
> · Continue to work on Governor's Declaration of an Emergency
>
> Attached Documents:
>
> * SitRep 8
>
> Status on Governor's request letter to the President:
>
> * All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
> * Current timeline:
> * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
> * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
> * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
> * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.
>
> Requests and potential response from FEMA/President
>
> * The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
> * The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
> * This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
> * Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility

> * Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
> * If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan
>
>
> Key items for tomorrow to note are:
> · The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
> · We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
> · MNG will have a press event at the armory with incoming soldiers and MG Vadnais.
>
> Items to Note
> · Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
> · Managed and corrected misinformation on NG role.
> · Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
> · Working with Comcast so they can put teams in the field for distribution.
> · Penske is going to give us 15-20 trucks over the weekend.
> · Contact made with Two Men and a Truck for resources.
> · Meeting set with Google where they will brief me and key staff potential tasks.
> · Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
> · Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
> · We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
> · 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

> · We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
> o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
> · Logistics Support
> o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
> § Mission – A filter in every home ASAP.
> § 4 Distribution Methods
> · PODs (5)
> · Water Response Teams (20 effective tomorrow and this will increase)
> · Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
> · Local EOC support for other local requests (Faith based for distribution, etc.)
> § Three warehouse locations at this time
> § How to better leverage ARC resources
>
> · Supplies – Daily Numbers
>
> o Replacement Cartridges - 30,700 delivered.
>
> o Water (cases) - 19,152 cases delivered
>
>
> · Budget projection completed and will be submitted to SBO for review.
>
> · Notes from Water Response Team Command (MSP)
> o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
> o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
> o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.
>
> All personnel continue to be fully committed to fixing this as quickly as possible.
>
> Chris
>
>
>
> Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency
>
> I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.
>

> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Fine-tune logistics
> · Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
> · Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)
>
> Attached Documents:
>
> * SitRep 7
> * Executive Order Activating the National Guard
>
> Key items for tomorrow to note are:
> · The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
> o I have briefed the ARC Disaster Officer on this plan.
> · The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
> · The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
> · We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.
>
> Items to Note
> · PSA video sent out to Flint citizens on resources available.
>
> · Water
> o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
> o Ordered:
> § 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
> · 1/3 is going to GCCARD and the rest is going to the new warehouse
> § 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
>
> · Filters
> o Today's numbers
> § Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
> · 2,000 – Brita filter faucet mounts
> § Filter Replacements
> · 2,400 – Brita filter replacements (single pack)
> · 8,000 – Brita filter replacements (two pack)
> o Ordered on 1/12/16 to arrive Wednesday
> § Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR Vertical faucet mount
> · 2,500 – PUR Horizontal mount
> § Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR replacement filters (3 pack)
> · 10,000 – PUR replacement filters (single pack)
> § PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
> · 10,700 – PUR combo packs
>
> · To arrive Thursday

> o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 1,300 – Zero Water pitchers
> o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 11,000 – PUR vertical faucet mount
> § 1,500 – PUR Horizontal faucet mount
> § 5,000 – Brita faucet mount
> § 10,000 – Brita adv faucet mount white
> § 12,000 – Brita adv faucet mount chrome
> o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 117,600 – PUR replacement filter
>
> · Test Kits
> o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
> o 500 have been assembled and are ready for distribution
> o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
> o 10,142 unassembled kits to arrive at GCCARD early next week
>
> · Second warehouse – Located in Flint
> o 100, 000 square feet of secure warehouse obtained.
> o Accepting commodities beginning Wednesday, January 13
>
> · Logistics Support
> o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
>
> · Door to Door Numbers
> o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
> o We are working on version 2.0 so this can be used at the PODs
> o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
> o Notes from the field commander:
> § "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
> o In the end, there were 394 total home visits with the following breakdowns:
> · 217 Door Hangers
> · 152 Vacant Homes
> · 117 Water Distributions
> · 112 Filters
> · 3 Pitchers
> · 48 Water Test Kits
> · 211
> o CALL VOLUME:
> § 185 calls for water-related issues had been received as of 4:45 pm.
>
> · Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

>
> Chris
>
>
> Update 1/11/16
>
> The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.
>
> Attached Documents:
>
> * SitRep 6
>
> Key items for tomorrow to note are:
> · The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
> o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
> o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.
>
> Items to Note
> · It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
> · We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
> · Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
> · We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
> · ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
> · Began mapping lead service lines (anticipate having draft of lead service lines Friday).
> · Coordinated with local IT managers overseeing filter tracking system to streamline data collection.
>
> Local Emergency Operations Center
> • Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
> • Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
> • Working to establish a warehouse for local resource storage.
> • Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
> • Discussed potential long term water sources between local EOC and SEOC.
> • Established planning cycle/meeting scheduled for 1/12/16.
> • Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.
>
> Chris
>
>
>
>

> Update 1/10/16
>
> Attached Documents:
>
> * SitRep 5
> * Door card (English version but Spanish version will be ready for Tuesday)
>
> I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).
>
> I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:
>
>
> 1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
>
>
> 1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
>
> · We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
> · A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
> · An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
> o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
> · Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
> · Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
> o Debris Removal = self-explanatory and we do not have this
> o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
> o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.
>
> Back to the update...
>
> Key items for tomorrow to note are:

> · Training is occurring for the door to door teams scheduled for Tuesday morning.
> · Deploying an additional MSP District Coordinator to the local EOC for command and control support.
> · Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
> · Media event with the Governor in Flint.
> · New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
> 1. Ensure all households within impacted community have required resources.
> 2. Ensure accurate tracking and accounting of all commodities.
> 3. Improve and maintain public information strategy.
> 4. Develop a long term public health and services plan.
> 5. Ensure adequate staffing to support operational requirements.
> 6. Identify possible assistance programs.
> 7. Develop an approved GIS strategy.
> 8. Maintain coordination between partner agencies and organizations.
> 9. Enhance situational awareness and common operating picture of all activities.
> 10. Develop a comprehensive Recovery Plan.
>
> Items to Note
> · All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
> · Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
> · The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
> · The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
> o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
> o The door card is attached that will be left if no one is home.
> · Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
> o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
> · GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
> o 12,386 filters
> o 1,985 replacement filters
> o 354 Pitchers
> o 2500 Lead Testing Kits
> · Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
> o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
> o We have ordered an additional (expedited delivery with ETAs tomorrow)
> § 40,000 Brita Filters
> § 40,000 Brita Replacement Filters
> § 1000 Zero 8-Cup Pitchers
> § 1000 Zero 8-Cup Pitchers
> § 2000 PUR Replacement Filters
> § 93 Pallets of water (about 6700 cases)
> · GIS continues to produce multiple maps for use.

> · JIC Items
> o Requested PSA on the radio. Media has been approved and working with MAB.
> o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
> o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
> § Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
> § JIC moving tomorrow to Flint.
>
> Local Emergency Operations Center
>
> I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.
>
> Fire Station Inventory Levels:
> Station 1:
>
> * Only time without supplies - 15 minutes without water while the truck was unloaded.
> Station 3:
>
> * Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.
> Station 5:
>
> * Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
> * Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.
> Station 6:
>
> * Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
> * 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
> * We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.
> Station 8:
>
> * Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
> * Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
> * Reports received that the last couple of hours were slow.
> * Residents were advised of the other sites and the opportunity to obtain supplies.

>
> Restocking Plan
>
> * United Way set up meeting with Food Bank to discuss.
> * Had EOC meeting on this topic to discuss options.
> Churches:
>
> * All 9 churches received waters, filters, and informational bulletins.
> * Lt Roach received positive feedback from 3 of the pastors.
> * No complaints were received.
> Signage:
>
> * Provided information to SEOC on signage requirements at the fire stations.
> Storage:
>
> * Researched storage spaces; established temporary site at GCCARD.
> Personnel:
>
> * Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
> * Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
> * Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.
>
> Chris
>
>
> Update 1/9/16
>
> SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.
>
> Key items for tomorrow to note are:
>
> · 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
> · 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
> · Media event will take place on the above tomorrow.
>
> Items to Note
>
> · 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
> · We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.

> · A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
> · We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
> · Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
> o A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
> · I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
> · The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
> · A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
> · Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and MSP trooper will be on these teams.
> o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
> § Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
> o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
> o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
> o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
> · A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.
>
> MSP/EMHSD GIS Section Updates
>
> Accomplished Today (January 9):
> • Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
> • Produced Filter Distribution Map.

> • Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
> • Worked on map of franchise customers outside of Flint City.
> • Produced maps for MDARD on food establishments and Local Health Departments.
> • Produced map of Church Filter Distribution map for DTMB.
>
> Local Emergency Operations Center
>
> · The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
> · Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
> · With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
> o Logistical activities to support church operations.
> o Logistical activities to support fire stations operations.
> o Coordinate Donations Management activities and draft donations management plan
> o Coordinate Volunteer Management activities
> o Identify local storage/staging facilities
> o Overall inventory tracking
> o Tracking of Points of Distribution (PODs)
> Chris
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/8/16
>
> SitRep 3 attached.
>
> There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).
>
> Items to Note
>
>
> · Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
>
>
> · We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to

citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

>

>

>

> · We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

>

>

>

> · I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

>

>

> · DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

>

> · 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

>

> · Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

>

>

> · STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

>

>

> · The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

>

>

> · It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

>

>

> · A Volunteer Management Coordinator is in the Genesee County EOC as of today.

>

>

> · A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

>

>

> · DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
>
>
> · An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
>
>
> · GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
>
>
>
> · GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.
>
>
> Chris

>
>
> UPDATE 1/7/16
>
> A summary of some of today's SEOC activities is provided below. Attached is the following:
>
>
> · Today's SitRep which contains more information than below.
>
> · The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
>
> · JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.
>
> Items to note:
>
>
> · I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
>
> · I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
>
> · GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
>
> · Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based

on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
>
> · Filters can be obtained at the following locations:
>
> · Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
>
> · Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
>
> · Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
>
> · Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
>
> * Conducted briefing with local EOC and county executive.
> * Conducted briefing with state agencies (daily updates).
> * Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
> * JIC continued to develop messaging.
> * Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
> * Deployed two EMHSD/SEOC liaisons to assist the local EOC.
> * Published the Incident Action Plan and continued assignment of objectives/tasks.
> * FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
> * I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
> * We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
> * Local agencies and NGOs continue to provide water and filters to citizens.
> * The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.
>
> EMHSD GIS:

> UPDATE 1/6/16
>
> A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.
>
> Advise if you want anyone else copied or off this distribution.
>
> Daily Update
>
>
> * Set goals for SEOC and identified response/recovery emphasis
> * Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
> * PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
> * Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
> * I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
> * MDHHS – Elevated Blood Lead Levels
> * Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
> *. MDEQ – Water Testing Protocols
> * Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
> * Developed Incident objectives, strategy and tactics (see attached)
> * Identified SEOC and state agency staff positions
> * Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
>
> * Reviewed planned actions, prepared final draft Incident Action Plan
> * Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration

with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
> * I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
>
> * The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
>
> 1. Activate the State Recovery Task Force (SRTF).
>
> 2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
>
> 3. Obtain and maintain situational awareness and common operating picture of all activities.
>
> 4. Establish SEOC operational period and hours of operations.
>
> 5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
>
> 6. Develop a comprehensive GIS strategy.
>
> 7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
>
> 8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
>
> 9. Provide technical assistance to the local Damage Assessment process.
>
> 10. Establish a Joint Information Center (JIC) and develop a public information strategy.
>
> 11. Monitor MI CIMS for resource requests and address as appropriate.
>
> 12. Establish and disseminate cost center information for the incident.
>
> Additional tasks include:
>
> * Determine what federal agencies are already involved and their status
> * Identify potential water supplies
> * Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
> * Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
> * Determine what mechanisms are in place for nutrition supplementation
>
> EMHSD GIS Accomplishments:
>
> * Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
> * Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
> * Began consolidating local data from local GIS practitioners into a consolidated database, to include:
> * Water Pipeline Locations
> * Filter Distribution Locations
> * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)

> * Affected School Locations
> * Predictive analysis of blood lead levels for affected area
> * Updated Parcels
> * Demographics
> * Block Groups
> * Produced a map for the filter distribution locations
> * Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Regional Weather and Impacts

Massive Snowstorm Pounds East Coast

(NBC Chicago)

National: A blizzard with hurricane-force winds brought much of the East Coast to a standstill Saturday, stranding tens of thousands of travelers, flooding some coastal areas and shutting down the nation's capital and its largest city. The storm was expected to dump as much as 3 feet of snow in some places as authorities warned drivers to stay off the roads. The storm, which knocked out power to tens of thousands and caused more than 10,000 flight cancellations.

Highest Snowfall Totals by State
as of 9am Eastern January 23, 2016

At Least 18 Snowstorm-Related Deaths Reported

(AP)

Mid-Atlantic United States: East Coast officials have blamed Winter Storm Jonas for the deaths of at least 18 people since Friday, according to the Associated Press. After days of weather warnings, most of the 80 million people in the storm's path heeded requests to stay home and off the roads, which were largely deserted. Yet at least 18 deaths were blamed on the weather, resulting from car crashes, shoveling snow and hypothermia. And more snow is to come, with dangerous conditions expected to persist until early Sunday, forecasters warned. The Mayor of New York City said at least three people died in the city from shoveling sidewalks. At least three people died in Virginia as a result of the massive blizzard. Two people were killed by hypothermia; the third died from a car crash, according to CNN. So far, six people have died in North Carolina -- all a result of car wrecks on slippery roads. In Prince George's County, Maryland, a Fort Washington man died after he was found in cardiac arrest from shoveling snow, local police said.

Ice, Flooding Remain Major Concerns As Storm Eases

(CNN)

Mid-Atlantic United States: The massive winter storm that struck the East Coast is heading out to the Atlantic, but the trouble is not over yet. Crews are scrambling to clear the roads before the work-week starts. While the sun and rising temperatures expected in some areas Sunday may help cleanup efforts, meteorologists are worried about ice, which could make roads more hazardous. Washington, D.C., and New York are expected to see sunshine Sunday -- and temperatures just above freezing. Those conditions will help plows clear snow. However, with below-freezing temperatures expected to return Sunday evening, the melted snow may ice over and turn into black ice. And in the New

Jersey coast, flooding is a major concern as residents keep a wary eye on rising waters. The storm has brought more than three feet of snow to some areas and grounded thousands of flights and shut down travel in New York City. But snowfall in most of the major cities affected will likely finish early Sunday morning, except for some isolated flurries, a CNN meteorologist said.

Public Health

Case of Whooping Cough Reported at Suburban High School

(NBC Chicago)

Illinois: A case of whooping cough, also known as pertussis, has been reported at a northwest suburban high school. The Cook County Department of Public Health confirmed Saturday that a 17-year old student from Glenbrook North High School was infected with the illness. A spokesperson from District 225 in Northbrook told the Chicago Tribune that the student last went to school on Jan. 14. Since then, there have not been many chances for the illness to spread, according to the report. Students had Friday Jan. 15 off for a reserved snow day, and Monday Jan. 18 off for Martin Luther King, Jr. Day, according to the school's website. The next three days were reserved for final exams, and students also had Jan. 22 off for an institute day.

Water

Ohio EPA, Sebring Officials Dispute Notice Of High Lead Water Levels

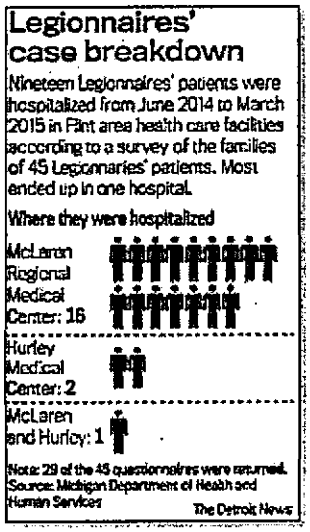
(WKYC)

Ohio: Stacks of bottled water, shipped in by the Ohio Emergency Management Agency, sit piled up at the Sebring Community Center, as high as many of the people there are tall. Everyone in Sebring, a small town about 70 miles southeast of Cleveland, is being warned not to drink the tap water, after some samples from homes turned up unsafe levels of lead. Now the big question is: How long did the Ohio EPA and Sebring city leaders know before residents did? City Manager, Richard Giroux says, "The first the notifications were discussed with the EPA and my staff was (Thursday) morning." But not so, says Heidi Griesmer, deputy director of communications for the Ohio Environmental Protection Agency. The Ohio EPA listed a Dec 3, 2015 lead advisory warning for Sebring on their online advisory list and sent a letter to Giroux dated Dec 3. On Friday, Griesmer told WKYC Channel 3 News that "While the Village of Sebring has a clean drinking water source, it is apparent from their recent tests that lead is seeping into the drinking water of certain homes. The village needed to take some steps to address this issue and alert its customers, and when this didn't occur, we issued them a notice of violation." Residents just learned that seven of 40 homes tested turned up lead levels higher than EPA standards. Restaurants stopped serving water. Schools were closed Friday as a precaution.

Hospital Ties Legionnaires' To Flint Water

(Detroit News)

Michigan: Flint's contaminated water likely contributed to the Legionnaires' disease outbreak in Genesee County, where the bacteria was found in a hospital's water supply, an expert for McLaren Regional Medical Center said. Water testing during the outbreak found Legionella bacteria at the Flint hospital, where an expert on the disease concluded the organism likely came from the city's tainted water. Further, a state analysis showed that a high number of those diagnosed with Legionnaires' in Flint had been patients at McLaren Flint in the 14 days prior to showing symptoms. Gov. Rick Snyder on Jan. 13 reported a spike in cases of the deadly disease in Genesee County, but he and state health officials said it was unclear if it was tied to Flint's water crisis. The state reported 87 cases, including nine deaths, in the months after Flint started drawing corrosive water from the Flint River instead of the Detroit Water and Sewerage Department.



1 Dead, 11 Hospitalized After Listeria Outbreak Linked To Packaged Salad

(21alive)

National: A multi-state listeria outbreak has killed one person and hospitalized 11 others, according to the U.S. Centers for Disease Control and Prevention. People have been sickened by the listeria bacteria in Michigan, Massachusetts, Indiana, New Jersey, Pennsylvania and New York, the CDC said today, noting that the largest reported outbreak so far has been in New York, where four people fell ill. Listeria can be a notoriously difficult food-borne illness to track because the incubation period is between 3 days and 70 days. The bacteria can also survive colder temperatures in a fridge. A multi-state listeria outbreak has killed one person and hospitalized 11 others, according to the U.S. Centers for Disease Control and Prevention. People have been sickened by the listeria bacteria in Michigan, Massachusetts, Indiana, New Jersey, Pennsylvania and New York, the CDC said today, noting that the largest reported outbreak so far has been in New York, where four people fell ill. Listeria can be a notoriously difficult food-borne illness to track because the incubation period is between 3 days and 70 days. The bacteria can also survive colder temperatures in a fridge.

Agriculture and Food

Dole salad products pulled from local shelves amid listeria outbreak, voluntary recall issued

(Centre Daily)

National: Dole Fresh Vegetables is recalling various bagged salad products sold under several brands in Centre County stores, according to a press release issued Saturday. Various bagged salad items are being recalled from Giant Food Stores, Wal-Mart, Sam's Club and other local grocery retailers. Items can be identified with a product code beginning with the letter "A" in the upper right-hand corner of the package, just below the best-by date. The Centers for Disease Control and Prevention on Friday said 12 people in six states have been hospitalized in the outbreak since July after eating salads sold under the names Dole, Fresh Selections, Simple Truth, Marketside, The Little Salad Bar and President's Choice. Packaged salads produced at a Dole facility in Ohio are linked to one death in Michigan, the CDC said Friday. Dole has since stopped production in the facility, the CDC said, after learning Thursday the plant was the source of the outbreak.

Subject: RE: Items to Work On Today

Responses to your Items to Work On Today (in red)

-From the LG - Regarding donation inquiries, how are those being handled now?
Large donations route through the SEOC (what is the logistics email?) so we ensure the big corporations have contact with us. We then shift it to Janet _____ with MCSC to handle the operational portion (delivery). Other donations go through the website Helpforflint.com. PLEASE MODIFY AND CONFIRM.

- Large donations should be routed through the SEOC (MSP-SEOCLGC@michigan.gov) so we ensure the big corporations have contact with us. We then shift the donation information to Janet Hunter with DHHS/MCSC to handle the operational portion (delivery).
- Monetary donations links to the American Red Cross, Genesee United Way, and FLINTKIDS.ORG as well as a volunteer sign up link can be accessed through the website Helpforflint.com.

-I need the map with all the test data we received from DEQ. I provided a map before but I also need the data with it so the Governor has it. Jen Wolf was providing me bullets as to what the data means and what it may not mean -- what concerns do we have with the data (e.g. We are relying on the citizens to provide us the sample ... Did they follow the right procedures.). Not sure she sent it to me yet.

- Sent earlier today.

-I advised state agencies that I do not want a running log in the SitReps. They were shown how to check the archive button. Each SitRep should be for that operational period.

- Included during the 4 pm briefing as a reminder.

-For Monday, are we at a point where we should pull the filters and replacements from the PODs and just have water? Or is this a mid week thing? I mentioned it to the Governor Office. Monday there is a press conference with the G, TAG, COL (I am out that day). May be a good day to start a transition to PODs as water only with Rapid Response Teams (hot shots) and ARC food to door support.

- Yes, mid-week. We are working with planning to pull together a more accurate map and numbers to ensure this is the proper verifiable direction.
- We are not ready yet according to Tonya...mid-week?

-Need a report on the churches for tomorrow. Who is in? Are they all set with supplies? Who is working to ensure we are getting the faith based organizations involved? Tom needs to take the lead for the EOC versus Gina. She is upsetting some and we need a bridge builder.
Are we at a point where we should pull the filters and replacements from the PODs and just have water?

- FROM BJ TO TOM (today at 5:21pm): "I have had contact with all on my list (attached) within the last 2 days, many of them today. We had several deliveries to them Thursday- today. Many of the churches are doing their normal Sunday distributions. All advised they are good right now. I spoke to Richard Boone, Mt. Vernon Chapel. He advised they did not need anything for tomorrow, however, the church was having a meeting tonight to discuss water distributions at their church in the evening 2 days during the week. The meeting was to decide if they would proceed with the idea, what hours and days of the week. Mr. Boone requested volunteer help if they chose to do this. Mr. Boone will call me after they decide those issues and I will put him in contact with Chad ref

volunteers. Mr. Boone was very excited about that. All seemed appreciative for the supplies/water they have received. Please let me know if you have any questions."

You and Tom with need to finalize the specifics of Tom taking the lead on the VRC from the EOC (as mentioned above).

- In the works.

I mentioned it to the Governor Office. Monday there is a press conference with the G, TAG, COL (I am out that day). May be a good day to start a transition to PODs as water only with Rapid Response Teams (hot shots) and ARC food to door support.

- Tonya is advising against the POD transition early next week and is considering mid-week. She wants to develop a recommendation tomorrow after we have a better idea how the weekend went and result of all the WRT.

-The Local EM needs to be tasked with gathering the needed data for the appeal. We also need to get with Jamie Curtis (I can do that). We need to give specific direction for the EM to work with the city to get the numbers unless you think this is something we should just do. All will need to be provided direction on category B costs back to April 2014.

-Tom is working on the appeal but a few thoughts and I know you will have more...

We have to include the economics of Flint and Genesee similar to what we did for 4195.

-Can someone look into HR1278? This is the Omnibus Bill the 80 million came from. Andrew advised FEMA funds will not be touched and I specifically asked about the mitigation funds from 4195 and he said the funds would not touched.

- Discussed these two items with Tom, who intends to work with Joel first thing Monday to draft a list of the items to be researched and to begin looking at HR1278. They will identify who is responsible for each item so we can then detail assignments.

-Do we have blood lead level data maps? From testing?

- We do not have data to develop maps.

-The numbers of homes on the system needs to be firmed up:

- 26,673 water subscribers in Flint (not including franchise).
  We need the franchise numbers included.
  - § Water Subscribers with a Filter = 15,399 (57.7%)
  - § Water Subscribers without a Filter = 11,274 (42.2%)
    - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
      What exactly is this number? Does it include homes that are habitable and just do not have tenants? I need more information on this number to put more context to it. 42% is a lot but if 20% are vacant homes waiting for a tenant than that changes things.
- 11,471 Non-Water Subscribers in Flint. **What does this mean in laymans terms? What is a non subscriber? How do they get their water if they do not subscribe?**
  - § Non Water Subscribers with a Filter = 2,196 (19%)
  - § Non Water Subscribers without a Filter = 9,275 (81%)

I need more analysis done on the numbers so we can provide solid information to the Governor.

- Meegan Holland was in the SEOC today discussing these topics with our GIS team.

- Water Subscribers with a Filter = 15,399 (57.7%); subscribers are paying customers or those receiving assistance
- Water Subscribers without a Filter = 11,274 (42.2%) Not updated.

- There are 140 Franchise Customers located on the periphery of the city.

- Water Subscribers are people that the utility says are actively receiving water from the Flint Water Supply. Water subscribers are unlikely to be vacant housing. Water subscribers with a filter are city water recipients that have been given a water filter by either field teams or a PODS. There are XXXX water subscribers on the system. XXXXX are paying customers or are receiving assistance; XXXXX have not received a filter as part of the current distribution effort.

- Water Subscribers without a filter are known locations that receive city water but have not been given a filter. We do not know if they have their own water filter as this was not part of the original set of questions when the teams were deployed to the field. Possibilities…refused a filter, already owned filters, or were not home when teams visited. We only know that we have not received a filter from one of our teams.

- Non-water subscribers do not receive water from the city lines. If a parcel has a structure, it is vacant. Possibilities…may have had the water shut off (cannot confirm at this time), could be on well water, or could be connected illegally. GIS removed parcels listed as "vacant," but several parcels with structures appear to have been burned or are simply vacant as viewed under street view on Google Maps.

All,

Red Cross will get me comments tomorrow. For the most part I am scheduled to be off tomorrow, but if there's an urgent need please let me know. Here's the draft with changes based on our conversations today. Hopefully I've captured what needs to be captured. Again, I'm very open to comments and suggestions.

Thanks much!

Please see the below communication to MDHHS executive leadership, regarding the issue of water causing rashes to residents in Flint. We are unaware if the GCHD also maintains a log of the health-related calls they have received, so the CHECC will follow-up with them tomorrow as well.

Thank you,
Jennifer Lixey Terrill

Subject: RE: 3, breaks out when showering

Good Evening,

I have communicated this request with the MDEQ Emergency Management Coordinator in the SEOC, who has made contact with the EPA. The EPA has confirmed that they will test water supply on Monday, and are interested in obtaining information regarding any additional calls that have been received with similar complaints of rashes caused by the water. EPA offered to test those locations as well. The CHECC maintains a log of calls received to the CHECC hotline and will query that log for this information tomorrow to be provided to DEQ and the EPA.

Thank you,
Jennifer Lixey Terrill

I contacted He did have his water tested, has filters on the faucets, and has plenty of bottled water. Both he and his girlfriend have been having rashes for the past 2 mns and they have not changed detergent or body wash. , saw his physician who agrees the water is causing his rash. I will have a MDHHS toxicologist contact for more investigations into the water and rash development.

Subject: RE: Request from Governor's Office for Daily Sample Metrics

Here's what I have from the Governor's team on information they'd like each night. I didn't touch base with DHHS yet about providing daily information on blood lead level testing. Thanks to Mitch Adelman for getting the ball rolling on the DEQ test results.

The list:

1. # of homes visited each day
2. Total number of homes visited
3. Total # of National Guard on the Ground
4. Total number of volunteers each day
5. # of homes with filters
6. # of Water filters distributed (Each day and to date)
7. Cases of bottled water distributed (Each day and to date)
8. # of Water testing kits distributed (Each day and to date)
9. # of water testing kits returned/sampled (each day and to date)
10. # of people tested for elevated blood levels (Kids, adults, total)
11. # of people with elevated blood levels (Kids, adults, total)
12. # of homes with safe drinking water (Not sure whether it's possible right now to provide this number)

I just spoke with Meegan Holland with the Governor's office and the Governor requests daily updates from us on the following:

Number of samples analyzed per day;
Number of samples above the action level from the daily number of samples analyzed;

If we can segregate out the MDARD samples of food establishments, the same metrics for them are requested.

I discussed this with George Krisztian after speaking with Meegan, and he thinks we can begin providing this information tomorrow. Thanks all.

Draft Flint Water Operations Plan

January 23, 2016

The emergency response to the Flint water crisis is an "all-in" mission and will involve several operations: Initial Distribution; a Surge, Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery.

Dates given in this draft plan are all subject to the agreement of all parties.

Metrics are intended to be SMART: (Specific, Measurable, Achievable, Realistic, and Timely).

Initial Distribution

- Canvassing teams included the sheriff, MSP, American Red Cross, National Guard, and volunteers.
- Stops were made at every residence. When residents were home, they were offered water, filters, filter cartridges, and test kits.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) were established and operated at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; these were initially ARC staffed and then by the National Guard.
- The 2-1-1 system was used to address all questions and serve as the primary Point of Contact (POC) for all special needs requests (hot shots).
- The Initial Distribution was completed the morning of January 21.

Surge

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. On the weekend, this increased by an additional 30 Red Cross teams.
- Daily missions were to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Every household was identified as having been reached with resources, or with information left at the door with instructions for having resources delivered.
- Canvassing was based on geographic areas to assure they were covered where risks of lead contamination and vulnerable populations were known to be higher.
- Areas with lower percentages of positive contacts in the Initial Distribution received additional support for re-canvasing.
- The PODS staffed by the National Guard continued at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- Messaging focused on distribution of water, filters, cartridges, and test kits.
- 2-1-1 addressed all questions and served as POC for all special needs requests (hot shots).
- The Surge was completed January 24; remaining hot shots will continue to be served by ARC or other volunteer teams (National Guard and MSP can also be recalled if additional resources are needed.

Volunteer Expansion

The Flint Community Water Crisis Response Meetings will provide critical guidance this plan. The input received and the plan are a cooperative "whole community" effort that will provide the opportunity for all involved parties to provide input to the process, including the residents, local charities and non-governmental organizations, the city, the county, and the state. An initial working group comprised of the Food Bank, Catholic Charities, American Red Cross, 2-1-1, United Way, and local and state emergency management staff will develop and implement these initial strategies for long-term distribution of filters and filter cartridges by the target date. As operations stabilize within this Volunteer Expansion, additional working groups will be formed to address specific missions.

- Goal – Transition to full coverage and streamlined processes.
  - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to volunteer and community based distribution of water, filters, cartridges, and test kits.
- Identify statistical trends in the Fire Station PODS and transition to more available and locally operated PODs, in locations identified by a data driven strategy, by February 14.
- Provide for smooth transition and soft openings of new PODs as they open.
- Identify water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- Provide public messaging and mapping that makes locating a POD or calling for delivery to vulnerable populations both simple and quick.

- Utilize multiple methods of public communication; e.g., reverse 9-1-1, robo-calls, Nixle, Facebook, backpack notes, etc. Strategies will be coordinated with 2-1-1.
- Continue to collect and analyze all available geospatial and demographic data to identify needs and hot spots (and identify successes).
- Identify "Super PODs" that can resource smaller neighborhood PODs and identify their logistical requirements, including credentialing requirements.
  - Metric – a Super POD or Neighborhood POD within 15 minutes.
    - Assumption – MTA and ride share options as well as walking and delivery are considered.
- 2-1-1 will receive all calls/questions and serve as POC for special needs requests (hot shots).
  - Assumption – Hot Shots will transition from the sheriff's office to the ARC. The ARC and 2-1-1 will coordinate.
  - Metric - _ (percent) reductions in calls to 2-1-1 for water issues should occur each month.
- Volunteer Expansion target complete date: February 14.

Ongoing Resourcing

- Goal – Implement a short/medium (define) -term filtration system which supports a long-term, workable process to sustain provision of potable water to residents.
  - Metric – All households and franchise customers have access to safe, clean drinking water from the Flint water system, which is augmented by adequately filtered water at each faucet within the home.
    - Assumption – Assume (or supporting statistic) 5 faucets per home.
    - Assumption – Identify average family size and consumption, including burn rate, cooking and hygiene utilizing any available research from military operations guides, Peace Corps, Samaritan's Purse or other sources which may identify consumption rates.
    - Assumption – Filter cartridges last x days/gallons
- Identify warehouse spaces adequate for commodities for the planning period (initial assumption 1 year)
- Water distribution would be led by the city, food banks, faith-based or other volunteer groups.
- Messaging should strongly promote the use of properly certified filtration.
- Work with the federal HHS Unified Command Group and the Flint Water Recovery Task Force to maximize opportunities for Flint water system customers to participate in the ongoing repair and improvements to the water system and fully leverage and maximize the benefits of all available programs.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- Create a calendar of activities/distribution including the when and where of how the activities and missions will be provided to water system customers. Include decision points for planning teams.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.
  - Is it supportable by FEMA's 90 day mission?
  - What are implications of over supply?

Long Term Recovery

- Goal –water distribution operations are normalized.
  - Metric 1 – Households are served by the Flint water system.
  - Metric 2 – Households do not require filtration at the faucet.
  - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Work with the federal HHS Unified Command Group and the Governor's Flint Water Recovery Task Force to maximize opportunities for Flint water system customer to participate in the ongoing repair and improvements to the water system and maximize the benefits of all available programs to insure that we've leveraged all state, local, federal, and non-governmental resources.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
  - Metric 1 – Independent surveys indicate that __% of residents and customers agree that the water tastes fresh and they trust test results.

**Dates are to be negotiated and confirmed by all parties involved.

Subject: SBA in Flint

Renee, Bri, Joel.

Please host some discussion with this in mind as to required deadlines, etc. MDARD is asking in specific, should food establishments get positive testing, there may be inquiries about eligibility for SBA.

Good Afternoon Kent,

I have been in contact with Gary Davisson from the SBA Office of Disaster Assistance. Based on my discussion SBA is not actively engaged in this event. Additionally, the State is not eligible for an SBA declaration if they are still pursuing assistance from FEMA through a major declaration. If an appeal for a major declaration is disapproved they can pursue a stand-alone declaration from SBA.

Please let me know if you have any additional questions.

V/r,

Jason

Subject: Water/Filter Distribution sites
Attachments: Water and Filter Give away sites 01242016.docx

Capt,

I received this list labelled Water AND filter distribution sites from a community org member. Several questions.

1) Can you confirm all the sites on the list are distributing water AND filters or just water?
2) Any site distributing filters, which sites are receiving FEMA filters?
3) Of the sites that have FEMA filters, how is the SEOC tracking people/households that get filters from a distribution center as opposed to those being handed out door to door. Possibly one household receiving 2 or more sets of supplies.

Thanks for clearing things up for me, especially the church/MDHHS/GCHD sites. Trying to figure out if they are doing things on their own (great) or getting FEMA supplies as well.

Best,
Jamal

Subject: DTMB-Procurement purchasing support for Flint Water Emergency Response...as assigned by Jeff Brownlee.

Hi Chris,

I left you a message a few minutes ago.

Jeff Brownlee has assigned me to help out on the purchasing side based on your conference call Friday with Jeff, Brom, and Kristi Etue.

I have talked with Chris Christensen (DTMB) and will reach out to Penny Berger (MSP), DHHS, DEQ, and other agencies to get a baseline understanding then get back to you.

If you have specific guidance for me or individuals to work with please let me know; otherwise I will work with the individuals above and from Jeff's guidance to:

- Understand the process/procedures for purchasing that all State agencies need to follow in this response
- Draft any necessary documentation
- Develop communications to the agency directors regarding process/procedures
- Understand how DTMB Procurement can support the agency SEOC representatives
- Communicate to the purchasing leaders of each agency

And any other procurement support I can offer.

Thanks,
Dave

Subject: SBA Declaration Materials
Attachments: Estimated Disaster Worksheet.doc; Instructions for Completing Worksheet.doc

As discussed, I have been in discussion with the US Small Business Administration (SBA) regarding a declaration and potential SBA low interest loan assistance to the businesses of Flint due to the water contamination. Generally, under federal law, only natural disaster are eligible for disaster declarations; however, SBA has a program where the Governor certifies that at least 5 businesses in the disaster area suffered substantial economic injury as a result of an incident. If we can demonstrate we have 5 businesses that have experienced 40% or greater damage from this event, the Governor can simply certify damage has occurred and a declaration will likely be issued by SBA. To this end, two documents are attached for your use.

For clarification, the businesses only may seek assistance for economic injury. Substantial economic injury occurs when a business concern is unable to meet its obligations as they mature or to pay its ordinary and necessary operating expenses. Loss of anticipated profits or a drop in sales is not considered substantial economic injury for this purpose. However looking at a drop in sales, the length of time the business will be impacted, the type of business and typical business cycle of the industry, provides the quickest way to determine if the injury is substantial.

Due to the nature of this event, form completion will be problematic. Please call once you have reviewed to discuss.

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET
FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: _____

   Name of Property Owner: _____

   Business/Property Address: _____

   Mailing Address: _____

   Telephone Numbers: Business:_____Home: _____

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end?

   _____ (month/year) to _____ (month/year)

   What were your business' revenues during that period? $_____

   What were your business' revenues during the same period of the prior year? $_____

3. Amount of business interruption insurance received or anticipated, if any: $_____

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

   _____

   _____

   _____

   _____

5. How many people did you employ **prior** to the disaster? _____

   How many people did you employ **after** the disaster? _____

If your business also suffered property damage, answer the following questions:

6. Estimated dollar loss to:

   Real property (building), if owned: $_____

   Contents (machinery and equipment, furniture and fixtures, inventory, leasehold improvements, etc): $_____

7. Insurance recovery received or anticipated for **property** damages: $_____

_____ _____

Signature of Business Owner/Representative Date

Instructions for Completing the "Estimated Disaster Economic Injury Worksheet for Business"

Item 1

Line 1

Enter the property owner's name. If different than the business name, also enter the business name.

Line 2

If more than one owner, enter the co-owner's name or names

Line 3

Enter the street address of the business location.

Line 4

Enter the mailing address of the business

Line 5

Enter the telephone numbers of the business and owner's home.

Item 2

Line 3

Enter the date that the economic impact to your business due to the disaster started or is estimated to start. Economic impact can be defined as a decrease in revenues from normal levels resulting in decreased gross profit. Then enter the date that revenues and gross profits returned to normal levels. This date may be in the future and will require an estimate.

Line 4

Enter the business' revenues between the two dates you showed

Line 4

Enter the business' revenues between the same two dates of the previous year.

Item 3

Line 1

If you have business interruption insurance to cover losses due to the disaster, enter the amount received or anticipated. Enter zero if none.

Item 4

Line 1

Enter a brief narrative explaining how the disaster affected your business' revenues and operations

---

Item 5

Line 1

Enter the number of employees, including management and part-time employees, of the business prior to the date of the disaster.

Line 2

Enter the number of employees, including management and part-time employees, of the business after the end of the disaster. This may require an estimate.

Item 6

Line 2

Enter the estimated loss, in dollars, to the building occupied by the business, if owned by the business or an owner of the business..

Line 3

Enter the estimated loss, in dollars, to the contents of the business' building.

Item 7

Line 1

Enter the insurance recovery received or expected for disaster damage to the building and/or contents.

Signature and Date

Provide the signature of the business' owner or representative and enter the date the form was prepared.

Subject: RE: PIO in Local EOC

My discussion with the local EOC is that the public information process is essentially non-existent at the county level. There is a body in the JIC, but no information flow. They are hoping to explain the process to see if they can get two-way information flow started. It sounds like the sheriff deputy in the JIC needs to be part of the discussion. Has anyone tried to coach the deputy on what his role should be?

Also, regarding the chamber of commerce, it looks like they plan to start issuing their own press releases.

Subject: RE: PIO in Local EOC

Hi Tony,

This further confuses me. We have had a county representative in the JIC (Deputy Cooper) every day from 9 a.m. – 5 p.m. for the last two weeks. If the county would like to send a PIO in his place, we would welcome it, as he does his best to coordinate with us, but he is not a PIO.

Meegan Holland, Director of Communications, is meeting with Chamber of Commerce PIO Bob Campbell on Wednesday afternoon. Bob has also been added to our partners email dissemination list.

If the county has coordination needs beyond these two actions, I need someone to detail what they are so I can determine the appropriate PIO to meet with them to address their concerns. Ron is not the proper person to do this, as he is not engaged strategically in our operations.

Thank you,
Shanon

Subject: RE: PIO in Local EOC

We currently have no local presence in the JIC. While I do not agree with a chamber of commerce rep in the JIC, we need to find a way to have the county engage in the JIC or the county will end up going it alone, which is bad business. Ron is fully capable of delivering the message. If you judge otherwise, someone else must provide the service requested.

Ron,

Your assistance has been requested in the Local EOC on Tuesday January 26, 2016.

Here is the request:

Operations in the local EOC is requesting MSP/EMHSD PIO Ron Leix visit the EOC for some coordination with the local jurisdiction. Ron Leix was specifically requested.

Would you be able to go tomorrow? And do you have someone that could replace you for the time you are gone?

Thanks

Subject: FW: Resource request for State Resource at Local Food Bank

A long-term solution is needed for this request. We have donated Penske vehicles available, but the Food Bank is telling us these will not work as everything needs to manually loaded and unloaded. The DTMB vehicles requested cannot be used long-term; they are scheduled for return to normal service after Friday. The request indicates seven days, but we have no way of knowing where this will end.

This looks like the right point to begin transition to use of local and volunteer efforts, including use of Penske trucks.

From: MSP-seoclgc
Sent: Monday, January 25, 2016 3:56 PM
To: Katarsky, Anthony (MSP)
Subject: RE: Resource request for State Resource at Local Food Bank

Tony,

Here is the new request that Jay put in for the Local Food Bank. He added the time frame showing how long they would need the state assets.

The Food Bank of Eastern Michigan is requesting 3 trucks, 3 pallet jacks, and drivers with a power lift gate to deliver all the water that is being directed to the Food Bank from the State. The additional trucks and drivers will provide water to distribution points that the Food Bank has established prior to the state efforts for door-to-door and PODs distribution. This request would be for SEVEN (7) calendar days, providing time for the food bank, local government, and the state to develop a long-term solution to water distribution.

Genesee County does not have the capability to assist with this request.

Tina Martinez is the point of contact for the Food Bank.

From: MSP-seoclgc
Sent: Monday, January 25, 2016 2:06 PM
To: Katarsky, Anthony (MSP)
Subject: Resource request for State Resource at Local Food Bank

The local EOC is requesting 3 trucks, pallet jacks and drivers to assist in the mission stated below. DTMB did have 3 trucks assigned to assist with this but pulled them to the warehouse for the POD distribution. DTMB had to pull their other 4 trucks from the warehouse to Lansing for other assignments. Those were replaced with MDOC trucks. MDOC can work on getting trucks for the warehouse if we want to send the DTMB trucks back to the Food Bank. However, this could impact the warehouse flow for the POD distribution and cost is involved in utilizing the DTMB trucks if they have any available. I recommended the use of Penske trucks that were donated but was told by the Local Food Bank that would not be sufficient for their needs. The resource request is listed below from the local EOC:

> **Follow-up to Tracking #: EXT - 2943777. The Food Bank of Eastern Michigan is requesting 3 trucks, 3 pallet jacks, and drivers with a power lift gate to deliver all the water that is being directed to the Food Bank from the State. The additional trucks and drivers will provide water to 8 mass feeding sites and several additional distribution**

points within the city through smaller food distribution points.

Genesee County does not have the capability to assist with this request.

Tina Martinez i is the point of contact.

Please advise on how you would like us to proceed.

Thanks, Kristi

Subject: City of Flint Costs - January 26th
Attachments: City of Flint Response Costs Jan_26_16.xlsx

Good Evening:

I have attached the current cost information related to the SEOC response for the City of Flint Water Emergency. You will find two tabs in this workbook. The first tab reflects current actual and estimated costs incurred by state agencies except Corrections who did not get their information turned in this week. The second tab contains detailed information obtained from DHHS purchasing as far as the water resources procured from Home Depot. These numbers are carried over onto the cost spreadsheet; this is just included to show you more of the detail.

The cost report details the current expenditures or estimated costs incurred. I have done this so you are able to see what types of items are being requested for this response. There are various lines within the supplemental appropriation included in this report, such as DMVA and DHHS. Costs so far are approximately $10.2 M with $8.7 M being spent on water resources since the Governor declared a state of emergency.

If I can answer any questions for you, please let me know.

Thanks and have a good evening.

Subject: SEOC Operations Concerns

As we proceed into our fourth week of SEOC operations and distribution of water, filters, filter cartridges, and water test kits, I am becoming concerned for our staff. If we were not moving business offices and the SEOC and an end to our operations was in sight, I would not be as worried. A few thoughts for your consideration...

- We have been running 12 hour shifts for over two weeks. These shifts often go 13.5 hours for key staff. Adding travel time on both ends leaves little time for recharging. 130 hours for the last pay period is typical. Two individuals are at or near the 160 hour mark.
- When we began operations, we were hoping for a short activation, perhaps a few weeks. With the USHHS engagement, things are only getting busier. We are planning to be in the logistics business for the foreseeable future.
- Our SEOC personnel are performing functions they have never performed. While expectations remain high, logistics problems remain a major concern.

To this end, I am providing the following recommendations.

- We need assistance with logistics. Following are three options:
  - Transition the water/filter control and distribution logistics to a private sector expert (hire a team).
  - Request water/filter logistics assistance through EMAC.
  - Obtain additional assistance from other state agencies. Options may be limited as many are already supporting our efforts.
- Reduce SEOC hours of operation. Points of Distribution currently operate from 9 AM to 9 PM. Traffic declines significantly after 6 PM. This would allow us to trim operations to a sustainable level. MEMA has offered to assist staffing SEOC positions.
- Some individuals resist taking time off. One individual has not had a day off since the beginning of the event; another has had one day off. This is not a healthy situation.
- Encourage staff to take previously scheduled vacations. If we cannot operate without one individual for a short period, we have major problems in our organization.
- Rotate personnel to different positions. I have heard the term "going native" used in reference to personnel based in Genesee County. Changing positions will work wonders for understanding what is happening on the other side of the fence.
- Have F/Lt Covey serve as a backup SDEM. He is conversant in EM terminology and has displayed good judgement in knowing when to ask for direction. This would relieve the burden of needing one of us to be in the SEOC at all times. So long as one of us is available by phone, I would feel comfortable with this arrangement.

I would like to discuss. As previously recommended, SEOC operations should be limited to true response with recovery transferred to another entity. We should pursue this option.

Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

LANSING, Mich. – Gov. Rick Snyder today named a group of medical and field experts to the Flint Water Interagency Coordinating Committee to set in place long-term solutions to Flint's water system.

The 17 member committee, housed within the Michigan State Police, will be asked to make recommendations regarding the health and welfare of people exposed to lead, study Flint's water infrastructure and determine potential upgrades, review Flint Water Task Force recommendations, and establish ways to improve communication between local and state government.

"Flint residents deserve clean, safe drinking water, and I am confident that the expertise represented on this committee will be a tremendous

asset as we continue to address the water crisis in Flint," Snyder said. "I am grateful to these appointees for their willingness to serve on this important committee."

Karen Weaver is the mayor of the city of Flint. She earned a bachelor's degree from Tougaloo College, a master's degree from Long Island University, and a doctorate from Michigan State University.

Jamie Curtis is the chairman of the Genesee County Board of Commissioners. He earned a millwright apprenticeship certificate from Mott College. Curtis is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Marc Edwards is a professor at Virginia Tech with numerous awards and honors for his work. He earned a bachelor's degree in bio-physics from SUNY Buffalo, and both a master's and doctorate of science in environmental engineering from the University of Washington. Edwards will represent subject matter experts.

Mona Hanna-Attisha is the director of the pediatric residency program at Hurley Medical Center. She earned a bachelor's degree in resource ecology and management/environmental health from the University of Michigan, a doctorate from Michigan State University College of Human Medicine, and a master's from the University of Michigan School of Public Health.

Natasha Henderson is the city administrator and chief administrator officer for the city of Flint. She earned a bachelor's degree from the University of Arkansas – Pine Bluff, and a master's in business administration from Texas A&M University – Texarkana. Henderson is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Jim Koski retired as the Saginaw county drain commissioner, a role in which he had served from 1977 to 1980 and again in 1996 to 2011. He is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Lawrence Reynolds is president and CEO of the Mott Children's Health Center. He earned a bachelor's degree in political science from Wayne State University and a doctorate from Howard University College of Medicine. Reynolds will represent subject matter experts.

Laura Sullivan is a professor of mechanical engineering at Kettering University. She earned a bachelor's degree in premedical engineering

from Arizona State University, and both a master's degree and a doctorate in materials science and engineering from the University of Texas at Arlington. Sullivan is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Mark Valacak is the health officer of the Genesee County Health Department and an instructor at the Michigan State University College of Human Medicine. He earned both a bachelor's degree and a master's of public health degree from the University of Michigan. Valacak is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

One additional member will be named at a later date.

The following members will also serve on the Coordinating Committee:

- Harvey Hollins, director of Office of Urban Initiatives within the Executive Office of the Governor;
- Col. Chris Kelenske , deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his or her designee;
- Nick Lyon, director of the Department of Health and Human Services, or his or her designee;
- Mike Zimmer, director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- Nick Khouri, state treasurer, or his or her designee;
- Brian Whiston, superintendent of public instruction, or his or her designee;

Members will serve three-year terms expiring Dec. 31, 2018. Their appointments are not subject to the advice and consent from the Senate.

Subject: FW: Water/Filter Distribution sites

As requested...

1) Can you confirm all the sites on the list are distributing water AND filters or just water?

a. All the Fire Stations have filters and water.
b. Michigan Department of Health and Human Services offices have filters only.
c. Genesee County Community Action Resource Department offices have water and filters.
d. Flint City Hall has filters only.
e. The Churches listed have been stocked with water and filters (for Sunday services only).

2) Any site distributing filters, which sites are receiving FEMA filters?

a. The filters ordered through FEMA are all going out to all of the above locations.

3) Of the sites that have FEMA filters, how is the SEOC tracking people/households that get filters from a distribution center as opposed to those being handed out door to door. Possibly one household receiving 2 or more sets of supplies.

We are able to segment PODS vs Team data in two ways.

1. PODS have to enter what station they are at into the app and that is saved into the database. The fact that this is entered uniquely identifies the records from those that are conducted by field teams. That said, there have been some PODS that have failed to enter this field. Therefore, when we archive the data we patch this field using the second method (Note, when we pull statistics from live data we use the below method).
2. The second method is to pull the "Creation ID" from the database that is uniquely tied to the iPad which created them. This is extremely accurate, but requires that the Local EOC provide a daily sign in roster indicating who has the ipads. At this time there are 15 iPads at the PODS which we are using to uniquely identify which records were not field team activity.

We have advised the local EOC, Planning, and the MSP representative in the SEOC that if iPads are moved from the PODS we need to be notified to ensure we can keep an accurate track on where resources are coming from.

GOVERNOR'S CERTIFICATION FOR EIDL

1. The Governor must certify that at least five (5) businesses in the disaster area suffered SUBSTANTIAL ECONOMIC INJURY as a result of the incident.

2. The Governor must certify that the degree of Economic Injury suffered is so severe that financial assistance, at reasonable rates and terms is not otherwise available, thereby creating the necessity for Federal involvement in the form of subsidized loans.

3. The Governor's certification must be received by the SBA Field Office Center East Office within 120 days of the incidence period and must be accompanied by supporting documentation of individual small businesses; general industry statistics are not acceptable.

4. The supporting documentation must show substantial economic injury to at least one small business in each county, or political subdivision no larger than a county, being requested, with a minimum total of five (5) sample businesses in the aggregate.

GOVERNOR'S CERTIFICATION OF ECONOMICALLY INJURED SMALL BUSINESSES BY COUNTY

Business Name & Address Contact Name Phone Number	**Gross Income** (Last Fiscal Yr.) (Indicate Month & Year)	**Gross Income** (Current Fiscal Yr. To Disaster) (Indicate Specific Date)	**Gross Income Forecast** (Disaster to Fiscal Yr. End)	**Estimate Insurance Recovery (Business Interrupt Only)**	**Estimated date when operations return to Normal** (Indicate Specific Date)
1 ( ) - 2 ( ) - 3 ( ) - 4 ( ) - 5 ( ) -	Fiscal Yr. From _____ To _____ $	From _____ To _____ $	$		

There must be at least five (5) businesses to request a disaster declaration. There must be at least one (1) sample business for each county (or political subdivision no larger than a county) which the Governor is requesting be included in the disaster declaration. If the request is for (1) county, there must be at least (5) businesses within the county. If six (6) counties are being requested, there must be at least six (6) businesses, with at least one (1) in each county.

October 15, 2010

TED STRICKLAND
GOVERNOR
STATE OF OHIO

Mr. Frank Skaggs, Director
Field Operations Center – East
U.S. Small Business Administration
101 Marietta Street NW, Suite 700
Atlanta, Georgia 30303-2725

Dear Mr. Skaggs:

On June 21, 2010, a Toxin Advisory was issued by the Ohio Environmental Protection Agency for Grand Lake St. Marys in Western Ohio in response to the threat posed by a toxic algae bloom. The Advisory was upgraded on July 16, 2010, to a No Contact Advisory as subsequent water testing indicated significant levels of Microcystin and the presence of other toxins. This resulted in non-contact advisories being posted at the lake's state-owned beaches and docks and led to the cancellation of several revenue-producing outdoor and in-lake events.

At least 19 businesses in the area have been impacted by this event. A Sample Survey of these businesses was conducted by the Ohio Department of Development to determine the economic impact of those losses. The survey results, which are attached, show that 12 of the 19 businesses surveyed have a gross revenue loss exceeding 40% for the disaster period as compared to the same period in the preceding year.

Based on the survey, I hereby certify, in accordance with the Code of Federal Regulations, Part 123.3, that, in Auglaize and Mercer Counties more than five (5) small businesses combined, and more than one (1) individually, suffered substantial economic injury as a direct result of the toxic algae bloom that led to the initial Advisory on June 21, 2010. I further certify that the degree of economic injury suffered is so severe that financial assistance at reasonable rates and terms is not otherwise available, thereby creating the necessity for federal involvement in the form of subsidized loans.

Thank you for your timely attention to this request. I look forward to your response.

Sincerely,

Ted Strickland

Ted Strickland

FOR IMMEDIATE RELEASE
Thursday, Jan. 28, 2016

Gov. Rick Snyder: Flint emergency declaration extended to April 14

LANSING, Mich. – Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.

"The emergency response in the city of Flint has been critical to ensure every

Flint family has access to bottled water, filters, and testing kits. While these efforts have a big impact in the short term, there is still much more work to be done.

"Extending this emergency will help us continue these efforts while working on long-term solutions to help Flint recover from this tragedy."

The Michigan House and Senate approved the request today, extending the emergency until April 14, 2016. The extension coincides with the current Presidential Emergency Declaration.

#

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

HAPPY MOVE DAY!!!

General Information

: It's FINALLY here. Meet you at the new location on Monday February 1,

EMHSD will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, known as the General Office Building – GOB) on Friday, January 29, 2016.

staff ASSIGNED to work in the SEOC on Friday, January 29 for the Flint gency need to report to the new facility at 8 a.m.

n the standard area and enter at the main entrance of the GOB (see attached ntrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you EOC.

tient as we all learn our way around, and with new equipment. It may be r us to assign "temporarily" locations of computers in the SEOC; therefore, your not be located in its permanent sitting position until early next week.

nentioned to those working within the SEOC, it is important that you secure nd files you may have stored on the PC's or desktops at Collins Road by saving to ck or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about ation to the S Drive. You will most likely be working on a different PC, and we re you have the files you need to continue operations with as little interruption as

your ADT access card for Collins Road, by Thursday night. A container will be he SEOC sign in-sheet for this purpose.

umbers will be established in the SEOC and will be provided as soon as

permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

EMHSD Staff not assigned to an SEOC position on Friday, January 29

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra trash bag in your office. Place this fresh trash bag in your wastepaper basket as this will be used to pack your PC accessories for transport.

Please report to Collins Rd at your normal time on Friday, Jan 29. This will be the final day in this building.

Jeans will be permitted on Friday, Jan 29 and Monday, Feb 1, if you are NOT assigned to the SEOC.

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

All EMHSD Staff that are remaining at Collins Road please report to the Kitchen at 8 a.m. Friday morning for a briefing. Friday will be used to scan the entire building to ensure all items are packed and ready for transport.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus....it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

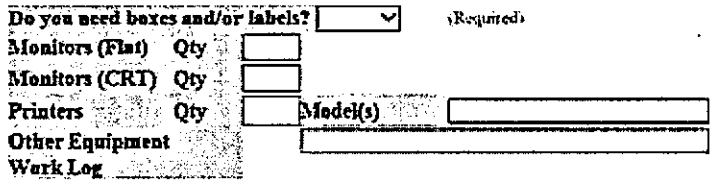
You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items throughout the weekend.**

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of. Please take a moment to look it over thoroughly.

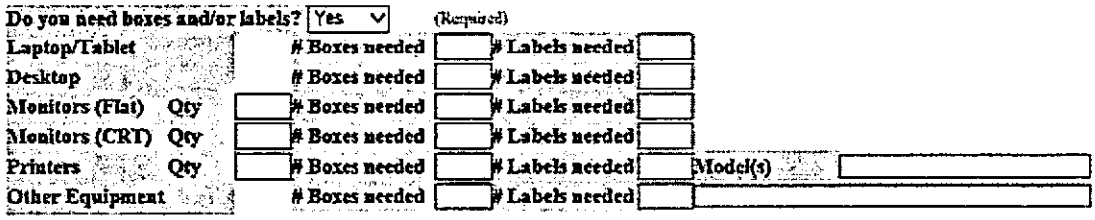
This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

FROM DTMB: In an effort to reduce shipping costs and increase efficiencies with the AARP process, additional information will be required on each AARP as follows:

1. A required "yes/no" drop down has been added to capture if boxes and labels are needed to return the assets to Depot
2. "Monitors" have been split into two categories "Flat or CRT" (quantity is still needed if you are returning monitors)
3. "Printers" remains the same (quantity and models are needed if you are returning printers)
4. "Other Equipment" remains the same (this field is used when you are returning items such as "box of mice and keyboards)



If you select "Yes" that boxes and labels are needed, the menu will expand allowing you to indicate the quantity of boxes and labels required, as well as, what device(s) the boxes and labels are for (this will in turn, allow Depot to send the correct box size).



These changes will be available on 1/29/2016.

Reminder: If you have shipping labels that you have received for previous AARP requests for the return of assets that you did not use for the designated assets, those labels need to be destroyed.

Labels are directly associated and are specific to each AARP. If you use a label with assets that the label is not designated for there is no way to track the shipment, resulting in the agency needing to file a lost and stolen report if there is an issue with the shipment and we are unable to locate the asset.

Additionally, there are plans to relocate Depot and the physical address on the old labels will no longer be accurate.

The AARP URL is http://aarp.state.mi.us/AARP/webWelcome.aspx.

If you have any questions, please contact Chris Nelson at nelsonc12@michigan.gov or 517.241.1142.

Subject: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Importance: High

Capt.,

In reference to the former Kroger store, the owner has agreed to pay all back water bills and he came down on his price to:

$15,415.57 + dumpster + $6166 utilities: **$21,581.57/mo**

It is my hopes that we can secure this facility, at least until the Target store hopefully comes available in April. I'm not sure if any of the donation money collected could go towards the lease or at least the utilities, but this is a great location and great potential POD site. We are in dire need of space and this is the only one panning out at this time. I've spoken to Ginna Holmes who indicated she could locate volunteers to operate the site. At this time, it would only contain water and would serve as a backup to all the random donated water that is coming in semi-loads daily. I have many photos and videos of the facility provided by Lt. Russo if you are interested in seeing them.

Please let me know as soon as possible if we can move forward with the lease. Thanks.

Jeanette,
I think we should add an additional $1.50-$3.00 psf for heat & electric.
The water bill is $400.00 per month (0.06 cents psf) which hasn't been paid, and this is for an empty building, not sure if it is estimated on past use or not.

I think the square foot rate may be$7.00-$7.50 psf without the dumpster charges (CAM) and the water bill but should only be a few cents psf depending on the usage.
Please let me know if you want me to proceed.
Maureen

Subject: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Hi Maureen:
It was a pleasure to speak with you. I am recapping our conversation regarding the leased space.

Total Leased Area: 74,000 square feet
Address: 2629 West Pierson Road, Flint, MI 48504

Base Rent: $1.50/sq. ft. Annual: $111,000 Monthly: $9,250.
CAM: $2.10/ sq. ft. Annual: $155,400 Monthly: $12,950.
Taxes (if applicable): $154,000 annually X 36.6% = $56,364 (based on FY 2015) Monthly: $4,697=$.76 psf
Insurance: $68,000 annually X 36.6% = $24,888 (based on FY 2015) Monthly: $2,074 =$.34

We can arrange for and order a dumpster for your store which will be billed back at 100% on a monthly basis. You will need to contact Consumers Energy to arrange for the store's electrical and natural gas service transferred to your name. $2.-3. psf
You may use the lighted sign on W. Pierson Rd. and pay for the electricity to illuminate the sign which is metered separately.
Please let me know if you have any further questions. Welcome!

Attachments: Flint Blood Testing Report 12Jan22 R1.pdf; Copy of 20160112MILEAD_Flint by Zip (004).pdf

Governor,

The attached information was provided by DHHS.

The first attachment shows blood tests for all Flint zip codes combined, by year, for the period 1/1/10-1/22/16. It also shows the percentage of high blood tests for children < 6, by quarter, for the same period.

The second attachment breaks out the children < 6 data by zip code.

*Note:
--the most recent quarters continue to be updated, so there may be some discrepancies between the totals in the two documents.
--DHHS cautions against referencing specific zip codes with small test populations. They are concerned that such a reference could identify actual persons.

Perhaps we could use donations to pay for the rent. Given the donated and FEMA ordered water headed our way, we could be in trouble in the near future. Based on discussion with Wendy, we need to act soon or have a new problem on our hands.

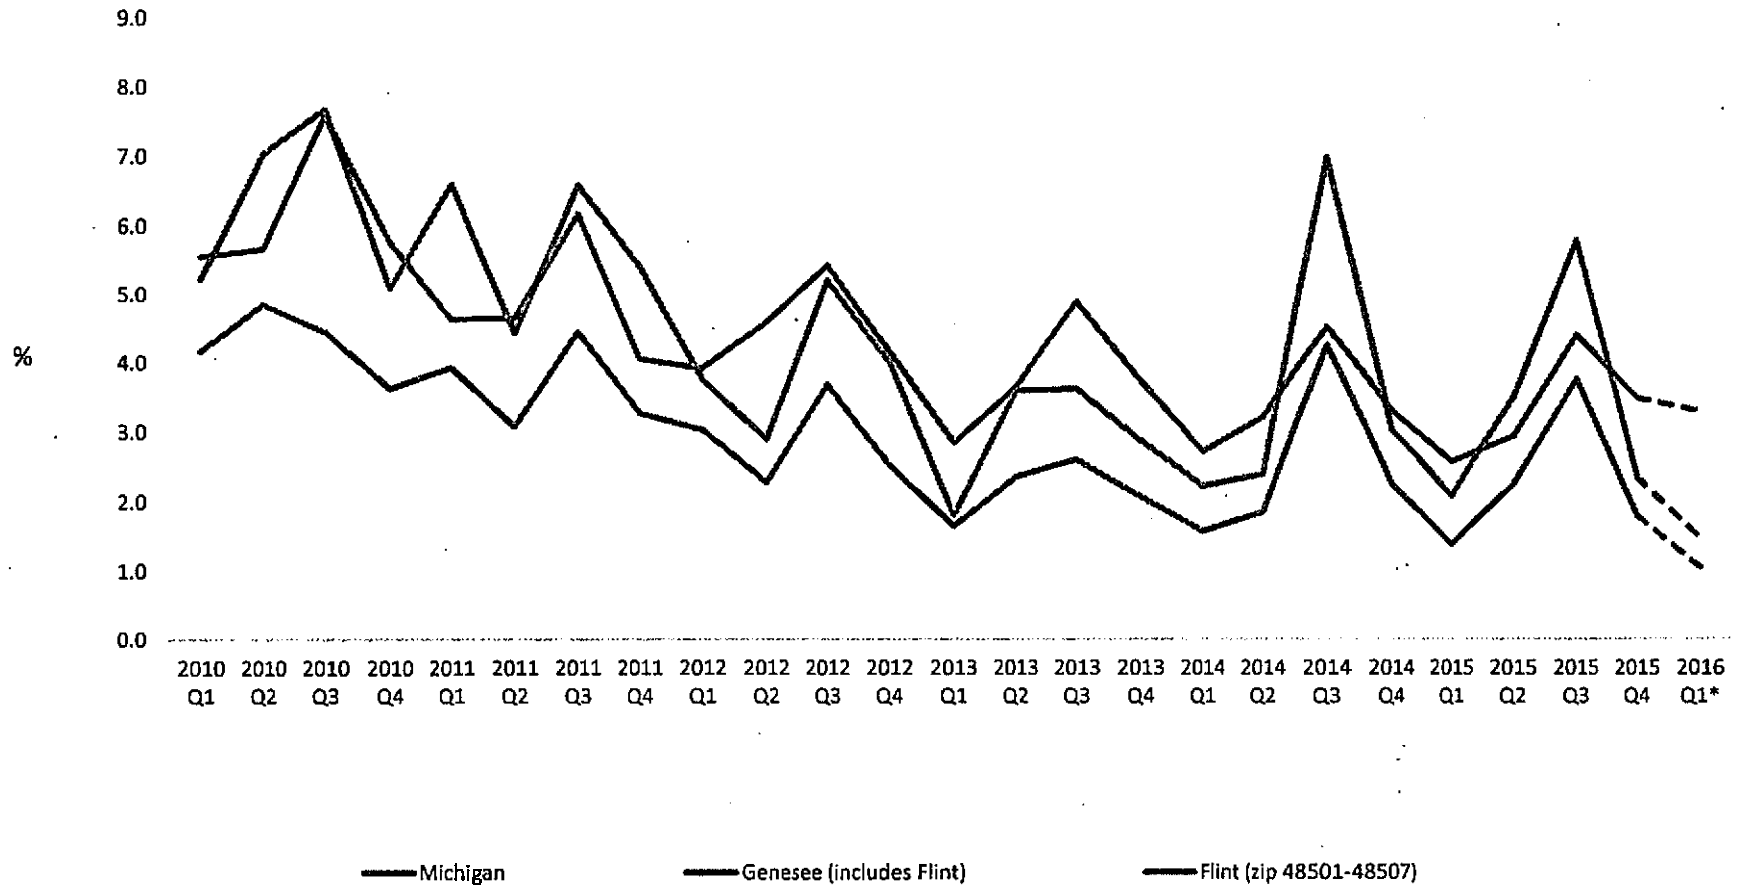
Michigan Department of Health and Human Services (MDHHS) Blood Lead Level Test Results for Flint Zip Codes 48501-48507, Genesee County, and the State of Michigan Summary as of January 22, 2016

Executive Summary

This report is generated by MDHHS to track Blood Lead Level test results in Flint, Michigan.

- Counts on this report include both capillary and venous blood tests.
- People who have had multiple tests are counted only once per year. People counted in 2015 who were tested again after 1/1/2016 are counted in both years.
- Between 10/1/2015 and 1/22/2016, an additional 3,351 people were tested in Flint.
- Continued testing efforts by Genesee County Health Department, MDHHS and local medical personnel have identified 45 children with blood lead levels greater than or equal to 5 mcg/dl (micrograms lead per deciliter of blood) since 10/1/2015.
- Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, MDHHS recognizes that the full community of Flint must be the focus of the public health response.
- 2.5 percent of Flint children younger than 6 years old tested between 10/1/2015 and 1/22/2016, had blood lead levels greater than or equal to 5 mcg/dl.
- After refining our methods to identify age, some people are now counted in a different age group than on previous reports. The total counts for each year have not changed.

Incidence of elevated blood lead ≥ 5 mcg/dl among children < 6 years of age by quarter, Michigan, 2010- 2016



* Data for Quarter 4 of 2015 and Quarter 1 of 2016 are incomplete and subject to change.

	Children younger than 6 Years Old			Children 6 to 17 Years Old		
	Michigan	Genesee County	Flint, 48501-48507	Michigan	Genesee County	Flint, 48501-48507

Based on preliminary data, from 4/1/14 to 1/22/16, we've had 186 Flint children < 6 test over the limit out of 5,312 tests (3.5%). Over the same period, we've had 232 Flint residents of all ages test over the limit out of 7,904 tests (2.9%).

For the period from 10/1/15 to 1/22/16, the preliminary numbers are as follows:

38 out of 1,505 Flint children < 6 tested over the limit (2.5%)

67 out of 3,351 Flint residents of all ages tested over the limit (2.0%)

Interestingly, for the period 1/1/10 to 12/31/10, we have:

Flint Children < 6: 230/3,630 (6.3%)
All Flint residents: 260/4,218 (6.2%)

In fact, the percentages for the last couple of years are relatively low for the covered period, especially compared to 2010 and 2011.

This is very good in terms of gathering data; but way too complicated for normal interviews. Since xxx, we have xxx children over the limit out of xxx tests, and xxx total people out of xxx tests.

Please help fill in the blanks.

Thanks
Rick

Subject: MDEQ Safe Water Sampling

Capt. Kelenske,

Below is the information requested on the MDEQ sampling.

1/28/2016
3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead.

1/27/2016
2,991 water samples out of 3,192 sampled through January 27, 2016 are at or below the action level of 15 ppb.

1/24/2016
We ran the counts and found the following based on a results of higher than/less or equal to 0.015 (mg/L)
Of 853 tests:
68 tests were greater than 0.015 mg/L – (matched to 40 parcels)
785 tests were less than or equal to 0.015 mg/L – (matched to 577 parcels)

Attachments: Gov Questions Part 1.docx

Governor,

According to the DEQ, 3726 water samples out of 3972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead.

The SEOC is currently compiling the information requested below, and we will work to incorporate it into a useful quick reference for you that will be continuously updated. We do not have the daily and running totals yet, but I wanted to attach what we do have at this point, in case you need it tonight or tomorrow morning. I apologize for the delay.

Nat

"Captain,

Below are the G's notes listing the data he would like to see. He asked about some of these items on this morning's call, but I thought it would help if you saw his raw notes. Much of this data is reported in the daily briefings, and I would think all of it is available at the SEOC. I think what the G is looking for is a quick reference, so that he can quickly see what the response has been on a daily basis since day 1 of the operation (daily totals plus running totals for each item, where appropriate). Basically, I think what he's looking for is a timeline of the response with respect to the requested data: homes visited, water bottle distribution, filter distribution, homes with filters, cartridge distribution, water test kits distributed, water test results, blood test results, access points (WRT, POD – start date, number of individuals/teams by day, functioning PODs by day), daily # of volunteers, daily inventory (water, filters, etc.), daily backlog of test kits (or anything else), shortages at PODs (when the LG and I worked at Fire Station 6, they ran out of testing kits), recycling efforts.

In addition, some of the below items are simply information requests: How to get blood testing done, what does a person need to provide to get water or a filter at a POD, how to install and use a filter, when to replace a cartridge, benefits of a filter, how a person can get items delivered or installed (seniors, homebound, etc.), requirements for volunteers (walking and lifting requirements, time commitment, etc.), price paid for water, filters, cartridges, testing kits, etc. If a protocol has changed or been corrected during the response (like the need to supply identification, paper notes transferred to digital, etc), the day that happened should be noted.

Finally, I think he's looking for any points of interest/analysis regarding the response that you think are worth highlighting. For example: what to make of the volume of resources going out the door, disparity between number of filters distributed and number of homes with filters, problem with apartment buildings, data cleanup process, mapping of water lines and the issue of lead lines to the curb, the mystery of the non-subscribers with filters, priority of response (started in highest-lead areas based on Dr. Mona's projections and worked towards lowest-lead areas), # of potential non-contacted parcels in red zone, expected future water/filter needs vs expected supply etc.

Again, I don't want to pull anyone away from more important aspects of the response efforts, but if you have someone who in the next couple of days has the time to compile this information, that would be helpful.

Thanks.

Nat
(The G's notes are below.)

1. Data repository - public information regarding:
Homes visited
Water bottle distribution
Filter distribution
Homes with filters
Cartridge distribution
Water test kits, distributed
Water test kit results
Blood testing - how to get done
Blood testing results

a. Each of these should be broken down into relevant time frames and in total.
At some point it would be good to geographically understand where in the City.

b. Also, what is the history and current access points for each of the above.
What, if anything, is needed to be provided to obtain each item
How to interpret information on each item.

c. Need additional info on many of the above:
For example, filters - how to install, how to use, benefits, when install new cartridge, etc

d. Special situations - how to get items delivered; how to get filter installed

e. Volunteer needs - # needed, time required, skills, etc.

2. Items above - Inventory, any backlog, cost management, recycling
For example, a case of 16.9 oz bottles varies on the web from $2.10 to $4.22 excluding shipping"

Do you have new numbers?

How does someone get blood testing done?
There are a few ways to arrange to have your blood tested for lead.

1. Your family healthcare provider can make arrangements with you to either test the blood in the office or refer you to a laboratory. This is the best option, because you have a relationship with your provider for all of your medical needs.
2. The Genesee County Health Department accepts walk-in appointments for children at the Burton Health Center, G-3373 S. Saginaw Street Burton, Michigan 48529. For more information please call 810-237-4538
3. Adults who cannot get in to their primary healthcare provider or who do not have a primary healthcare provider can call the Genesee County Health Department Adult Primary Care Clinic 810-251-3445.
4. The following Community Clinics will also provide blood lead testing
    a. Thursday, February 4 2016 from 3:00-6:00 PM
        - Carriage Town Ministries, 605 Garland St Flint, MI 48503
    b. Monday, February 8, 2016 from 1:00–3:00 PM
        - School For The Deaf, 1235 W. Court St Flint, MI 48503
    c. Monday, February 8, 2016 from 3:00 - 6:00 PM
        - Carriage Town Ministries, 605 Garland St Flint, MI 48503
    d. Tuesday, February 16, 2016 from 2:00–4:00 PM
        - Alpha Montessori Preschool PM YWCA, 310 E. Third Street Flint, MI 48502
    e. Wednesday, February 17, 2016 from 4:00-7:00 PM
        - YMCA/Cathedral of Faith COGIC, 6031 Dupont, Flint, MI 48505
    f. Tuesday February 23, 2016 from 4:00-7:00 PM
        - YMCA/Mount Olive Missionary Baptist, 424 E. Kennelworth Ave Flint, MI 48503
    g. Thursday March 3, 2016 4:00-7:00 PM
        - YMCA/Ennis Center/Big Brothers Big Sisters, 411 E 3rd St Flint, MI 48503
    h. Tuesday, March 22, 2016 from 3:30-5:30 PM
        - Genesee Stem Academy, 310 W Oakley St Flint, MI 48503

What does a person need to provide to get water or a filter at a POD?
Flint residents are encouraged to visit five water resource sites across the city, where they can receive free bottled water, filters, water replacement cartridges and water testing kits. Identification is not required to receive any of these resources. The state's goal is to get a water filter in every household, because filters are the best way to provide access to safe drinking water. As part of the distribution process, members of the National Guard at the water resource sites ask residents seeking filters and replacement cartridges to share their address in order to more accurately gather information for long-term recovery efforts. No resident will be denied a resource if an address is not provided.

How do people install and use a filter (is there a link)?
For residents in Flint, the Flint Water website (www.Michigan.gov/flintwater) has information which explains the step by step the installation process. Additionally, MDHHS has developed a YouTube video available at: https://www.youtube.com/watch?v=979YIP4KoZ8

When does someone replace a faucet filter cartridge (the pitchers have a TDS meter)?
There is an indicator light on the filter apparatus. The light is green when filter is good. The light will turn from green and red when there are 20 gallons remaining on the filter cartridge. The light will turn solid red when filter needs to be changed. We have been communicating that the filters typically last three months or 100 gallons. Currently MDHHS has not heard any information from the field that these estimates are not accurate. MDHHS has developed a YouTube video available at https://www.youtube.com/watch?v=979YIP4KoZ8.

What are the benefits of a filter?
Per MDEQ, utilizing a filter certified to reduce levels of lead will improve the quality of your drinking water and reduce exposure to unsafe levels of lead by water consumption.

How can a person get items delivered or installed (seniors, homebound, ect.)?
A person can get items delivered by calling 2-1-1 and requesting items. Once items have been requested, the information then gets routed through the local EOC and that in turn gets sent to the Rapid Response Teams designated for the Flint Area Emergency response to fulfill the request.

What are the requirements for volunteers (walking and lifting requirements, time commitment, etc.)?
There is one requirement all volunteers must meet: No felony convictions. Additionally once volunteers are processed through the Community Volunteer Reception Center they are matched up with an assignment. These assignments could come from any of a number of community organizations. Some assignments are strenuous; others are family (including children) friendly.

How much are we paying for water, filters, cartridges, testing kits, etc.?
The State of Michigan, under state contract with Home Depot, paid as follows for water resources:

Bottled Water, 24 pack case:	$ 3.27 each
Pur Faucet Mount Filters w/ 1 replacement cartridge:	$ 29.97 each
Pur Replacement Cartridges – single pack:	$ 16.97 each
Pur Replacement Cartridges – 3 pack:	$ 25.98 each
Brita Advanced Faucet Mount Filters:	$ 25.47 each
Brita Replacement Cartridges – single:	$ 15.97 each
Brita Replacement Cartridges – 2 pack:	$ 24.87 each
Zero 23 Cup Filter Pitchers:	$ 39.97 each
Zero 8 Cup Filter Pitchers:	$ 29.99 each
Zero replacement filters – 4 pack:	$ 49.00 each

Water Testing Kits were purchased by MDEQ from Environmental Express, Inc. for approximately 87 cents each.

What are we seeing as to the volume of resources going out the door?

1. Distributed as of 5 pm on 1/27/2016:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

Overall warehouse burn rates of water:

- Daily Low: 8,341
- Daily High: 20,969
- Daily Average: 13,760

What do we think is happening regarding the disparity between numbers of filters distributed and number of homes with filters?

1. We decided not to apply controls in the distribution process for the following reasons:
    a. The initial response was overwhelming. Checking IDs would have greatly complicated and slowed distribution.
    b. Distrust of authorities was perceived to be a major concern. Requesting identification would have placed a chill factor on distribution.
2. While one filter per home may seem ideal from a cost perspective, it is impractical from a resident's view. Having one filter per residence means a trip to the kitchen (or other selected location) each time someone wants to cook, clean teeth, or get a drink in the middle of the night.
3. A key factor in achieving 100% coverage is that this can only be attained by entering each residence (homes, apartments, etc.) which cannot always be done. People do not always answer the door due to the following:

a. Reluctance to answer the door to government personnel by undocumented persons or those with a criminal record.
b. Families who have headed to warmer states for the winter.
c. Individuals who work during the hours of Flint Water Response Team operations (9 AM to 6 PM at peak).

What is the problem with apartment buildings and the data?
The City of Flint does not maintain a record indicating unit counts for apartment buildings, nor the unit level information for people in each building. They do maintain this information for "Residential" parcels, but apartment buildings are classified as commercial by the assessor's office, and therefore unit count is not retained. Therefore, it is unknown when an apartment has been fully canvased using our internal datasets as we do not have a total to compare to. Currently, it is thought that this data can only be retained by meeting with each individual landlord and compiling a list.

Additionally, our mapping efforts have been tied to addresses and we have been establishing what tenants of that address have through many visits based on the number of coincident points (individual team activities) at that address. That way we can tell how many times a residence has been visited and consolidate down information on all of the various items they received. Apartment units all show to be at the same address, and therefore this spatial method of identifying repeat locations does not work.
Even if the collection process incorporated information about apartment numbers, it does not address the above requirements.

Ideally, a database would exist of all apartments with their respective units and confirmation would be done within that database, or the landowner for the premise in conjunction with Flint Building and Safety would assist staff to canvas the facility in one visit to ensure filters were distributed and installed during the visit.

What is the data cleanup process? What is the cause for any issues and what is the fix?
Process
1. Data entry of paper records
2. Checking/correction of both data entry and field entry points
3. *Consolidation of multiple versions of form questions.*

Causes:
- Paper forms slow to process, difficult to read, often are incomplete
- Bad address information from paper forms or PODS data entry
- Addresses that exist physically but are not in parcel data
- Variety of formats
- Multiple versions of questionnaires: multiple types of paper forms, multiple types of spreadsheets, multiple ArcGIS forms
- Questions are phrased differently. Yes/No responses were changed to Quantity and Type. This means there are unknown quantities initially distributed, though some assumptions can be made.
- Technology that works on laptops but not iPads and vice versa
- Technical and environmental difficulties such as temporary unavailable networking, cold temperatures, etc.

Fixes:
- Use iPad/Collector for ArcGIS for all data collection
- Improved training for field teams and data entry teams
- Quality Assurance/Quality Control teams

What are we doing regarding the mapping of water lines and the issue of lead lines to the curb?

Flint contracted U of M Flint to map lead service lines within the city. This effort is underway. We have been coordinating with them to expedite timelines and ultimately were able to shift a completion date from the month of April to next week.

Additionally, EMHSD has been working with GIS analyst from the DNR to map these service lines by parcel in support of emergency operations. This method is hastier, but effective to quickly identify problem area.

Next week are going to cross validate our findings against U of M Flint to ensure the data created is accurate.

Who are the non-subscribers with filters and why do they need filters? Could they be subscribers in the future?

A "non-subscriber" is someone not paying for Flint Water. They may have stopped service for a variety of reasons (most likely of which being there is lead in the water). Our best hypothesis as to why they picked up a filter is that they may be considering turning their water back on or have an alternate water source they wish to filter (for example, a well). It is likely they could be subscribers in the future.

Other possible explanations:

- People who picked up filters from PODS who just didn't need them
- Bad address information provided by field
- Out of date billing and parcel data (last updated on 22 January 2016, and unlikely that financial records are too out of date)

How did we determine the priority of response?

From the start of SEOC operations, the mission of the SEOC has been to provide potable water to users of the Flint water distributions system to preclude future lead ingestion.

1. The quickest path toward achieving this mission was through distribution of bottled water.
2. Filters provide a simpler long-term solution as faucet water can again be ingested.

Distribution of water, filters, and filter cartridges was initiated by several groups prior to SEOC engagement (HHS offices, GCCARD, and the sheriff department). The SEOC judged that the best mechanism to ensure provision of water, filters, filter cartridges, and test kits was through door to door visit. This process had already begun through the sheriff department by the time state teams were mobilized and deployed. Door to door distribution provided the best mechanism for documenting each residence was reached. Two rounds of distribution have occurred and a third is underway. The first two were intended as distribution in mass. The third round is focused on visits to residences where no contact was made or no filter was known to be in place.

FWRT efforts were targeted on areas of the city with the highest concentration of lead issues as identified on a map of Dr. Mona Hanna-Attisha's work. Coinciding with these efforts, five Points of Distribution were established at Flint City fire stations. The warehouse's priority is to ensure that PODs are continually supplied. Water, filters, filter cartridges, and test kits were provided to citizens with the following guidance provided to workers:

- Distribution was to be limited to 1 case of water per household.
- If multiple individuals per vehicle indicate they are from separate households, provide each a case of water.
- If an individual indicates they have special needs, direct them to call 2-1-1 or request their address so that water can be delivered (we expect discretion in this area and to err on the side of providing them resources versus any denial).
- If an individual insists on taking more than one case, request they stop, but take no further action.
- The JIC issued messaging to emphasize the need to limit taking cases of water from PODS as it may impact others in need of water. They will also note there are no plans to close PODS.

2-1-1 was engaged to address all questions and take special requests. If a resident lacked transportation or the ability to travel to a POD or had special needs, they were directed by the JIC to call 2-1-1. 2-1-1 directs resource requests to the local Emergency Operations Center which assigns a Rapid Response Team to provide assistance.

What is the number of potential non-contacted parcels in red zone?
Of the parcels in the red zone (approximately 4905) there were 2890 contacts made. Meaning, there are 2015 non-contacted parcels. Note, this includes commercial and industrial properties and this area includes downtown.

If we were to only look at residential there would be 4553 total parcels in the red zone and 2782 contacted (1771 not contacted). Note, that the City of Flint has identified 1816 of the residential parcels in this area as vacant as of 2014. So, given that vacancy changes regularly for homes, it may be likely we've contacted the majority of residents in this area. It's also important to note that 318 of the parcel "contacts" were field teams reporting the properties in this area were vacant.

GIS is actively working to clean up vacancy numbers to provide better coverage estimates.

What are our expected future water/filter needs versus expected supply etc.?
Projected future water needs: 1,087,053 cases needed over the next 90 days
Projected filter cartridges needs: 2,016,000 for Flint residents over the next 90 days
On average we carry a 3 day supply of purchased water and 40,000 filters on hand.

What is our inventory management process?
We have a warehouse manager, FEMA inventory specialist, inventory reporting, and all inventory is reviewed daily. Currently we have MDOC personnel managing the warehouse.

How do we supply and reorder supplies?
First we go through the donation management team, if unavailable we then go through FEMA. The SEOC State Director

No on shower filters. There is no basis from anything we have heard.

On Jan 29, 2016, at 9:20 AM, MSP-SEOCOPSC <MSP-SEOCOPSC@michigan.gov> wrote:

> Sir,
> Do we need to take a position on the shower filters (sign off)? I don't know if they block lead, but they would likely filter the water further and decrease the likelihood of the skin issues (alleged rashes). Good360 is handling this? This is the first I have heard of it. Scroll down to the highlighted 211 notes.

Subject: 2-1-1 Update Flint Water Response for Thursday, January 28, 2016

Note: Tomorrow's (Friday) will be delayed due to a prior commitment in Manistee. I will make every effort to get an update out later in the evening, but may not be able to compile information until Saturday.

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 28, 2016

GENERAL INFORMATION:

- **FOLLOW UP:** 2-1-1 was hit hard in the aftermath of last night's robo-townhall by Gov. Snyder and the nationally broadcast town meeting with Rachel Maddow on MSNBC. Calls from Flint are becoming longer and expressing more frustration. We received word that some state government outreach materials are directing residents to call 2-1-1 "to share their feelings and ideas". We are working to track down the specific source for this, but it is important to clarify ***2-1-1 is an information and referral service, not a chat line.*** Flint residents clearly need a venue for sharing their feelings and ideas, but 2-1-1 is not equipped to collect or act on this information – using the service for this purpose prevents other callers from receiving the assistance they need.

CALL VOLUME:

The Michigan 2-1-1 system experienced much higher than average call volumes today. Seasonal demand for tax preparation scheduling and assistance are a major source of calls, in addition to over 600 calls from utility assistance customers who received notice that they are no longer eligible for a Michigan Energy Assistance Program that helped in past years with heating expenses. With 14,000 households receiving notices they are being dropped from the program, we anticipate demand from these utility customers will remain high for several more days, particularly in SE Michigan.

The Michigan 2-1-1 providers are working together to address system capacity challenges and to meet quality service expectations. Temporary staff are being added in some locations, but space restrictions limit the number of additional agents who can be added on-site. The 2-1-1 technology platform is highly flexible, requiring only an internet connection and a direct-dial phone number to receive calls. Available options to address the capacity need are 1) deploying regular 2-1-1 staff to work from home; 2) utilizing volunteers to take Flint water calls from an outside location; or 3) contracting for staff from 2-1-1 providers in other states. Each option has training, supervision and cost implications for 2-1-1s and our funding partners to consider.

SPECIAL NEEDS/REQUESTS

- Residents have heard news reports that initial lead and copper test results have been posted. They are calling 2-1-1 for results. 2-1-1 is not sharing individual results, but is instructing these callers to visit http://www.michigan.gov/flintwater and click on the report under the 'In The Home' link.

RUMOR CONTROL

- 2-1-1 continues to receive a number of calls regarding the rumor that Sparklett bottled water is contaminated with lead. Callers are informed that MDEQ has tested all bottled water sources and confirmed they are lead- and copper-free.
- A member of the Communications team at 2-1-1 partner Michigan Association of United Ways shared a link from Twitter and Facebook account 'BrownBlaze' based in Milwaukee with posts stating:
  - ☐ "Flint residents are barred from selling their homes and moving their families bc it is illegal to sell with a known lead or copper issue."

☑ CPS is threatening to remove children from homes with water issues. **Note:** This rumor has been documented by fact-checking web site Snopes.com as "FALSE".

☐ "Undocumented immigrants in Flint aren't just being denied clean water, they aren't being tested for lead poisoning." This tweet included a link to a story about undocumented residents facing ICE raids: http://grist.org/cities/its-not-just-clean-water-flints-undocumented-immigrants-cant-access-medical-lead-testing/

Michigan 2-1-1 forwarded these links to SEOC for response.

UNRESOLVED

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are *asking how long this will continue.*

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? *UPDATE:*** *The Michigan 2-1-1 office passed on the demand for shower filters to* Good360, which is looking into options to meet this need.

☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

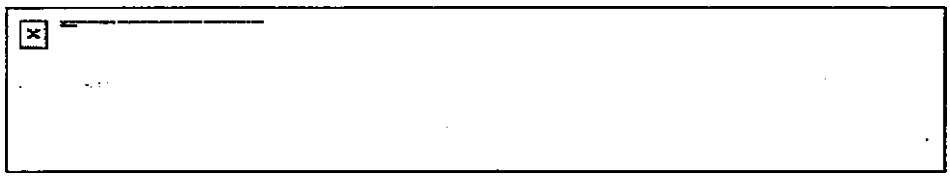
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

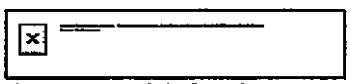
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

So do the 30 MSP personnel know to be in the SEOC? Where did that number come from? Is FEMA invited and does the govs office know FEMA may be there?

Subject: RDS/BC - (LBiehl) - Visit to SEOC

Purpose: To visit and thank the state employees working out of the State Emergency Operations Center (SEOC).

Attendees: ~60 state employees
30 MSP officials
30 Representatives from other State Agencies

Department Directors/Staff:
Mike Zimmer –LARA
Col. Etue –MSP
Keith Creagh –DEQ
Geralyn Lasher –DHHS
David Behen –DTMB

Agenda:
9:30 AM – 9:33 AM Governor arrives; pre-brief with staff, if needed
9:33 AM – 10:00 AM Governor greets SEOC staff (they are all in one space)
10:00 AM – 10:15 AM (possible) Governor participates in beginning of daily coordination call between state, federal and local teams
10:15 AM Governor moves to media avail (see separate appointment)

OPEN PRESS

Talking Points:
- We're here today to thank the team in the SEOC has put their all into helping the people recover during this crisis.
- Sentinel site testing is underway, helping us scientifically analyze the levels of lead and copper in Flint's water.
  - Testing at 402 sites will take place in 2 groups over 8 weeks and the initial results are available from the first grouping of tests.
- While nearly 90 percent of the tests conducted at Sentinel tests came in under the action level, there were still some serious elevated lead levels that need to be addressed and monitored.
  - We will continue to monitor and share these tests over the next 8 weeks as we work to determine safety in Flint's water.

EPA Finds State And City Response To Flint Water Crisis 'Inadequate'
(The Inquisitr)
Michigan: The U.S. Environmental Protection Agency (EPA) announced Friday that the state of Michigan and city of Flint have not done enough to address growing concerns over extremely poor water quality and high lead levels, reported the Detroit Free Press. Specifically, the EPA cited Flint's lack of qualified personnel at the city's public water plant. "Following up on the EPA's emergency order of Jan. 21, water enforcement division Director Mark Pollins wrote state and city officials on Friday, saying that... there continued to be 'significant issues that need immediate attention.'" This includes ensuring that there are adequate staff levels at the Flint water treatment plant, as well as developing a comprehensive plan to ensure corrosion treatments are adequate and will prevent more lead from leaching into resident's water via old water lines. Polllins also revealed that Flint will remain unable to switch to a new water source until plans are in place to control the corrosion and the system has obtained the necessary staffing and expertise to properly operate the plant, CNN reported.

Washington spotlight focuses again on Flint water crisis
(Michigan Radio)
Flint's drinking water crisis is getting more attention from Washington. Two senior members of Congress are due in Flint Monday. House Minority Whip Steny Hoyer and Maryland Representative Elijah Cummings are the latest members of Congress to visit Flint in recent weeks. They will be joined by Michigan representatives Dan Kildee, D-Flint; Debbie Dingell, D-Dearborn; and Brenda Lawrence, D-Southfield. They will meet with Flint business leaders and get a briefing from federal officials on what's being done to address Flint's lead-tainted drinking water. Congress has stalled a proposal to spend hundreds of millions of dollars to repair Flint's broken water system and treat residents poisoned by lead that leached from pipes into their drinking water.

Weather and Impacts

Ice Jam Causes Flooding In Grant County, WI
(Social Media)
Grant County, Wisconsin: An ice jam on the Grant River Saturday morning caused minor flooding of farmland in south central Grant County, the Dubuque Telegraph Herald reported Sunday. Meanwhile, the National Weather Service has warned that saturated soil likely will lead to flooding in some areas. The Grant County Sheriff's Office said a large ice jam along County Road N. and Dugway Road north of Burton pushed chunks of ice up along the river bank, flooding low-lying agricultural land. A Grant County 911 dispatcher said the Sheriff's Office and the National Weather Service in La Crosse were monitoring the situation Saturday. No bridge damage or roadway flooding was reported. The river level rose from 9.6 feet Friday night to 19 feet by 3:30 a.m. local time Saturday; the flood stage is 18 feet. A hazardous weather outlook has been issued for Dubuque, Clayton, Delaware, Jones and Jackson counties in Iowa; Jo Daviess County in Illinois; and Crawford, Grant, Iowa and Lafayette counties in Wisconsin. The service warns of an elevated risk for ice jams and river flooding and early this week for Iowa tributaries, including the Maquoketa and Wapsipinicon rivers, and portions of the Mississippi River from the Quad Cities south.

Environmental/Chemical/HAZMAT

Nearby Residents Evacuated As Bomb Squad, ATF Work To Remove Explosive Materials, Chemicals From Home
(WISN 12 News)

Waldo, Wisconsin: Police responding to reports of an explosion Saturday discovered materials for explosives, fireworks and unknown chemicals in the home of a Waldo man on parole. Officers arrived around 4:45 p.m. local time Saturday to the home near 2nd and Harmon streets. They noticed that porch windows of his home were broken and seemed to have been blown out. The suspect was taken into custody for violating his parole. The suspect is on parole for a 2008 conviction of improvised explosives, and in that case, he was found to have owned a large amount of explosive chemicals. A Milwaukee County Sheriff's Office bomb squad was called to the scene Sunday morning along with several other agencies to help with the investigation. The bomb squad began a search of the home and called for neighboring homes to be evacuated as responders worked to move large amounts of firework-making materials and chemicals. The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) is assisting the bomb squad and the Sheboygan County Sheriff's Office in the investigation.

Law Enforcement and Intelligence

Suspect Reportedly Uber Driver, Took Fares Between Incidents
(AP)

Kalamazoo, Michigan: A man suspected of shooting eight people in the Kalamazoo area, killing six, was an Uber driver who was apparently taking fares in between opening fire at various locations, police said Sunday. Authorities are investigating reports that the suspect dropped off a group of people at a Fairfield Inn in Texas Township, then went next door to the Cracker Barrel and opened fire on two vehicles, killing four people. A woman at the hotel said she heard about 10 shots, then ran outside and saw the suspect driving away from the Cracker Barrel at a normal rate of speed. A Kalamazoo County prosecutor confirmed that authorities are looking to a Facebook post by some apparent Uber passengers who were in the suspect's vehicle when he was allegedly involved in a sideswipe hit-and-run crash, ran at least one stop sign and was driving erratically just before the shootings. Authorities said the suspect was in contact with more than one person during the ongoing rampage but would not elaborate about what kind of communication that involved. But authorities still cannot say what may have prompted the suspect, who has no criminal record, to randomly prey on victims who had no connection to him.

Subject: SEOC Definition

The SEOC is the central command and control facility responsible for carrying out state response at a strategic level during an emergency, and ensuring continuity of operations. The SEOC is responsible for the strategic overview, or "big picture", of the disaster, and does not normally directly control field assets, instead making operational decisions and leaving tactical decisions to lower commands. The SEOC collects, gathers and analyzes data; makes decisions to protect life and property, and disseminates decisions to all concerned agencies and individuals. The Governor has Command and Control of the SEOC. In his absence, the MSP Director assumes this responsibility.

Michelle and BJ,

As a follow up from Saturday. I am going to send you another email after this one.

Michelle,

Can you please see if you can get the faucet head back from EPA. 's faucet head). I will return it to him later this week when I return. Also, can you ask EPA if they can sample his water,,, I do not think a water sample has been taken from his residence.

BJ,

Can you please reach out to the Flint Water Treatment Plant,,, can you speak with Chris (Beetenberg) and see if it was his crew that was at s last week. And what was the results of the visit. Second request,,, Dale Collins UA 370 advised he was going to install a new faucet at ,, can you see if that has been scheduled?

I will send you an email from Scott Sheaffer DEQ,,, when I go to I ; residence this week, I will bring the DEQ water test kit, and explain to him he should draw a sample after the water is stagnant for 6 hours. I will make arrangements to retrieve the sample from him.

I apologize for all the TO Dos,,,,, give me a yell if you have questions.....

FEMA Region V Morning Brief
DATE: 02/22/2016

REGION V RESPONSE STATUS:

- **RRCC:** Watch / Steady State
- **IMAT:** Blue
  - Alpha: deployed to Lansing, Michigan in support of MI-3375-EM
  - Charlie: Collateral IMAT
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:

- **Illinois:** Normal Operations
- **Indiana:** Normal Operations
- **Michigan:** ***Full Activation (Flint Water Emergency)***
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin *(12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing significant to report

SIGNIFICANT WEATHER (NWS, SPC): A winter storm system is expected to impact southern and central portion of the region Wednesday into Thursday. This system will be accompanied by windy conditions across the area, and it will also be accompanied by rain and snow. It appears that at least minor snow accumulation is likely across most of the region by the time the system departs. While uncertainty exists in the details, current indications suggest the highest snow totals reaching 4" or higher will be possible for portions of Illinois and Indiana. However some portions of northwest Indiana and southern Lower Michigan may receive over 8 inches of snow accumulation. Lower Michigan is currently positioned on the "cold side" of the storm, which may result in heavy and wet snow. The primary impacts will be hazardous travel conditions possibly affecting the Wednesday afternoon and Thursday morning commutes. Possible power outages as a result of downed power lines due to heavy snow.

HYDROLOGIC CONDITIONS (AHPS): Nothing significant to report.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:

- **Declaration Requests:** None.
- **PDA Summary:** None.

- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

TRAINING EVENTS:

- **Feb 29-Mar 1:** REP Core Concepts Course (RCCC); Manitowoc, WI
- **Mar 1-2:** L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4:** REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4:** L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24:** REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25:** REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7:** L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, MN
- **Apr 18-21:** REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22:** REP Exercise Controller Course (RECC); Springfield, IL
- **May 3-5:** L207 Introduction to Hazard Mitigation Field Operations; Chicago, IL

EXERCISE EVENTS:

- **Mar 3:** Indiana Cyber (Power Disruption) TTX; Camp Atterbury, IN
- **Mar 16:** FEB COOP Devolution FSE; Cincinnati, OH
- **Mar 30:** RV/RII Devolution TTX (Phase II); Chicago/New York (via VTC)
- **Apr 6:** Braidwood REP; IL
- **Apr 18:** FEB COOP Reconstitution TTX; Chicago, IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP; MI
- **Apr 27:** America's Preparathon

Very Respectfully,

Cornelius C. Miller

Subject: jail testing

Hello, below is an article ref lead testing at the Genesee Co Jail. Some big concerns ref this article. First, the jail does not have any lead lines as indicated by Sheriff Pickell so there are none to replace. Additionally ,water lead testing has been done several times at the jail after a wash sink in a medical room had tested for lead. The sink was not used for drinking and only as a wash sink and was not accessible by inmates. The faucet was replaced with a California faucet which is highly rated and recommended. Testing was also done by a certified independent company. The results were supplied to the EPA by Commissioner Curtis last week. Also, I spoke to Mark Valacak Genesee Co Public Health, Friday with Comm. Curtis. Mr. Valacak does not deem the water at the jail as an issue. He knows the sink, which is a wash sink, had its faucet replaced and he knows the jail has no lead lines. Mr. Valacak is also aware of the independent testing. Comm. Curtis welcomes assistance in combating the inaccurate info in this article. Thanks, Lt. Roach

- Business owners impacted by Flint water crisis to meet with Congress members

All Stories

FLINT, MI -- The same day that the sheriff sounded the all clear on the water quality at the jail, other county officials were expressing concerns that a sink at the jail was still testing positive for elevated lead levels.

Now, Genesee County Sheriff Robert Pickell says he doesn't trust any of the test results and will continue to give inmates bottled water and dry food until all of the lead service lines at the jail are replaced.

"I just don't trust it. It's questionable at best the way they test. And I feel sorry for people living with babies. I just can't imagine what they're going through as parents," Pickell said. "If I don't trust them how can a mom trust them?"

Inmates were given bottled water for about a week last fall while officials awaited test results at the jail after the county declared a public health emergency over elevated lead levels in Flint water.

All of the tests at the jail came back negative except for a medical sink that Pickell said was used for handwashing and not drinking.

The all-clear was given despite concerns by some county officials.

"I don't think we can issue an all clear until we can determine what the issue is with this sink," county health officer Mark Valacak told Genesee County Buildings and Grounds Director Ray Zanke, in an Oct. 8 email obtained by The Flint Journal through the Freedom of Information Act.

Later that day, Zanke responded, saying contaminants were found in the sink's aerator, which was removed and a new sample was taken.

That sample came back negative, and the fixture was replaced.

Pickell, however, said he gave the all-clear because the rest of the fixtures had tested negative and the sink in question was not used for drinking.

But when a citywide state of emergency was declared for the water crisis in January, Pickell said he put inmates back on bottled water where they will stay until the he's convinced the water is safe.

"We're going to stay with bottled water until I am convinced our lines are totally free of lead," Pickell said.

Pickell said he believed then that all sinks were safe in the jail, until about a month ago when he learned that water test results may be inconsistent and are unreliable, based on reports from Virginia Tech professor Marc Edwards who spoke in Flint in September.

Pickell said that's when he made the decision to continue buying bottled water and dry food for inmates.

"It's so inconsistent. They tell you one thing one time, and another thing another time," he said. "What we really need, is we need to get the pipes and service lines changed."

RE: Request for Immediate Implementation of a Temporary Shelter Refreshing Program for Citizens of Flint and others negatively impacted by Water Crisis

Dear Governor Snyder:

As you are aware the Citizens of Flint have been suffering for many months as a result of the lead pipes/water problems. During the Annual NAACP Board of Directors Annual meeting in New York on February 20, 2016 the question was asked: "What is the State of Michigan during to bring temporary relief in the form of *Refreshing Shelters* to provide showers and other temporary relief while the long-term problems and recovery are being addressed?"

I made a commitment as the NAACP Michigan State Conference President that I would send this request to you immediately to implement a *Flint, Michigan Temporary Refreshing Shelters'* initiative. The NAACP is ready to work with you and other partners, such as the American Red Cross, National Guard, Public Transportation, etc. to bring this temporary relief to all of the Citizens of Flint.

This is a critical health and safety issue and because of the urgency of this matter, your immediate response is hereby requested.

Sincerely,

Yvonne M. White
President
Michigan State Conference NAACP

Dave,

Let me know if you're reaching out to MLive to point out that the jail doesn't even have lead lines or if you need me to cover that with them.

Chris,

What can we use as the source of the information about no lead lines going to the county jail? I am assuming you don't want MSP to be the source, but let me know if I'm wrong about that.

Ari

I was just provided this information. Not sure if you have seen this but the Sheriff's statement is concerning and does not help the situation.

Below is a quote from the Sheriff in Genesee county.

Now, Genesee County Sheriff Robert Pickell says he doesn't trust any of the test results and will continue to give inmates bottled water and dry food until all of the lead service lines at the jail are replaced.

"I just don't trust it. It's questionable at best the way they test. And I feel sorry for people living with babies. I just can't imagine what they're going through as parents," Pickell said. "If I don't trust them how can a mom trust them?"

Hello, below is an article ref lead testing at the Genesee Co Jail. Some big concerns ref this article. First, the jail does not have any lead lines as indicated by Sheriff Pickell so there are none to replace. Additionally ,water lead testing has been done several times at the jail after a wash sink in a medical room had tested for lead. The sink was not used for drinking and only as a wash sink and was not accessible by inmates. The faucet was replaced with a California faucet which is highly rated and recommended. Testing was also done by a certified independent company. The results were supplied to the EPA by Commissioner Curtis last week. Also, I spoke to Mark Valacak Genesee Co Public Health, Friday with Comm. Curtis. Mr. Valacak does not deem the water at the jail as an issue. He knows the sink, which is a wash sink, had its faucet replaced and he knows the jail has no lead lines. Mr. Valacak is also aware of the independent testing. Comm. Curtis welcomes assistance in combating the inaccurate info in this article. Thanks, Lt. Roach

All Stories

FLINT, MI -- The same day that the sheriff sounded the all clear on the water quality at the jail, other county officials were expressing concerns that a sink at the jail was still testing positive for elevated lead levels.

Now, Genesee County Sheriff Robert Pickell says he doesn't trust any of the test results and will continue to give inmates bottled water and dry food until all of the lead service lines at the jail are replaced.

"I just don't trust it. It's questionable at best the way they test. And I feel sorry for people living with babies. I just can't imagine what they're going through as parents," Pickell said. "If I don't trust them how can a mom trust them?"

Inmates were given bottled water for about a week last fall while officials awaited test results at the jail after the county declared a public health emergency over elevated lead levels in Flint water.

All of the tests at the jail came back negative except for a medical sink that Pickell said was used for handwashing and not drinking.

The all-clear was given despite concerns by some county officials.

"I don't think we can issue an all clear until we can determine what the issue is with this sink," county health officer Mark Valacak told Genesee County Buildings and Grounds Director Ray Zanke, in an Oct. 8 email obtained by The Flint Journal through the Freedom of Information Act.

Later that day, Zanke responded, saying contaminants were found in the sink's aerator, which was removed and a new sample was taken.

That sample came back negative, and the fixture was replaced.

Pickell, however, said he gave the all-clear because the rest of the fixtures had tested negative and the sink in question was not used for drinking.

But when a citywide state of emergency was declared for the water crisis in January, Pickell said he put inmates back on bottled water where they will stay until the he's convinced the water is safe.

"We're going to stay with bottled water until I am convinced our lines are totally free of lead," Pickell said.

Pickell said he believed then that all sinks were safe in the jail, until about a month ago when he learned that water test results may be inconsistent and are unreliable, based on reports from Virginia Tech professor Marc Edwards who spoke in Flint in September.

Pickell said that's when he made the decision to continue buying bottled water and dry food for inmates.

"It's so inconsistent. They tell you one thing one time, and another thing another time," he said. "What we really need, is we need to get the pipes and service lines changed."

Hi Joel: Thanks for your information. We have received several thousand proposals over the last month relative to filter technology and reverse osmosis. We are collating all of these at the State Emergency Operations Center should we require the procurement of such technology. Currently, all the procurement is in the area of testing and identification of lead service lines and excavation as we are still very early in the process of developing safe and viable courses of action.

More than likely, if the need arises for filtering systems, we will publish a request for bids. In the meantime, go to www.helpforflint.com and enter your info into the vendor portal.

Thanks,

Kevin

> Here is the information forwarded to you by Major General Vadnais. General Vadnais stated you are in contact with the officials in Governor Snyder's office who are in charge of the Flint Water Crisis and wanted me to forward to you the information I sent him. Can you please forward to me their contact information as I am looking to schedule a brief with Governor Snyder's office and with those who are directly in charge of the crisis regarding the findings and cost analysis which was conducted at the request of General Isabelle. I would like to begin field testing Flints water to conclude this is a viable solution. Below is the cost analysis I provided to both generals, and the information MG Vadnais requested I send you.
>
> Attached are PDF files showing the results of independent laboratory tests conducted on the Puritii water filters. Specifically, heavy metals testing showing the effectiveness of lead removal

at a rate greater than 99%, exceeding EPA standards and reducing lead contaminants to "undetectable," i.e., safe to drink. Additionally, below are two video links detailing the water filtration system, which shows its filtration power at 100 times greater than NSF standards:

http://puritii.com/water/index.html
http://puritii.com/water/why.html

The cost analysis provided is based on 100,000 bottles and 100,000 filters. I am pleased to advise I have been able to secure Free On Board delivery to Flint, Michigan beginning immediately and completed over 6-8 weeks. Additional deliveries thereafter can be made as needed for maintenance and replacement purposes.

Each bottle cost is $13.00 delivered

Each filter cost is $21.45 delivered

One filter processes approximately 100 gallons of otherwise potable water with unacceptable lead contaminants, or the equivalent of 757 disposable 16.9oz water bottles (31.5 cases). The cost upon initial roll out is less than $.05 cents per 16.9oz bottle of clean drinking water ($.046 exactly). Ongoing costs are significantly less: once bottles have been issued and only the replacement filter is needed, the cost per 16.9oz bottle of clean drinking water is less than $.03 cents ($.028 exactly).

After researching the use of water bottles as a temporary solution to the Flint water crisis I have concluded the bottles can be distributed quickly and effortlessly, are cost effective when compared to current methods and other bottled water applications, can reduce the National Guard working hours to deliver fresh water, provides a means for Flint residents to transport drinking water and have access to clean water away from home, reduces litter within the city, and lowers the associated carbon-footprint and expenses associated with the disposal of empty bottles in landfills. Additionally, the water bottles have military properties and can be used to update the canteen and iodine-tablet system of providing clean drinking water to service members in the field/combat, or within armories should the drinking water ever be compromised or in short supply.

A sample bottle and filter was delivered to Ms. Mason in the generals' offices should you be inclined to view. I can send next day delivery additional bottles and filters for specifically field testing Flint's water to confirm this is a viable solution.

At your command I can research additional cost analyses to accommodate smaller or larger quantities.

I look forward to holding an in-person briefing to answer any questions.

Hello General Vadnais,

I hope this finds you well.

I spoke with General Isabelle a few weeks back regarding a possible solution in providing clean drinking water and criticalassistance to the residents of Flint, Michigan during this water crisis. He requested I conduct a cost analysis. I sent him a copy on Tuesday. Today I spoke to Ms. Mason and she suggested I submit the finding to you for your review. I also delivered a sample bottle and filter to your office for inspection on Friday, 12 February 2016.

Attached are two PDF files showing the results of independentlaboratory tests conducted on the Puritii water filters. Biological, chemical, and heavy-metal analysesare included in the reports. Specifically,the heavy-metal testing data show removal of lead at a rate greater than 99%,exceeding EPA standards and reducing the presence of lead contaminants to "undetectable,"i.e., safe to drink.

Additionally, below are two video/information links detailing the waterfiltration system and its filtration power 100-times greater than NSF standards:

Caution-http://puritii.com/water/index.html < Caution-http://puritii.com/water/index.html >
Caution-http://puritii.com/water/why.html < Caution-http://puritii.com/water/why.html >

The cost provided is based on 100,000 plastic bottles and 100,000filters. I am pleased to advise I havebeen able to secure Free On Board delivery to Flint, Michigan beginning immediatelyand completed over 6-8 weeks. Additionaldeliveries thereafter can be made as needed for maintenance and replacementpurposes.

Each bottle cost is $13.00 delivered.

Tori

Have the POC for the gift cards go direct with the SEOC Logistics Desk at 517.284.3893 or MSP-SEOCLGC@michigan.gov. Different people sit that desk but this will be the funnel point. The cards should be given to the SEOC and we will turn them over to the DEQ desk for dissemination as they deem appropriate for the sentinel teams. I advised DEQ that they needed to be tracked and have touched base with the DEQ SEOC desk on this. The group providing the cards and logistics can work on the initial delivery.

Does this work?

Michelle and BJ,

As a follow up from Saturday. I am going to send you another email after this one.

Michelle,

Can you please see if you can get the faucet head back from EPA. (faucet head). I will return it to him later this week when I return. Also, can you ask EPA if they can sample his water,,, I do not think a water sample has been taken from his residence.

BJ,

Can you please reach out to the Flint Water Treatment Plant,,, can you speak with Chris (Beetenberg) and see if it was his crew that was at last week. And what was the results of the visit. Second request,,, Dale Collins UA 370 advised he was going to install a new faucet at . can you see if that has been scheduled?

I will send you an email from Scott Sheaffer DEQ,,, when I go to residence this week, I will bring the DEQ water test kit, and explain to him he should draw a sample after the water is stagnant for 6 hours. I will make arrangements to retrieve the sample from him.

I apologize for all the TO Dos,,,,, give me a yell if you have questions.....

Laura,

I spoke with about an hour ago. He advised last Wednesday Flint Water Treatment personnel arrived at his residence and took two samples of water. The following day (Thursday) city crews were digging into the ground two residents from his. He was not sure what the results were from the samples, or the digging.. He advised the person he spoke to at his residence was Chris with a possible last name of (Beetenburg). Chris stated he was with the Flint Water Treatment Plant.

I advised / we would make contact with Flint Water Treatment Plant Monday for a follow up. was thankful for the our response. did advise he has also spoken with the Mayor office.

Subject: Follow up from TTH

Team: Thanks for joining the TTH with the Lt. Gov. Here are the follow up items from constituents we spoke with. Please email us when they are completed.

Thanks,
Tori

1. - Had health related questions that needed follow up from DHHS

2. ! - Indicated Lt. Roach had visited regarding the water quality/need for filter. Can someone from MSP or DEQ follow up with him?

Mark

We gave him a sample bottle for him to collect his own sample. Brian was going tell him to do that also. It does not work for us to try and sample since the system needs to be dormant fir at least six hours.

If you want you could call him and ask if he collected a sample yet. I will be back at the EOC on Monday.

Scott

Here is the string of emails.

's faucet was collected by Lt. Russo/Roach, I checked with Mark Durno to see if EPA could test it, Mark said no problem and it was taken to the EPA command post.

In a follow up discussion here at the UCG, I was told that the faucet had typical build up that needed to be cleaned out.

Brian,

The water sample was not collected using the proper protocols for residential home sampling. Because of that we do not want it to be part of the overall database. If it is not useful to EPA then please just dump the sample and recycle the bottle. Thanks.

Scott/Mark Ducharme,

The faucet looks like a normal faucet; no black debris or slime. Based on pervious discussions with the Test America there is not enough material to test.

Also, the water sample dropped off with the faucet is the grab type that needs to go to the state lab. Do you want us to bring it to the county EOC or drop it off at a fire station?

This moringna at 10:00 am I had contact at

2. Accompanied by Elevated Lead and Copper Initial Assessment Task Force #11 with UA 370 P@P Dale Collins, MDEQ Environmental Advisor Pisha Williams and MDHHS Health Advisor Carly Adams.

Dale Collins inspected his kitchen faucet and water meter. He advised as galvanized plumbing. He also stated there is black debris in the hose from the sink faucet.

provided the faucet head to Pisha Williams MDEQ, who placed it in a plastic bag and took possession of it. She advised she would have the head tested. Also taken from the residence was a water sample.

UA 370 Collins advised they would schedule a visit next week to install a new faucet.

lso added he believes the water pump station located a few residence from his house is tainted with debris from the Flint river. He believes when the water was supplied from the Flint river it corroded the screen/filter at the local pumping station causing it to provide black tainted water. The pumping station is located at Chevrolet and Stevenson.

LIMITED DISTRIBUTION

Update 2/21/16 – 48th Day (47th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
- Continue to work on details for the long term distribution plan.
- Continue lead pipe identification and sampling teams.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
- EMHSD was granted an extension today from FEMA for the Category B under the Emergency Declaration appeal. The extension deadline is March 4, 2016.

Attached:

1. Sit Rep #47.
2. Maps of Residential Water Sampling Results for lead and copper.
3. (updated) Governor's Report

Key items for tomorrow to note are:

- Team Priority Scheduled: Continue to visit the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross FWR Teams scheduled for Monday, February 22, 2016.

Items to Note

- Southern Baptist Disaster Relief transitioned to a new unit today and is not planning to deploy field teams for delivery of supplies requested via 211 hotline until tomorrow, February 22, 2016.
- There were 5 American Red Cross Teams scheduled; they will continue to visit the 1,300 access & functional needs addresses.
- DEQ had 23 sentinel teams in the field today continuing efforts to find lead pipes to meet the EPA Tier 1 criteria. The sentinel program objectives are being met and have received sufficient participation.
- DTMB worked with MDOC on reducing warehouse costs at the Clio Road Warehouse.
- Dr. Nicole Lurie will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
- GIS continues to work on the creation of new dashboards for Governor's meeting on Monday.
- SEOC Logistics worked on a list of logistical needs for the Seventh Day Adventists transition to help with warehouse #2 management.

Unified Coordination Group (UCG):

- EPA staff will attend events in the community at two local churches (10:00, and 13:00).
- Preparing for congressional visit tomorrow.
- CDC created a 1 page document that describes what is being done with the rash complaints.
- UCG working to standardize messaging related to shower filters.

Local EOC:

- Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that previously requested delivery.
- 23 Sentinel Site Monitoring Teams were in the field for sentinel monitoring program and identification of lead service lines.
- 1 High Lead and Copper Outreach Teams out in the field, making contact at households reporting elevated lead and copper levels.
- 2 High Lead Revisit Teams made contact with identified households.

As you requested the Governor's report will contain the sentinel team totals.

Team Information 2/21/16:

Below is the breakdown of information on field teams for 2/21/16. The team data totals are a combination of the 3 different home sampling teams. Governor's report contains cumulative data.

Homes:

Teams	Number of Teams 2/20/16 final	Number of Teams 2/21/16 final
Sentinel B Sampling Teams	23	21
High Lead Outreach Teams (DHHS/DEQ/plumber)	1	1
High Lead Revisit Teams (Initial Sampling)	0	2
Team Data Totals		
Homes visited today	581	748
Inspected	217	269
Residents agreed to participate in sentinel B monitoring program	186	23
Lead lines identified	5	19
Also deployed on February 21, 2016 for Sentinel B work:		
Community Members	20	22
Plumbers	22	23

Volunteers:

Agency	Number of Teams	Number of Homes Reached
American Red Cross	5	352
Southern Baptist*	5	21

***(SB only worked for a couple of hours this afternoon. Only three teams worked in the field.)**

Businesses:

Agency	Number of Teams	Number of Businesses Reached	Number of Samples
MDARD	0	0	0

Chris

Update 2/20/16 – 47th Day (46th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
    - *Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.*
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
- Continue to work on details for the long term distribution plan.
- Continue lead pipe identification and sampling teams.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - EMHSD was granted an extension from FEMA for the Category B under the Emergency Declaration appeal. The extension deadline is March 4, 2016.

Attached:

1. Sit Rep #46.
2. Maps: Residential Water Sampling Results for lead and copper.
3. Governor's Report

Key items for tomorrow to note are:

- Team Priority Scheduled: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 6 American Red Cross Teams scheduled for Sunday, February 21, 2016.

Items to Note

- MDEQ had 21 Sentinel Sampling Teams and 1 High Lead Team in the field today.
- 7 American Red Cross Teams scheduled for today. The teams continued to visit the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- MDTMB is working with FEMA and Recovery Branch to research direct delivery for replacement cartridges to 30,000+ residences in the city. Additionally, MDTMB is researching a tracking mechanism system to be used in PODs for filter/replacement cartridge distribution.

- Dr. Nicole Lurie will be returning to Flint on Sunday for a briefing with the UCG, and she will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
    - GIS worked on creating new dashboards for Governor's meeting on Monday.
    - SEOC Logistics worked on armed vs unarmed security for warehouses proposal.

Unified Coordination Group (UCG):

- MDHHS requested a special project to use WIC cash value benefits to purchase fruit and vegetables at the farmers market.
- UCG Daily Sit Rep available in MI CIMS.
- MDEQ located 24 lead service lines; looking at the adjacent properties to the original 10 lead service line locations did produce a number of additional lead service lines.
- Participated in Tele Town Hall with the Lt. Governor at 11:00 am.
- Genesee County EOC worked with Good 360 yesterday and steered them away from sending products that will not be useful, such as shower filters.

Local EOC:

- Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that requested delivery via 2-1-1 hotline.
- MSU recycling event originally scheduled for 02/20/2016 was postponed.

Team Information 2/20/16:

Below is the breakdown of information on field teams for 2/20/16. The team data totals are a combination of the 3 different home sampling teams. Governor's report contains cumulative data.

Homes:

Teams	Number of Teams
Sentinel Sampling Teams	21
High Lead Task Force	1
Initial Sampling Teams	0
Team Data Totals	
Homes visited today	416
Inspected	148
Residents agreed to participate in sentinel monitoring program	128
Lead lines identified	2
Also deployed on February 20, 2016 for Sentinel B work:	
Community Members	20
Plumbers	22

Volunteers:

Agency	Number of Teams	Number of Homes Reached
American Red Cross	5	518
Southern Baptist	5	28

Chris

Update 2/19/16 – 46th Day (45th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - File and receive appeal extension from FEMA.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program, Hazard Mitigation Grant Program, and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
- **EMHSD was granted an extension today from FEMA for the above programs under the Emergency Declaration appeal. The extension deadline is March 4, 2016.**

Attached:

4. Sit Rep #45.
5. Maps: Residential Water Sampling Results for lead and copper.
6. Governor's Report for 2/18/16.

Key items for tomorrow to note are:

- 7 American Red Cross (ARC) Teams scheduled for Saturday, February 20, 2016.
- ARC Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Tele Town Hall with LG.

Items to Note

- A meeting with MDHHS-HS, EMHSD and FEMA took place to discuss a long-term recovery plan. DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines. A tracking system is being worked on for the point of distribution locations that will offer real-time reporting.
- MDHHS-CH requested that MDEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer.
- MDEQ deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
- Letter to city of Flint outlining the needs to satisfy EPA item 62 is drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature.

Unified Coordination Group (UCG):

- The CDC/ATSDR Field Team has reported hearing health complaints at many home visits. The UCG Science Group has been called together to discuss next steps to document and address these health concerns.
- CDC/ATSDR Field team and Regional staff participated in a meeting with EPA and MDHHS to discuss some preliminary EPA sampling data.
- UCG Daily Sit Rep available in MI CIMS.
- EPA issued news release highlighting the effectiveness of lead-removal filters.

Local EOC:

- Transition to the new National Guard units completed today.
- Water crisis march, involving Rev. Jesse Jackson, Rainbow PUSH Coalition, Michigan Legislative Black Caucus, and Concerned Pastors for Social Action was attended by approximately 350 protestors. No incidents related to the march reported.

- Coordinating with Flint Community Schools and Head Start program for identification of populations without supplies.
- Discussed potential future donations with Good360 nonprofit.
- City of Flint Water Distribution Supervisor visited EOC to discuss identification of lead lines with MDEQ staff.
- 16 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

Chris

NOTE: Added Ari Adler and Kevin Weise to the distribution.

Update 2/18/16 – 45th Day (44th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - **Flint data for the appeal was received today.** Data will be analyzed and incorporated into the appeal letter.
    - Appeal EXTENSION letter drafted and will be sent to FEMA Friday morning. MI is asking for a 30 day extension due to not having the data from Flint but we will not wait the 30 days (if granted)to submit the letter for appeal. FEMA Region V is aware of our forthcoming request.

Attached:

7. Sit Rep #44.
8. Maps: Residential Water Sampling Results for lead and copper.
9. Governor's Report 2/17/16.

Key items for tomorrow to note are:

- Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.
- 17 Sentinel teams will continue tomorrow, Saturday and Sunday in order to reach the targets of 402 sites and 60 lead lines.
    - Summary of combined sentinel groups to date:
        - 356 residents enrolled
        - 16 lead service lines identified

Items to Note

- US Department of Health and Human Services visited Fire Station #5 POD today. Per Lt. Roach the visit went very well.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams visited the final three mobile home parks that were identified as missed and an additional 34 homes.
- United States Secretary of Health and Human Services Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).
- MDHHS-CH Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
- TIA is planning on submitting a Dept of Labor grant by the end of next week for 15 million dollars over 2 years. Once submitted this may get turned around within 48 hours.
- Monday, EMHSD and TIA personnel will meet with Seeds of Traverse City and Michigan Works to further progress on a jobs program.
- Long term distribution plan meeting between EMHSD, DMVA, and DOC occurred to put more detail to the next phase of commodity distribution.

Unified Coordination Group (UCG):

- EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
- CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
- UCG Daily Sit Rep available in MI CIMS.

Local EOC:

- National Guard completing transition to new unit on 02/18/2016.
- US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
- IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
- IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
- Coordinating local volunteer needs for CDC outreach teams.
- 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Chris

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
  - **Extension letter for the appeal drafted. Due to not having the Flint data yet a 21 day extension from FEMA is going to be requested. Handled by EMHSD and will be sent Friday 2/19 or sooner.**
- Obtain further information on sentinel team data.
- Obtain information on shower filters.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.
2. Governor's Report 2/16/16

Key items for tomorrow to note are:

- Team Priority Scheduled for Tomorrow: Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
  - DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS is generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Chris

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
    - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.

- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- *It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer* mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
    - Developed SitRep #34.
    - Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
  - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.

- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.

- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- *Continue door to door/Flint Water Response Teams (FWRTs), ARC only.*
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- *Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.*
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Chris

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.

- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.

- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Chris

SEOC Report for Saturday February 20, 2016

Full Days Since Emergency Declaration: 46

Items to Note

- MDEQ has 21 Sentinel Sampling Teams and 1 High Lead Team in the field today.
- 7 American Red Cross Teams scheduled for Saturday, February 20, 2016. The teams will continue to visit the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- MDTMB is working with FEMA and Recovery Branch to research direct delivery for replacement cartridges to 30,000+ residences in the city. Additionally, MDTMB is researching a tracking mechanism system to be used in PODs for filter/replacement cartridge distribution.

I am hearing you received what you needed by 7:00.

Planning staff is still here to send the Daily Summary with attached updated maps, Sit Rep as well as an "updated Governor's Report", which Ben wanted changed. Before 8:00, he said he'd have it done in 10 minutes. I think he's been working with GIS to get the data the way he wants it. Planning staff are waiting for that before they leave.

Subject: Sara, please send this along to the directors & others you think are appropriate

Directors and Sara, I am providing an update on our work and role in the Flint Water Crisis. Many people in the IL movement have graciously called to offer their assistance. I asked that you hold until we engaged deeply to better understand the impact to the 26,000 Flint citizens with disabilities (US Census); the people we serve. We responded vigorously. The water issue

is overwhelming for many organizations, including ours. Following is an update on our work and suggestions on how our friends in the IL and disability movement can help:

Friends of The Disability Network and people concerned for Flint citizens,

The water crisis is a significant and ongoing trial for all Flint citizens and particularly traumatic for many Flint water users who have disabilities. Our goal has been to deeply engage and respond vigorously; we have.

Our focus continues to be on:

1. **Immediate Accessible Emergency Response Actions** – accessible communications, water distribution, transportation, filters and testing.

2. **Preparation and Planning for Long Term Solutions** – engagement and leadership on accessible communications, water resources, education, unique mental & physical health needs, accessible infrastructure and economic development.

3. **Changing the Fear/Stigma of Disability** - from pity and victim to engagement and access for all.

4. **Promoting a Hopeful Future for Flint Citizens with Disabilities** - I believe that in a few years, Flint will have the purest water in the nation, become a national research center on water issues and support services for lead poisoning and ultimately become a more thriving, healthy, welcoming and accessible community for people with disabilities and their families.

Local Perspective: Many local organizations (us, other support organizations, businesses, public agencies) are involved in an "all hands on deck solution". We are personally affected & engaging beyond our capacity. We are living this crisis. We did not have people sitting on the bench waiting for this disaster to happen.

Of course we responded with emergency vigor, leadership and resources. That said, we had to put a hold on some of our daily work and critical systems change, in order to put resources into this immediate community emergency. Resources are desperately needed to respond to the water crisis and the incredible organizational drain on existing services and capacity.

How you can help: If you haven't done so already and want to assist the people of Flint, please consider:

1. Going to www.helpforflint.com to find information on how to donate to Flintkids.org, donate to the United Way Water Fund or volunteer with the American Red cross.

2. Making a specific "Water Crisis Response" donation to The Disability Network. Call Luke Zelley at 810-742-1800 or consider using (www.disnetwork.org – donate link). Donations will be identified and used specifically to provide services and supports for the immediate and long term disability response to the water crisis in Flint.

3. Encouraging the recovery and future of Flint by visiting Flint, buying Flint products, holding your next meeting in Flint or expanding your business to Flint to provide your direct services to the 26,000 (and growing number) of Flint citizens with disabilities (US Census) who need your help to NOT be victims and have a thriving future.

Thank you for your concern and consideration. All Flint citizens need support and prayers during this water emergency, including the unique needs of those with disabilities.

Attached is a summary of our response to date.

Mike Zelley, President

The Disability Network

810-742-1800

Directors and Sara, Thank you for any help you can provide or coordinate. I know that like us, you are all short on resources, so even words of encouragement to the community are helpful. We welcome your suggestions also. We've had some success with local businesses hiring people with disabilities. That said, the growing needs for fresh food, jobs, medical attention, mental health services, hope and leadership are stark. Please pass along this information to people who may want to support the Flint recovery. Thank you all for your support and all you do in your own community.

Mike Zelley, the Board and staff at The Disability Network.

To: Baird, Richard (GOV); Agen, Jarrod (GOV)
Subject: RE: PRESS RELEASE: MAYOR WEAVER & UM-FLINT PROFESSOR TO PRESENT FINDINGS OF LEAD PIPE STUDY

U of M based their information off the same information we were given – the city plans, drawings of the blocks. U of M was also supposed to look into the water cards as well, but our understanding is that many of them were unreadable. We do not have a copy of the UM-Flint data to compare our records; however, I tasked the SEOC GIS to ask Flint GIS for the information as they have been in contact with each other.

While going through some of the sentinel data from this week, SEOC GIS did compare what Sentinel was finding versus what we found in the property records we digitized. There were differences.

Subject: PRESS RELEASE: MAYOR WEAVER & UM-FLINT PROFESSOR TO PRESENT FINDINGS OF LEAD PIPE STUDY

February 21, 2016
For Immediate Release

Kristin Moore Public Relations City of Flint, 810-237-2039
Marjory Raymer University Relations University of Michigan-Flint, 810-730-2872

Flint Mayor Karen Weaver and Dr. Marty Kaufman to Present Results of New Lead Pipe Study

Dr. Kaufman, UM-Flint professor, will detail findings of his research showing all known lead pipes in City of Flint

WHAT: Press Briefing

WHO: Mayor Dr. Karen Weaver,
Dr. Marty Kaufman
UM-Flint Chancellor Susan Borrego

WHEN: Monday, February 22, 2016 at 10:00 a.m.

WHERE: Flint City Hall Lobby

Dr. Kaufman has completed research to help determine the location of all "known" lead pipes in the City of Flint. He will present the critically important data that identifies the locations and corresponding maps. The data has been turned over to Mayor Weaver by the University of Michigan-Flint. The university has been a key partner working with Mayor Weaver and City officials in analyzing the data to determine where the lead pipes are.

City leaders will use the information to help prioritize where to begin replacing pipes in Flint as part of the ongoing fight to improve water quality and repair damage done to the City's infrastructure due to the man-made water disaster.

What is the same information we were given – the city plans?

Please request the data from the U of M GIS personnel.

This was based off the same information we were given. They were supposed to look into the water cards as well, but my understanding is that many of them were unreadable. We do not have a copy of the UM-Flint data to compare our records to.

While going through some of the sentinel data from this week, I did compare what Sentinel was finding vs. what we found in the property records we digitized. There were differences.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	46
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/20/2016 08:00:00
SEOC Hours of Operation End:	02/20/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 20, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- *Coordination with city/county.*
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on armed vs unarmed security for warehouses proposal.

JIC:
- On call this weekend.
- Lt. Governor Brian Calley hosted a Tele Town Hall meeting today at 1100 with local officials.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing meetings, Distribution Process meetings.
- Completed copying of S:drive for FOIA project – flash drive given to FOI Unit.
- Requested more detailed list of iPads available to Southern Baptists.
- Team Priority Visited Today: Continued visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges. Over 300 plus were visited today and the total is 1,000 or less as of 1900 hours today.
- Team Priority Scheduled Tomorrow: Continue visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Sunday, February 21, 2016.

o Total homes visited:
- 27,703 (round 3 total).
- 546 (today).

o Water:
- 203,652 liters or 16,971 cases (round 3 total).
- 7,476 liters or 623 cases (today).

o Faucet filters:
- 7,932 (round 3 total).
- 97 (today).

o Replacement cartridges:
- 8,249 (round 3 total).
- 317 (today).

o Water test kits:
- 3,242 (round 3 total).
- 141 (today).

Planning Section:
- Developed and approved Sit Rep #46.
- Updated burn rates and projection costs, per request.
- Updated Flint Water Timeline.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.
- Started printing FOIA documents for PSC computer.

Operations Section:
- Participated in 0830 UCG briefing in SEOC.
- Facilitated 0930 state agency briefing.
- Participated in 1030 distribution process meeting.
- Facilitated 0400 state agency briefing.
- Warehouse Numbers as of 1800:

❑ Water (liters):
• 638,072 liters or 53,172 cases.
❑ Filters (faucet):
• 69,282.
❑ Replacement cartridges:
• 426,442.
❑ Test kits (prepped):
• 33,301.
• PODs (number as of 1700 2/20):
❑ Water:
• 92,484 liters or 7,707 cases.
❑ Filters (faucet):
• 113.
❑ Replacement cartridges:
• 415.
❑ Test kits:
• 152.

Finance Section:
• Review Category B cost information received from the city of Flint.
• Conference call with MDHHS Purchasing section.
• Compile weekly status update report for SBO.

GIS branch updates:
• Worked on creating new dashboards for Governor's meeting on Monday.
• Updated Access and Functional Needs.
• Daily Parcel Pairing.
• PODS map for Jay.
• Updated zip codes for MDCH.
• Water Sampling Test Results.

DTMB:
• Issued (10) iPads for DEQ EOC with wall and car chargers.
• Delivered print orders to the Genesee County Emergency Operations Center.
• DEQ requested temporary office and parking space for executive working in Flint at the State Office Building.

DHHS-CH:
• Dr. Nicole Lurie will be returning to Flint on Sunday for a briefing with the UCG, and she will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
• The CHECC and MDHHS PIOs are working to ensure that request for assistance of an elderly homebound individual whose residence tested high in lead is able to obtain a blood lead test.
• Case managers working in Flint are concerned about individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. The phone does not allow them to dial 2-1-1, so a separate number has been provided to them to call.

DEQ:
• Continue to monitor progress of Sentinel Sampling and support as necessary.
• Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team).

State VAL:
• No update.

Unified Coordination Group (UCG):
• MDHHS requested a special project to use WIC cash value benefits to purchase fruit and vegetables at the farmers market.
• UCG Daily Sit Rep available in MI CIMS.
• MDEQ located 24 lead service lines; looking at the adjacent properties to the original 10 lead service line locations did produce a number of additional lead service lines.
• Tele Town Hall with the Lt. Governor at 11:00 am.
• Genesee County EOC worked with Good 360 yesterday and steered them away from sending products that will not be useful, such as shower filters.

Local EOC:
• Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that requested delivery via 2-1-1 hotline.
• 21 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
• MSU recycling event originally scheduled for 02/20/2016 was postponed.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original *objective number attached*)

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 19.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services, State, and Treasury. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Media hotline staff answered fewer than 10 emails and phone calls that ranged from contractors looking to help with replacing lead service lines to media inquiries about lead-level testing in schools and pipes sitting outside of the Flint Water Treatment Plant. Questions were routed from WDIV-TV 4 in Detroit and WJBK-TV 2 in Detroit.
• Created a media monitoring report and looked for misinformation. Found an article where Genesee County Sheriff Robert Pickell states that he doesn't trust the lead water testing being conducted in the city of Flint. The Flint JIC brought this to the Genesee County JIC liaison's attention.
• Issued a news release about the postponement of the recycling event on Saturday, Feb. 20, with MSU student athletes.
• Created a news release to remind Flint residents to replace their filter cartridges. The intention is to issue the news release today.
• Updated community outreach spreadsheet to include parent-teacher organizations and other local events.
• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
• Issued and scheduled social media posts for distribution.
• Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
• Follow-up with United Way 2-1-1 about outstanding rumors and questions.
• Updated talking points for Captain Kelenske for the Feb. 20 TeleTown Hall with Lt. Gov. Brian Calley.

Agriculture and Rural Development (MDARD)

Summary of activities from MDARD at the SEOC on 2/20/16 (this information came in after the 4pm report on Friday):
Current and Planned Objectives for MDARD's Animal Industry Division, relating to pets & Flint for February 21 -27, 2016:
*Pay for laboratory cost of blood or tissue lead and copper level testing of pets in high risk homes where lead water sampling is >150ppb and/or copper is >1300ppb. MSU study will cover copper testing if pet owner agrees to study otherwise MDARD will pay for testing of copper.
*Continue liaison efforts with response organizations assisting with potential lead toxicity in pets in Flint.
*Determine appropriate response to levels of copper in pets in collaboration with MSU CVM.
*Respond to calls from veterinarians and the public seeking assistance or guidance related to pets.

MDARD will also coordinate with LARA to respond to some specific questions that have come in from a restaurant.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Saturday, 2/20/16. We plan to deploy 5 teams tomorrow as well.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday. The VRC processed 126 event-based volunteers today. 146 event-based volunteers were active on projects today

Volunteers assembled more than 2,700 bottle recycling kits today.

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Received confirmation that the ASPR, Dr. Nicole Lurie will be returning to Flint tomorrow, 2/21/16 for a briefing with the UCG. Six congressional delegates are also planning to visit Flint on Monday, for which Dr. Lurie will be providing them with information on the current situation in Flint.

The CHECC and MDHHS PIOs are working to ensure that special requests for assistance of an elderly homebound individual whose residence has tested high in lead is able to obtain a blood lead test. The CHECC is coordinating with the GCHD to fulfill this task.

Case managers working in Flint have expressed concern in reference to individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. Unfortunately, the phone will not allow them to dial 2-1-1 and reach the 2-1-1 operators. Instead, there is a separate number that they will need to call. Have been in contact with 2-1-1, MDHHS PIOs, and FEMA regarding options for messaging in order to ensure communication is provided to these individuals in Flint with Life Line phones. This work will be ongoing, as the Life Line program consumer assistance center is closed on the weekends. Hoping to explore the option of a "robo-call" (reverse 9-1-1 mechanism) for notifying consumers.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow. MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

Safety concerns continue to be addressed at Warehouse 1.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

162 DEQ test kits were delivered from Flint to Lansing today.

Education (MDE)

1. MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements. Regular meetings are scheduled between MDE staff and that of GISD and Flint Community Schools.

2. LARA indicates that replacement of fixtures at MSD is scheduled for next weekend (27-28 February).

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continue to monitor progress of Sentinel Sampling and support as necessary.
- Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team).

Sentinel B accomplishments as of 1500 hrs.:
• 416 Homes visited
• 148 Inspected
• 128 Residents agreed to participate in sentinel monitoring program
• 2 Lead lines

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse. Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program. Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters. LARA will coordinate this training with Amway and the Local 370 plumbers.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Provided all translated documents in Spanish to our Hispanic Liaison in hard copy. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2012452016

2. UNIT: Points of Distribution (PODs), NG TF FLINT

3. POC: Capt Bechtel, Jennifer E ; Email: ng.mi.flint.eoc@gmail.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: NG Task Force Flint has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently NG Task Force Flint has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs to assist citizens have been printed off, laminated, and delivered to PODs

b. Not anticipating VIP at POD 5 on Monday, February 22nd

c. A GSA card expired the 16th, leaving a POD unable to purchase fuel. Used temp card

d. MDOT portable light stand out at POD 5. SEOC submitted fix request to MDOT

e. One Mile March did not have any major effect on PODs

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Citizen stopped by Station 3 yesterday after march to inform them that the new motto is "No pipes, no peace."

10. LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse. Warehouse drivers will distribute bags evenly to the PODS on Monday.

11. COMMUNICATIONS:
a. POD 8 operational with ANG provided laptops

b. Working to change wireless settings in replacement laptops delivered to PODs. 125 IN laptops have been left behind for

immediate use in daily reporting. Resolution in process.

P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• RIP/TOA activities complete and all PODs are running entirely under new NCOICs
• OUT (last 24 hours)
Bottled water-6,946 Water (Gallons)-630 Lead Testing Kits-192
Pitcher (23 cup)-0 Brita Faucet Filter-65 Brita Replacement Cartridge-216
Pur Filter-82 Pur Replacement Filter-281

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

Issued (10) iPads for DEQ EOC with wall and car chargers.
Delivered print orders to the Genesee County Emergency Operations Center.
DEQ requested temporary office and parking space for executive working in Flint at the State Office Building.

Transportation (MDOT)

Providing 2 staff to warehouse #2 (Pierson Rd).

Providing 2 portable light tower generators to Fire Station #5 on Western Rd.

Providing (3' x 5') standard signs Fire Stations/PODs (2 each site)
Providing 100 grabber traffic cones (narrow reflective cones) at Fire Station #3 Martin Luther King Rd. & Fire Station #6 Pierson Rd. (50 each site).

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions.

Subject: Resource/Task Items

Importance: High

Please have all resources and tasks review today and update by all who are assigned. I want to know if we are falling behind on any resources requested or tasks and if so, what is needed to address.

Also, have someone provide me a report of the number of resource/task requests, number completed, assigned, etc.

Would like the report by 630 tonight. Thanks in advance.

Subject: RDS/BC - (LBiehl) - Visit to SEOC

Purpose: To visit and thank the state employees working out of the State Emergency Operations Center (SEOC).

Attendees: ~60 state employees
30 MSP officials
30 Representatives from other State Agencies

Department Directors/Staff:
Mike Zimmer –LARA
Col. Etue –MSP
Keith Creagh –DEQ
Geralyn Lasher –DHHS
David Behen –DTMB

Agenda:
9:30 AM – 9:33 AM Governor arrives; pre-brief with staff, if needed
9:33 AM – 10:00 AM Governor greets SEOC staff (they are all in one space)
10:00 AM – 10:15 AM (possible) Governor participates in beginning of daily coordination call between state, federal and local teams
10:15 AM Governor moves to media avail (see separate appointment)

OPEN PRESS

Talking Points:
- We're here today to thank the team in the SEOC has put their all into helping the people recover during this crisis.
- Sentinel site testing is underway, helping us scientifically analyze the levels of lead and copper in Flint's water.
  - Testing at 402 sites will take place in 2 groups over 8 weeks and the initial results are available from the first grouping of tests.

- While nearly 90 percent of the tests conducted at Sentinel tests came in under the action level, there were still some serious elevated lead levels that need to be addressed and monitored.
  - We will continue to monitor and share these tests over the next 8 weeks as we work to determine safety in Flint's water.

On Feb 21, 2016 9:12 AM, Laura Sullivan <dr.laura2@gmail.com> wrote:

Hi Laura, below is my repeated unfullfilled request of SEOC.

Jim

GCHD-EH has requested assistance with communicating MDEQ water results and health risks associated with lead, legionella, rashes and other water related concerns. GCHD-EH has attempted to addressed approximately 500 hundred related phone calls over past three-four weeks. The concerns are complex and need to be addressed by trained professionals, not GCHD secretaries.

Many of the concerns go unanswered and the residents are not getting the assistance that they desperately need and deserve. Forwarding calls to other agencies has failed the people of Flint. The they are getting "the run around. "

GCHD is requesting a medical professional, from the state, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division. Responsibilities will include all aspects of appropriate communications with the community.

The failure to meet this need can be fixed immediately, with appropriate attention. The people of Flint deserve better and the state, who has resources is making critical mistakes. Please honor the promise to help the people of Flint.

Thanks Jim

Sent from my iPhone, please excuse any typos

On Feb 20, 2016, at 9:48 PM, Laura Sullivan <dr.laura2@gmail.com> wrote:

Dear Dr. Gwathney,

"Assessing the calls coming in and developing scripts" suggests that the goal is to create one-size-fits-all responses to citizen concerns. While this approach might reduce the amount of time spent on the phone with a frightened and frustrated public, it won't reduce citizen fear or frustration. And it will definitely not cause Flint residents to feel listened to. The people of Flint have been experiencing symptoms that frighten them for over a year, and today the only message that makes sense to them is one that suggests they are being poisoned. They equate uncertainty with disregard for their well being. Many will not be calmed by staff who have been armed with new scripts.

Jim Henry has been listening to Flint residents, and he more that anyone Would it be possible to simply provide Jim with the resources he's been requesting?

All,

I can speak to the GCHD calls. Our PHS officers where there for two weeks working on several tasks, one of which was assessing the calls coming in and developing scripts for those who answer the phones. I think Jim may still need physical staff to answer calls, but hopefully they are a little better equipped now.

I am looping in our EPA lead (Mark Durno) to answer any questions about them leaving.

I hope this helps.

Best,
Jamal

There would have to be a skillful outside facilitator. .

Hello-

Seems like I've seen you across the table but haven't caught up. And then out regular Friday morning update was cancelled last minute.

I'm concerned about EPA office of research and development pulling out of Flint (lead and copper experts). I know I mentioned reawakening the tech advisory board and then got too busy to actually get it going. Maybe this is a way to keep Mike Schock and Darren Lytle engaged?

Shawn has been very successful in building a research team to look at Legionella. Earlier this week we met with Jim Henry. I think he's a good guy - incredibly frustrated, and tired of having his hands tied. Whenever there's a 211 call regarding concerns about health, calls are forwarded to his office. But there are no trained staff people answering calls. Just secretaries. If you haven't spoken to Jim recently, you'd find it enlightening. I'm trying to think of ways to get him help-even if it's volunteers.

Jeff Wright and John O'Brien are putting extra energy into public perception about KWA. The recent KWA board meeting was focused entirely on "clearing up misconceptions"

I brought local plumbers together with the mayor. They'd like to get some of the lead replacement contracts and will expand their apprenticeship program to reach out to unemployed in Flint. They have lots of untapped knowledge about where lead pipes are, and where sections of lead service line have been replaced. In some parts of the city, the mains are 20 ft down (as opposed to five feet down in Lansing) which complicates service lain replacement, especially if fragile mains are broken.

Is there significance to today's cancellation of FWICC?

I hope you are well. I'd like to look more closely at reconciliation programming.

Request # 7953218 in MI CIMS shows this request from CHECC to Logistics

GCHD is requesting a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks. Responsibilities will include all aspects of appropriate communications with the community.

Utilize possible resources through U of M, MSU, Kettering, etc., to licensed medical professional. Would prefer individual(s) able to commit to longer-term assignments to ensure consistency, if possible. Assignment details are below:

Duration: Unknown
Start date: Next week
POC: TBD
Hours of operation: consistent with GCHD hours of operation.

Comments are as follows:

SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill	02/18/2016 16:27:39	This task was also sent back to SEOC Logistics to coordinate with donations management in order to determine whether or not a donation has been offered for medical staff/volunteers that could fulfill this request.
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill	02/18/2016 16:27:07	CHECC has forwarded this request to the UCG for assistance.
SEOC OPS Health and Env MDCH	Jennifer Lixey Terrill	02/18/2016 13:42:45	Sending to SEOC Logistics to confirm whether or not this request can be fulfilled by an offer for personnel donation/volunteers.

We will follow up on. I would think that the MDHHS Volunteer Management System (specifically developed for medical professionals), which is managed by them, would be the best spot to pull people from.

Hi Laura, below is my repeated unfullfilled request of SEOC.

Jim

GCHD-EH has requested assistance with communicating MDEQ water results and health risks associated with lead, legionella, rashes and other water related concerns. GCHD-EH has attempted to addressed approximately 500 hundred related phone calls over past three-four weeks. The concerns are complex and need to be addressed by trained professionals, not GCHD secretaries.

Many of the concerns go unanswered and the residents are not getting the assistance that they desperately need and deserve. Forwarding calls to other agencies has failed the people of Flint. The they are getting "the run around. "

GCHD is requesting a medical professional, from the state, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division. Responsibilities will include all aspects of appropriate communications with the community.

The failure to meet this need can be fixed immediately, with appropriate attention. The people of Flint deserve better and the state, who has resources is making critical mistakes. Please honor the promise to help the people of Flint.

Thanks Jim

While this approach might reduce the amount of time spent on the phone with a frightened and frustrated public, it won't reduce citizen fear or frustration. And it will definitely not cause Flint residents to feel listened to. The people of Flint have been experiencing symptoms that frighten them for over a year, and today the only message that makes sense to them is one that suggests they are being poisoned. They equate uncertainty with disregard for their well being. Many will not be calmed by staff who have been armed with new scripts.

developing scripts for those who answer the phones. I think Jim may still need physical staff to answer calls, but hopefully they are a little better equipped now.

I am looping in our EPA lead (Mark Durno) to answer any questions about them leaving.

I hope this helps.

Best,
Jamal

positively ,if they are so inclined. I hope reliable channels of communication are being established by now.This would be a good agenda item for the FWICC.The air must be cleared so work can move forward.

Our mayor could also connect you with General McDaniel(ret) ,who is directing the LSL replacement plans if the TAC is to be resurrected. You may know that Nick Lyons ,DHHS director, is out on medical and Tim Becker ,deputy director, is in charge.He has been solid in the past .
Maybe the MSP EOC can come up with a better plan for 211 calls also .
I can only hope that everything the government justice folks will handle the KWA issues as they become evident.
There can be a Truth and Reconciliation process as was used in post -apartheid South Africa ,only if those who had the power decide to be truthful. There would have to be a skillful outside facilitator. .

Hello-

Seems like I've seen you across the table but haven't caught up. And then out regular Friday morning update was cancelled last minute.

I'm concerned about EPA office of research and development pulling out of Flint (lead and copper experts). I know I mentioned reawakening the tech advisory board and then got too busy to actually get it going. Maybe this is a way to keep Mike Schock and Darren Lytle engaged?

Shawn has been very successful in building a research team to look at Legionella. Earlier this week we met with Jim Henry. I think he's a good guy - incredibly frustrated, and tired of having his hands tied. Whenever there's a 211 call regarding concerns about health, calls are forwarded to his office. But there are no trained staff people answering calls. Just secretaries. If you haven't spoken to Jim recently, you'd find it enlightening. I'm trying to think of ways to get him help-even if it's volunteers.

Jeff Wright and John O'Brien are putting extra energy into public perception about KWA. The

recent KWA board meeting was focused entirely on "clearing up misconceptions"

I brought local plumbers together with the mayor. They'd like to get some of the lead replacement contracts and will expand their apprenticeship program to reach out to unemployed in Flint. They have lots of untapped knowledge about where lead pipes are, and where sections of lead service line have been replaced. In some parts of the city, the mains are 20 ft down (as opposed to five feet down in Lansing) which complicates service lain replacement, especially if fragile mains are broken.

Is there significance to today's cancellation of FWICC?

I hope you are well. I'd like to look more closely at reconciliation programming.

Hi Laura, below is my repeated unfullfilled request of SEOC.

Jim

GCHD-EH has requested assistance with communicating MDEQ water results and health risks associated with lead, legionella, rashes and other water related concerns. GCHD-EH has attempted to addressed approximately 500 hundred related phone calls over past three-four weeks. The concerns are complex and need to be addressed by trained professionals, not GCHD secretaries.

Many of the concerns go unanswered and the residents are not getting the assistance that they desperately need and deserve. Forwarding calls to other agencies has failed the people of Flint. The they are getting "the run around. "

GCHD is requesting a medical professional, from the state, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division. Responsibilities will include all aspects of appropriate communications with the community.

The failure to meet this need can be fixed immediately, with appropriate attention. The people of Flint deserve better and the state, who has resources is making critical mistakes. Please honor the promise to help the people of Flint.

Thanks Jim

Dr. Sullivan,

Fortunately I have been on the ground everyday for 30d and have just a small but what I feel is accurate sense of the community. I have worked with Jim and would love to see what he has requested and to whom. A physical request would be great. I and our PHS team would be happy to discuss in person or on a T-con. Please let me know.

Best,
Jamal

So do the 30 MSP personnel know to be in the SEOC? Where did that number come from? Is FEMA invited and does the govs office know FEMA may be there?

OPEN PRESS

Talking Points:

- We're here today to thank the team in the SEOC has put their all into helping the people recover during this crisis.
- Sentinel site testing is underway, helping us scientifically analyze the levels of lead and copper in Flint's water.
  - Testing at 402 sites will take place in 2 groups over 8 weeks and the initial results are available from the first grouping of tests.
- While nearly 90 percent of the tests conducted at Sentinel tests came in under the action level, there were still some serious elevated lead levels that need to be addressed and monitored.
  - We will continue to monitor and share these tests over the next 8 weeks as we work to determine safety in Flint's water.
